CMS Publications

[Are You a Hospital Inpatient or Outpatient? If you have Medicare – Ask!](#)

Learn how your status as a hospital inpatient or outpatient affects how much you pay for hospital services (like X-rays, drugs, and lab tests) and may also affect whether Medicare will cover care you get in a skilled nursing facility (SNF) following your hospital stay.

Marketplace Special Enrollment Materials

The first Health Insurance Marketplace open enrollment period is over, but it's important for consumers to know that they still have options to sign up for health insurance coverage when they have certain life events.

Some life events include getting married, having a baby, adopting a child, gaining citizenship, having COBRA coverage expire, and being released from incarceration.

The Department of Health & Human Services has launched a new video on special enrollment periods called [Do You Qualify for a Special](#)

[Enrollment Period?](#) to help educate consumers on their choices.

There is also information on HealthCare.gov to help people understand when to [report life changes](#) and when [they can get coverage outside of the standard Marketplace open enrollment period](#).
