

Help family and friends with Medicare get everything they're entitled to.

Make sure they know about this:

It's time to talk about Medicare prescription drug coverage.

Beginning Jan. 1, 2006, Medicare will help pay for the prescription drugs people with Medicare need to stay healthy.

Everyone with Medicare is eligible for this coverage, regardless of income and resources, health status or current prescription expenses.

If people you care about have Medicare, you can help make sure they receive the benefits of this coverage. How? By reminding them that prescription drug coverage is here.

By making sure they sign up before Dec. 31, 2005 (if they want coverage to begin Jan. 1), or by May 15, 2006 (to avoid a late-enrollment penalty). And, if needed, by helping them collect information, review options

and decide which plan to sign up for.

Medicare prescription drug coverage will save people money. It will provide peace of mind by protecting against high future drug bills.

It will help someone close to you receive the comprehensive medical care that every person with Medicare is entitled to receive.
