Medicare Drug Coverage is Here

People all over America are already saving money on prescriptions thanks to Medicare prescription drug coverage. Everyone with Medicare is eligible. And extra help paying for prescriptions is available for people with limited income and resources. You owe it to yourself to look into it, even if you have coverage now. Not only can Medicare prescription drug coverage help you save money today, it also protects you against unexpected drug costs in the future. To get covered this year, you must join a Medicare drug plan by May 15th. If you wait, you may have to pay a penalty. To find out how to get this coverage, look for enrollment events in your community, visit Medicare's website at Medicare dot gov, or call the helpful people at 1-800-MEDICARE ... that's 1-800-633-4227. You can call anytime 24 hours a day, 7 days a week. Brought to you by the U.S. Department of Health and Human Services.
