

To take my medicine, first I had to swallow a little pride.

I didn't want to ask for Extra Help to cover my prescription costs, but then I realized I've been paying into Medicare most of my life. So I called and found out how to apply. It's easier than ever for people with limited income to qualify. Now I pay just \$2.50 for generics and \$6.30 for brand name prescriptions. And taking all my medicine is helping me feel better.

Extra Help to stay healthy.
