## NEWS AND UPDATES

### Open Enrollment Numbers

On Wednesday, CMS released the third weekly snapshot of Federal Marketplace Open Enrollment activity. During open enrollment, HHS will produce a monthly report that provides a detailed look at plan selection across the Federally-Facilitated Marketplace and State-Based Marketplaces. In addition to the monthly report, CMS is releasing weekly snapshots of preliminary data. These snapshots do not include the consumers who visited, called, shopped or selected a plan through a State-Based Marketplace.

The weekly Open Enrollment snapshots for the Federally-Facilitated Marketplace (FFM) provide point-in-time estimates for weekly data. These are preliminary numbers that are subject to revision and fluctuate based on consumers changing or canceling plans or having a change in

status such as new job or marriage. The snapshots also include totals from the beginning of Open Enrollment. Note that data revisions may mean that the weekly totals do not sum to the cumulative numbers.

Federal Marketplace Snapshot	Week 3	Cumulative
	Nov 29 – Dec 5	Nov 15 – Dec 5

Consumers can shop and sign up for affordable health coverage that fits their health and financial needs any time between now and February 15, 2015. For coverage to start on January 1, 2015, consumers must enroll in a plan by December 15, 2014. Current consumers enrolled in coverage through the Marketplace for 2014 should come back, update their application and shop by December 15 because there could be a plan that better meets their needs and they could qualify for more financial help. Most consumers who do not take action before the

deadline will be automatically enrolled by their insurance company into their current plan or a plan with similar benefits.

A fact sheet with additional information can be found here:

## Affordable Care Act 101 Webinars for Small Employers

Health care continues to be an important issue for small business owners. The Small Business Administration, Department of Health and Human Services, and Small Business Majority are committed to helping businesses navigate the changes and opportunities in health care through the Affordable Care Act 101 webinar series.

Each week, small business owners can learn the basics of the Affordable Care Act and how they can enroll in small business health insurance marketplaces. Other topics discussed include insurance reforms, the small business health care tax credit, and employer shared responsibility provisions. SBA and HHS representatives help small business owners understand the facts of the Affordable Care Act so they can make informed decisions about providing health insurance for their employees.

The webinar is offered on Thursdays at 2:00 pm ET every week; the webinar will also be offered in Spanish on alternate Tuesdays at 4:00 pm ET. To register for the webinar and to learn more about how the ACA affects small businesses, you can visit <http://www.sba.gov/healthcare>.
