## Introduction

---

### 1.1 NPPES Overview

---

The Administrative Simplification provisions of the Health Insurance Portability and Accountability Act of 1996 (HIPAA) mandated the adoption of standard unique identifiers for health care providers and health plans. The Centers for Medicare & Medicaid Services (CMS) commissioned the development of the National Plan and Provider Enumeration System (NPPES) to assign these unique identifiers. The primary purpose for the development of NPPES is to standardize and simplify the process of enumerating providers (and at a future time, health plans) and maintaining their data. NPPES is a web based system enabling providers across the country to apply for their unique National Provider Identifier (NPI).

### 1.2 NPPES Electronic File Interchange (EFI) Overview

---

NPPES Release 1.1 (and later) provides a bulk process for organizations (e.g., health plans, professional associations and other groups) to interact with the application. These organizations typically maintain significant amounts of information about their providers. The EFI process enables the electronic submission of enumeration applications and data change requests for large numbers of providers with minimal manual intervention. Under the current design, the EFI process achieves this goal through the use of text files that follow the XML standard.

### 1.3 Document Purpose

---

The purpose of this document is to give NPPES Electronic File Interchange (EFI) participants an understanding of the structure of the XML file(s) containing the provider data that are used by the EFI process. The structure of the XML files used by the EFI process is described by a document called the EFI XML schema. The schema contains descriptions of the different data items stored in the XML files along with restrictions on the type of information contained in such items. Section 2 and all its sub-sections aim at facilitating the understanding of the schema by breaking it down to its constituent data items (elements) and providing a detailed description on the purpose, contents, and restrictions applying to each such item. For an understanding of the EFI process itself, please refer to the EFI user guide and the EFI policy guide, both of which are on the NPPES EFI website. This document is a companion guide to creating and interpreting the Healthcare Provider Information XML transaction file required for the EFI process.

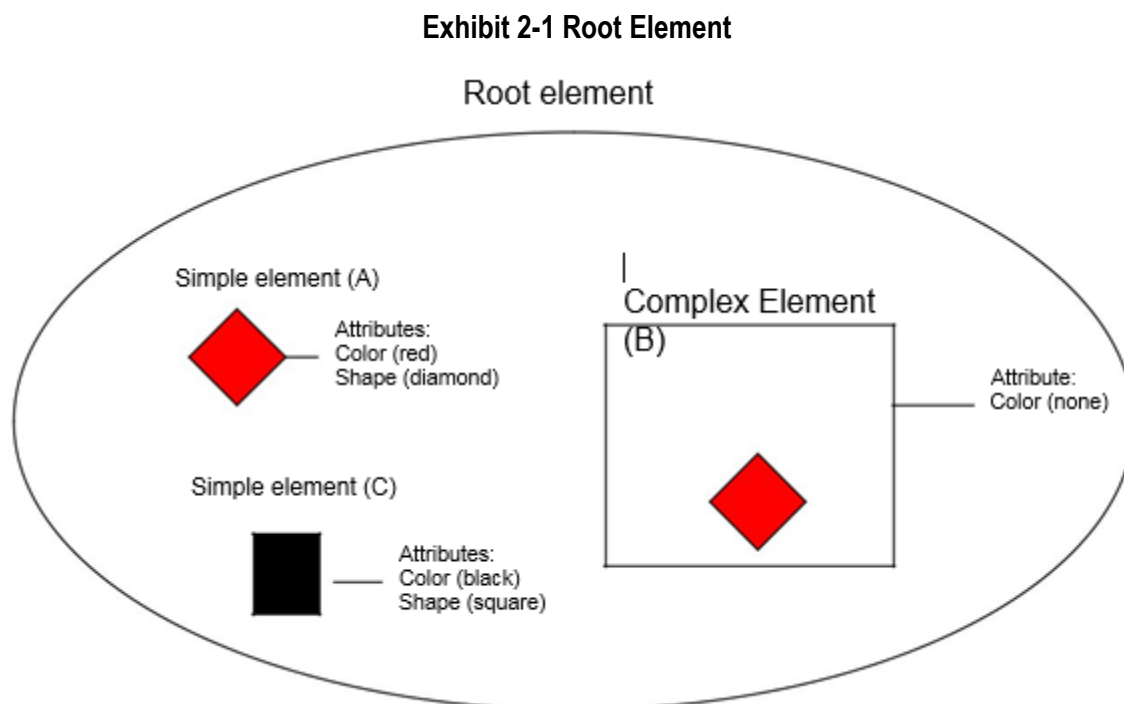

## 2 EFI XML Schema

### 2.1 XML Schemas – Brief Description

The document will use terms like element, attribute, root, required, and Optional which are common when describing the structure and workings of an XML document. The following list briefly describes these terms and the relationship that exists between them:

- An XML schema is essentially a structured text file whose contents are organized in a hierarchical fashion. The contents of the file are organized around the data “element” concept.
- At the bottom of the hierarchy are the “simple” elements, which are units of data that cannot be broken down any further.
- Each simple element consists of attributes (properties) which describe this particular element or unit of data.
- Attributes are not considered to be units of data and therefore cannot exist outside the context of an element. Attributes can be required or Optional for that particular element. If a required attribute is not provided an element cannot exist. Complex elements make up the rest of the hierarchy, which culminates with the “root” element.
- Each complex element consists of attributes and other elements (simple or complex) and the root element encompasses all the elements of the schema directly or indirectly.
- If an element (A) is part of another element (B) then this element (A) is a child of element (B). Element (B) is a parent of element (A). The root element is the parent of all the elements in the schema (directly or indirectly).
- Like attributes, elements can be defined as required or Optional when they’re a part of a hierarchy of elements. For example element (B) may or may not need element (A) to exist by itself. Element (A) is Optional to element (B).
- The root element can never be defined as Optional

The following drawing illustrates some of the relationships described above:

The root element consists of two simple elements and one complex element. The complex element consists of one simple element. It also has an attribute that describes it, namely Color.

The diamond and the square are the 2 simple elements of this schema. They are self-contained units of information with two attributes each; Shape and Color.

Attributes and elements can be classified as “required” or “Optional”. For example, for the two simple elements, Shape might be a required attribute for that element because it describes the form of the element however, Color might not be perceived as a necessary distinguishing attribute. It is possible to distinguish a square from a diamond even if they were both of the same color. Therefore, Color can be considered as Optional. The same logic applies to elements, simple or complex. Naturally, the root element of an XML schema is never Optional.

Business requirements define the structure of the XML schema and consequently whether elements or attributes in that schema are defined as required or Optional.

## 2.2 EFI XML Schema Overview

The EFI XML schema is the document that serves as a blueprint for the generation and validation of all XML provider data files used by the EFI process. To facilitate its adoption by the EFI participants, the EFI XML schema leverages existing standards in the healthcare industry. Specifically, the EFI XML schema closely follows the relationship structures of the ASC X12N Healthcare Provider Information (274) 004050 X253 transaction set where relevant to NPPES. The naming of the elements of the EFI XML schema is also based on the naming of the different data items of the 274 transaction set. All XML files containing provider data that will be used by the EFI process will be compared against the EFI XML schema to verify that the contents conform to the definitions and restrictions specified by the schema.

## 2.3 EFI XML Schema Structure

This section and the following sub-sections provide details on the individual elements comprising the EFI XML Schema. The tables below describe the general layout of the schema:

**Exhibit 2-2 XML Schema Structure: Identifiers**

### 2.3.1 Element: CMS274

CMS274 describes the root element of the EFI XML schema. The root element consists of two child elements as depicted in the diagram below.

**Note:**

- The root element **MUST NOT** contain any attributes at all (namespaces, schema names, etc.). An EFI XML file containing attributes in its root element will fail EFI XML schema validation. This is important to observe because XML files generated by off-the-shelf XML editors (e.g. XML Spy), often have such attributes automatically appended to their root element. XML files received for EFI processing that fail schema validation will be rejected without any processing. The EFI participant that submitted such a file will be notified via e-mail. No response file is created by the EFI process.

- XML files without this element will fail validation against the EFI XML schema. XML files received for EFI processing that fail schema validation will be rejected without any processing. The EFI participant that submitted such a file will be notified via e-mail. No response file is created by the EFI process.

### Exhibit 2-4 Element CMS274 Structure

#### 2.3.1.1 CHILD ELEMENTS

CMS27410200\_BHT\_BeginningOfHierarchicalTransaction - this element contains the header information of the file. CMS274\_HealthCareProviderInformationProviderSiteGroup – this element contains health care provider information.

#### 2.3.2 Element: CMS27410200\_BHT\_BeginningOfHierarchicalTransaction

This element contains the header information of the XML file, such as transaction, application type, and xml schema version based on which EFI response file is created. This element is required. There can only be one instance of this element in a given XML file. Last, the element has 3 attributes that are described below:

**Note:**

- XML files without this element will fail validation against the EFI XML schema.
- For any attribute, if the value specified is not in the “allowed values” list or its length exceeds the maximum allowed length, the file will fail schema validation.
- XML files received for EFI processing that fail schema validation will be rejected without any processing. The EFI participant that submitted such a file will be notified via e-mail. No response file is created by the EFI process.

## Exhibit 2-5 Element CMS27410200\_BHT\_BeginningOfHierarchicalTransaction Structure

### 2.3.2.1 USED BY

Element: CMS274

### 2.3.2.2 ATTRIBUTES

Name	Type	Use	Maximum Length	Allowed Values	Annotation
CMS27410200_BHT02_TransactionSetPurposeCode	Integer	required	2 digits	11 & 13	Contains the "Transaction set purpose code" value. This value indicates whether the file is a request or a response one. 11 – Response. 13 – Request. Note: If a value other than 11 or 13 is stored, then the XML file will fail schema validation and as a result it will be rejected by the EFI process. No response file will be created. The EFI participant will be notified via e-mail only. For new and change requests this code must be set to 13. If the EFI process receives an XML file storing a value other than 13 (e.g. 11), the EFI process will reject the file. The EFI participant will be notified via e-mail only. For EFI response files, this code will be set to 11.
CMS27410200_BHT06_TransactionTypeCode	String	Required	2 characters	RK, U5, R1, R2	Contains the "Transaction Type code" value that indicates whether XML files contain new application or modification requests. RK – Enumeration (new request) – required when EFI participant is submitting new provider applications. U5 – Update (modify request) – required when the EFI participant is submitting updates to provider records that have already been enumerated. R1 – Request for Enumeration Verification – required when the EFI participant is requesting verification of provider NPIs. R2 – Response to Request for Enumeration Verification – required when responding to requests for NPI verification. Note: The EFI process included with NPPES Release 1.1 accepts only New and Modify requests. An

Name	Type	Use	Maximum Length	Allowed Values	Annotation
					XML file with a transaction type code other than RK and U5 will be rejected. No response file will be generated by the EFI process. The EFI participant will be notified via email only.
CMS27410200_BHT07_SchemaVersion	String	Optional	20 characters	Any valid String	<p>Contains the EFI XML schema file version. EFI response files will contain this value.</p> <p>This is an Optional attribute and not required to provide in request files. If request files contain a value in this attribute the value is simply ignored by the EFI process.</p> <p>The value for this attribute in response files indicates the EFI xml schema version based on which it is created. For Example, if response file is created based on EFI xml schema version 05/07/2007, this attribute will contain the value 05/07/2007.</p> <p>If length of the value provided in this attribute exceeds the maximum allowed (20 characters) then the XML file will fail schema validation and it will be rejected as a result. No response file will be generated by the EFI process. The EFI participant will be notified via e-mail only.</p>

### 2.3.3 Element: CMS274\_HealthCareProviderInformationProviderSiteGroup

This element contains Health Care Provider information and it is required by the EFI XML schema. Each XML data file must have at least one occurrence of this element. Each occurrence represents one provider application. The schema does not define an upper limit on the number of occurrences for this element. This element has 4 child elements as depicted in the diagram below.

**Note:** XML files without this element will fail validation against the EFI XML schema. XML files received for EFI processing that fail schema validation will be rejected without any processing. The EFI participant that submitted such a file will be notified via e-mail. No response file is created by the EFI process.

#### Exhibit 2-6 Element CMS274\_HealthCareProviderInformationProviderSiteGroup Structure

#### 2.3.3.1 CHILD ELEMENTS

- CMS27420100\_2000A: this element is required and contains the EFI Organization ID.
- CMS27420100\_2000C: this element is required and contains provider details, such as Tracking ID, Name details, and Affiliated Entity details.
- CMS27420100\_2000D: this element is required and contains provider Practice Location details.
- CMS27420100\_2000E: this element is Optional and contains provider Group Taxonomy details.

### 2.3.4 Element: CMS27420100\_2000A

This element is defined as Optional by the EFI XML schema. It acts as a container for other information, such as the EFI participant (organization) ID. This element contains a single child element; **CMS27420300\_2100AA\_NM1\_SubmitterName** and it can occur more than once in an XML file.

**Note:** XML files without this element will fail validation against the EFI XML schema. XML files received for EFI processing that fail schema validation will be rejected without any processing. The EFI participant that submitted such a file will be notified via e-mail. No response file is created by the EFI process.

### 2.3.5 Element: CMS27420300\_2100AA\_NM1\_SubmitterName

This element is a non-required child of **CMS27420100\_2000A**. This element's attribute contains the EFI Organization (participant) ID as depicted below:

**Exhibit 2-8 Element CMS27420300\_2100AA\_NM1\_SubmitterName Structure**

### 2.3.5.1 USED BY

Element: :CMS27420100\_2000A CMS27420300\_2100AA

### 2.3.5.2 ATTRIBUTES

Name	Type	Use	Maximum Length	Allowed Values	Annotation
CMS27420300_2100AA_NM109_SubmitterIdentifier				String.	Contains the EFI Organization (participant) ID. The EFI Organization ID is the unique identifier issued by the Enumerator upon the successful completion of this organization's approval process. Each organization that seeks to participate in the EFI process, must seek approval from the Enumerator. Note: This information is maintained at the provider record level in the XML file. In other words, the EFI Organization ID must be provided for each record in the EFI input file. The EFI process checks the EFI Organization ID provided in each of the provider records against the EFI organization ID created by NPPES upon this organization's approval by the Enumerator. The processing will continue for as long as the EFI Organization ID values stored in the XML file match the IDs maintained by NPPES. Any discrepancies will cause the XML file to be rejected by the EFI process without any further action taken on the file. No response file is generated by the EFI process. The EFI participant is notified via e-mail only. This is an example of the validation steps performed by the EFI process that cannot be performed by the EFI XML schema.

## 2.3.6 Element: CMS27420100\_2000C

This element is required by the EFI XML schema. It acts as a container for other information, such as Provider Tracking ID, provider personal details, contact person, and/or authorized representative information. This element has three child elements as depicted in the diagram and it can occur only once within a provider's record in the XML file.

**Note:** XML files without this element will fail validation against the EFI XML schema. XML files received for EFI processing that fail schema validation will be rejected without any processing. The EFI participant that submitted such a file will be notified via e-mail. No response file is created by the EFI process.

### Exhibit 2-9 Element CMS27420100\_2000C Structure

#### 2.3.6.1 CHILD ELEMENTS

- CMS27420100\_2000C\_TRN\_ProviderTracking: contains Provider Tracking Id details.
- CMS27420300\_2100CA: contains Provider personal details.
- CMS27420300\_2100CD: contains Provider Authorized Official/Contact Person/Provider Other Name details.

### 2.3.7 Element: CMS27420100\_2000C\_TRN\_ProviderTracking

This element is Optional and has one attribute that contains the Provider Tracking ID (see diagram below).

**Note:** This element does not exist in the case of new application requests and it is only Optional in Change Request applications. It should be noted that if this element does exist in the provider record, then its attribute must be populated. Please refer to the table below for additional details.

## Exhibit 2-10 Element CMS27420100\_2000C\_TRN\_ProviderTracking Structure

### 2.3.7.1 USED BY

Element: CMS27420100\_2000C

### 2.3.7.2 ATTRIBUTE(S)

Name	Type	Use	Maximum Length	Allowed Values	Annotation
CMS27420100_2000C_TRN02_ReferenceIdentification	String	Required	50 Characters.	Any valid string.	<p>This attribute contains the Provider Tracking ID. The Provider Tracking ID is issued by NPPES upon successful submission of the application to NPPES through the EFI process.</p> <p>Note: Provider Tracking IDs are not applicable for New application requests. However, in the case of Change requests, this attribute might get populated.</p> <p>The EFI process does not use the value of the Provider Tracking ID in a request XML file because it relies on the provider's NPI number to successfully perform change request operations on records.</p>

## 2.3.8 Element: CMS27420300\_2100CA

This element is required by the EFI XML schema. It acts as a container for provider personal information, such as provider name, birth, credentials, mailing address telephone numbers, and so on. It consists of 14 simpler elements (or child elements). Please see the table below for additional information.

**Note:** XML files without this element will fail validation against the EFI XML schema. XML files received for EFI processing that fail schema validation will be rejected without any processing. The EFI participant that submitted such a file will be notified via e-mail. No response file is created by the EFI process.

## Exhibit 2-11 Element CMS27420300\_2100CA Structure

### 2.3.8.1 CHILD ELEMENTS

- **CMS27420300\_2100CA\_NM1\_ProviderName**: this element contains Provider Name details, such as first name, last name, organization name, etc.

- CMS27420400\_2100CA\_N2\_AdditionalProviderNameInformation: this element contains Provider Additional Name details.
- CMS27420500\_2100CA\_PER\_ProviderCommunicationsContact: this element contains provider information, such as telephone number, telephone extension etc., for the provider's mailing address.
- CMS27420600\_2100CA\_DMG\_ProviderSDemographicInformation: this element contains provider demographic information, such as date of birth, gender, and sole proprietor code.
- CMS27420700\_2100CA\_API\_RequestStatus: this element contains information pertaining to application statuses, such as Activate, Pended
- CMS27420900\_2100CA\_DEG\_ProviderSDegreeInformation: this element contains provider degree/credential details.
- CMS27421000\_2100CA\_IND\_ProviderSPlaceOfBirthInformation: this element contains provider place of birth information.
- CMS27421200\_2100CA\_DTP\_ProviderSActionDate: this element contains the application enumeration date.
- CMS27421400\_2100CA\_CRC\_EFIProcessingStatusAdditional: this element contains information pertaining to an application's processing status that indicates for example, whether an application has been accepted by EFI for further processing or whether it has failed any initial validation errors, and so on.
- CMS27421500\_2100CA\_PSI\_SubpartInformation: this element contains Organization Subpart information.
- CMS27422100\_2110CA: this is a container element that maintains information related to a provider's mailing address, such as street address, geographic location, etc.
- CMS27422600\_2120CA: this is a repeatable element that contains provider taxonomy information
- CMS27423200\_2130CA: this is a repeatable element that contains provider license/certification/registration information
- CMS27423400\_2140CA: this is a repeatable element that contains provider other identification and SSN/ITIN (or EIN) number information.

### 2.3.9 Element: CMS27420300\_2100CA\_NM1\_ProviderName

The Provider Name element is required by the EFI XML schema. It consists of attributes containing information, such as Provider Entity Type, Provider Name, NPI (National Provider Identification), etc.

**Note:** XML files without this element will fail validation against the EFI XML schema. XML files received for EFI processing that fail schema validation will be rejected without any processing. The EFI participant that submitted such a file will be notified via e-mail. No response file is created by the EFI process.

#### Exhibit 2-12 Element CMS27420300\_2100CA\_NM1\_ProviderName Structure

#### 2.3.9.1 USED BY

Element: CMS27420300\_2100CA

#### 2.3.9.2 ATTRIBUTES

Name	Type	Use	Maximum Length	Allowed Values	Annotation
CMS27420300_2100CA_NM102_EntityTypeQualifier	Integer	Required	1	1 or 2	This attribute contains the code value that indicates the Entity Type of a provider application. Entity Type1 indicates an Individual  Provider application. Entity Type 2 indicates an Organization Provider application.

Name	Type	Use	Maximum Length	Allowed Values	Annotation
					Note: An XML file containing provider records where this attribute is set to a value other than 1 or 2, will fail schema validation and it will be rejected as a result. No response file will be generated by the EFI process. The EFI participant will be notified via e-mail only.
CMS27420300_2100CA_NM103_ProviderLastOrOrganizationName	String	Required	70	Any valid	<p>This attribute contains the Provider Last Name or Organization name depending on the entity type of the provider record. If the provider record belongs to an individual (Entity Type is 1), then the attribute stores the value of the provider's last name. Otherwise, the attribute stores the value of the organization name.</p> <p>Note:</p> <ul style="list-style-type: none"> <li>Entity Type 1: If the length of the Provider Last Name exceeds the maximum allowed (70 characters) then the XML file will fail schema validation and it will be rejected as a result. No response file will be generated by the EFI process. The EFI participant will be notified via e-mail only. For individual providers, the maximum length for this field allowed by NPPES is 35 characters. If the length of the value stored in this attribute is more than 35 characters then this particular provider records will fail pre-validation and marked as rejected by the EFI process. The record will be marked as rejected with an error code "01" in the response file.</li> <li>Entity Type 2: If the length of the Organization Name exceeds the maximum allowed (70 characters) then the XML file will fail schema validation and it will be rejected as a result. No response file will be generated by the EFI process. The EFI participant will be notified via e-mail only.</li> </ul>
CMS27420300_2100CA_NM104_ProviderFirstName	String	Optional	20	Any valid string	<p>This attribute contains the Provider First Name.</p> <p>Note:</p> <ul style="list-style-type: none"> <li>Provider First Name cannot be modified in change requests.</li> <li>This field is marked as Optional by the EFI XML schema. NPPES however requires this information if the provider is an Entity Type 1 (individual). It is the EFI process that performs this validation. If the application record belongs to an individual provider and this attribute is not populated, the EFI process will mark the record as rejected with an error code "02" in the response file.</li> <li>If the length of the provider first name exceeds the allowed maximum (20 characters) then the entire XML file will fail schema validation and it will be rejected as a result. No response file will be generated by the EFI process. The EFI participant will be notified via e-mail only.</li> </ul>
CMS27420300_2100CA_NM105_ProviderMiddle Name	String	Optional	20	Any valid string	<p>This attribute contains the Provider Middle Name.</p> <p>Note:</p> <ul style="list-style-type: none"> <li>If the length of the provider middle name exceeds the maximum allowed (20 characters) then the entire XML file will fail schema validation and it will be rejected as a result. No</li> </ul>

Name	Type	Use	Maximum Length	Allowed Values	Annotation
					response file will be generated by the EFI process. The EFI participant will be notified via e-mail only.
CMS27420300_2100CA_NM106_ProviderNamePrefix	String	Optional	5	Ms., Mr., Miss, Mrs., Dr., and Prof.	<p>This attribute contains the Provider Name Prefix values. This attribute is applicable to Entity Type 1 provider records only.</p> <p>Note:</p> <ul style="list-style-type: none"> <li>If the length of the provider name prefix value exceeds the maximum allowed (5 characters) then the entire XML file will fail schema validation and it will be rejected as a result. No response file will be generated by the EFI process. The EFI participant will be notified via e-mail only.</li> <li>Entity Type 1: NPPES accepts only the values listed in the "Allowed Values." If the value stored in the attribute is not in the list then the EFI process will mark this record as rejected with an error code "01" in the response file.</li> <li>Entity Type 2: The EFI process ignores this attribute.</li> </ul>
CMS27420300_2100CA_NM107_ProviderNameSuffix	String	Optional	5	Jr., Sr., I, II, III, IV, V, VI, VII, VIII, IX, and X.	<p>This attribute contains the Provider Name Suffix values.</p> <p>Note:</p> <ul style="list-style-type: none"> <li>If the length of the provider name suffix value exceeds the maximum allowed (5 characters) then the entire XML file will fail schema validation and it will be rejected as a result. ### 2.3.10 Element: CMS27420400\_2100CA\_N2\_AdditionalProviderNameInformation

This element is Optional in the EFI XML schema. It has one attribute that contains the Provider Other Name Type code description as indicated below.

#### Exhibit 2-13 Element CMS27420400\_2100CA\_N2\_AdditionalProviderNameInformation Structure

#### 2.3.10.1 USED BY

Element: CMS27420300\_2100CA

#### 2.3.10.2 ATTRIBUTES

Name	Type	Use	Maximum Length	Allowed Values	Annotation
CMS27420400_2100CA_N202_ProviderDoingBusinessAsOrTradeName	String	Optional	60	Entity Type 1: Former Name, Professional Name, Other Name, and Current Name Entity Type 2: Doing Business As, Former Legal Business Name, Other Name, and Current Name.	This attribute contains Provider Other Name Type code description. This value is required if the Provider Other Name is provided. Note: <ul style="list-style-type: none"> <li>If the attribute contains a value with length exceeding the maximum allowed (60 characters) then the entire XML file will fail schema validation and it will be rejected as a result. No response file will be generated by the EFI process. The EFI participant will be notified via e-mail only.</li> <li>If the attribute contains values other than the ones specified in the "Allowed Values" list then the EFI process will mark this record as rejected with an error code "01" in the response file.</li> </ul>

Name	Type	Use	Maximum Length	Allowed Values	Annotation
CMS27420400_2100CA_N203_ProviderOtherLastOrOrganizationName	String	Optional	70	Any string	This attribute contains an Individual Provider's Other Last Name. This value is required if the Provider Other Name is provided.
CMS27420400_2100CA_N204_ProviderOtherFirstName	String	Optional	20	Any String	This attribute contains an Individual Provider's Other First Name. This value is required if the Provider Other Name is provided.
CMS27420400_2100CA_N205_ProviderOtherMiddleName	String	Optional	20	Any String	This attribute contains an Individual Provider's Other Middle Name.
CMS27420400_2100CA_N206_ProviderOtherNamePrefix	String	Optional	5	Ms., Mr., Miss., Mrs., Dr., Prof.	This attribute contains an Individual Provider's Other Name Prefix.
CMS27420400_2100CA_N207_ProviderOtherNameSuffix	String	Optional	5	Jr., Sr., I, II, III, IV, V, VI, VII, VIII, IX, X	This attribute contains an Individual Provider's Other Name Suffix.
CMS27420400_2100CA_N208_ProviderOtherProfessionalDesignation	String	Optional	80	Any String	This attribute contains an Individual Provider's Other Name Credentials.

### 2.3.14 Element: CMS27420700\_2100CA\_API\_RequestStatus

This element contains NPPES application status and status reason values, (e.g. “Active”, “Pended”, “Fraud”, “Deceased”, “Other”). It is defined as Optional by the EFI XML schema and it is used in the EFI response XML files. If this element does exist in new application/change request files, it is ignored by the EFI process.

#### Exhibit 2-17 Element CMS27420700\_2100CA\_API\_RequestStatus Structure

#### 2.3.14.1 USED BY

Element: CMS27420300\_2100CA

#### 2.3.14.2 ATTRIBUTES

Name	Type	Use	Maximum Length	Allowed Values	Annotation
CMS27420700_2100CA_API02_ActionCode	String	Required	2	U – Reject 33 – Active A4 – Pended IA - Deactivate	This attribute contains the NPPES application status of the provider record (“Active”, “Rejected”, etc.). Note: <ul style="list-style-type: none"> <li>If the attribute contains values other than the ones specified in the “Allowed Values” list then the entire XML file will fail schema validation and it will be rejected as a result. No response file will be generated by the EFI process. The EFI participant will be notified via e-mail only.</li> <li>If the application is deactivated in NPPES, this attribute is populated with the value “IA” in the Response file.</li> <li>In the Response file, this attribute will contain one of the values from the “Allowed Values” for each record in the file. For example this attribute would be populated with A4 (Pended), 33 (Active) and so on.</li> </ul>
CMS27420700_2100CA_API04_StatusReasonCode	String	Optional	3	030 – Fraud A13 – Other C20 – Complete EB1 - Deceased	This attribute contains the values of the NPPES deactivation reason codes for a specific provider record (“Fraud”, “Other”, “Deceased”, etc.). This attribute is situational. Note: The attribute is populated with a value from the “Allowed Values” list in the response file if the application is deactivated in NPPES.

### 2.3.15 Element: CMS27420900\_2100CA\_DEG\_ProviderSDegreeInformation

This element contains provider credentials information. It is an Optional element and it can have up to 9 occurrences for each provider record in an XML data file. The EFI process will use only the first element per provider record and ignore any other occurrences for Entity Type 1 (individual) records. The EFI process will ignore this element entirely (if it exists) if the record belongs to an Entity Type 2 provider (organization).

## 2.3.19 Element: CMS27421400\_2100CA\_CRC\_EFIProcessingStatusAdditional

This element stores information about the record's processing status (described as operation indicator codes). The element is defined as Optional by the EFI XML schema and can occur more than once within a provider record in an XML file.

This element and its attributes are used in response files to show record processing status details and not meant for request files.

The attributes CMS27421400\_2100CA\_CRC03\_ConditionIndicator and CMS27421400\_2100CA\_CRC05\_ConditionDetail contain the code and detail description, respectively. They explain the record's processing status and also help the user to determine why a particular record fails in EFI validation.

Note: The attribute CMS27421400\_2100CA\_CRC03\_ConditionIndicator may not exist in the EFI response file for a record that is simply pending in the system and waiting for enumeration.

**Exhibit 2-22 Operation Indicator Codes**

<b>Code</b>	<b>Description</b>	<b>Annotation</b>
OK	Accepted	Application is accepted for processing.
ER	Unspecified Error	Application is rejected due to unspecified errors.
01	Failed Field Edits	Application is failed in field edits. <i>Example:</i> Telephone number does not contain 10 digits.
02	Minimum Fields Missing	Missing minimum field(s) required for successful provision of an NPI. <i>Example:</i> Provider First Name is not provided for Entity Type 1 record. EIN is not provided for Entity Type 2 record.
03	Exact Duplicate	Exact SSN match with an existing record.
04	Rejected by NPI Enumerator	Application is failed because an enumerator staff user determined that this record already exists
05	Invalid Taxonomy Code	Taxonomy code entered does not exist in the system.
06	Taxonomy Code Mismatch	Non-provider taxonomy is supplied, or organization taxonomy is applied to an individual provider.
07	SSN Validation Error	Application is failed in SSA validation.
08	Mailing Address Error	Address codes not found/invalid.
09	Location Address Error	Address codes not found/invalid.
10	NPI not on File	In change request NPI was either not provided or provided NPI not found in the NPPES database.
12	Pended by Gatekeeper	Gatekeeper routines have flagged the record for Enumerator review.
13	Pended by L/S/T	L/S/T edits have flagged the record for Enumerator review.
14	Duplicate record	Exact duplicate of another record in the file or record already exists in the NPPES database.
15	No changes found, record not updated	The record provided in the change request EFI file does not contain any updated information for the NPI record.
16	Record in Use	NPI Record is currently in use by another user

Note: For additional information on possible user corrective action, see Appendix, Section 6.10 EFI Response File Record Operation Codes and User Corrective Actions.

### Exhibit 2-23 NPI Inquiry Response Codes

Code	Description	Annotation
01	Individual Verification - Found	Request fulfilled
02	Individual Verification - Not Found	No record matching criteria was found
03	Individual Verification – Close Match	A record closely matching the criteria was found
04	Individual Verification – Insufficient Data	Insufficient matching criteria was supplied by the requesting party
05	Organization Verification - Found	Request fulfilled
06	Organization Verification – Not Found	No record matching the criteria was found
07	Organization Verification – Close Match	A record closely matching the criteria was found
08	Organization Verification –Insufficient Data	Insufficient matching criteria was supplied by the requesting party
09	Individual Data Dissemination -Fulfilled	Request fulfilled
10	Individual Data Dissemination –Not Fulfilled	No records matching the criteria were found
11	Organization Data Dissemination -Fulfilled	Request fulfilled
12	Organization Data Dissemination –Not Fulfilled	No records matching the criteria were found
13	Unspecified Response	Unexpected conditions

#### 2.3.20 Element: CMS27421500\_2100CA\_PSI\_SubpartInformation

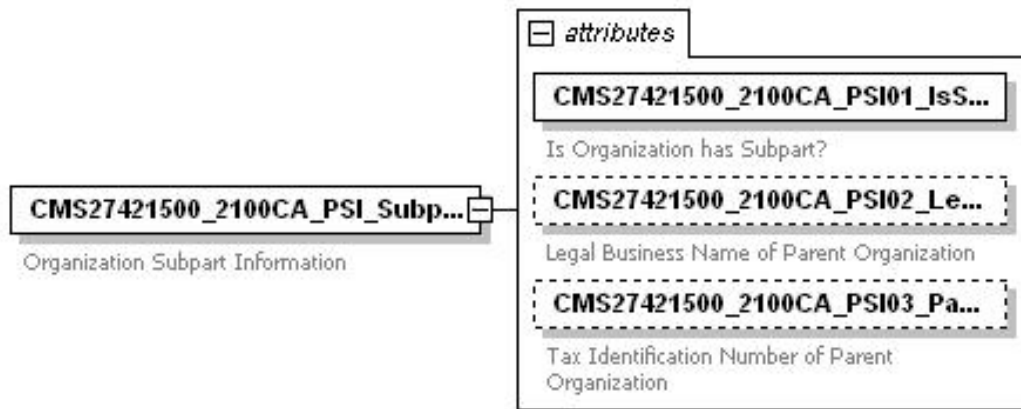

This element contains organization subpart information and is defined as an Optional element.

This element has 3 attributes as described below.

Note:

- Subpart information is required for Entity Type 2 providers. If subpart information is not provided, the applications will be rejected by the EFI process.
- This element is not applicable for Entity Type 1 provider applications. If provided, it is simply ignored by the EFI process.

## Exhibit 2-24 Element CMS27421500\_2100CA\_PSI\_SubpartInformation Structure

### 2.3.20.1 PROPERTIES

Content: complex

### 2.3.20.2 USED BY

Element: CMS27420300\_2100CA

### 2.3.20.3 ATTRIBUTES

Name	Type	Use	Maximum Length	Allowed Values	Annotation
CMS27421500_2100CA_PSI01_IsSubpart	String	Required	1	Y, y, N, n	<p>This attribute value is used by the NPPES to collect whether the organization provider is a subpart of a parent organization. If the Organization is a subpart then the value will be either "Y" or "y", and if not then the value will be either "N" or "n".</p> <p>This is a required attribute. If its parent element "CMS27421500_2100CA_PSI_SubpartInformation" is present but this attribute is not provided then the entire XML file will fail schema validation and it will be rejected as a result. No response file will be generated by the EFI process. The EFI participant will be notified via e-mail only.</p> <p>If the attribute contains a value outside the "Allowed Values" list then the entire XML file will fail schema validation and it will be rejected as a result. No response file will be generated by the EFI process. The EFI participant will be notified via e-mail only.</p>
CMS27421500_2100CA_PSI02_LegalBusinessName	String	Optional	70		<p>This attribute value contains the parent organization's Legal Business Name.</p> <p>For Entity Type 2 applications, this attribute is required by NPPES when "Y" or "y" is provided in attribute XCMS27421500_2100CA_PSI01_IsSubpartX. If parent's LBN is required but not provided then the EFI process will mark the record as rejected with error code "02" in the response file.</p> <p>For Entity Type 2 applications, this attribute is disallowed by NPPES when "N" or "n" is supplied in attribute XCMS27421500_2100CA_PSI01_IsSubpartX. If a value is disallowed but still provided in the current attribute, the EFI process will mark the record as rejected with error code "01" in the response file.</p>

Name	Type	Use	Maximum Length	Allowed Values	Annotation
					If the length of the attribute value is more than the maximum allowed (70 characters) then the entire XML file will fail schema validation and it will be rejected as a result. No response file will be generated by the EFI process. The EFI participant will be notified via e-mail only.
CMS27421500_2100CA_PSI03_ParentTaxIdentificationNumber	String	Optional	9		<p>This attribute value contains the parent organization's Tax Identification Number (TIN).</p> <p>For Entity Type 2 applications, Parent TIN is required by NPPES when "Y" or "y" is provided in attribute XCMS27421500_2100CA_PSI01_IsSubpartX. If Parent TIN is required but not provided then the EFI process will mark the record as rejected with error code "02" in the response file.</p> <p>For Entity Type 2 applications, Parent TIN is not allowed by NPPES when "N" or "n" is provided in attribute XCMS27421500_2100CA_PSI01_IsSubpartX. If Parent TIN is disallowed but still provided then the EFI process will mark the record as rejected with error code "01" in the response file.</p> <p>Parent TIN should be a number of 9 digits long. If the attribute contains value that is not 9 digits long, the provider record will fail the EFI process validation and it will be marked as rejected with error code "01" in the response file.</p> <p>If the attribute value is longer than the maximum allowed (9 characters) then the entire XML file will fail schema validation and it will be rejected as a result. No response file will be generated by the EFI process. The EFI participant will be notified via e-mail only.</p>

### 2.3.21 Element: CMS27422100\_2110CA

---

This element serves as a container for provider mailing address information. It is defined as required by the EFI XML schema and it consists of 3 child elements. The EFI XML schema allows up to 2 occurrences of this element for each provider record in the XML data file, however the EFI process will only use the first one. The other address information will be ignored because NPPES only stores one mailing address for a provider record.

**Note:** If this element is not provided at least once in every provider record, then the XML files will fail schema validation. The EFI process will ignore the file entirely. No response file will be generated and the EFI participant will be notified via e-mail only.

### Exhibit 2-25 Element CMS27422100\_2110CA Structure

#### 2.3.21.1 CHILD ELEMENTS

- CMS27422100\_2110CA\_NX1\_ProviderAddressType: this element contains the provider address type code.
- CMS27422300\_2110CA\_N3\_ProviderSSStreetAddress: this element contains provider mailing address street details.
- CMS27422400\_2110CA\_N4\_ProviderSGeographicLocation: this element contains provider mailing address geographic location details.

```

### 2.3.23 Element: CMS27422300\_2110CA\_N3\_ProviderSStreetAddress

This element is defined as required by the EFI XML schema. It has two attributes containing provider mailing street address details.

**Note:**

Address standardization will be run using Universal Coder software against all domestic and military mailing addresses. See section 6.11 for details regarding address standardization.

## Exhibit 2-27 Element CMS27422300\_2110CA\_N3\_ProviderSSStreetAddress Structure

### 2.3.24 Element: CMS27422400\_2110CA\_N4\_ProviderSGeographicLocation

This element is defined as required by the EFI XML schema and it has 4 attributes containing additional provider mailing address information details, such as city, state name, postal or zip codes, and country code.

**Note:**

NPPES accepts domestic, military, and foreign addresses for the NPI Provider's business and mailing addresses. The EFI process will determine the type of mailing address, whether it is domestic or foreign by examining the value of the country code.

To determine whether the mailing address is a military address, the EFI system will look at the city name, state code, and country code. If the country code is "US", the city name is either APO or FPO, and the state code is either AA, AE, or AP, then the address will be treated as a military address.

### 2.3.25 Element: CMS27422600\_2120CA

This element acts as a container for provider taxonomy information details. The element is defined as required by the EFI XML schema and it must occur at least once within every provider record in an XML file.

**Note:**

- NPPES limits the number of taxonomies to a maximum of 15 unique taxonomies per provider. If there are more than 15 taxonomies in a provider record then the EFI process will ignore the additional ones.
- The EFI system ignores Taxonomies that have the same taxonomy code, license number, and state on file for that provider.
- The absence of this element in a provider record will cause the XML file to fail schema validation. The entire file will be rejected by the EFI process and no response file will be generated. The EFI participant that submitted the file will be notified via e-mail only.
- License Number is no longer required for Type 2 organization and value of the field should be set to NULL. In the event user submit the filed the system will ignore values in license number and/or state

```

### 2.3.27 Element: CMS27423200\_2130CA

This element acts as a container for provider licensing (license number, issuing state) information. It is defined as required by the EFI XML schema and it must occur at least once within every provider record in an XML file.

**Note:**

- The absence of this element in a provider record will cause the XML file to fail schema validation. The entire file will be rejected by the EFI process and no response file will be generated. The EFI participant that submitted the file will be notified via e-mail only.

- According to the EFI XML schema, this element can occur up to 99 times within each provider record. NPPES allows a maximum of 15 unique licensing number/state combinations. The EFI process will ignore any additional licensing information.
- NPPES maintains a relationship between the taxonomy codes and the licensing information. The EFI XML schema does not define such a relationship. The EFI process imposes a relationship between the taxonomy codes and the licensing information through the following rules:
  - The number of taxonomies in a provider record must be the same as the number of licensing number/state combinations. Otherwise, the record fails EFI process validation and is marked as rejected. Because some taxonomy codes do not require licensing information, the EFI participant must fill out the licensing number and state information with blanks to verify that the numbers match.
  - The EFI process system will take the first taxonomy from the element **CMS27422600\_2120CA\_LQ\_ProviderSAreaOfSpecialization** and the first license/state combination from element **CMS27423200\_2130CA\_HPL\_ProviderLicenseCertificationRegistration** and “match” them in the NPPES database (if field validations are passed). Then the process continues with the rest of taxonomies, license/state combinations in the same manner.
- License Number is no longer required for Type 2 organization and value of the field should be set to NULL. In the event user submit the filed the system will ignore values in license number and/or state

### 2.3.29 Element: CMS27423400\_2140CA

This element acts as a container for different types of identification numbers that a provider may have aside from the ones assigned by NPPES. It is defined as an Optional element by the EFI XML schema and it can occur multiple times within provider records in an XML file.

**Note:**

- The EFI XML schema does not impose an upper limit on the number of occurrences of this element. NPPES on the other hand allows a maximum of 50 Other IDs for each provider. Hence, if an EFI Organization submits more than 50 Other ID numbers, the remaining Other ID Numbers are ignored
- The EFI system also checks for duplicate information within a provider's record. The EFI system ignores Other ID numbers that have the same type, number, state and issuer (previously description) on file for that provider.

- The EFI XML schema dictates that this element also serves as the placeholder for SSN/ITIN values for entity type 1 records and current/new EIN values for entity type 2 records. The EFI system ignores EINs (old or new) provided for entity type 1 records and SSN/ITIN values provided for entity type 2 records.
- Even though the schema defines this element as Optional, SSN/ITIN and EIN are required data for NPPEs. The enforcement of this requirement is performed by the EFI process validation. If a provider record does not contain an SSN/ITIN (entity type 1) or EIN (entity type 2) instance of this element, it will fail the EFI process validation and will be marked as rejected (error code 02).

## 2.3.30 Element: CMS27423400\_2140CA\_REF\_ProviderIdentificationNumbers

This element is defined as required by the EFI XML schema. It has 4 attributes containing provider other identification number information.

#### Note:

- If the parent of this element exists (CMS27423400\_2140CA) in a provider record, then the absence of this element in that provider record will cause the XML file to fail schema validation. The entire file will be rejected by the EFI process and no response file will be generated. The EFI participant that submitted the file will be notified via e-mail only.
- There are separate placeholders for state and description values, respectively.

## Exhibit 2-34 Element CMS27423400\_2140CA\_REF\_ProviderIdentificationNumbers Structure

### 2.3.30.1 USED BY

Element: CMS27423400\_2140CA

### 2.3.30.2 ATTRIBUTES

Name	Type	Use	Maximum Length	Allowed Values	Annotation
CMS27423400_2140CA_REF01_ReferenceIdentificationQualifier	String	Required	3	Code – Description: 1A – Blue Cross Provider Number 1B – Blue Shield Provider Number 1C – MEDICARE ID Unknown 1D – MEDICAID 1G – MEDICARE UPIN 1H – CHAMPUS Identification Number EI – Employer’s Identification Number (EIN) EN – Employer’s New Identification Number G2 – Provider Commercial Number MP – MEDICARE PIN NS – MEDICARE NSC OS – MEDICARE OSCAR OT – Other Type SY- Social Security Number (SSN) TJ – Federal Taxpayer’s Identification Number (ITIN) TX – Tax Exempt Number VT- Motor Vehicle ID Number	This attribute contains the provider other identification type code. If the attribute contains a value outside the “Allowed Values” list then the entire XML file will fail schema validation and it will be rejected as a result. No response file will be generated by the EFI process. The EFI participant will be notified via e-mail only. NPPES does not support the following codes: 1A, 1B, 1H, G2, TX, and VT. If an application is submitted with these codes it will fail the EFI process validation and it will be marked as rejected with error code “01” in the response file. However, if system finds one of these codes while generating response files then EFI process converts the code to “OT” in the response file. If other id type code is “SY” then the other identifier value should be SSN, if “TJ” then the value should be ITIN, if “EI” then the value should be EIN, and if “EN” then the value should be new EIN. Starting with R1.6, the EIN value can be changed. The code value ‘EN’ should be used to submit the new EIN value.

Name	Type	Use	Maximum Length	Allowed Values	Annotation
CMS27423400_2140 CA_REF02_ProviderIdentifier	String	Required	20	Any valid String	<p>This attribute contains the actual provider identifier.</p> <p>If the attribute contains a value with length exceeding the maximum allowed (20 characters) then the entire XML file will fail schema validation and it will be rejected as a result. No response file will be generated by the EFI process. The EFI participant will be notified via e-mail only.</p> <p>If the other identification type code has been provided, this attribute cannot contain blank values. Otherwise, the provider record will fail the EFI process validation and it will be marked as rejected with error code "02" in the response file.</p>
CMS27423400_2140 CA_REF03_Description	String	Optional	80	Any valid String.	<p>This attribute contains the description for a provider's other ID. This attribute is not used when the identifier is SY (SSN), TJ (ITIN), EI (EIN) or EN (new EIN).</p> <p>Table 2-3 provides the different requirements that must be fulfilled when submitting provider identification information.</p> <p>If the attribute contains a value with length exceeding the maximum allowed (80 characters) then the entire XML file will fail schema validation and it will be rejected as a result. No response file will be generated by the EFI process. The EFI participant will be notified via e-mail only.</p> <p>If the description is required but is missing, the provider record will fail EFI process validation and it will be marked as rejected with error code "02" in the response file.</p>
CMS27423400_2140 CA_REF05_State	String	Optional	2	Any valid String.	<p>This attribute contains the US state code associated with a given provider other ID. This attribute is not used when the identifier is SY (SSN), TJ (ITIN), EI (EIN) or EN (new EIN).</p> <p>Table 2-3 provides the different requirements that must be fulfilled when submitting provider identification information.</p> <p>If the attribute contains a value with length exceeding the maximum allowed (2 characters) then the entire XML file will fail schema validation and it will be rejected as a result. No response file will be generated by the EFI process. The EFI participant will be notified via e-mail only.</p> <p>If the attribute contains a state code but the value is not found in the U.S. standard state code list then the provider record will fail EFI process validation. The record will be marked as rejected with error code "01" and with appropriate error message in the response file.</p> <p>If the state code is required (e.g. for Medicaid IDs) but is missing, the provider record will fail EFI process validation. The record will be marked as rejected by the system with error code "02" and with appropriate error message in the response file.</p>

Exhibit 2-52 Provider Identification Codes

Code	Description	Annotation
1A	Blue Cross Provider Number	NPPES doesn't support Blue Cross Provider numbers. Applications submitted with this code will fail EFI process validation. The record will be marked as rejected by the system with error code 01 in the response file. However, if system finds this code while generating response file then EFI process will convert this code to "OT" meaning "Other Type".
1B	Blue Shield Provider Number	NPPES doesn't support Blue Shield Provider numbers. Applications submitted with this code will fail EFI process validation. The record will be marked as rejected by the system with error code 01 in the response file. However, if system finds this code while generating response file then EFI process will convert this code to "OT" meaning "Other Type".

Code	Description	Annotation
1C	MEDICARE ID Unknown (deprecated)	Starting Release 1.4, NPPES no longer accepts new Other IDs with the 1C code, or changes to an existing Other ID Number of type 1C. Any new NPI application that contains the 1C Other Identifier code will be marked as rejected with error code 01 in the response file. Similarly, any Change Request that contains the 1C code, but the related Other Identifier information does not match what exists in NPPES, will also be rejected because this is deemed as adding a new Identifier with the 1C type.
1D	MEDICAID	NPPES does require state information for Medicaid Provider Numbers.
1G	MEDICARE UPIN	NPPES does not require state or description information for UPIN numbers.
1H	CHAMPUS Identification Number	NPPES doesn't support CHAMPUS Identification Numbers. Applications submitted with this code will fail EFI process validation. The record will be marked as rejected by the system with error code 01 in the response file. However, if system finds this code while generating response file then EFI process will convert this code to "OT" meaning "Other Type".
EI	Employer's Identification Number (EIN)	<p>If the first attribute of 2.3.27 element (CMS27423400_2140CA_REF01_ReferenceldentificationQualifier) holds the code "EI" then the value entered in the second attribute of this element (CMS27423400_2140CA_REF02_ProviderIdentifier) is treated as EIN value by the EFI process.</p> <p>Furthermore, if the code is "EI" then description and state are ignored by the EFI process.</p> <p>Note:</p> <ul style="list-style-type: none"> <li>Entity Type 1 providers: if EIN value is provided such information is ignored by the EFI process.</li> <li>Entity Type 2 providers: if EIN is not provided then the provider record will fail EFI process validation and it will be marked as rejected with error code "02" in the response file.</li> <li>EIN must be 9 digits long. Negative numbers and all zeroes are not allowed. Otherwise the provider record will fail the EFI process validation and it will be marked as rejected with error code "01" in the response file.</li> </ul>
EN	Employer's New Identification Number (EIN)	<p>If the first attribute of 2.3.27 element (CMS27423400_2140CA_REF01_ReferenceldentificationQualifier) holds the code "EN" then the value entered in the second attribute of this element (CMS27423400_2140CA_REF02_ProviderIdentifier) is treated as new EIN value by the EFI process.</p> <p>Furthermore, if the code is "EN" then description and state are ignored by the EFI process.</p> <p>Note:</p> <ul style="list-style-type: none"> <li>Entity Type 1 providers: if new EIN value is provided such information is ignored by the EFI process.</li> <li>Entity Type 2 providers: This is an optional field and will be used to submit new EIN value.</li> <li>With NPPES Release R.16, it is allowed to change Organization EIN value through EFI change request. However, for successful change of old EIN value with new EIN value, the old EIN value must match with the current EIN value in the NPPES System. If not matched then record will fail EFI process validation and it will be marked as rejected with error code "10" in the response file.</li> <li>New EIN new must be 9 digits long. Negative numbers and all zeroes are not allowed. Otherwise the provider record will fail the EFI process validation and it will be marked as rejected with error code "01" in the response file.</li> </ul>
G2	Provider Commercial Number	NPPES doesn't support Provider Commercial Numbers. Applications submitted with this code will fail EFI process validation. The record will be marked as rejected by the system with error code 01 in the response file. However, if system finds this code while generating response file then EFI process will convert this code to "OT" other type code.
MP	MEDICARE PIN	If the first attribute of 2.3.27 element (CMS27423400_2140CA_REF01_ReferenceldentificationQualifier) holds the code "MP" then the value entered in the second attribute of this element (CMS27423400_2140CA_REF02_ProviderIdentifier) is treated as MEDICARE PIN by the EFI process.
NS	MEDICARE NSC	If the first attribute of 2.3.27 element (CMS27423400_2140CA_REF01_ReferenceldentificationQualifier) holds the code "NS" then the value entered in the second attribute of this element

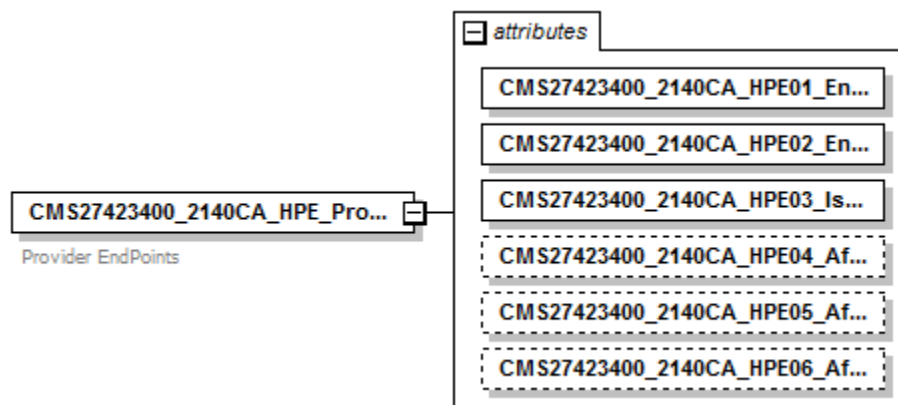

Code	Description	Annotation
		<p>(CMS27423400_2140CA_REF02_ProviderIdentifier) is treated as NSC Number by the EFI process.</p> <p>The NSC number must be 10 digits long. Otherwise, the application will fail EFI process validation. The record will be marked as rejected by the system with error code 01 in the response file.</p>
OS	MEDICARE OSCAR	<p>If the first attribute of 2.3.27 element (CMS27423400_2140CA_REF01_ReferenceIdentificationQualifier) holds the code "OS" then the value entered in the second attribute of this element (CMS27423400_2140CA_REF02_ProviderIdentifier) is treated as an OSCAR Number by the EFI process.</p> <p>The OSCAR number can be alphanumeric value between 6-15 characters long. If the value is either less than 6 characters or more than 15 characters long then such applications will fail in EFI process validation. The record will be marked as rejected by the system with error code 01 in the response file.</p>
OT	Other Type	<p>If the first attribute of 2.3.27 element (CMS27423400_2140CA_REF01_ReferenceIdentificationQualifier) holds the code "OT" then the value entered in the second attribute of this element (CMS27423400_2140CA_REF02_ProviderIdentifier) is treated as "Other Type of ID Number" by the EFI process.</p>
SY	Social Security Number (SSN)	<p>If the first attribute of 2.3.27 element (CMS27423400_2140CA_REF01_ReferenceIdentificationQualifier) contains the code "SY", then the value entered in the second attribute of this element (CMS27423400_2140CA_REF02_ProviderIdentifier) is treated as SSN value by the EFI process.</p> <p>Furthermore, if the code is "SY" then description and state are ignored by the EFI process.</p> <p>Note:</p> <ul style="list-style-type: none"> <li>Entity Type 2 providers: if SSN value is provided, such information is ignored by the EFI process.</li> <li>Entity Type 1 providers: if SSN is not provided then the record will fail EFI process validation and it will be marked as rejected with error code "02" in the response file.</li> <li>Entity Type 1 providers: if both SSN and ITIN values are provided the EFI process will always use the SSN and ignore the ITIN, unless the record denotes a change request on a provider who originally entered an ITIN. In this case ITIN is not ignored; instead it is used for data comparisons.</li> <li>SSN must be 9 digit long. Otherwise the provider record will fail the EFI process validation and it will be marked as rejected with error code "01" in the response file.</li> </ul>
TJ	Federal Taxpayer's Identification Number (ITIN)	<p>If the first attribute of 2.3.27 element (CMS27423400_2140CA_REF01_ReferenceIdentificationQualifier) contains the code "TJ" then the value entered in the second attribute of this element (CMS27423400_2140CA_REF02_ProviderIdentifier) is treated as ITIN value by the EFI process.</p> <p>Furthermore, if the code is "TJ" then description and state are ignored by the EFI process.</p> <p>Note:</p> <ul style="list-style-type: none"> <li>Entity Type 2 providers; if ITIN value is provided, such information is ignored by the EFI process.</li> <li>Entity Type 1 providers; ITIN is Optional.</li> <li>Entity Type 1 providers: if both SSN and ITIN values are provided the EFI process will always use the SSN and ignore the ITIN unless the record denotes a change request on a provider who originally entered an ITIN. In this case ITIN is not ignored; instead it is matched against the TIN stored in NPPES.</li> <li>ITIN must be 9 digit long. Otherwise the provider record will fail the EFI process validation and it will be marked as rejected with error code "01" in the response file.</li> </ul>
TX	Tax Exempt Number	<p>NPPES doesn't support Tax Exempt Numbers. Applications submitted with this code will fail EFI process validation. The records will be marked as rejected by the system with error code 01 in the response file. However, if system finds this code while generating response file then EFI process will convert this code to "OT" meaning "Other Type".</p>

Code	Description	Annotation
VT	Motor Vehicle ID Number	NPPES doesn't support Motor Vehicle ID Numbers. Applications submitted with this code will fail EFI process validation. The record will be marked as rejected by the system with error code 01 in the response file. However, if system finds this code while generating response file then EFI process will convert this code to "OT" meaning "Other Type".

### 2.3.32 Element: CMS27420300\_2100CD

This element acts as a container for a miscellaneous set of data which includes authorized representative, contact person, and/or provider other name information. This element is defined as required by the EFI XML schema and it can occur more than once within provider records in an XML file.

In the EFI schema the authorized official, contact person, and other provider name information is referred to as “Affiliated Entity Name” information.

Note: The absence of this element in a provider record will cause the XML file to fail schema validation. The entire file will be rejected by the EFI process and no response file will be generated. The EFI participant that submitted the file will be notified via e-mail only.

#### Exhibit 2-36 Element CMS27420300\_2100CD Structure

#### 2.3.32.1 CHILD ELEMENTS

- CMS27420300\_2100CD\_NM1\_AffiliatedEntityName: This element contains authorized official, contact person, other provider name details.
- CMS27420500\_2100CD\_PER\_AffiliatedEntityContactInformation: This element contains authorized official, contact person contact information details.
- CMS27420600\_2100CD\_DEG\_AffiliatedEntitySCredentials: This element contains authorized official, contact person credentials details.

- CMS27421300\_2100CD\_MTX\_AffiliatedEntitySTitle: This element contains authorized official, contact person title information.
- CMS27420300\_2100CD\_FLG\_PrimaryFlag: This element contains if contact person information provided is a primary contact or not.

### 2.3.33 Element: CMS27420300\_2100CD\_NM1\_AffiliatedEntityName

---

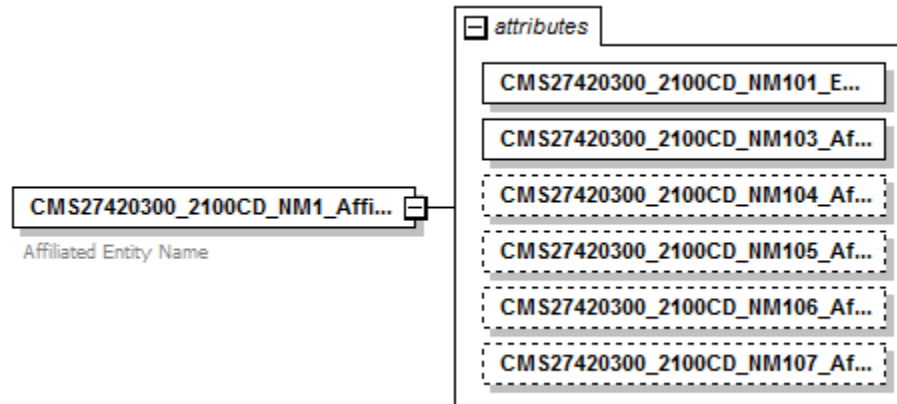

This element contains authorized official, contact person, or provider other name information. The element is defined as Optional by the EFI XML schema.

**Note:**

- NPPES requires contact person information for both its Entity Type 1 and 2 providers. The EFI process will enforce this requirement when validating the provider records in an XML file. If a provider record does not have at least one instance of this element with contact person information in it, then this record will fail EFI process validation and it will be marked as rejected in the response file (error code 02).
- NPPES requires authorized official information for its Entity Type 2 providers (organizations). The EFI process will enforce this requirement when validating the provider records in an XML file. If a provider record does not have at least one instance of this element with authorized official information in it, then this record will fail EFI process validation and it will be marked as rejected in the response file (error code 02).

If the value exceeds the NPPES maximum length, the provider record will fail EFI process validation. The record will be marked as rejected with error code "01" in the response file.</p>

Code	Affiliated Entity	Annotation
VI	Middle Name	<p>This field is Optional. The maximum length allowed for middle names in NPPES is 20 characters. If the value provided in the attribute CMS27420300_2100CD_NM105_AffiliatedEntityMiddleName exceeds the NPPES maximum length, the provider record will fail EFI process validation. The record will be marked as rejected with error code "01" in the response file.</p> <p>The maximum length allowed for name prefixes in NPPES is 5 characters. If the value exceeds the NPPES maximum length, the provider record will fail EFI process validation. The record will be marked as rejected with error code "01" in the response file.</p>
VI	Name Prefix	<p>This field is Optional. The values allowed by NPPES for this field are: Ms., Mr., Miss, Mrs., Dr., and Prof. If the value provided in attribute CMS27420300_2100CD_NM106_AffiliatedEntityNamePrefix does not belong in the above list, the provider record will fail EFI process validation. The record will be marked as rejected with error code "01" in the response file.</p>
VI	Name Suffix	<p>This field is Optional. The values allowed by NPPES for this field are: Jr., Sr., I, II, III, IV, V, VI, VII, VIII, IX, and X. If the value provided in the attribute CMS27420300_2100CD_NM107_AffiliatedEntityNameSuffix does not belong in the above list, the provider record will fail EFI process validation. The record will be marked as rejected with error code "01" in the response file.</p> <p>The maximum length allowed for name suffixes in NPPES is 5 characters. If the value exceeds the NPPES maximum length, the provider record will fail EFI process validation. The record will be marked as rejected with error code "01" in the response file.</p>

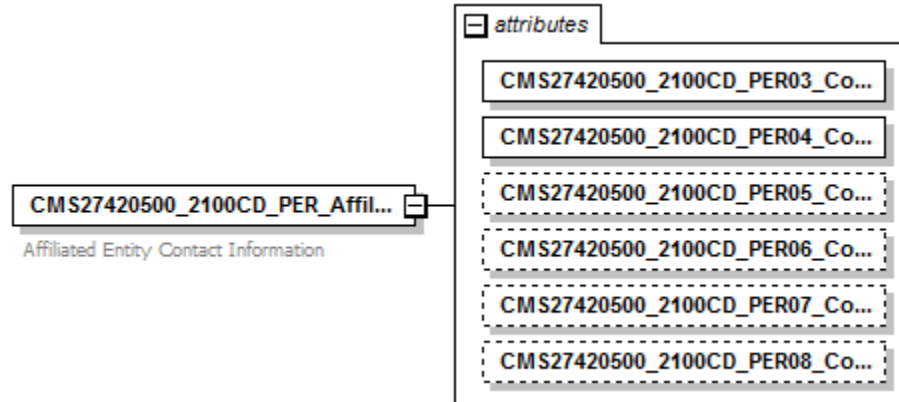

### 2.3.34 Element: CMS27420500\_2100CD\_PER\_AffiliatedEntityContactInformation

This element is defined as Optional in the EFI XML schema and it contains additional information about authorized officials, contact personnel, and/or provider other names, such as telephone numbers, extensions, faxes, and/or e-mail addresses. Whether the element describes an authorized official, contact person, or other provider name, depends on the value of the CMS27420300\_2100CD\_NM101\_EntityIdentifierCode attribute of element CMS27420300\_2100CD\_NM1\_AffiliatedEntityName (see section 2.3.33).

**Note:**

- NPPES requires contact person information for both its Entity Type 1 and 2 providers. The contact person telephone number (which is stored in this element) is required information. The EFI process will enforce this requirement when validating the provider records in an XML file. If a provider record does not have at least one instance of this element with the contact person's telephone number in it, then this provider record will fail EFI process validation and it will be marked as rejected in the response file (error code 02).
- NPPES requires authorized official information for its Entity Type 2 providers (organizations). The authorized official telephone number (which is stored in this element) is required information. The EFI process will enforce this requirement when validating the provider records in an XML file. If a provider record does not have at least one instance of this element with the authorized official's telephone number in it, then this provider record will fail EFI process validation and it will be marked as rejected in the response file (error code 02).

### Exhibit 2-42 Affiliated Entity Contact Information Structure: Authorized Official Field(s)

Code	Affiliated Entity	Annotation
J2	Electronic Mail	<p>Entity Type 1 providers (individuals):</p> <ul style="list-style-type: none"> <li>Authorized Official information is not collected for Entity Type 1 providers.</li> <li>The EFI process ignores such information.</li> </ul> <p>Entity Type 2 providers (organizations):</p> <ul style="list-style-type: none"> <li>NPPES does not collect e-mail addresses for authorized officials.</li> <li>The EFI process ignores such information.</li> </ul>
J2	Telephone Number	<p>This is a required field. If the value is not provided for this field in the attribute CMS27420500_2100CD_PER04_CommunicationNumber, then the provider record will fail EFI process validation. The record will be marked as rejected with error code "02" in the response file. NPPES requires that authorized official telephone numbers be between 10 and 20 numeric characters long. If the attribute contains a value that is not between 10 and 20 numeric characters long then the provider record will fail EFI process validation. The provider record will be marked as rejected with error code "01" in the response file. NPPES stores only 1 authorized official telephone number. The EFI process will ignore any additional telephone numbers provided.</p>
J2	Telephone Extension	<p>This is an Optional field. The maximum length allowed in NPPES for telephone extensions is 5 numeric characters. If the value is provided for this field in the attribute CMS27420500_2100CD_PER06_CommunicationNumber (or CMS27420500_2100CD_PER08_CommunicationNumber) exceeds the NPPES maximum length, the provider record will fail EFI process validation. The record will be marked as rejected with error code "01" in the response file. NPPES stores only 1 authorized official telephone extension. The EFI process will ignore any additional telephone extensions provided.</p>
J2	Fax	<p>NPPES does not collect fax information for authorized officials. The EFI process ignores such information.</p>

### Exhibit 2-43 Affiliated Entity Contact Information Structure: Alias (Provider Other Name) Fields

Code	Affiliated Entity	Annotation
XD	Electronic Mail	NPPES does not collect this information for other provider names. The EFI process ignores such information.
XD	Telephone Number	NPPES does not collect this information for other provider names. The EFI process ignores such information.

Code	Affiliated Entity	Annotation
XD	Telephone Extension	NPPES does not collect this information for other provider names. The EFI process ignores such information.
XD	FAX	NPPES does not collect this information for other provider names. The EFI process ignores such information.

## Exhibit 2-44 Affiliated Entity Contact Information Structure: Contact Person Fields

Note: NPPES requires contact information for both Entity Type 1 and 2 providers.

Code	Affiliated Entity	Annotation
VI	Electronic Mail	This is an Optional field. The maximum length allowed in NPPES for e-mail addresses is 100 characters. If the value is provided for this field in the attribute CMS27420500_2100CD_PER04_CommunicationNumber (or CMS27420500_2100CD_PER06_CommunicationNumber or CMS27420500_2100CD_PER08_CommunicationNumber) exceeds the NPPES maximum length, the provider record will fail EFI process validation. The record will be marked as rejected with error code "01" in the response file. NPPES stores only 1 contact person e-mail address. The EFI process will ignore any additional e-mail addresses provided.
VI	Telephone Number	This is a required field. If the value is not provided for this field in the attribute CMS27420500_2100CD_PER04_CommunicationNumber, then the provider record will fail EFI process validation. The record will be marked as rejected with error code "02" in the response file. NPPES requires that contact person telephone numbers be between 10 and 20 numeric characters long. If the attribute contains a value that is not between 10 and 20 numeric characters long then the provider record will fail EFI process validation. The provider record will be marked as rejected with error code "01" in the response file. NPPES stores only 1 primary contact person telephone number. The EFI process will ignore any additional telephone numbers provided.
VI	Telephone Extension	This is an Optional field. The maximum length allowed in NPPES for telephone extensions is 5 numeric characters. If the value is provided for this field in the attribute CMS27420500_2100CD_PER06_CommunicationNumber (or CMS27420500_2100CD_PER08_CommunicationNumber) exceeds the NPPES maximum length, the provider record will fail EFI process validation. The record will be marked as rejected with error code "01" in the response file. NPPES stores only 1 primary contact person telephone extension. The EFI process will ignore any additional telephone extensions provided.
VI	Fax	NPPES does not collect fax information for contact personnel. The EFI process ignores such information.

### 2.3.35 Element: CMS27420600\_2100CD\_DEG\_AffiliatedEntitySCredentials

This element is defined as Optional in the EFI XML schema and it contains credential information about authorized officials, contact personnel, and/or provider other names. Whether the element describes an authorized official, contact person, or other provider name, depends on the value of the CMS27420300\_2100CD\_NM101\_EntityIdentifierCode attribute of element CMS27420300\_2100CD\_NM1\_AffiliatedEntityName (see section 2.3.33).

### 2.3.36 Element: CMS27421300\_2100CD\_MTX\_AffiliatedEntitySTitle

This element is defined as Optional in the EFI XML schema and it contains title information for authorized officials and contact personnel. Whether the element describes an authorized official or contact person depends on the value of the CMS27420300\_2100CD\_NM101\_EntityIdentifierCode attribute of element CMS27420300\_2100CD\_NM1\_AffiliatedEntityName (see Section 2.3.33).

**Note:** NPPES requires authorized official information for its Entity Type 2 providers (organizations). The authorized official title/position (which is stored in this element) is required information. The EFI process will enforce this requirement when validating the provider records in an XML file. If a provider record does not have at least one instance of this element, then this provider record will fail EFI process validation and it will be marked as rejected in the response file (error code 02).

### 2.3.37 Element: CMS27420300\_2100CD\_FLG\_PrimaryFlag

This element is defined as Required in the EFI XML schema when the affiliated entity is a contact person and it contains information for whether the contact information provided is a primary contact person or not. The allowed values are Y and N.

#### 2.3.37.1 USED BY

Element: CMS27420300\_2100CD

### 2.3.38 Element: CMS27420100\_2000D

This element acts as a container for provider practice location information. One occurrence is defined as required in the EFI XML schema and can occur up to 5 times within a provider's record in an XML file. The first practice location occurrence will be defaulted as the primary practice location.

**Note:** The absence of this element in a provider record will cause the XML file to fail schema validation. No response file is created. The entire XML file will be rejected. The EFI participant that submitted the file will be notified by e-mail only.

## 2.3.40 Element: CMS27420500\_2100DA\_PER\_SiteLocationContactInformation

This element is defined as Optional in the EFI XML schema and it contains information, such as practice location telephone numbers, extensions, fax numbers, etc. This element can occur more than once inside provider records in an XML file.

**Note:** NPPES requires practice location telephone numbers for all its providers. The EFI process will enforce this requirement when validating the provider records in an XML file. If a provider record does not have at least one instance of this element, then this provider record will fail EFI process validation and it will be marked as rejected in the response file (error code 02).

### 2.3.41 Element: CMS27422100\_2110DA

This element acts as a container for additional provider practice location address details, such as practice location address lines 1 and 2, city, state, country, zip code, etc.

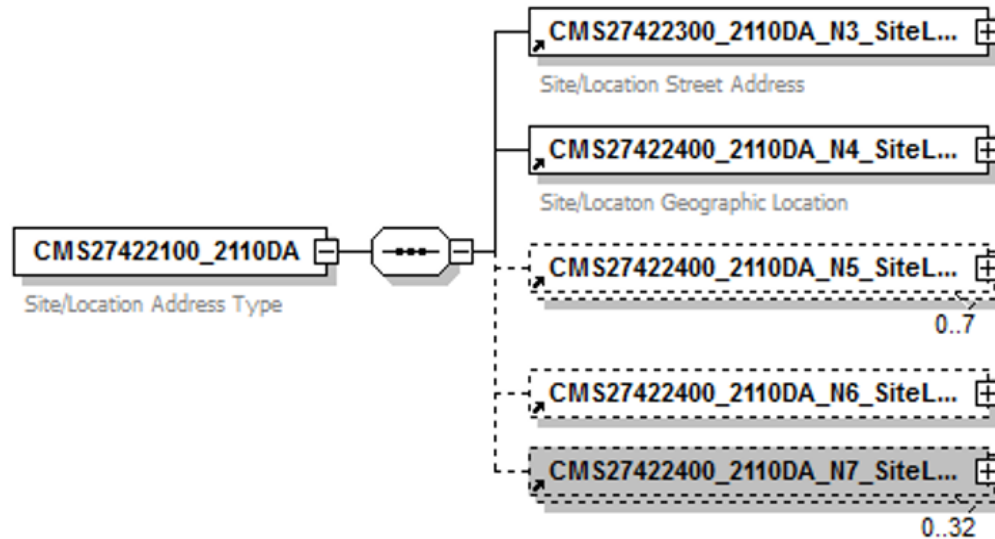

New additional fields are now being collected associated with each Practice Location:

- 1) Office Hours  
Providers can now identify the office hours associated with each practice location for each day of the week.
- 2) Languages Spoken  
Providers can now identify the Language(s) spoken at each practice location
- 3) Accessibility for people with mobility disabilities  
Providers can now identify whether or not each practice location:
  - a. Is accessible to individuals with mobility disabilities
  - b. Has rooms accessible to individuals with mobility disabilities.
  - c. Has medical equipment accessible to individuals with mobility disabilities.

One practice location occurrence is defined as required in the EFI XML schema. However up to 5 practice locations can be associated with a provider's NPI record in an XML file. The first practice location occurrence will be defaulted as the primary practice location.

**Note:** The absence of this element in a provider record will cause the XML file to fail schema validation. The entire file will be rejected by the EFI process and no response file will be generated. The EFI participant that submitted the file will be notified via e-mail only.

## Exhibit 2-52 Element CMS27422100\_2110DA Structure

### 2.3.41.1 CHILD ELEMENTS

- CMS27422300\_2110DA\_N3\_SiteLocationStreetAddress: This element contains provider practice location street address information
- CMS27422400\_2110DA\_N4\_SiteLocationGeographicLocation: This element contains provider practice location geographic details.
- CMS27422300\_2110DA\_N5\_SiteLocationOfficeHours: This element contains provider practice location office hours.
- CMS27422400\_2110DA\_N6\_SiteLocationAccess: This element contains provider practice location accessibility to individuals with mobility disabilities and languages spoken.
- CMS27422400\_2110DA\_N7\_Language: This element contains provider practice location languages spoken.

### 2.3.42 Element: CMS27422300\_2110DA\_N3\_SiteLocationStreetAddress

This element is defined as required by the EFI XML schema and it has 2 attributes containing practice location street address line 1 and 2 information. The element occurs only once within provider records in an XML file.

**Note:** The absence of this element in a provider record will cause the XML file to fail schema validation. The entire file will be rejected by the EFI process and no response file will be generated. The EFI participant that submitted the file will be notified via e-mail only.

Note: Address standardization will be run using Universal Coder software against all domestic and military practice location addresses. See section 6.11 for details regarding address standardization.

```

### 2.3.43 Element: CMS27422400\_2110DA\_N4\_SiteLocationGeographicLocation

This element is defined as required by the EFI XML schema and it has 4 attributes containing practice location geographic details, such as city name, state, postal or zip code, and country. The element occurs only once within provider records in an XML file.

**Note:**

- The absence of this element in a provider record will cause the XML file to fail schema validation. The entire file will be rejected by the EFI process and no response file will be generated. The EFI participant that submitted the file will be notified via e-mail only.

- NPPES accepts domestic, military, and foreign addresses for NPI Provider's Practice Location Addresses. The EFI process will determine the type of practice location address, whether it is domestic or foreign by examining the value of the country code.
- To determine whether the practice location address is a military address or not, the EFI system looks at the city name and the state code along with the country code. If the country code is "US", and the city name is either APO or FPO, and the state code is either AA, AE, or AP then the address will be treated as a Military Address.

</xs:element>

```

### 2.3.47 Element: CMS27420100\_2000E

This element acts as a container for any group related information that might apply to a provider record. The element is defined as Optional by the EFI XML schema and occurs at most once within provider records in an XML file.

**Note:** Only Entity Type 2 providers can be groups. The EFI process will ignore any group information supplied as part of an Entity Type 1 (individual) record.

**Exhibit 2-58 Element CMS27420100\_2000E Structure**

    </xs:sequence>
  </xs:complexType>
</xs:element>

```

### 2.3.48 Element: CMS27420300\_2100EA

This element acts as a container for any group name and group taxonomy related information that might apply to a provider record. The element is defined as required by the EFI XML schema and can occur only once within provider records in an XML file depending on the existence of its parent element CMS27420100\_2000E.

**Note:** The absence of this element in a provider record when the parent element CMS27420100\_2000E is provided will cause the XML file to fail schema validation. The entire file will be rejected by the EFI process and no response file will be generated. The EFI participant that submitted the file will be notified via e-mail only.

    </xs:sequence>
  </xs:complexType>
</xs:element>
```

## 2.3.49 Element: CMS27422600\_2120EA

This element acts as a container for any group taxonomy related information that might apply to a provider record. The element is defined as required by the EFI XML schema and can occur more than once within provider records in an XML file.

**Note:**

- The absence of this element in a provider record when the parent element CMS27420300\_2100EA is provided will cause the XML file to fail schema validation. The entire file will be rejected by the EFI process and no response file will be generated. The EFI participant that submitted the file will be notified via e-mail only.
- Even though the schema does not specify an upper limit on the number of times this element can occur within a provider record, NPPES does require that no provider records have more than 15 unique taxonomies. This requirement is enforced by the EFI process, which ignores all additional taxonomies.
- The EFI system ignores Taxonomies that have the same taxonomy code, license number and state on file for that provider.

- License Number is no longer required for Type 2 organization and value of the field should be set to NULL. In the event user submit the filed the system will ignore values in license number and/or state

    </xs:sequence>
  </xs:complexType>
</xs:element>
```

### 2.3.50 Element: CMS27422600\_2120EA\_LQ\_ProviderGroupSAreaOfSpecialization

This element is defined as Optional by the EFI XML schema and it has 2 attributes containing group taxonomy information. This element can occur more than once within provider records in an XML file.

#### Note:

- The contents (attribute values) of this element must be the same as those of element CMS27422600\_2120CA\_LQ\_ProviderSAreaOfSpecialization (see Section 2.3.25). The EFI process will ignore the contents of this element otherwise.
- If there are multiple occurrences of this element then each instance will be compared side-by-side against each instance of the CMS27422600\_2120CA\_LQ\_ProviderSAreaOfSpecialization element (first instance of this element against the first instance of the provider taxonomies element, second instance of this element against the second instance of the provider taxonomies element, and so on). If the instances match, the EFI process will accept the contents of this element instance and mark this instance as a group taxonomy. Otherwise, it will ignore that information. Group taxonomies are classified as follows:
  - **Single-Specialty Group:** If one occurrence of this element matches with one occurrence of CMS27422600\_2120CA\_LQ\_ProviderSAreaOfSpecialization element, the EFI process will accept contents of this element instance as “Single-Specialty” group taxonomy.

- **Multi-Specialty Group:** If more than one occurrences of this element matches with more than one occurrences of CMS27422600\_2120CA\_LQ\_ProviderSAreaOfSpecialization element, the EFI process will accept these instances as “Multi-Specialty” group taxonomies.
- **Multiple Single-Specialty Group:** EFI process does not currently support “Multiple Single-Specialty” group taxonomies.

If group taxonomy information is provided in this element, the number of these taxonomies must match that of taxonomies in CMS27422600\_2120CA\_LQ\_ProviderSAreaOfSpecialization (see Section 2.3.25). Otherwise, the record fails EFI process validation and is marked as rejected. If an EFI participant doesn’t want to specify each taxonomy as a group taxonomy, the EFI participant still needs to create placeholders with this element: fill out the group taxonomy code with some integer number, say 0 (zero), and group taxonomy number with blank to make sure that the above rule is satisfied.

#### 2.3.50.2 ATTRIBUTES

Name	Type	Use	Maximum Length	Allowed Values	Annotation
CMS27422600_2120EA_LQ01_CodeListQualifierCode	Integer	Required	3	Any valid integer.	This attribute contains the provider group area of specialization code. This is usually the first 2 digits of the provider's taxonomy number. Note: <ul style="list-style-type: none"> <li>• This attribute is not used by the EFI process.</li> </ul>

Name	Type	Use	Maximum Length	Allowed Values	Annotation
CMS27422600_2120EA_LQ02_ProviderGroupSpecialtyCode	String	Required	30	Any valid String.	<p>This attribute contains the provider group taxonomy number.</p> <p>Note:</p> <ul style="list-style-type: none"> <li>If the attribute contains a value with length exceeding the maximum allowed (30 characters) then the entire XML file will fail schema validation and it will be rejected as a result. No response file will be generated by the EFI process. The EFI participant will be notified via e-mail only.</li> <li>Taxonomy codes are 10 characters long. If the attribute contains code values that are not 10 characters long, the record will fail EFI process validation. This record will be marked as rejected with error code "01" in the response file.</li> <li>If the attribute contains a taxonomy that does not exist in NPPES, the record will fail EFI process validation. The record will be marked as rejected with an error code "05" in the response file.</li> <li>If the attribute contains a taxonomy that does not belong to the type of provider in the record (e.g. an individual is assigned the taxonomy of a hospital), it will fail EFI process validation. The record will be marked as rejected with an error code "06" in the response file.</li> </ul>

### 2.3.55 Sample XML File for New Request

---

See attached file: Sample\_EFIfileNewApps\_xml.pdf

### 2.3.56 Sample XML File for Modify Request:

---

See attached file: Sample\_EFIfileChangeRequest\_xml.pdf

## 3 EFI XML Special Considerations

### 3.1 Field Lengths

This section describes two specific situations that arise from discrepancies between the sizes of data elements allowed in NPPES versus the EFI XML schema:

- **Scenario 1** – A change request was previously performed and accepted through the Internet or the Enumerator on an existing active EFI record. The field(s) modified however, contained more characters than the EFI XML schema allows. A second change request is performed through EFI on other fields and an EFI response file is being generated with the latest EFI record in NPPES. The fields affected by the first change requests are larger than the EFI schema allows.
- With regard to certain provider information data items, such as address City Name and State Information, the number of characters allowed by NPPES differs from the number of characters allowed in the EFI XML schema. Any XML files that do not adhere to the schema rules will of-course fail EFI XML schema validation and get rejected by the EFI process. However, an enumerated record submitted via EFI can still receive a change request via conventional NPPES methods like paper or web that may make that record fail EFI XML schema validation at the time of response file creation. In order to avoid this scenario, the EFI process populates the attribute with only the number of characters allowed by the XML schema. For example, in the case of `<CMS27422400_2110CA_N401_ProviderCityName>` which is the attribute that containing the city name, NPPES allows 40 characters while the EFI XML schema only allows 30 characters. If an Enumerator user edits an active EFI record, such that the city name now contains more than 30 characters, it will cause a schema validation error when a response file generates. Hence, the EFI process populates only the first 30 characters of this attribute when generating the response files in order to avoid EFI XML schema validation errors.
- **Scenario 2** – EFI XML request files (uploaded by EOR-s) contain records with data items that conform to the EFI XML schema, but have more characters than NPPES allows.
- EFI records in an XML file, that contain data items where the field length exceeds the maximum length allowed by NPPES, will be rejected by the EFI process. When the response file is created, the EFI process will mark such records with an error code “01”. Furthermore, during the creation of the response file, the data contained in the fields that caused the rejection of the record, will be trimmed by the EFI process to the length allowed by NPPES.

### 3.2 Special Characters in XML Files

Certain characters like & (ampersand) are treated as special characters by the XML parser and must be escaped in the XML input file if required to use them. The NPPES-EFI XML parser accepts all the well-known XML escape sequences. Following is a list of generally-known XML escape sequences.

**Exhibit 3-1 Special Characters in XML Filers**

Special Character	Escape Sequence
quote (")	&quot;
apostrophe (')	&apos;
ampersand (&)	&amp;
less than (<)	&lt;
greater than (>)	&gt;

Thus, if the value of the organization name attribute is Johnson & Johnson Inc., then it should be escaped as Johnson &amp; Johnson Inc. in the input XML file.

Only certain special character(s) are allowed in the fields that are submitted through XML file via EFI process to the NPPES system. In any record, if any field contains character(s) that are not allowed then such records will be rejected. In the EFI response file for such records, the error code will be “01” and the error message will be “**Disallowed character(s) found in [Group/Field Name] field**”.

The table below lists the fields, allowed special character(s) in the fields, and their corresponding error message in EFI response file if the record is being rejected for disallowed special character(s).

**Exhibit 3-2 Fields, Allowed Special Characters and Error Messages**

Field Name(s)	Allowed Special Character(s)	Error Message in EFI Response File
Individual Provider First Name, Middle Name, Last Name, and Credential(s)	Ampersand, apostrophe, colon, comma, forward slash, hyphen, left and right parentheses, period, pound sign, quotation mark, and semi-colon	Disallowed character(s) found in Provider Name field.
Individual Provider Other First Name, Middle Name, Last Name, and Credential(s)	Ampersand, apostrophe, colon, comma, forward slash, hyphen, left and right parentheses, period, pound sign, quotation mark, and semi-colon	Disallowed character(s) found in Provider Other Name field.
Organization Name, and Parent Legal Business Name (LBN)	Ampersand, apostrophe, "at" sign, colon, comma, forward slash, hyphen, left and right parentheses, period, pound sign, quotation mark, and semi-colon	Disallowed character(s) found in Organization Name field.
Organization Other Name	Ampersand, apostrophe, "at" sign, colon, comma, forward slash, hyphen, left and right parentheses, period, pound sign, quotation mark, and semi-colon	Disallowed character(s) found in Organization Other Name field.
Authorized Official First Name, Middle Name, Last Name, Credential(s), and Title	Ampersand, apostrophe, colon, comma, forward slash, hyphen, left and right parentheses, period, pound sign, quotation mark, and semi-colon	Disallowed character(s) found in Authorized Official field.
Both Domestic and Foreign Mailing Address Line1, Address Line2, City, and only Foreign Mailing Address Province or Territory	Ampersand, apostrophe, colon, comma, forward slash, hyphen, left and right parentheses, period, pound sign, quotation mark, and semi-colon. In addition, the Mailing Address Line 1 and Mailing Address Line 2 fields allow the "at" sign.	Disallowed character(s) found in Mailing Address Information field.
Foreign Mailing Address Telephone Number, Telephone Extension Number, Fax Number	Accept only digits and alphabet letters (upper and lower case).	Disallowed character(s) found in Mailing Address Phone, Extension, and/or Fax field.
Foreign Mailing Address Postal Code	Accept only digits, space, and alphabet letters (upper and lower case).	Disallowed character(s) found in Mailing Address Information field.
Both Domestic, and Foreign Practice Location Address Line1, Address Line2, City, and only Foreign Practice Location Address Province or Territory	Ampersand, apostrophe, colon, comma, forward slash, hyphen, left and right parentheses, period, pound sign, quotation mark, and semi-colon. In addition, the Practice Location Address Line 1 and Practice Location Address Line 2 fields allow the "at" sign	Disallowed character(s) found in Practice Address Information field.

Field Name(s)	Allowed Special Character(s)	Error Message in EFI Response File
Foreign Practice Location Address Telephone Number, Telephone Extension Number, and Fax Number	Accept only digits and alphabet letters (upper and lower case).	Disallowed character(s) found in Practice Address Phone, Extension, and/or Fax field.
Foreign Practice Location Address Postal Code	Accept only digits, space, and alphabet letters (upper and lower case).	Disallowed character(s) found in Practice Address Information field.
Other Identification (OID) Number and Description.	Ampersand, apostrophe, colon, comma, forward slash, hyphen, left and right parentheses, period, pound sign, quotation mark, and semi-colon. In addition, the Other Identification (OID) Description field allow the "at" sign	Disallowed character(s) found in Other ID Number or Description field.
Taxonomy License Number	Ampersand, apostrophe, colon, comma, forward slash, hyphen, left and right parentheses, period, pound sign, quotation mark, and semi-colon.	Disallowed character(s) found in Taxonomy License Number field.
Contact Person First Name, Middle Name, Last Name, Credential(s), and Title	Ampersand, apostrophe, colon, comma, forward slash, hyphen, left and right parentheses, period, pound sign, quotation mark, and semi-colon	Disallowed character(s) found in Contact Person Name field.
Contact Person Telephone Number, and Telephone Extension Number	Accept only digits and alphabet letters (upper and lower case).	Disallowed character(s) found in Contact Person Phone and/or Extension field.
Contact Person E-mail Address	"At" sign, hyphen, period, and underscore.	Disallowed character(s) found in Contact Person Email field.

### 3.3 XML File Naming Rules

XML file names may contain any valid characters; however, they should not contain any special characters or spaces. The allowed set of characters that can be used in constructing an XML File name should be contained in the subset defined as follows: [A-Z][a-z][0-9]. In addition to these, hyphen (-) and underscore ( \_ ) may also be used as valid characters in defining an XML file name. The name of the file is limited to 7 alphanumeric characters in the input XML file. Special characters are not allowed in the file name.

### 3.4 XML File Compression

NPPES 3.0 EFI does not support the submission of zipped/compressed files.

## 4 CSV EFI File Format

Starting with NPES 3.0, CMS will accept EFI files in CSV (comma separated value) format. Each CSV EFI File will contain a **Header** record, at least one **Detail** record, and a **Trailer** record.

The tables in this section define the fields that make up each type of record. Each table consists of the following:

- **Column Field #**  
Depending on how you are creating your CSV file, if you are using Excel to generate your CSV files, the alphabetical portion will identify the spreadsheet column. For example, A-1 will be column A, BB-57 will be column BB in your Excel spreadsheet.
- **Field Name**  
Name of the field
- **Format**  
Identifies if the data must be in a specific format. When blank, no formatting is needed.
- **Max Length**  
Identifies the maximum length of the field
- **Required**  
Identifies if the field is a required field
- **Allowed Values**  
Identifies valid values when the field values are restricted. When populated valid values are comma separated. For example “11, 13” identifies that the field can contain either an “11” or a “13”.
- **Annotation**  
Defines/describes the field

### 4.1 CSV File – Header

Each CSV EFI File must contain one and only one **Header** record. The following table defines the CSV File Header Record

#### 4.1.1 CSV File – Header Record Format

**Exhibit 4-1 CSV File – Header Format**

Column Field #	Field Name	Format	Max Length	Required?	Allowed Values	Annotation
A-1	Record Type	String	1	Yes	H	Identifies this to be the Header record
B-2	File Date	Date (YYYY-MM-DD)	10	Yes		Date of the file
C-3	TransactionSetPurposeCode	String	2	Yes	11, 13	This value indicates whether the file is a request or a response one. 11 – Response. 13 – Request.

Column Field #	Field Name	Format	Max Length	Required?	Allowed Values	Annotation
D-4	TransactionTypeCode	String	2	Yes	RK, U5	Identifies whether the file contains new applications or modification requests  <b>RK</b> – New application request  <b>U5</b> – update/modify an existing NPI application (one that has already been enumerated and assigned an NPI)
E-5	Version	String	5	Yes	3.0	Identifies the NPPES release/software version
F-6	SubmitterName	String	80	Yes		Name of the user submitting the file
G-7	SubmitterIdentifier	Integer	10	Yes		EFI Org ID. The EFI Organization ID is the unique identifier issued by the Enumerator upon the successful completion of this organization's approval process.

## 4.2 CSV File – Detail

Each CSV EFI File must contain at least one **Detail** record. The following table defines the CSV File Detail Record

### 4.2.1 CSV File – Detail Record Format

#### Exhibit 4-2 CSV File – Detail Format

##### Provider Identification Information (A-1 through AK-37)

Column Field #	Field Name	Format	Max Length	Required?	Allowed Values	Annotation
A-1	RecordType	String	1	Yes	D	Identifies this to be a Detail record
B-2	ProviderTrackingReferenceIdentifier	String	50	No		Provider Tracking ID assigned when application is successfully submitted.
C-3	ProviderRequestType	Integer	1	Yes	1, 2	Identifies if the NPI application is for an Individual Provider or an Organizational Provider. 1 – Type 1 NPI, Individual provider 2 – Type 2 NPI, Organizational provider
D-4	NPI	Integer	10	Yes – only if change Request		NPI assigned to an enumerated NPI application. - Not applicable to new applications requests. If populated on a New Application Request, the request will be rejected with an error code of 01. - Required on Change Requests. If NOT populated on a Change Request, the request will be rejected with an error code of 01. If the NPI is not found in the system, request will be rejected with an error code of 10.
E-5	ProviderApplicationStatus	String	2	No	U, 33, A4, IA	Identifies the current status of the NPI record. U – Reject 33 – Active A4 – Pending IA – Deactivate Note: • If the attribute contains values other than the ones specified in the “Allowed Values” list then the entire file will fail schema validation and it will be rejected as a result. No response file will be generated by the EFI

Column Field #	Field Name	Format	Max Length	Required?	Allowed Values	Annotation
						process. The EFI participant will be notified via e-mail only.  • In the Response file, this attribute will contain one of the values from the "Allowed Values" for each record in the file.
F-6	ProviderApplicationStatusReasonCode	String	3			Identifies why an NPI is deactivated. 030 – Fraud A13 – Other C20 – Complete EB1 - Deceased
G-7	ProviderOrganizationNameLBN	String	70	Yes – if for a Type 2 NPI		Identifies the organization legal business name
H-8	ProviderOrganizationNewLBN	String	70	No		Identifies the organization new legal business name
I-9	ProviderLastName	String	35	Yes – if for a Type 1 NPI		Individual Provider's Last Name
J-10	ProviderFirstName	String	20	Yes – if for a Type 1 NPI		Individual Provider's First Name
K-11	ProviderMiddleName	String	20	Optional on a Type 1 NPI		Individual Provider's Middle Name
L-12	ProviderNamePrefix	String	5	Optional on a Type 1 NPI	Ms., Mr., Miss., Mrs., Dr., Prof.	Individual Provider's Name Prefix
M-13	ProviderNameSuffix	String	5	Optional on a Type 1 NPI	Jr., Sr., I, II, III, IV, V, VI, VII, VIII, IX, X	Individual Provider's Name Suffix
N-14	ProviderCredential	String	20	Optional on a Type 1 NPI		Individual Provider's Credentials.
O-15	ProviderOtherNameTypeCode	String	5	Required if one of the Other Name fields is populated	1, 2, 5, 6	1: Former Name 2: Professional Name 5: Other Name 6: Current Name
P-16	ProviderOtherLastName	String	35	Optional on a Type 1 NPI		Individual Provider's Other Last Name
Q-17	ProviderOtherFirstName	String	20	Optional on a Type 1 NPI		Individual Provider's Other First Name
R-18	ProviderOtherMiddleName	String	20	Optional on a Type 1 NPI		Individual Provider's Other Middle Name
S-19	ProviderOtherNamePrefix	String	5	Optional on a Type 1 NPI		Individual Provider's Other Name Prefix
T-20	ProviderOtherNameSuffix	String	5	Optional on a Type 1 NPI		Individual Provider's Other Last Name
U-21	ProviderOtherCredential	String	20	Optional on a Type 1 NPI		Individual Provider's Other Last Name
V-22	ProviderGenderCode	String	1	Required for Type 1 Individual Providers	M, F, X, U	Identifies the gender of an Individual Provider M: Male F: Female X: Unspecified or Another Gender Identity U: Undisclosed
W-23	ProviderDateofBirth	Date (YYYY-MM-DD)	10	Required for Type 1 Individual Providers		Individual Provider's Date of Birth
X-24	ProviderStateofBirth	String	2	Required for Type 1 Individual Providers	See section 6.1 State Reference for US based	Individual Provider's State of Birth, if born in the United States

Column Field #	Field Name	Format	Max Length	Required?	Allowed Values	Annotation
					<i>address valid values</i>	
Y-25	ProviderCountryofBirth	String	2	Required for Type 1 Individual Providers	See section 6.2 Country Reference for valid values	Individual Provider's Country of Birth
Z-26	PrimaryLanguage	String	2	Optional for Type 1	See section 6.3 Language Reference for valid values	Primary Language spoken by the Individual Provider
AA-27	SecondaryLanguage1	String	2	Optional for Type 1	See section 6.3 Language Reference for valid values	First Secondary Language spoken by the Individual Provider
AB-28	SecondaryLanguage2	String	2	Optional for Type 1	See section 6.3 Language Reference for valid values	Second Secondary Language spoken by the Individual Provider
AC-29	SecondaryLanguage3	String	2	Optional for Type 1	See section 6.3 Language Reference for valid values	Third Secondary Language spoken by the Individual Provider
AD-30	SecondaryLanguage4	String	2	Optional for Type 1	See section 6.3 Language Reference for valid values	Fourth Secondary Language spoken by the Individual Provider
AE-31	SecondaryLanguage5	String	2	Optional for Type 1	See section 6.3 Language Reference for valid values	Fifth Secondary Language spoken by the Individual Provider
AF-32	QualifierSSN_ITIN_EIN	String	2	Required	EI, EN, SY, TJ	Identifies what is entered in the SSN_ITIN_EINIdentifier field. EI: EIN EN: Employer's New EIN SY: SSN TJ: ITIN
AG-33	SSN_ITIN_EINIdentifier	String	9	Required		The provider's tax identifier number, An Individual Provider's SSN or ITIN An Organizational Provider's EIN or new EIN
AH-34	IsSoleProprietor	String	1	Optional	Y, N	Identifies whether or not the Individual Provider is a Sole Proprietor. Y: Yes N: No
AI-35	IsOrganizationSubpart	String	1	Required on a Type 2	Y, N	Identifies whether or not the Organizational Provider is a Subpart Y: Yes N: No
AJ-36	ParentOrganizationLBN	String	70	Required on a Type 2 if Subpart is Y (yes)		Parent Organization's Legal Business Name
AK-37	ParentOrganizationTIN	String	9	Required on a Type 2 if Subpart is Y (yes)		Parent Organization's Tax Identifier Number or EIN (Employer Identifier Number)

**Organizational Provider's Other Names (AL-38 through AU-47)****Up to 5 Other Names can be associated with an Organizational Type 2 NPI**

Column Field #	Field Name	Format	Max Length	Required?	Allowed Values	Annotation
AL-38	ProviderOtherOrganizationNameTypeCode1	String	1	Optional for a Type 2 NPI	3, 4, 5, 6	Type of Organizational Provider's Other Name being entered in <i>ProviderOtherOrganizationName1</i> 3: Doing Business As

Column Field #	Field Name	Format	Max Length	Required?	Allowed Values	Annotation
						4: Former Legal Business Name 5: Other Name 6: Current Name
AM-39	ProviderOtherOrganizationName1	String	70	Optional for a Type 2 NPI		Organization Other Name # 1
AN-40	ProviderOtherOrganizationNameTypeCode2	String	1	Optional for a Type 2 NPI	3, 4, 5, 6	Type of Organizational Provider's Other Name being entered in <i>ProviderOtherOrganizationName2</i> 3: Doing Business As 4: Former Legal Business Name 5: Other Name 6: Current Name
AO-41	ProviderOtherOrganizationName2	String	70	Optional for a Type 2 NPI		Organization Other Name # 2
AP-42	ProviderOtherOrganizationNameTypeCode3	String	1	Optional for a Type 2 NPI	3, 4, 5, 6	Type of Organizational Provider's Other Name being entered in <i>ProviderOtherOrganizationName3</i> 3: Doing Business As 4: Former Legal Business Name 5: Other Name 6: Current Name
AQ-43	ProviderOtherOrganizationName3	String	70	Optional for a Type 2 NPI		Organization Other Name # 3
AR-44	ProviderOtherOrganizationNameTypeCode4	String	1	Optional for a Type 2 NPI	3, 4, 5, 6	Type of Organizational Provider's Other Name being entered in <i>ProviderOtherOrganizationName4</i> 3: Doing Business As 4: Former Legal Business Name 5: Other Name 6: Current Name
AS-45	ProviderOtherOrganizationName4	String	70	Optional for a Type 2 NPI		Organization Other Name # 4
AT-46	ProviderOtherOrganizationNameTypeCode5	String	1	Optional for a Type 2 NPI	3, 4, 5, 6	Type of Organizational Provider's Other Name being entered in <i>ProviderOtherOrganizationName5</i> 3: Doing Business As 4: Former Legal Business Name 5: Other Name 6: Current Name
AU-47	ProviderOtherOrganizationName5	String	70	Optional for a Type 2 NPI		Organization Other Name # 5

**Business Mailing Address (AV-48 through BE-57)**

Column Field #	Field Name	Format	Max Length	Required?	Allowed Values	Annotation
AV-48	ProviderBusinessMailingAddressTypeCode	String	2	Required	31	Identifies the Address as the Provider's Business Mailing Address 31: Postal Mailing Address
AW-49	ProviderMailingSameAsHomeAddressYN	String	1	Optional		Identifies if the Business Mailing Address is the same as the Provider's Home Address Y: Yes N: No
AX-50	ProviderFirstLineBusinessMailingAddress	String	55	Yes		First Line of the Provider's Business Mailing Address
AY-51	ProviderSecondLineBusinessMailingAddress	String	55	Optional		Second Line of the Provider's Business Mailing Address
AZ-52	ProviderBusinessMailingAddressCityName	String	40	Required		Provider's Business Mailing Address City
BA-53	ProviderBusinessMailingAddressStateName	String	2	Required	See section 6.1 State Reference for valid values	Provider's Business Mailing Address State Abbreviation
BB-54	ProviderBusinessMailingAddressPostalCode	String	9	First 5 digits are Required		Provider's Business Mailing Address Postal Code.

Column Field #	Field Name	Format	Max Length	Required?	Allowed Values	Annotation
						Only the first 5 digits are required.
BC-55	ProviderBusinessMailingAddressCountryCode	String	2		See section 6.2 Country Reference For valid values	Provider's Business Mailing Address Country Code.
BD-56	ProviderBusinessMailingAddressTelephoneNumber	String	20	Optional		
BE-57	ProviderBusinessMailingAddressFaxNumber	String	20	Optional		

**Up to 5 Practice Location can be associated with a Type 2 NPI for an Organizational Provider, however one must be identified as the Primary Practice Location.**

**Practice Location Number 1 (BF-58 through CT-98)**

Column Field #	Field Name	Format	Max Length	Required?	Allowed Values	Annotation
BF-58	ProviderBusinessPracticeLocationAddressTypeCode1	String	2	Required	31	Identifies the Address as the Provider's Practice Location Address 1. 31: Postal Mailing Address
BG-59	ProviderBusinessSameAsHomeAddressYN1	String	1	Required if ProviderBusinessPracticeLocationAddressTypeCode1 is populated	Y, N	Identifies if the Practice Location Address 1 is the same as the Provider's Home Address Y: Yes N: No
BH-60	ProviderBusinessPrimaryLocationYN1	String	1	Required	Y, N	Line 1 of the Provider's Practice Location Address 1
BI-61	ProviderFirstLineBusinessPracticeLocationAddress1	String	55	Required		Line 1 of the Provider's Practice Location Address 1
BJ-62	ProviderSecondLineBusinessPracticeLocationAddress1	String	55	Optional		Line 2 of the Provider's Practice Location Address 1
BK-63	ProviderBusinessPracticeLocationAddressCityName1	String	40	Required		City of the Provider's Practice Location Address 1
BL-64	ProviderBusinessPracticeLocationAddressStateName1	String	2	Required	See section 6.1 State Reference for valid values	State abbreviation of the Provider's Practice Location Address 1.
BM-65	ProviderBusinessPracticeLocationAddressPostalCode1	String	9	First 5 digits are Required		Postal/Zip Code of the Provider's Practice Location Address 1. Only the first 5 digits are required.
BN-66	ProviderBusinessPracticeLocationAddressCountryCode1	String	2	Required	See section 6.2 Country Reference for valid values	Country Code of the Provider's Practice Location 1.
BO-67	ProviderBusinessPracticeLocationAddressTelephoneNumber1	String	20	Required		Telephone Number of the Provider's Practice Location 1.
BP-68	ProviderBusinessPracticeLocationAddressFaxNumber1	String	20	Optional		Fax Number of the Provider's Practice Location 1.
BQ-69	IsPracticeLocationDisabilityAccessible1	String	1	Optional	Y,N	Identifies whether the Provider's Practice Location 1 is accessible to individuals with mobility disabilities.
BR-70	IsPracticeLocationRoomDisabilityAccessible1	String	1	Optional	Y,N	Identifies whether the Provider's Practice Location 1 has exam rooms that are accessible to individuals with mobility disabilities.
BS-71	IsPracticeLocationMedicalEquipmentDisabilityAccessible1	String	1	Optional	Y,N	Identifies whether the Provider's Practice Location 1 has medical equipment that is accessible to individuals with mobility disabilities.
BT-72	PracticeLocation1Language1	String	2	Optional	See section 6.3 Language	First Language spoken at the Provider's Practice Location 1.

Column Field #	Field Name	Format	Max Length	Required?	Allowed Values	Annotation
					<i>Reference for valid values</i>	
BU-73	PracticeLocation1Language2	String	2	Optional	See section 6.3 Language <i>Reference for valid values</i>	Second Language spoken at the Provider's Practice Location 1.
BV-74	PracticeLocation1Language3	String	2	Optional	See section 6.3 Language <i>Reference for valid values</i>	Third Language spoken at the Provider's Practice Location 1.
BW-75	PracticeLocation1Language4	String	2	Optional	See section 6.3 Language <i>Reference for valid values</i>	Fourth Language spoken at the Provider's Practice Location 1.
BX-76	PracticeLocation1Language5	String	2	Optional	See section 6.3 Language <i>Reference for valid values</i>	Fifth Language spoken at the Provider's Practice Location 1.
BY-77	PracticeLocation1Language6	String	2	Optional	See section 6.3 Language <i>Reference for valid values</i>	Sixth Language spoken at the Provider's Practice Location 1.
BZ-78	PracticeLocationOpenorCloseMonday1	String	5	Optional	OPEN, CLOSE	Identifies if the Provider's Practice Location 1 is Open or Closed on Mondays. OPEN: Office is Open CLOSE: Office is Closed
CA-79	PracticeLocationOpenHourMonday1	9:99	10	Required if PracticeLocationOpenorCloseMonday1 = OPEN	See section 6.4 Office Hours <i>Reference for valid values</i>	If Provider's Practice Location 1 is open on Mondays, identifies what time the office is open. Allowed time from 5:00 AM To 11:45 PM, in 15 minute increments.
CB-80	PracticeLocationCloseHourMonday1	String	10	Required if PracticeLocationOpenorCloseMonday1 = OPEN	See section 6.4 Office Hours <i>Reference for valid values</i>	If Provider's Practice Location 1 is open on Mondays, identifies what time the office closes. Allowed time from 5:00 AM To 11:45 PM, in 15 minute increments.
CC-81	PracticeLocationOpenorCloseTuesday1	String	5	Optional	OPEN, CLOSE	Identifies if the Provider's Practice Location 1 is Open or Closed on Tuesdays. OPEN: Office is Open CLOSE: Office is Closed
CD-82	PracticeLocationOpenHourTuesday1	String	10	Required if PracticeLocationOpenorCloseTuesday1 = OPEN	See section 6.4 Office Hours <i>Reference for valid values</i>	If Provider's Practice Location 1 is open on Tuesdays, identifies what time the office is open. Allowed time from 5:00 AM To 11:45 PM, in 15 minute increments.
CE-83	PracticeLocationCloseHourTuesday1	String	10	Required if PracticeLocationOpenorCloseTuesday1 = OPEN	See section 6.4 Office Hours <i>Reference for valid values</i>	If Provider's Practice Location 1 is open on Tuesdays, identifies what time the office closes. Allowed time from 5:00 AM To 11:45 PM, in 15 minute increments.
CF-84	PracticeLocationOpenorCloseWednesday1	String	5		OPEN, CLOSE	Identifies if the Provider's Practice Location 1 is Open or Closed on Wednesdays. OPEN: Office is Open CLOSE: Office is Closed

Column Field #	Field Name	Format	Max Length	Required?	Allowed Values	Annotation
CG-85	PracticeLocationOpenHourWednesday1	String	10	Required if PracticeLocationOpenorCloseWednesday1 = OPEN	See section 6.4 Office Hours Reference for valid values	If Provider's Practice Location 1 is open on Wednesdays, identifies what time the office is open. Allowed time from 5:00 AM To 11:45 PM, in 15 minute increments.
CH-86	PracticeLocationCloseHourWednesday1	String	10	Required if PracticeLocationOpenorCloseWednesday1 = OPEN	See section 6.4 Office Hours Reference for valid values	If Provider's Practice Location 1 is open on Wednesdays, identifies what time the office closes. Allowed time from 5:00 AM To 11:45 PM, in 15 minute increments.
CI-87	PracticeLocationOpenorCloseThursday1	String	5	Optional	OPEN, CLOSE	Identifies if the Provider's Practice Location 1 is Open or Closed on Thursdays. OPEN: Office is Open CLOSE: Office is Closed
CJ-88	PracticeLocationOpenHourThursday1	String	10	Required if PracticeLocationOpenorCloseThursday1 = OPEN	See section 6.4 Office Hours Reference for valid values	If Provider's Practice Location 1 is open on Thursdays, identifies what time the office is open. Allowed time from 5:00 AM To 11:45 PM, in 15 minute increments.
CK-89	PracticeLocationCloseHourThursday1	String	10	Required if PracticeLocationOpenorCloseThursday1 = OPEN	See section 6.4 Office Hours Reference for valid values	If Provider's Practice Location 1 is open on Thursdays, identifies what time the office closes. Allowed time from 5:00 AM To 11:45 PM, in 15 minute increments.
CL-90	PracticeLocationOpenorCloseFriday1	String	5	Optional	OPEN, CLOSE	Identifies if the Provider's Practice Location 1 is Open or Closed on Fridays. OPEN: Office is Open CLOSE: Office is Closed
CM-91	PracticeLocationOpenHourFriday1	String	10	Required if PracticeLocationOpenorCloseFriday1 = OPEN	See section 6.4 Office Hours Reference for valid values	If Provider's Practice Location 1 is open on Fridays, identifies what time the office is open. Allowed time from 5:00 AM To 11:45 PM, in 15 minute increments.
CN-92	PracticeLocationCloseHourFriday1	String	10	Required if PracticeLocationOpenorCloseFriday1 = OPEN	See section 6.4 Office Hours Reference for valid values	If Provider's Practice Location 1 is open on Fridays, identifies what time the office closes. Allowed time from 5:00 AM To 11:45 PM, in 15 minute increments.
CO-93	PracticeLocationOpenorCloseSaturday1	String	5		OPEN, CLOSE	Identifies if the Provider's Practice Location 1 is Open or Closed on Saturdays. OPEN: Office is Open CLOSE: Office is Closed
CP-94	PracticeLocationOpenHourSaturday1	String	10	Required if PracticeLocationOpenorCloseSaturday1 = OPEN	See section 6.4 Office Hours Reference for valid values	If Provider's Practice Location 1 is open on Saturdays, identifies what time the office is open. Allowed time from 5:00 AM To 11:45 PM, in 15 minute increments.
CQ-95	PracticeLocationCloseHourSaturday1	String	10	Required if PracticeLocationOpenorCloseSaturday1 = OPEN	See section 6.4 Office Hours Reference for valid values	If Provider's Practice Location 1 is open on Saturdays, identifies what time the office closes. Allowed time from 5:00 AM To 11:45 PM, in 15 minute increments.
CR-96	PracticeLocationOpenorCloseSunday1	String	5		OPEN, CLOSE	Identifies if the Provider's Practice Location 1 is Open or Closed on Sundays. OPEN: Office is Open

Column Field #	Field Name	Format	Max Length	Required?	Allowed Values	Annotation
						CLOSE: Office is Closed
CS-97	PracticeLocationOpenHourSunday1	String	10	Required if PracticeLocationOpenorCloseSunday1 = OPEN	See section 6.4 Office Hours Reference for valid values	If Provider's Practice Location 1 is open on Sundays, identifies what time the office is open. Allowed time from 5:00 AM To 11:45 PM, in 15 minute increments.
CT-98	PracticeLocationCloseHourSunday1	String	10	Required if PracticeLocationOpenorCloseSunday1 = OPEN	See section 6.4 Office Hours Reference for valid values	If Provider's Practice Location 1 is open on Sundays, identifies what time the office closes. Allowed time from 5:00 AM To 11:45 PM, in 15 minute increments.

**Practice Location Number 2 (CU-99 through EI-139)**

Column Field #	Field Name	Format	Max Length	Required?	Allowed Values	Annotation
CU-99	ProviderBusinessPracticeLocationAddressTypeCode2	String	2	Required	31	Identifies the Address as the Provider's Practice Location Address 2. 31: Postal Mailing Address
CV-100	ProviderBusinessSameAsHomeAddressYN2	String	1	Required if ProviderBusinessPracticeLocationAddressTypeCode2 is populated	Y, N	Identifies if the Practice Location Address 2 is the same as the Provider's Home Address Y: Yes N: No
CW-101	ProviderBusinessPrimaryLocationYN2	String	1	Required if ProviderBusinessPracticeLocationAddressTypeCode2 is populated	Y, N	Identifies Practice Location Address 2 as the Primary Practice Location Y: Yes N: No
CX-102	ProviderFirstLineBusinessPracticeLocationAddress2	String	55	Required if ProviderBusinessPracticeLocationAddressTypeCode2 is populated		Line 1 of the Provider's Practice Location Address 2
CY-103	ProviderSecondLineBusinessPracticeLocationAddress2	String	55	Optional		Line 2 of the Provider's Practice Location Address 2
CZ-104	ProviderBusinessPracticeLocationAddressCityName2	String	40	Required if ProviderBusinessPracticeLocationAddressTypeCode2 is populated		City of the Provider's Practice Location Address 2
DA-105	ProviderBusinessPracticeLocationAddressStateName2	String	2	Required if ProviderBusinessPracticeLocationAddressTypeCode2 is populated	See section 6.1 State Reference for valid values	State abbreviation of the Provider's Practice Location Address 2.
DB-106	ProviderBusinessPracticeLocationAddressPostalCode2	String	9	Required if ProviderBusinessPracticeLocationAddressTypeCode2 is populated		Postal/Zip Code of the Provider's Practice Location 2. Only the first 5 digits are required.
DC-107	ProviderBusinessPracticeLocationAddressCountryCode2	String	2	Required if ProviderBusinessPracticeLocationAddressTypeCode2 is populated	See section 6.2 Country Reference for valid values	Country Code of the Provider's Practice Location 2.
DD-108	ProviderBusinessPracticeLocationAddressTelephoneNumber2	String	20	Required if ProviderBusinessPracticeLocationAddressTypeCode2 is populated		Telephone Number of the Provider's Practice Location 2.
DE-109	ProviderBusinessPracticeLocationAddressFaxNumber2	String	20	Optional		Fax Number of the Provider's Practice Location 2.

Column Field #	Field Name	Format	Max Length	Required?	Allowed Values	Annotation

Column Field #	Field Name	Format	Max Length	Required?	Allowed Values	Annotation
HT-228	ProviderBusinessPracticeLocationAddressStateName5	String	2	Required if ProviderBusinessPracticeLocationAddressTypeCode5 is populated	See section 6.1 State Reference for valid values	State abbreviation of the Provider's Practice Location Address 5.
HU-229	ProviderBusinessPracticeLocationAddressPostalCode5	String	9	Required if ProviderBusinessPracticeLocationAddressTypeCode4 is populated		Postal/Zip Code of the Provider's Practice Location 5 Only the first 5 digits are required.
HV-230	ProviderBusinessPracticeLocationAddressCountryCode5	String	2	Required if ProviderBusinessPracticeLocationAddressTypeCode4 is populated	See section 6.2 Country Reference for valid values	Country Code of the Provider's Practice Location 5.
HW-231	ProviderBusinessPracticeLocationAddressTelephoneNumber5	String	20	Required if ProviderBusinessPracticeLocationAddressTypeCode4 is populated		Telephone Number of the Provider's Practice Location 5.
HX-232	ProviderBusinessPracticeLocationAddressFaxNumber5	String	20	Optional		Fax Number of the Provider's Practice Location 5.
HY-233	IsPracticeLocationDisabilityAccessible5	String	1	Optional	Y, N	Identifies whether the Provider's Practice Location 5 is accessible to individuals with mobility disabilities. Y: Yes N: No
HZ-234	IsPracticeLocationRoomDisabilityAccessible5	String	1	Optional	Y, N	Identifies whether the Provider's Practice Location 5 has exam rooms that are accessible to individuals with mobility disabilities. Y: Yes N: No
IA-235	IsPracticeLocationMedicalEquipmentDisabilityAccessible5	String	1	Optional	Y, N	Identifies whether the Provider's Practice Location 5 has medical equipment that is accessible to individuals with mobility disabilities. Y: Yes N: No
IB-236	PracticeLocation5Language1	String	2	Optional	See section 6.3 Language Reference for valid values	First Language spoken at the Provider's Practice Location 5.
IC-237	PracticeLocation5Language2	String	2	Optional	See section 6.3 Language Reference for valid values	Second Language spoken at the Provider's Practice Location 5.
ID-238	PracticeLocation5Language3	String	2	Optional	See section 6.3 Language Reference for valid values	Third Language spoken at the Provider's Practice Location 5.
IE-239	PracticeLocation5Language4	String	2	Optional	See section 6.3 Language Reference for valid values	Fourth Language spoken at the Provider's Practice Location 5.
IF-240	PracticeLocation5Language5	String	2	Optional	See section 6.3 Language Reference for valid values	Fifth Language spoken at the Provider's Practice Location 5.
IG-241	PracticeLocation5Language6	String	2	Optional	See section 6.3 Language Reference for valid values	Sixth Language spoken at the Provider's Practice Location 5.
IH-242	PracticeLocationOpenorCloseMonday5	String	5	Optional	OPEN, CLOSE	Identifies if the Provider's Practice Location 5 is Open or Closed on Mondays. OPEN: Office is Open

Column Field #	Field Name	Format	Max Length	Required?	Allowed Values	Annotation
						CLOSE: Office is Closed
II-243	PracticeLocationOpenHourMonday5	String	10	Required if PracticeLocationOpenorCloseMonday5 = OPEN	See section 6.4 Office Hours Reference for valid values	If Provider's Practice Location 5 is open on Mondays, identifies what time the office is open. Allowed time from 5:00 AM To 11:45 PM, in 15 minute increments.
IJ-244	PracticeLocationCloseHourMonday5	String	10	Required if PracticeLocationOpenorCloseMonday5 = OPEN	See section 6.4 Office Hours Reference for valid values	If Provider's Practice Location 5 is open on Mondays, identifies what time the office closes. Allowed time from 5:00 AM To 11:45 PM, in 15 minute increments.
IK-245	PracticeLocationOpenorCloseTuesday5	String	5	Optional	OPEN, CLOSE	Identifies if the Provider's Practice Location 5 is Open or Closed on Tuesdays. OPEN: Office is Open CLOSE: Office is Closed
IL-246	PracticeLocationOpenHourTuesday5	String	10	Required if PracticeLocationOpenorCloseTuesday5 = OPEN	See section 6.4 Office Hours Reference for valid values	If Provider's Practice Location 5 is open on Tuesdays, identifies what time the office is open. Allowed time from 5:00 AM To 11:45 PM, in 15 minute increments.
IM-247	PracticeLocationCloseHourTuesday5	String	10	Required if PracticeLocationOpenorCloseTuesday5 = OPEN	See section 6.4 Office Hours Reference for valid values	If Provider's Practice Location 5 is open on Tuesdays, identifies what time the office closes. Allowed time from 5:00 AM To 11:45 PM, in 15 minute increments.
IN-248	PracticeLocationOpenorCloseWednesday5	String	5	Optional	OPEN, CLOSE	Identifies if the Provider's Practice Location 5 is Open or Closed on Wednesdays. OPEN: Office is Open CLOSE: Office is Closed
IO-249	PracticeLocationOpenHourWednesday5	String	10	Required if PracticeLocationOpenorCloseWednesday5 = OPEN	See section 6.4 Office Hours Reference for valid values	If Provider's Practice Location 5 is open on Wednesdays, identifies what time the office is open. Allowed time from 5:00 AM To 11:45 PM, in 15 minute increments.
IP-250	PracticeLocationCloseHourWednesday5	String	10	Required if PracticeLocationOpenorCloseWednesday5 = OPEN	See section 6.4 Office Hours Reference for valid values	If Provider's Practice Location 5 is open on Wednesdays, identifies what time the office closes. Allowed time from 5:00 AM To 11:45 PM, in 15 minute increments.
IQ-251	PracticeLocationOpenorCloseThursday5	String	5	Optional	OPEN, CLOSE	Identifies if the Provider's Practice Location 5 is Open or Closed on Thursdays. OPEN: Office is Open CLOSE: Office is Closed
IR-252	PracticeLocationOpenHourThursday5	String	10	Required if PracticeLocationOpenorCloseThursday5 = OPEN	See section 6.4 Office Hours Reference for valid values	If Provider's Practice Location 5 is open on Thursdays, identifies what time the office is open. Allowed time from 5:00 AM To 11:45 PM, in 15 minute increments.
IS-253	PracticeLocationCloseHourThursday5	String	10	Required if PracticeLocationOpenorCloseThursday5 = OPEN	See section 6.4 Office Hours Reference for valid values	If Provider's Practice Location 5 is open on Thursdays, identifies what time the office closes. Allowed time from 5:00 AM To 11:45 PM, in 15 minute increments.
IT-254	PracticeLocationOpenorCloseFriday5	String	5	Optional	OPEN, CLOSE	Identifies if the Provider's Practice Location 5 is Open or Closed on Fridays. OPEN: Office is Open CLOSE: Office is Closed
IU-255	PracticeLocationOpenHourFriday5	String	10	Required if PracticeLocationOpenorCloseFriday5 = OPEN	See section 6.4 Office Hours Reference for valid values	If Provider's Practice Location 5 is open on Fridays, identifies what time the office is open. Allowed time from 5:00 AM To 11:45 PM, in 15 minute increments.

Column Field #	Field Name	Format	Max Length	Required?	Allowed Values	Annotation
IV-256	PracticeLocationCloseHourFriday5	String	10	Required if PracticeLocationOpenorCloseFriday5 = OPEN	See section 6.4 Office Hours Reference for valid values	If Provider's Practice Location 5 is open on Fridays, identifies what time the office closes. Allowed time from 5:00 AM To 11:45 PM, in 15 minute increments.
IW-257	PracticeLocationOpenorCloseSaturday5	String	5	Optional	OPEN, CLOSE	Identifies if the Provider's Practice Location 5 is Open or Closed on Saturdays. OPEN: Office is Open CLOSE: Office is Closed
IX-258	PracticeLocationOpenHourSaturday5	String	10	Required if PracticeLocationOpenorCloseSaturday5 = OPEN	See section 6.4 Office Hours Reference for valid values	If Provider's Practice Location 5 is open on Saturdays, identifies what time the office is open. Allowed time from 5:00 AM To 11:45 PM, in 15 minute increments.
IY-259	PracticeLocationCloseHourSaturday5	String	10	Required if PracticeLocationOpenorCloseSaturday5 = OPEN	See section 6.4 Office Hours Reference for valid values	If Provider's Practice Location 5 is open on Saturdays, identifies what time the office closes. Allowed time from 5:00 AM To 11:45 PM, in 15 minute increments.
IZ-260	PracticeLocationOpenorCloseSunday5	String	5	Optional	OPEN, CLOSE	Identifies if the Provider's Practice Location 5 is Open or Closed on Sundays. OPEN: Office is Open CLOSE: Office is Closed
JA-261	PracticeLocationOpenHourSunday5	String	10	Required if PracticeLocationOpenorCloseSunday5 = OPEN	See section 6.4 Office Hours Reference for valid values	If Provider's Practice Location 5 is open on Sundays, identifies what time the office is open. Allowed time from 5:00 AM To 11:45 PM, in 15 minute increments.
JB-262	PracticeLocationCloseHourSunday5	String	10	Required if PracticeLocationOpenorCloseSunday5 = OPEN	See section 6.4 Office Hours Reference for valid values	If Provider's Practice Location 5 is open on Sundays, identifies what time the office closes. Allowed time from 5:00 AM To 11:45 PM, in 15 minute increments.

**Taxonomy Information (JC-263 through LY-337)**

Up to 15 Taxonomies can be associated with an NPI.

Column Field #	Field Name	Format	Max Length	Required?	Allowed Values	Annotation
JC-263	HealthcareProviderTaxonomyCode1	String	10	Required		Taxonomy Code 1
JD-264	ProviderLicenseNumber1	String	20	Required for certain individual taxonomy codes.		License associated with Taxonomy Code 1
JE-265	ProviderLicenseNumberStateCode1	String	2	Required if License Number contains data	See section 6.1 State Reference for valid values	State abbreviation associated with Taxonomy Code 1
JF-266	HealthcareProviderPrimaryTaxonomySwitch1	String	1	Required	Y, N	Identifies whether or not Taxonomy Code 1 is the Primary Taxonomy Y: Yes N: No
JG-267	HealthcareProviderTaxonomyCode2	String	10	Optional		Taxonomy Code 2
JH-268	ProviderLicenseNumber2	String	20	Required for certain individual taxonomy codes.		License associated with Taxonomy Code 2
JI-269	ProviderLicenseNumberStateCode2	String	2	Required if License Number contains data	See section 6.1 State Reference for valid values	State abbreviation associated with Taxonomy Code 2
JJ-270	HealthcareProviderPrimaryTaxonomySwitch2	String	1	Required if HealthcareProviderTaxonomyCode2 is populated	Y, N	Identifies whether or not Taxonomy Code 2 is the Primary Taxonomy Y: Yes N: No

Column Field #	Field Name	Format	Max Length	Required?	Allowed Values	Annotation
JK-271	HealthcareProviderTaxonomyCode3	String	10	Optional		Taxonomy Code 3
JL-272	ProviderLicenseNumber3	String	20	Required for certain individual taxonomy codes.		License associated with Taxonomy Code 3
JM-273	ProviderLicenseNumberStateCode3	String	2	Required if License Number contains data	See section 6.1 State Reference for valid values	State abbreviation associated with Taxonomy Code 3
JN-274	HealthcareProviderPrimaryTaxonomySwitch3	String	1	Required if HealthcareProviderTaxonomyCode3 is populated	Y, N	Identifies whether or not Taxonomy Code 3 is the Primary Taxonomy Y: Yes N: No
JO-275	HealthcareProviderTaxonomyCode4	String	10	Optional		Taxonomy Code 4
JP-276	ProviderLicenseNumber4	String	20	Required for certain individual taxonomy codes.		License associated with Taxonomy Code 4
JQ-277	ProviderLicenseNumberStateCode4	String	2	Required if License Number contains data	See section 6.1 State Reference for valid values	State abbreviation associated with Taxonomy Code 4
JR-278	HealthcareProviderPrimaryTaxonomySwitch4	String	1	Required if HealthcareProviderTaxonomyCode4 is populated	Y, N	Identifies whether or not Taxonomy Code 4 is the Primary Taxonomy Y: Yes N: No
JS-279	HealthcareProviderTaxonomyCode5	String	10	Optional		Taxonomy Code 5
JT-280	ProviderLicenseNumber5	String	20	Required for certain individual taxonomy codes.		License associated with Taxonomy Code 5
JU-281	ProviderLicenseNumberStateCode5	String	2	Required if License Number contains data	See section 6.1 State Reference for valid values	State abbreviation associated with Taxonomy Code 5
JV-282	HealthcareProviderPrimaryTaxonomySwitch5	String	1	Required if HealthcareProviderTaxonomyCode5 is populated	Y, N	Identifies whether or not Taxonomy Code 5 is the Primary Taxonomy Y: Yes N: No
JW-283	HealthcareProviderTaxonomyCode6	String	10	Optional		Taxonomy Code 6
JX-284	ProviderLicenseNumber6	String	20	Required for certain individual taxonomy codes.		License associated with Taxonomy Code 2
JY-285	ProviderLicenseNumberStateCode6	String	2	Required if License Number contains data	See section 6.1 State Reference for valid values	State abbreviation associated with Taxonomy Code 6
JZ-286	HealthcareProviderPrimaryTaxonomySwitch6	String	1	Required if HealthcareProviderTaxonomyCode6 is populated	Y, N	Identifies whether or not Taxonomy Code 6 is the Primary Taxonomy Y: Yes N: No
KA-287	HealthcareProviderTaxonomyCode7	String	10	Optional		Taxonomy Code 7
KB-288	ProviderLicenseNumber7	String	20	Required for certain individual taxonomy codes.		License associated with Taxonomy Code 7
KC-289	ProviderLicenseNumberStateCode7	String	2	Required if License Number contains data	See section 6.1 State Reference for valid values	State abbreviation associated with Taxonomy Code 7
KD-290	HealthcareProviderPrimaryTaxonomySwitch7	String	1	Required if HealthcareProviderTaxonomyCode7 is populated	Y, N	Identifies whether or not Taxonomy Code 7 is the Primary Taxonomy Y: Yes N: No
KE-291	HealthcareProviderTaxonomyCode8	String	10	Optional		Taxonomy Code 8
KF-292	ProviderLicenseNumber8	String	20	Required for certain individual taxonomy codes.		License associated with Taxonomy Code 8

Column Field #	Field Name	Format	Max Length	Required?	Allowed Values	Annotation
KG-293	ProviderLicenseNumberStateCode8	String	2	Required if License Number contains data	See section 6.1 State Reference for valid values	State abbreviation associated with Taxonomy Code 8
KH-294	HealthcareProviderPrimaryTaxonomySwitch8	String	1	Required if HealthcareProviderTaxonomyCode8 is populated	Y, N	Identifies whether or not Taxonomy Code 8 is the Primary Taxonomy Y: Yes N: No
KI-295	HealthcareProviderTaxonomyCode9	String	10	Optional		Taxonomy Code 9
KJ-296	ProviderLicenseNumber9	String	20	Required for certain individual taxonomy codes.		License associated with Taxonomy Code 9
KK-297	ProviderLicenseNumberStateCode9	String	2	Required if License Number contains data	See section 6.1 State Reference for valid values	State abbreviation associated with Taxonomy Code 9
KL-298	HealthcareProviderPrimaryTaxonomySwitch9	String	1	Required if HealthcareProviderTaxonomyCode9 is populated	Y, N	Identifies whether or not Taxonomy Code 9 is the Primary Taxonomy Y: Yes N: No
KM-299	HealthcareProviderTaxonomyCode10	String	10	Optional		Taxonomy Code 10
KN-300	ProviderLicenseNumber10	String	20	Required for certain individual taxonomy codes.		License associated with Taxonomy Code 2
KO-301	ProviderLicenseNumberStateCode10	String	2	Required if License Number contains data	See section 6.1 State Reference for valid values	State abbreviation associated with Taxonomy Code 10
KP-302	HealthcareProviderPrimaryTaxonomySwitch10	String	1	Required if HealthcareProviderTaxonomyCode10 is populated	Y, N	Identifies whether or not Taxonomy Code 10 is the Primary Taxonomy Y: Yes N: No
KQ-303	HealthcareProviderTaxonomyCode11	String	10	Optional		Taxonomy Code 11
KR-304	ProviderLicenseNumber11	String	20	Required for certain individual taxonomy codes.		License associated with Taxonomy Code 11
KS-305	ProviderLicenseNumberStateCode11	String	2	Required if License Number contains data	See section 6.1 State Reference for valid values	State abbreviation associated with Taxonomy Code 11
KT-306	HealthcareProviderPrimaryTaxonomySwitch11	String	1	Required if HealthcareProviderTaxonomyCode11 is populated	Y, N	Identifies whether or not Taxonomy Code 11 is the Primary Taxonomy Y: Yes N: No
KU-307	HealthcareProviderTaxonomyCode12	String	10	Optional		Taxonomy Code 12
KV-308	ProviderLicenseNumber12	String	20	Required for certain individual taxonomy codes.		License associated with Taxonomy Code 12
KW-309	ProviderLicenseNumberStateCode12	String	2	Required if License Number contains data	See section 6.1 State Reference for valid values	State abbreviation associated with Taxonomy Code 12
KX-310	HealthcareProviderPrimaryTaxonomySwitch12	String	1	Required if HealthcareProviderTaxonomyCode12 is populated	Y, N	Identifies whether or not Taxonomy Code 12 is the Primary Taxonomy Y: Yes N: No
KY-311	HealthcareProviderTaxonomyCode13	String	10	Optional		Taxonomy Code 13
KZ-312	ProviderLicenseNumber13	String	20	Required for certain individual taxonomy codes.		License associated with Taxonomy Code 13
LA-313	ProviderLicenseNumberStateCode13	String	2	Required if License Number contains data	See section 6.1 State Reference for valid values	State abbreviation associated with Taxonomy Code 13
LB-314	HealthcareProviderPrimaryTaxonomySwitch13	String	1	Required if HealthcareProvider	Y, N	Identifies whether or not Taxonomy Code 1 is the Primary Taxonomy

Column Field #	Field Name	Format	Max Length	Required?	Allowed Values	Annotation
				TaxonomyCode13 is populated		Y: Yes N: No
LC-315	HealthcareProviderTaxonomyCode14	String	10	Optional		Taxonomy Code 14
LD-316	ProviderLicenseNumber14	String	20	Required for certain individual taxonomy codes.		License associated with Taxonomy Code 14
LE-317	ProviderLicenseNumberStateCode14	String	2	Required if License Number contains data	See section 6.1 State Reference for valid values	State abbreviation associated with Taxonomy Code 14
LF-318	HealthcareProviderPrimaryTaxonomySwitch14	String	1	Required if HealthcareProviderTaxonomyCode14 is populated	Y, N	Identifies whether or not Taxonomy Code 14 is the Primary Taxonomy Y: Yes N: No
LG-319	HealthcareProviderTaxonomyCode15	String	10	Optional		Taxonomy Code 15
LH-320	ProviderLicenseNumber15	String	20	Required for certain individual taxonomy codes.		License associated with Taxonomy Code 15
LI-321	ProviderLicenseNumberStateCode15	String	2	Required if License Number contains data	See section 6.1 State Reference for valid values	State abbreviation associated with Taxonomy Code 15
LJ-322	HealthcareProviderPrimaryTaxonomySwitch15	String	1	Required if HealthcareProviderTaxonomyCode15 is populated	Y, N	Identifies whether or not Taxonomy Code 15 is the Primary Taxonomy Y: Yes N: No
LK-323	HealthcareProviderTaxonomyGroup1	String	30	Optional for Type 2 NPIs		Identifies if Taxonomy 1 is a group Taxonomy.
LL-324	HealthcareProviderTaxonomyGroup2	String	30	Optional for Type 2 NPIs		Identifies if Taxonomy 1 is a group Taxonomy.
LM-325	HealthcareProviderTaxonomyGroup3	String	30	Optional for Type 2 NPIs		Identifies if Taxonomy 1 is a group Taxonomy.
LN-326	HealthcareProviderTaxonomyGroup4	String	30	Optional for Type 2 NPIs		Identifies if Taxonomy 1 is a group Taxonomy.
LO-327	HealthcareProviderTaxonomyGroup5	String	30	Optional for Type 2 NPIs		Identifies if Taxonomy 1 is a group Taxonomy.
LP-328	HealthcareProviderTaxonomyGroup6	String	30	Optional for Type 2 NPIs		Identifies if Taxonomy 1 is a group Taxonomy.
LQ-329	HealthcareProviderTaxonomyGroup7	String	30	Optional for Type 2 NPIs		Identifies if Taxonomy 1 is a group Taxonomy.
LR-330	HealthcareProviderTaxonomyGroup8	String	30	Optional for Type 2 NPIs		Identifies if Taxonomy 8 is a group Taxonomy.
LS-331	HealthcareProviderTaxonomyGroup9	String	30	Optional for Type 2 NPIs		Identifies if Taxonomy 9 is a group Taxonomy.
LT-332	HealthcareProviderTaxonomyGroup10	String	30	Optional for Type 2 NPIs		Identifies if Taxonomy 10 is a group Taxonomy.
LU-333	HealthcareProviderTaxonomyGroup11	String	30	Optional for Type 2 NPIs		Identifies if Taxonomy 11 is a group Taxonomy.
LV-334	HealthcareProviderTaxonomyGroup12	String	30	Optional for Type 2 NPIs		Identifies if Taxonomy 12 is a group Taxonomy.
LW-335	HealthcareProviderTaxonomyGroup13	String	30	Optional for Type 2 NPIs		Identifies if Taxonomy 13 is a group Taxonomy.
LX-336	HealthcareProviderTaxonomyGroup14	String	30	Optional for Type 2 NPIs		Identifies if Taxonomy 14 is a group Taxonomy.
LY-337	HealthcareProviderTaxonomyGroup15	String	30	Optional for Type 2 NPIs		Identifies if Taxonomy 15 is a group Taxonomy.

**Other Identifier Fields (LZ-338 through TQ-537)**

**Up to 50 Other Identifiers can be associated with an NPI**

Column Field #	Field Name	Format	Max Length	Required?	Allowed Values	Annotation
LZ-338	OtherProviderIdentifier1	String	20	Optional		Other Identifier #1
MA-339	OtherProviderIdentifierTypeCode1	String	2	Required if OtherProviderIdentifier1 is populated	1A, 1B, 1C, 1D, 1G, 1H, G2, MP, NS, OS, OT	Other Identifier #1 Type Code identifies the issuer of the Other Identifier. 1A – Blue Cross Provider Number 1B – Blue Shield Provider Number 1C – MEDICARE ID Unknown 1D – MEDICAID 1G – MEDICARE UPIN 1H – CHAMPUS Identification Number G2 – Provider Commercial Number MP – MEDICARE PIN NS – MEDICARE NSC OS – MEDICARE OSCAR OT – Other Type
MB-340	OtherProviderIdentifierState1	String	2	Required if OtherProviderIdentifier1 = 1D	See section 6.1 State Reference for valid values	Other Identifier #1 State Required for all Medicaid Other Identifiers.
MC-341	OtherProviderIdentifierIssuer1	String	70	Required if OtherProviderIdentifier1 = OT		Other Identifier #1 Other Issuer identifies the actual issuer of the Other Identifier. Required if Other Identifier #1 Type Code is OT(other)
MD-342	OtherProviderIdentifier2	String	20	Optional		Other Identifier #2
ME-343	OtherProviderIdentifierTypeCode2	String	2	Required if OtherProviderIdentifier2 is populated	1A, 1B, 1C, 1D, 1G, 1H, G2, MP, NS, OS, OT	Other Identifier #2 Type Code identifies the issuer of the Other Identifier. 1A – Blue Cross Provider Number 1B – Blue Shield Provider Number 1C – MEDICARE ID Unknown 1D – MEDICAID 1G – MEDICARE UPIN 1H – CHAMPUS Identification Number G2 – Provider Commercial Number MP – MEDICARE PIN NS – MEDICARE NSC OS – MEDICARE OSCAR OT – Other Type
MF-344	OtherProviderIdentifierState2	String	2	Required if OtherProviderIdentifier2 = 1D	See section 6.1 State Reference for valid values	Other Identifier #2 State Required for all Medicaid Other Identifiers.
MG-345	OtherProviderIdentifierIssuer2	String	70	Required if OtherProviderIdentifier2 = OT		Other Identifier #2 Other Issuer identifies the actual issuer of the Other Identifier. Required if Other Identifier #2 Type Code is OT(other)
MH-346	OtherProviderIdentifier3	String	20	Optional		Other Identifier #3
MI-347	OtherProviderIdentifierTypeCode3	String	2	Required if OtherProviderIdentifier3 is populated	1A, 1B, 1C, 1D, 1G, 1H, G2, MP, NS, OS, OT	Other Identifier #3 Type Code identifies the issuer of the Other Identifier. 1A – Blue Cross Provider Number 1B – Blue Shield Provider Number 1C – MEDICARE ID Unknown 1D – MEDICAID 1G – MEDICARE UPIN 1H – CHAMPUS Identification Number G2 – Provider Commercial Number MP – MEDICARE PIN NS – MEDICARE NSC OS – MEDICARE OSCAR OT – Other Type
MJ-348	OtherProviderIdentifierState3	String	2	Required if OtherProviderIdentifier3 = 1D	See section 6.1 State Reference	Other Identifier #3 State Required for all Medicaid Other Identifiers.

WT-618	EndPointBusinessPracticeLocationAddressCountryCode4	String	2	Required	See section 6.2 Country Reference for valid values	Country Code of the Provider's End Point Address 4
WU-619	EndPointBusinessPracticeLocationAddressTelephoneNumbers4	String	20	Required		Telephone Number of the Provider's End Point Address 4
WV-620	EndPointBusinessPracticeLocationAddressFaxNumber4	String	20	Optional		Fax Number of the Provider's End Point Address 4

Column Field #	Field Name	Format	Max Length	Required?	Allowed Values	Annotation
WW-621	EndPointBusinessPracticeLocationOrganizationName4	String	50	Optional		Firm name of the Provider's End Point Address 4
WX-622	EndPointQualifier5	String	20	Optional	CONNECT DIRECT FHIR OTHERS REST SOAP	The Type of Endpoint #5 Valid Values are: CONNECT DIRECT FHIR OTHERS REST SOAP
WY-623	EndPoint5	String	1000	Required if EndPointQualifier5 is populated		End Point #5
WZ-624	IsAffiliated5	String	1	Required if EndPointQualifier5 is populated	Y, N	Identifies whether or not End Point #5 is affiliated with an EIN (Organization) or an NPI. Y: Yes N: No
XA-625	EndPointAffiliationLegalBusinessName5	String	70	Required if IsAffiliated5 is Y		
XB-626	EndPointUseCode5	String	25	Optional	DIRECT, HIE, OTHER	Valid Values are: DIRECT HIE OTHER
XC-627	EndPointContentCode5	String	25	Optional	CSV, OTHER	Valid Values are: CSV OTHER
XD-628	EndPointDescription5	String	1000	Optional		
XE-629	EndPointOtherUseDescription5	String	200	Required if EndPointUseCode5 is populated		
XF-630	EndPointOtherContentDescription5	String	200	Required if EndPointContentCode5 is populated		
XG-631	EndPointBusinessSameAsHomeAddressYN5	String	1	Required	Y, N	Identifies if the End Point Address 5 is the same as the Provider's Home Address Y: Yes N: No
XH-632	EndPointFirstLineBusinessPracticeLocationAddress5	String	55	Required		Line 1 of the Provider's End Point Address 5
XI-633	EndPointSecondLineBusinessPracticeLocationAddress5	String	55	Optional		Line 2 of the Provider's End Point Address 5
XJ-634	EndPointBusinessPracticeLocationAddressCityName5	String	40	Required		City of the Provider's End Point Address 5
XK-635	EndPointBusinessPracticeLocationAddressStateName5	String	2	Required	See section 6.1 State Reference for US based addresses for valid values	State abbreviation or Province of the Provider's End Point Address 5
XL-636	EndPointBusinessPracticeLocationAddressPostalCode5	String	9	First 5 digits are Required		Postal/Zip Code of the Provider's End Point Address 5
XM-637	EndPointBusinessPracticeLocationAddressCountryCode5	String	2	Required	See section 6.2 Country Reference for valid values	Country Code of the Provider's End Point Address 5
XN-638	EndPointBusinessPracticeLocationAddressTelephoneNumbers5	String	20	Required		Telephone Number of the Provider's End Point Address 5
XO-639	EndPointBusinessPracticeLocationAddressFaxNumber5	String	20	Optional		Fax Number of the Provider's End Point Address 5
XP-640	EndPointBusinessPracticeLocationOrganizationName5	String	50	Optional		Firm name of the Provider's End Point Address 5

**Contact Person Information (XQ-641 through ZS-695)**

**Up to 5 Contacts can be associated with an NPI. One Contact must be identified as the Primary Contact Person.**

Column Field #	Field Name	Format	Max Length	Required?	Allowed Values	Annotation
XQ-641	ContactLastName1	String	35	Required		Contact Person1's Last Name
XR-642	ContactFirstName1	String	20	Required		Contact Person1's Last Name
XS-643	ContactMiddleName1	String	20	Optional		Contact Person1's Middle Name

ZS-695	ContactPrimaryFlag5	String	1	Required		Contact Person5's Primary Flag

**Individual Provider's Race Information (ZT-696 through AAU-723)**

**Up to 14 Race / Sub-Race combinations can be associated with an Individual Provider.**

Column Field #	Field Name	Format	Max Length	Required?	Allowed Values	Annotation
ZT-696	Race1	String	2	Optional field associated with a Type 1	See section 6.5 Race Reference for valid values	Race 1 of the Individual Provider.
ZU-697	SubRace1	String	2	Required when Race 1 = AN (Asian) or NH (Native Hawaiian or Other Pacific Islander)	See section 6.6 Sub-Race Reference for valid values	Sub-Race 1 of the Individual Provider.
ZV-698	Race2	String	2	Optional field associated with a Type 1	See section 6.5 Race Reference for valid values	Race 2 of the Individual Provider.
ZW-699	SubRace2	String	2	Required when Race 2 = AN (Asian) or NH (Native Hawaiian or Other Pacific Islander)	See section 6.6 Sub-Race Reference for valid values	Sub-Race 2 of the Individual Provider.
ZX-700	Race3	String	2	Optional field associated with a Type 1	See section 6.5 Race Reference for valid values	Race 3 of the Individual Provider.
ZY-701	SubRace3	String	2	Required when Race 3 = AN (Asian) or NH (Native Hawaiian or Other Pacific Islander)	See section 6.6 Sub-Race Reference for valid values	Sub-Race 3 of the Individual Provider.
ZZ-702	Race4	String	2	Optional	See section 6.5 Race Reference for valid values	Race 4 of the Individual Provider.
AAA-703	SubRace4	String	2	Required when Race 4 = AN (Asian) or NH (Native Hawaiian or Other Pacific Islander)	See section 6.6 Sub-Race Reference for valid values	Sub-Race 4 of the Individual Provider.
AAB-704	Race5	String	2	Optional	See section 6.5 Race Reference for valid values	Race 5 of the Individual Provider.
AAC-705	SubRace5	String	2	Required when Race 5 = AN (Asian) or NH (Native Hawaiian or Other Pacific Islander)	See section 6.6 Sub-Race Reference for valid values	Sub-Race 5 of the Individual Provider.
AAD-706	Race6	String	2	Optional	See section 6.5 Race Reference for valid values	Race 6 of the Individual Provider.

Column Field #	Field Name	Format	Max Length	Required?	Allowed Values	Annotation
AAE-707	SubRace6	String	2	Required when Race 6 = AN (Asian) or NH (Native Hawaiian or Other Pacific Islander)	See section 6.6 Sub-Race Reference for valid values	Sub-Race 6 of the Individual Provider.
AAF-708	Race7	String	2	Optional	See section 6.5 Race Reference for valid values	Race 7 of the Individual Provider.
AAG-709	SubRace7	String	2	Required when Race 7 = AN (Asian) or NH (Native Hawaiian or Other Pacific Islander)	See section 6.6 Sub-Race Reference for valid values	Sub-Race 7 of the Individual Provider.
AAH-710	Race8	String	2	Optional	See section 6.5 Race Reference for valid values	Race 8 of the Individual Provider.
AAI-711	SubRace8	String	2	Required when Race 8 = AN (Asian) or NH (Native Hawaiian or Other Pacific Islander)	See section 6.6 Sub-Race Reference for valid values	Sub-Race 8 of the Individual Provider.
AAJ-712	Race9	String	2	Optional	See section 6.5 Race Reference for valid values	Race 9 of the Individual Provider.
AAK-713	SubRace9	String	2	Required when Race 9 = AN (Asian) or NH (Native Hawaiian or Other Pacific Islander)	See section 6.6 Sub-Race Reference for valid values	Sub-Race 9 of the Individual Provider.
AAL-714	Race10	String	2	Optional	See section 6.5 Race Reference for valid values	Race 10 of the Individual Provider.
AAM-715	SubRace10	String	2	Required when Race 10 = AN (Asian) or NH (Native Hawaiian or Other Pacific Islander)	See section 6.6 Sub-Race Reference for valid values	Sub-Race 10 of the Individual Provider.
AAN-716	Race11	String	2	Optional	See section 6.5 Race Reference for valid values	Race 11 of the Individual Provider.
AAO-717	SubRace11	String	2	Required when Race 11 = AN (Asian) or NH (Native Hawaiian or Other Pacific Islander)	See section 6.6 Sub-Race Reference for valid values	Sub-Race 11 of the Individual Provider.
AAP-718	Race12	String	2	Optional	See section 6.5 Race Reference for valid values	Race 12 of the Individual Provider.
AAQ-719	SubRace12	String	2	Required when Race 12 = AN (Asian) or NH (Native Hawaiian or Other Pacific Islander)	See section 6.6 Sub-Race Reference for valid values	Sub-Race 12 of the Individual Provider.
AAR-720	Race13	String	2	Optional	See section 6.5 Race Reference for valid values	Race 13 of the Individual Provider.
AAS-721	SubRace13	String	2	Required when Race 13 = AN (Asian) or NH (Native Hawaiian or Other Pacific Islander)	See section 6.6 Sub-Race Reference for valid values	Sub-Race 13 of the Individual Provider.
AAT-722	Race14	String	2	Optional	See section 6.5 Race Reference for valid values	Race 14 of the Individual Provider.
AAU-723	SubRace14	String	2	Required when Race 14 = AN (Asian) or NH (Native Hawaiian or Other Pacific Islander)	See section 6.6 Sub-Race Reference for valid values	Sub-Race 14 of the Individual Provider.

**Individual Provider's Ethnicity Information (AAV-724 through ABC-731)**

**Up to 4 Ethnicity / Sub-Ethnicity combinations can be associated with an Individual Provider.**

Column Field #	Field Name	Format	Max Length	Required?	Allowed Values	Annotation
AAV-724	Ethnicity1	String	2	Optional field associated with a Type 1	NH, YH	First Ethnicity of the Individual Provider NH: Non Hispanic YH: Yes, Hispanic
AAW-725	SubEthnicity1	String	2	Required when Ethnicity 1 is YH (Yes, Hispanic)	See Section 6.8 Sub-Ethnicity Reference for Valid Values.	Entered only if Ethnicity 1 of YH is entered.
AAX-726	Ethnicity2	String	2	Optional field associated with a Type 1	NH,YH	Second Ethnicity of the Individual Provider NH: Non Hispanic YH: Yes, Hispanic
AAY-727	SubEthnicity2	String	2	Required when Ethnicity 2 is YH (Yes, Hispanic)	See Section 6.8 Sub-Ethnicity Reference for Valid Values.	Entered only if Ethnicity 2 of YH is entered.
AAZ-728	Ethnicity3	String	2	Optional field associated with a Type 1	NH,YH	Third Ethnicity of the Individual Provider NH: Non Hispanic YH: Yes, Hispanic
ABA-729	SubEthnicity3	String	2	Required when Ethnicity 3 is YH (Yes, Hispanic)	See Section 6.8 Sub-Ethnicity Reference for Valid Values.	Entered only if Ethnicity 3 of YH is entered.
ABB-730	Ethnicity4	String	2	Optional field associated with a Type 1	NH,YH	Fourth Ethnicity of the Individual Provider NH: Non Hispanic YH: Yes, Hispanic
ABC-731	SubEthnicity4	String	2	Required when Ethnicity 4 is YH (Yes, Hispanic)	See Section 6.8 Sub-Ethnicity Reference for Valid Values.	Entered only if Ethnicity 4 of YH is entered.

**Response File Fields (ABD-732 through ABF-734)**

Column Field #	Field Name	Format	Max Length	Required?	Allowed Values	Annotation
ABD-732	AdditionalStatusReferenceText	String	255	N/A		Only found on the Response File
ABE-733	AdditionalProcessingCode	String	100	N/A		Only found on the Response File
ABF-734	AdditionalProcessingCodeDesc	String	255	N/A		Only found on the Response File

## 4.3 CSV File – Trailer

Each CSV EFI File must contain one and only one **Trailer** record. The following table defines the CSV File Trailer Record

### 4.3.1 CSV File – Trailer Record Format

**Exhibit 4-3 CSV File – Trailer Format**

Column Field #	Field Name	Format	Max Length	Required?	Allowed Values	Annotation
A-1	Record Type	String	1	Required	T	Identifies this to be the Header record
B-2	Detail Record Count	Integer	5	Required		Count of the Detail Records within the EFI file.

## 5 EFI CSV Change Request File Format

The EFI CSV Change Request Upload feature may be used to add information to NPIs. Users cannot modify or remove existing information using this feature.

The tables in this section define the fields that make up each record. Each table consists of the following:

- Column Field #**  
 Depending on how you are creating your CSV file, if you are using Excel to generate your CSV files, the alphabetical portion will identify the spreadsheet column. For example, A-1 will be column A, BB-57 will be column BB in your Excel spreadsheet.
- Field Name**  
 Name of the field
- Format**  
 Identifies if the data must be in a specific format. When blank, no formatting is needed.
- Max Length**  
 Identifies the maximum length of the field
- Required**  
 Identifies if the field is a required field
- Allowed Values**  
 Identifies valid values when the field values are restricted. When populated valid values are comma separated. For example “1, 2” identifies that the field can contain either an “1” or a “2”.
- Annotation**  
 Defines/describes the field

### 5.1 EFI CSV Change Request File Format – Record

Each EFI CSV Change Request file may contain multiple NPI records. Each record can have multiple rows of data. For example, if a user wants to add 2 practice locations to the same NPI, they can have 2 rows of data with repeated PII and different practice locations.

The following table defines the EFI CSV Change Request Upload record format.

#### 5.1.1 EFI CSV Change Request File Format – Record Format

**Exhibit 5-1 EFI CSV Change Request File Format-Record Format**

C Column Field #	Field Name	Format	Max Length	Required?	Allowed Values	Annotation
A-1	NPI	Integer	10	Yes		NPI assigned to an enumerated NPI application.  If NOT populated on a Change Request, the request will be rejected with an error code of 01. If the NPI is not found in the

						system, request will be rejected with an error code of 10.
B-2	ProviderRequestType	Integer	1	Yes	1, 2	Identifies if the NPI application is for an Individual Provider or an Organizational Provider. 1 – Type 1 NPI, Individual provider 2 – Type 2 NPI, Organizational provider
C-3	ProviderOrganizationNameLB N	String	70	Yes-if for a Type 2 NPI		Identifies the organization legal business name
D-4	ProviderLastName	String	35	Yes-if for a Type 1 NPI		Individual Provider's Last Name
E-5	ProviderFirstName	String	20	Yes-if for a Type 1 NPI		Individual Provider's First Name
F-6	ProviderDateofBirth	Date (YYYY-MM-DD)	10	Required for Type 1 Individual Providers		Individual Provider's Date of Birth
G-7	QualifierSSN_ITIN_EIN	String	2	Required	EI, SY	Identifies what is entered in the SSN_ITIN_EINIdentifier field. EI: EIN SY: SSN
H-8	SSN_ITIN_EINIdentifier	String	9	Required		The provider's tax identifier number, An Individual Provider's SSN or ITIN An Organizational Provider's EIN or new EIN
I-9	ProviderBusinessSameAsHomeAddressYN	String	1	Optional	Y,N	Identifies Practice Location Address as the Primary Practice Location Y: Yes N: No
J-10	ProviderFirstLineBusinessPracticeLocationAddress	String	55	Required		Line 1 of the Provider's Practice Location Address
K-11	ProviderSecondLineBusinessPracticeLocationAddress	String	55	Optional		Line 2 of the Provider's Practice Location Address
L-12	ProviderBusinessPracticeLocationAddressCityName	String	40	Required		City of the Provider's Practice Location Address
M-13	ProviderBusinessPracticeLocationAddressStateName	String	2	Required	See section 6.1 State Reference for valid values	State abbreviation of the Provider's Practice Location Address.
N-14	ProviderBusinessPracticeLocationAddressPostalCode	String	9	First 5 digits are Required		Postal/Zip Code of the Provider's Practice Location Address. Only the first 5 digits are required.
O-15	ProviderBusinessPracticeLocationAddressCountryCode	String	2	Required	See section 6.2 Country Reference for valid values	Country Code of the Provider's Practice Location.
P-16	ProviderBusinessPracticeLocationAddressTelephoneNumber	String	20	Required		Telephone Number of the Provider's Practice Location.
Q-17	ProviderBusinessPracticeLocationAddressFaxNumber	String	20	Optional		Fax Number of the Provider's Practice Location.
R-18	IsPracticeLocationDisabilityAccessible	String	1	Optional	Y,N	Identifies whether the Provider's Practice Location is accessible to individuals with mobility disabilities.
C Column Field #	Field Name	Format	Max Length	Required?	Allowed Values	Annotation

S-19	IsPracticeLocationRoomDisabilityAccessible	String	1	Optional	Y,N	Identifies whether the Provider's Practice Location has exam rooms that are accessible to individuals with mobility disabilities.
T-20	IsPracticeLocationMedicalEquipmentDisabilityAccessible	String	1	Optional	Y,N	Identifies whether the Provider's Practice Location has medical equipment that is accessible to individuals with mobility disabilities.
U-21	PracticeLocationLanguage1	String	2	Optional	See section 6.3 Language Reference for valid values	First Language spoken at the Provider's Practice Location.
V-22	PracticeLocationLanguage2	String	2	Optional	See section 6.3 Language Reference for valid values	Second Language spoken at the Provider's Practice Location.
W-23	PracticeLocationLanguage3	String	2	Optional	See section 6.3 Language Reference for valid values	Third Language spoken at the Provider's Practice Location.
X-24	PracticeLocationLanguage4	String	2	Optional	See section 6.3 Language Reference for valid values	Fourth Language spoken at the Provider's Practice Location.
Y-25	PracticeLocationLanguage5	String	2	Optional	See section 6.3 Language Reference for valid values	Fifth Language spoken at the Provider's Practice Location.
Z-26	PracticeLocationLanguage6	String	2	Optional	See section 6.3 Language Reference for valid values	Sixth Language spoken at the Provider's Practice Location.
AA-27	PracticeLocationOpenorCloseMonday	String	5	Optional	OPEN, CLOSE	Identifies if the Provider's Practice Location is Open or Closed on Mondays. OPEN: Office is Open CLOSE: Office is Closed
AB-28	PracticeLocationOpenHourMonday	9:99	10	Required if PracticeLocationOpenorCloseMonday1 = OPEN	See section 6.4 Office Hours Reference	If Provider's Practice Location is open on Mondays, identifies what time the office is open. Allowed time from 5:00 AM To 11:45 PM, in 15 minute increments.
AC-29	PracticeLocationCloseHourMonday	String	10	Required if PracticeLocationOpenorCloseMonday1 = OPEN	See section 6.4 Office Hours Reference	If Provider's Practice Location is open on Mondays, identifies what time the office closes. Allowed time from 5:00 AM To 11:45 PM, in 15 minute increments.
AD-30	PracticeLocationOpenorCloseTuesday	String	5	Optional	OPEN, CLOSE	Identifies if the Provider's Practice Location is Open or Closed on Tuesdays. OPEN: Office is Open CLOSE: Office is Closed
C Column Field #	Field Name	Format	Max Length	Required?	Allowed Values	Annotation

AE-31	PracticeLocationOpenHourTuesday	String	10	Required if PracticeLocationOpenorCloseTuesday1 = OPEN	See section 6.4 Office Hours Reference	If Provider's Practice Location is open on Tuesdays, identifies what time the office is open. Allowed time from 5:00 AM To 11:45 PM, in 15 minute increments.
AF-32	PracticeLocationCloseHourTuesday	String	10	Required if PracticeLocationOpenorCloseTuesday1 = OPEN	See section 6.4 Office Hours Reference	If Provider's Practice Location is open on Tuesdays, identifies what time the office closes. Allowed time from 5:00 AM To 11:45 PM, in 15 minute increments.
AG-33	PracticeLocationOpenorCloseWednesday	String	5	Optional	OPEN, CLOSE	Identifies if the Provider's Practice Location is Open or Closed on Wednesdays. OPEN: Office is Open CLOSE: Office is Closed
AH-34	PracticeLocationOpenHourWednesday	String	10	Required if PracticeLocationOpenorCloseWednesday1 = OPEN	See section 6.4 Office Hours Reference	If Provider's Practice Location is open on Wednesdays, identifies what time the office is open. Allowed time from 5:00 AM To 11:45 PM, in 15 minute increments.
AI-35	PracticeLocationCloseHourWednesday	String	10	Required if PracticeLocationOpenorCloseWednesday1 = OPEN	See section 6.4 Office Hours Reference	If Provider's Practice Location is open on Wednesdays, identifies what time the office closes. Allowed time from 5:00 AM To 11:45 PM, in 15 minute increments.
AJ-36	PracticeLocationOpenorCloseThursday	String	5	Optional	OPEN, CLOSE	Identifies if the Provider's Practice Location is Open or Closed on Thursdays. OPEN: Office is Open CLOSE: Office is Closed
AK-37	PracticeLocationOpenHourThursday	String	10	Required if PracticeLocationOpenorCloseThursday1 = OPEN	See section 6.4 Office Hours Reference	If Provider's Practice Location is open on Thursdays, identifies what time the office is open. Allowed time from 5:00 AM To 11:45 PM, in 15 minute increments.
AL-38	PracticeLocationCloseHourThursday	String	10	Required if PracticeLocationOpenorCloseThursday1 = OPEN	See section 6.4 Office Hours Reference	If Provider's Practice Location is open on Thursdays, identifies what time the office closes. Allowed time from 5:00 AM To 11:45 PM, in 15 minute increments.
AM-39	PracticeLocationOpenorCloseFriday	String	5	Optional	OPEN, CLOSE	Identifies if the Provider's Practice Location is Open or Closed on Fridays. OPEN: Office is Open CLOSE: Office is Closed
AN-40	PracticeLocationOpenHourFriday	String	10	Required if PracticeLocationOpenorCloseFriday1 = OPEN	See section 6.4 Office Hours Reference	If Provider's Practice Location is open on Fridays, identifies what time the office is open. Allowed time from 5:00 AM To 11:45 PM, in 15 minute increments.
C Column Field #	Field Name	Format	Max Length	Required?	Allowed Values	Annotation

AO-41	PracticeLocationCloseHourFriday	String	10	Required if PracticeLocationOpenorCloseFriday1 = OPEN	See section 6.4 Office Hours Reference	If Provider's Practice Location is open on Fridays, identifies what time the office closes. Allowed time from 5:00 AM To 11:45 PM, in 15 minute increments.
AP-42	PracticeLocationOpenorCloseSaturday	String	5		OPEN, CLOSE	Identifies if the Provider's Practice Location is Open or Closed on Saturdays. OPEN: Office is Open CLOSE: Office is Closed
AQ-43	PracticeLocationOpenHourSaturday	String	10	Required if PracticeLocationOpenorCloseSaturday1 = OPEN	See section 6.4 Office Hours Reference	If Provider's Practice Location is open on Saturdays, identifies what time the office is open. Allowed time from 5:00 AM To 11:45 PM, in 15 minute increments.
AR-44	PracticeLocationCloseHourSaturday	String	10	Required if PracticeLocationOpenorCloseSaturday1 = OPEN	See section 6.4 Office Hours Reference	If Provider's Practice Location is open on Saturdays, identifies what time the office closes. Allowed time from 5:00 AM To 11:45 PM, in 15 minute increments.
AS-45	PracticeLocationOpenorCloseSunday	String	5		OPEN, CLOSE	Identifies if the Provider's Practice Location is Open or Closed on Sundays. OPEN: Office is Open CLOSE: Office is Closed
AT-46	PracticeLocationOpenHourSunday	String	10	Required if PracticeLocationOpenorCloseSunday1 = OPEN	See section 6.4 Office Hours Reference	If Provider's Practice Location is open on Sundays, identifies what time the office is open. Allowed time from 5:00 AM To 11:45 PM, in 15 minute increments.
AU-47	PracticeLocationCloseHourSunday	String	10	Required if PracticeLocationOpenorCloseSunday1 = OPEN	See section 6.4 Office Hours Reference	If Provider's Practice Location is open on Sundays, identifies what time the office closes. Allowed time from 5:00 AM To 11:45 PM, in 15 minute increments.
AV-48	HealthcareProviderTaxonomyCode	String	10	Required		Taxonomy Code
AW-49	ProviderLicenseNumber	String	50	Required for certain individual taxonomy codes.		License associated with Taxonomy Code
AX-50	ProviderLicenseNumberStateCode	String	2	Required if License Number contains data	See section 6.1 State Reference for valid values	State abbreviation associated with Taxonomy Code
AY-51	HealthcareProviderTaxonomyGroup	String	30	Optional for Type 2 NPIs		Identifies if Taxonomy is a group Taxonomy.
AZ-52	OtherProviderIdentifier	String	20	Optional		Other Identifier
C Column Field #	Field Name	Format	Max Length	Required?	Allowed Values	Annotation

BA-53	OtherProviderIdentifierTypeCode	String	2	Required if OtherProviderIdentifier is populated	1A, 1B, 1C, 1D, 1G, 1H, G2, MP, NS, OS, OT	Other Identifier Type Code identifies the issuer of the Other Identifier. 1A – Blue Cross Provider Number 1B – Blue Shield Provider Number 1C – MEDICARE ID Unknown 1D – MEDICAID 1G – MEDICARE UPIN 1H – CHAMPUS Identification Number G2 – Provider Commercial Number MP – MEDICARE PIN NS – MEDICARE NSC OS – MEDICARE OSCAR OT – Other Type
BB-54	OtherProviderIdentifierState	String	2	Required if OtherProviderIdentifier1 = 1D	See section 6.1 State Reference for valid values	Other Identifier State Required for all Medicaid Other Identifiers.
BC-55	OtherProviderIdentifierIssuer	String	70	Required if OtherProviderIdentifier1 = OT		Other Identifier Other Issuer identifies the actual issuer of the Other Identifier. Required if Other Identifier #1 Type Code is OT(other)
BD-56	EndPointQualifier	String	20	Optional	CONNECT DIRECT FHIR OTHERS REST SOAP	The Type of Endpoint Valid Values are: CONNECT DIRECT FHIR OTHERS REST SOAP
BE-57	EndPoint	String	1000	Required if EndPointQualifier is populated		Endpoint
BF-58	IsAffiliated	String	1	Required if EndPointQualifier is populated	Y, N	Identifies whether or not Endpoint is affiliated with an EIN (Organization) or an NPI. Y: Yes N: No
BG-59	EndPointAffiliationLegalBusinessName	String	70	Required if IsAffiliated is Y		
BH-60	EndPointUseCode	String	25	Optional	DIRECT, HIE, OTHER	Valid Values are: DIRECT HIE OTHER
BI-61	EndPointContentCode	String	25	Optional	CSV, OTHER	Valid Values are: CSV OTHER
BJ-62	EndPointDescription	String	1000	Optional		
BK-63	EndPointOtherUseDescription	String	200	Required if EndPointUseCode is OTHER		
BL-64	EndPointOtherContentDescription	String	200	Required if EndPointContentCode is OTHER		
C Column Field #	Field Name	Format	Max Length	Required?	Allowed Values	Annotation

BM-65	EndPointBusinessSameAsHomeAddressYN	String	1	Optional	Y, N	Identifies if the End Point Address is the same as the Provider's Home Address Y: Yes N: No
BN-66	EndPointFirstLineBusinessPracticeLocationAddress	String	55	Required		Line 1 of the Provider's End Point Address
BO-67	EndPointSecondLineBusinessPracticeLocationAddress	String	55	Optional		Line 2 of the Provider's End Point Address
BP-68	EndPointBusinessPracticeLocationAddressCityName	String	40	Required		City of the Provider's End Point Address
BQ-69	EndPointBusinessPracticeLocationAddressStateName	String	2	Required	See section 6.1 State Reference for US based addresses for valid values	State abbreviation or Province of the Provider's End Point Address
BR-70	EndPointBusinessPracticeLocationAddressPostalCode	String	9	First 5 digits are Required		Postal/Zip Code of the Provider's End Point Address
BS-71	EndPointBusinessPracticeLocationAddressCountryCode	String	2	Required	See section 6.2 Country Reference for valid values	Country Code of the Provider's End Point Address
BT-72	EndPointBusinessPracticeLocationAddressTelephoneNumber	String	20	Optional		Telephone Number of the Provider's End Point Address
BU-73	EndPointBusinessPracticeLocationAddressFaxNumber	String	20	Optional		Fax Number of the Provider's End Point Address
BV-74	EndPointBusinessPracticeLocationOrganizationName	String	50	Optional		Firm name of the Provider's End Point Address
BW-75	ContactLastName	String	35	Required		Contact Person's Last Name
BX-76	ContactFirstName	String	20	Required		Contact Person's Last Name
BY-77	ContactMiddleName	String	20	Optional		Contact Person's Middle Name
BZ-78	ContactNamePrefix	String	5	Optional		Contact Person's Name Prefix
CA-79	ContactNameSuffix	String	5	Optional		Contact Person's Name Suffix
CB-80	ContactCredential	String	20	Optional		Contact Person's Credentials
CC-81	ContactTitleorPosition	String	35	Optional		Contact Person's Title or Position
CD-82	ContactTelephoneNumber	String	20	Required		Contact Person's Telephone Number
CE-83	ContactTelephoneExtensionNumber	String	5	Optional		Contact Person's Telephone Number Extension
CF-84	ContactEmail	String	100	Required		Contact Person's Email Address

## 6 Appendix

### 6.1 State Reference

**Exhibit 6-6-1 State Reference**

State/U.S. Territory Code	State/U.S. Territory
AK	ALASKA
AL	ALABAMA
AR	ARKANSAS
AS	AMERICAN SAMOA
AZ	ARIZONA
CA	CALIFORNIA
CO	COLORADO
CT	CONNECTICUT
DC	DISTRICT OF COLUMBIA
DE	DELAWARE
FL	FLORIDA
FM	MICRONESIA, FEDERATED STATES OF
GA	GEORGIA
GU	GUAM
HI	HAWAII
IA	IOWA
ID	IDAHO
IL	ILLINOIS
IN	INDIANA
KS	KANSAS
KY	KENTUCKY
LA	LOUISIANA
MA	MASSACHUSETTS
MD	MARYLAND
ME	MAINE
MH	MARSHALL ISLANDS
MI	MICHIGAN
MN	MINNESOTA

ZW	ZIMBABWE

### 6.3 Language Reference

Use the following codes to identify the Languages spoken by an Individual Provider and the Languages spoken at a Practice Location.

**Note:** The following languages have been migrated:

- FI - Farsi → PN – Persian
- MR - Marathi → HI – Hindi
- LH - Lahnda → PA - Punjabi

#### Exhibit 6-6-3 Language Reference

LANGUAGE CODE	LANGUAGE
AM	Armenian
AR	Arabic
BN	Bengali
BT	Bantu
CH	Chinese
EL	English
FR	French
GK	Greek
GR	German
GU	Gujarati

LANGUAGE CODE	LANGUAGE
HC	Haitian Creole
HE	Hebrew
HI	Hindi
HM	Hmong
IT	Italian
JP	Japanese
KM	Khmer
KR	Korean
NV	Navajo
PA	Punjabi
PL	Polish
PN	Persian
PR	Portuguese
RS	Russian
SC	Serbo-Croatian
SP	Spanish
TE	Telugu
TG	Tagalog
TK	Tai-Kadai
TM	Tamil
UR	Urdu
VT	Vietnamese

## 6.4 Office Hours Reference

The following are the valid open and close office hours that can be defined for a practice location. The times range from 5:00 AM to 11:45 PM, in 15 minute increments.

5:00 AM	5:15 AM	5:30 AM	5:45 AM
6:00 AM	6:15 AM	6:30 AM	6:45 AM
7:00 AM	7:15 AM	7:30 AM	7:45 AM
8:00 AM	8:15 AM	8:30 AM	8:45 AM
9:00 AM	9:15 AM	9:30 AM	9:45 AM
10:00 AM	10:15 AM	10:30 AM	10:45 AM
11:00 AM	11:15 AM	11:30 AM	11:45 AM
12:00 PM	12:15 PM	12:30 PM	12:45 PM
1:00 PM	1:15 PM	1:30 PM	1:45 PM
2:00 PM	2:15 PM	2:30 PM	2:45 PM
3:00 PM	3:15 PM	3:30 PM	3:45 PM
4:00 PM	4:15 PM	4:30 PM	4:45 PM
5:00 PM	5:15 PM	5:30 PM	5:45 PM
6:00 PM	6:15 PM	6:30 PM	6:45 PM
7:00 PM	7:15 PM	7:30 PM	7:45 PM
8:00 PM	8:15 PM	8:30 PM	8:45 PM
9:00 PM	9:15 PM	9:30 PM	9:45 PM
10:00 PM	10:15 PM	10:30 PM	10:45 PM
11:00 PM	11:15 PM	11:30 PM	11:45 PM

## 6.5 Race Reference

**Exhibit 6-5 Race Reference**

RACE CODE	RACE
<b>AI</b>	American Indian or Alaska Native
<b>AN</b>	Asian
<b>BL</b>	Black or African American
<b>NH</b>	Native Hawaiian or Other Pacific Islander
<b>WH</b>	White

## 6.6 Sub-Race Reference

There are two sets of Sub-Races. One for when Race = **AN** (Asian) and one for when Race= **NH** (Native Hawaiian or Other Pacific Islander)

**Exhibit 6-6-4 Sub-Race Reference for Race = NH (Native Hawaiian or Other Pacific Islander)**

SUB-RACE CODE	SUB-RACE
<b>NH</b>	Native Hawaiian
<b>GC</b>	Guamanian or Chamorro
<b>SO</b>	Samoan
<b>OP</b>	Other Pacific Islander

**Exhibit 6-6-5 Sub-Race Reference for Race = AN (Asian)**

SUB-RACE CODE	SUB-RACE
<b>AI</b>	Asian Indian
<b>CH</b>	Chinese
<b>FP</b>	Filipino
<b>JP</b>	Japanese
<b>KR</b>	Korean
<b>VT</b>	Vietnamese
<b>OA</b>	Other Asian

## 6.7 Ethnicity Reference

**Exhibit 6-6-6 Ethnicity Reference**

ETHNICITY CODE	SUB-ETHNICITY
NH	Non-Hispanic
YH	Yes, Hispanic

## 6.8 Sub-Ethnicity Reference

When the Ethnicity selected is YH= Yes, Hispanic, then a Sub-Ethnicity selection is required

**Exhibit 6-6-7 Sub-Ethnicity Reference for Ethnicity = YH (Yes, Hispanic)**

SUB-ETHNICITY CODE	SUB-ETHNICITY
MA	Mexican, Mexican American, Chicano/a
PR	Puerto Rican
CB	Cuban
HL	Another Hispanic, Latino/a or Spanish origin

## 6.9 Frequently Asked Questions (FAQ) — EFI File and Record Rejection

**Exhibit 6-6-8 FAQ – EFI File and Record Rejection**

INDEX
<a href="#">1. What are the preliminary checks to determine why my EFI file has rejected?</a>
<a href="#">2. The majority of the records in my file rejected. What could be the cause?</a>
<a href="#">3. How do I submit a group Taxonomy for a Type 2 Organization Provider within an EFI record without having it reject?</a>
<a href="#">4. Will all the errors in my record appear in the first response file?</a>
<a href="#">5. What is the NPPES System flow for validating an EFI File?</a>
<a href="#">6. My file status is "Processing Completed" does that mean all the records have enumerated successfully?</a>
<a href="#">7. I submitted an ITIN in a new application EFI file. Why did my record reject?</a>
<a href="#">8. Do I need the latest software to zip my files for submission?</a>
<a href="#">9. How much information will I receive if my entire file rejects?</a>
<a href="#">10. A record rejected that has an ampersand in the provider name. What is the cause?</a>
<a href="#">11. A record rejected with a "Disallowed character(s) found..." error, but nothing appears wrong. What is the cause?</a>
<a href="#">12. A provider has a foreign address that does not have a known province. How should this record be submitted?</a>

1. What are the preliminary checks to determine why my EFI file has rejected?
  - a. First, verify that the file is valid against the XML schema.
    - i. Header Validation failed - The same valid 6 digit Electronic File Interchange Organization (EFIO) number must appear for each record in the file.  
(CMS27420300\_2100AA\_NM109\_SubmitterIdentifier="123456") This number must be associated with the Electronic File Interchange Organization Representative (EOR) in order to be valid.

- b.* Second, verify if the XML Schema Validations fail within the file. This is an error within any of the XML elements. The EOR must verify that the XML element name is accurate. For *Example:*

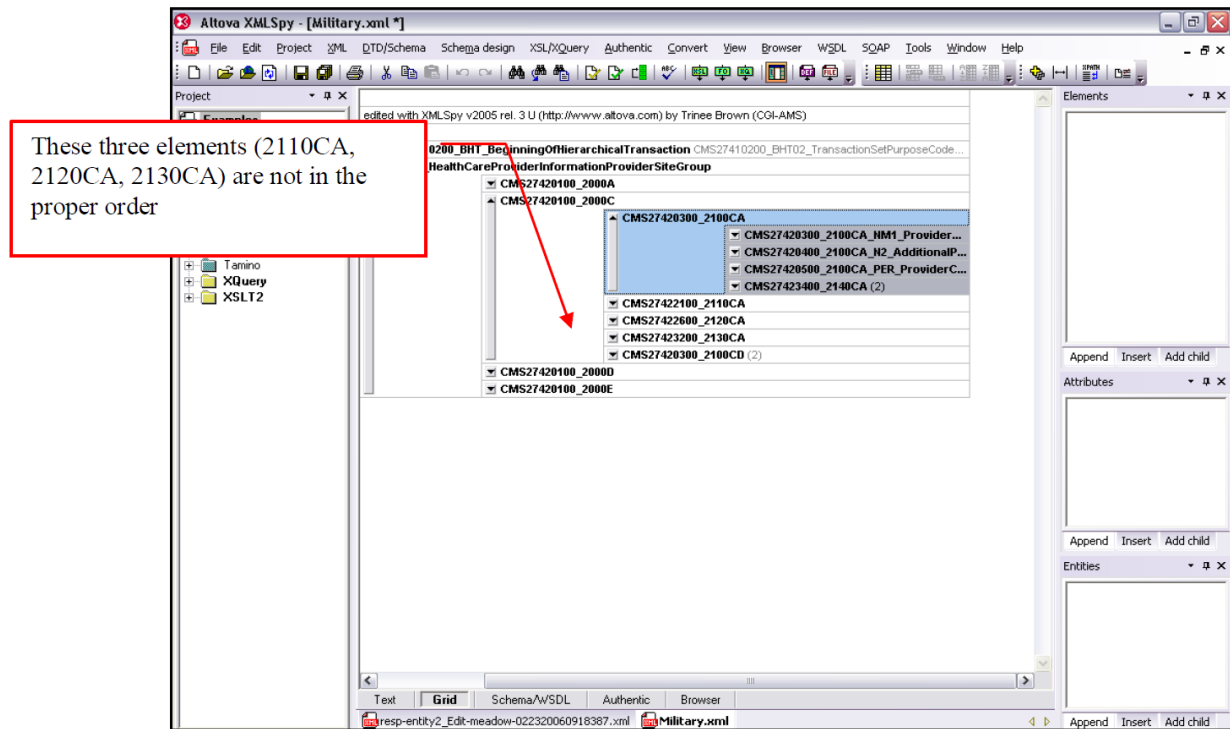

**Invalid:** CMS27423200\_2140CA; ABC27423400\_2140CA

**Valid:** CMS27423400\_2140CA; CMS27423400\_2140CA

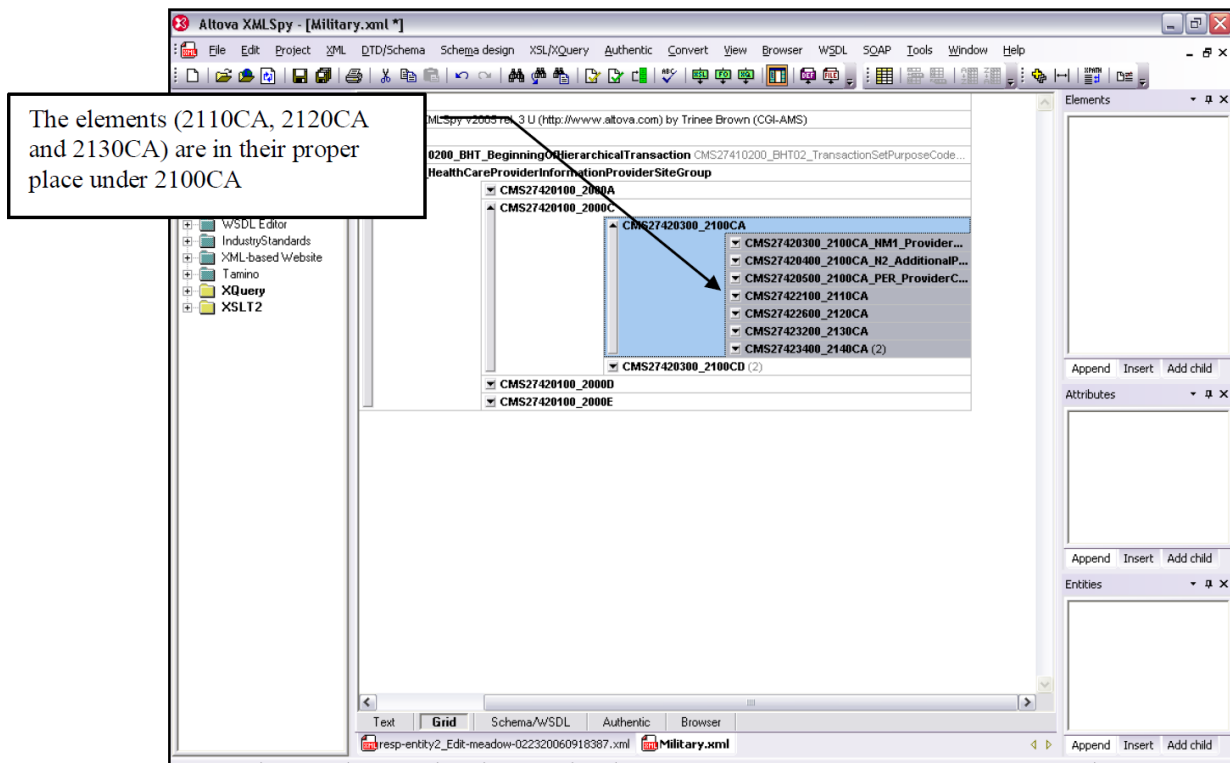

It is also important that each XML element is in the proper order within the file. For example a record where the XML elements CMS27422100\_2110CA, CMS27422600\_2120CA, CMS27422600\_2130CA are not in their proper place under the root element CMS27420300\_2100CA, will cause the entire file to reject.

**Note:** The examples below use the XMLSpy (XML editor software by Altova) Grid View:

### Exhibit 6-6-9 Sample Invalid EFI Element Ordering

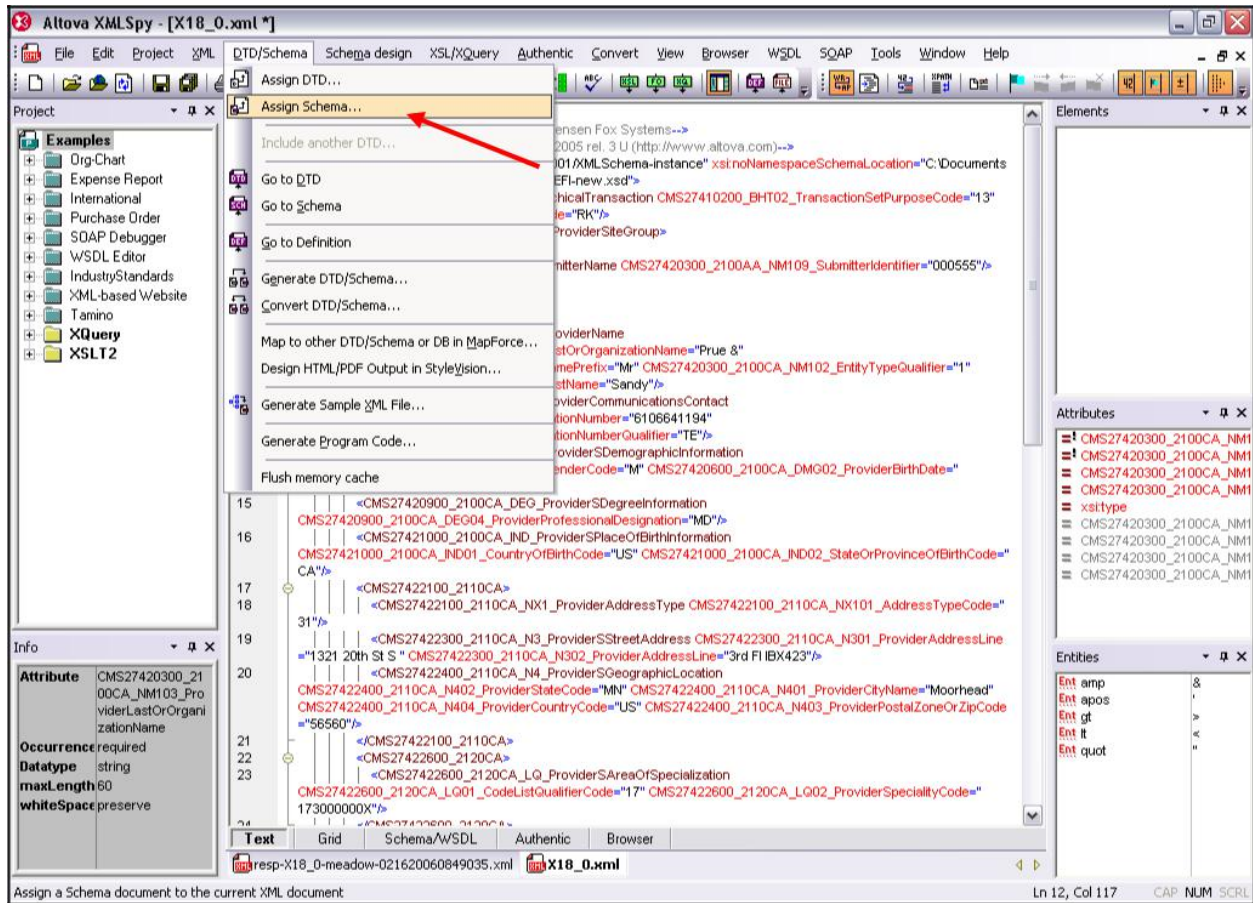

### Exhibit 6-6-10 Sample Valid EFI Element Ordering

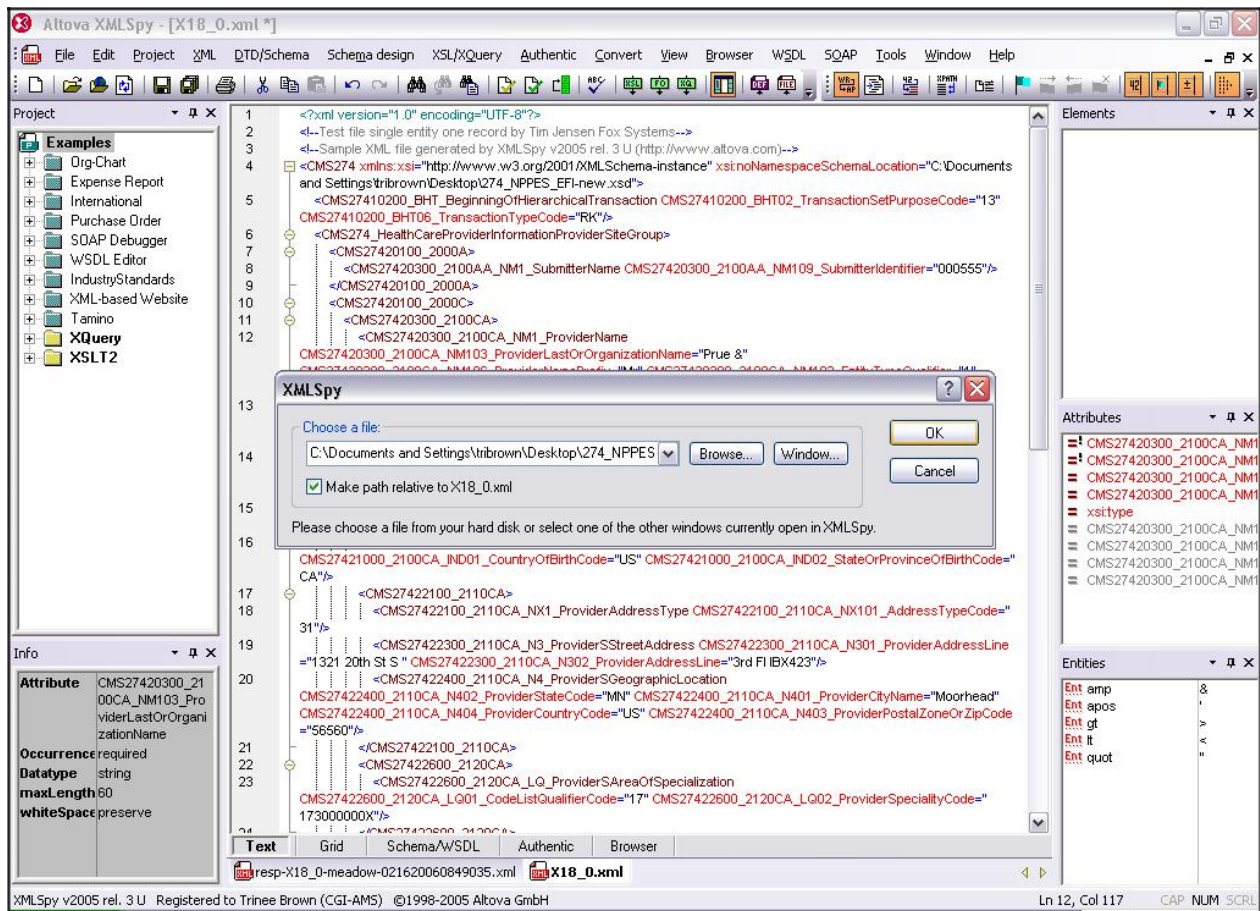

The following diagrams illustrate how to validate a XML file against the schema using XMLSpy:

### Exhibit 6-6-11 EFI XML Validation against EFI Schema – 1

Select the location of the XML schema then select the **OK** button.

### Exhibit 6-6-12 EFI XML Validation against EFI Schema – 2

Once the schema location is selected, click the validate file button at the top of the menu bar.

## Exhibit 6-6-13 EFI XML Validation against EFI Schema - 2

Other possible causes for an entire EFI file to reject include:

- When the Transaction set purpose code is listed as something other than 13 (13 is for requests and 11 for response).
- When the Transaction Type code is listed as something other than RK (new request), and U5 (update/modify request).
- No xml file is provided within an uploaded zip file.
- When the original uploaded file size is ZERO.
- Parsing exceptions due to invalid/special characters in the xml data.
- EFI File Format Error - Make sure you are using the ASCII file format.

### 2. The majority of the records in my file rejected. What could be the cause?

The primary cause for records to reject is that they have various field errors. Some specific examples include:

- a. Field edit errors such as invalid format for DOB x/x/xx or invalid email format npes@yahoo!com will cause a record to reject. Although the provided information did not fail the schema check, NPPES performs its' own separate edits of the information being submitted and will determine whether it is acceptable.

#### Examples:

A provider submits a file with a record that has the Country of Birth and Mailing Address Country listed as "USA". While this is acceptable by the XML Schema; it will reject in NPPES. It should appear as "US" in the XML file.

- b. Required fields missing is an error that results in omitting any fields that the NPPES system requires to successfully enumerate or process a change request on a record. The EOR should thoroughly check each record in the original file to verify that all required items are included.

**Examples:**

An EFI file does not include required information such as Entity Type, Organization Name, Provider First Name, etc.

A provider selects a code without the corresponding data:

For instance this user submitted the alias code (Provider Other Name in NPPES) without the actual name information.

```
<CMS27420300_2100CD_NM1_AffiliatedEntityName
CMS27420300_2100CD_NM101_EntityIdentifierCode="XD"
CMS27420300_2100CD_NM103_AffiliatedEntityLastOrOrganizationName=""/>
```

This user provided the “Other” type code "OT" and the corresponding identification number without the required description information

```
<CMS27423400_2140CA_REF_ProviderIdentificationNumbers
CMS27423400_2140CA_REF01_ReferenceIdentificationQualifier="OT"
CMS27423400_2140CA_REF02_ProviderIdentifier="3319173"
```

```
CMS27423400_2140CA_REF03_Description=""/>
```

**3. How do I submit a group Taxonomy for a Type 2 Organization Provider within an EFI record without having it reject?**

An Organization record can have both Type 2 Organization and Type 1 Individual taxonomies.

Type 1 Individual taxonomies are valid entries for Organizations by utilizing XML element

<CMS27420100\_2000E> in the file. This element is used for Group Taxonomy entries.

For Example, If a Type 2 provider record has a Group Type 1 taxonomy (Dental Providers

122400000X) they must enter it under both elements <CMS27422600\_2120CA> and

<CMS27420100\_2000E>.

```
<CMS27422600_2120CA>
```

```
<CMS27422600_2120CA_LQ_ProviderSAreaOfSpecialization
  CMS27422600_2120CA_LQ01_CodeListQualifierCode="12"
  CMS27422600_2120CA_LQ02_ProviderSpecialtyCode="122400000X"/>
```

```
</CMS27422600_2120CA>
```

```
<CMS27420100_2000E>
```

```
  <CMS27420300_2100EA>
```

```
    <CMS27422600_2120EA>
```

```
  <CMS27422600_2120EA_LQ_ProviderGroupSAreaOfSpecialization
    CMS27422600_2120EA_LQ01_CodeListQualifierCode="12"
    CMS27422600_2120EA_LQ02_ProviderGroupSpecialtyCode="122400000X"/>
```

```
    </CMS27422600_2120EA>
```

```
  </CMS27420300_2100EA>
```

```
</CMS27420100_2000E>
```

**4. Will all the errors in my record appear in the first response file?**

If a file is not rejected then a response file will be generated by NPPES. If the response file contains records with multiple errors, the file will reflect all pre-processing errors for a particular record. For example, if a record has more than one field edit error (e.g., DOB is missing and an invalid format is used for the Practice Location Phone Number), the response file will reflect both field edit errors by the Condition Indicator Codes 02 (for the missing DOB) and 01 (for the invalid Practice Location Phone Number format).

If a record has both field edit errors (e.g., DOB is missing) and post-processing errors (e.g., SSN Duplicate is found), the response file will only reflect the field edit error by the Condition Indication Code 01. If the field edit error is fixed and the file is resubmitted, the new response file will show the Condition Indicator Code 03 (for the SSN Duplicate error).

All pre-processing errors found in a record must be fixed before post-processing errors are included in the response file.

**5. What is the NPPES System flow for validating an EFI File?**

When an EFI file is uploaded to the NPPES system, there are various levels of validations that are performed both at the file level and the individual record level:

### Exhibit 6-6-14 EFI XML Validation Levels

**6. My file status is "Processing Completed" does that mean all the records have enumerated successfully?**

No. Even though a response file generates and the status of the file is "Processing Completed" it does not mean that there are not rejected records in the file. Processing Completed simply means that the system has processed the entire file and no other actions will be taken by the system.

**7. I submitted an ITIN in a new application EFI file. Why did my record reject?**

NPPES does not allow an Individual Taxpayer Identification Number (ITIN) to be submitted via the EFI process to enumerate a provider when an SSN is not also submitted. In the case where a provider was previously enumerated with only an ITIN, any subsequent EFI change request for the provider must contain the ITIN (for matching purposes) and the provider's SSN.

**8. Do I need the latest software to zip my files for submission?**

Yes. Not having the latest version may cause issues with the file. NPPES EFI supports Zip files created by the latest versions of WinZip and PKZip, such as WinZip 9.0 and PKZip 8.0. Other Zip utilities that conform to the PKZip format may work, but the support of them is not guaranteed. Outdated versions of Zip utilities are likely to be incompatible with NPPES EFI.

**9. How much information will I receive if my entire file rejects?**

If a file is rejected by the system the EOR will know by the file status on the EFI Search Results Page and will also receive an email notification. This notice will provide the EOR with a high level explanation of what caused their file to reject. Below is an example of the email the EOR would receive when a file rejects because the XML input file does not conform to the NPPES EFI Schema:

### Exhibit 6-6-15 EFI Schema Rejection Notice

To: [efirepresentative@somehost.com](mailto:efirepresentative@somehost.com)  
 Date: [System Generated]  
 Subject: National Provider Identifier

The National Provider Identifier System received the following EFI file that you submitted to <https://nppes.cms.hhs.gov>.

[Original File Name]  
 [System Generated File Name]

This is to inform you that the EFI file has been rejected due to the following rejection reason:

XML schema errors - Make sure you are using the latest schema. To download the latest schema visit the NPI website at <https://nppes.cms.hhs.gov>.

Before resubmitting a file, please review your submission to make certain that it is consistent with the XML schema and that the information contained in each record is accurate and complete.

If you have any questions, you may:

- 1.) Refer to the NPI website (<https://nppes.cms.hhs.gov>). or
- 2.) Contact the NPI Enumerator Monday through Friday, 9am to 5pm (Eastern Time)\* at:  
 NPI Enumerator  
 7125 AMBASSADOR RD STE 100  
 WINDSOR MILL MD 21244-2751  
 1-800-465-3203 (NPI Toll-Free)  
 1-800-692-2326 (NPI TTY for the deaf, hard of hearing, or those with speech difficulties)  
[customerservice@npienumerator.com](mailto:customerservice@npienumerator.com)

### 10. A record rejected that has an ampersand in the provider name. What is the cause?

In XML it is known that specific special characters must be ‘escaped’ in order to be valid. The special characters (&, ‘, >, < and “) must be submitted in the XML file in the following way:

### Exhibit 6-6-16 EFI Special Characters

XML file	Meaning
&amp;	& ampersand
&apos;	‘ apostrophe
&gt;	> greater than sign
&lt;	< less than sign
&quot;	“ quote

### 11. A record rejected with a “Disallowed character(s) found...” error, but nothing appears wrong. What is the cause?

The system may have identified a non ASCII printable character within the record. This may occur during a copy-and-paste action from a word processor or spreadsheet into a XML attribute. For example, the following mailing address zip code ("QC G1S 2Y4") was copied from MS Excel into the associated XML Spy attribute “CMS27422400\_2110CA\_N403\_ProviderPostalZoneOrZipCode= QC G1S 2Y4”.

Although the entries appear to be identical, the act of copying and pasting from the spreadsheet brought over a non ASCII printable character to the end of the text value that is not acceptable in NPPES for that particular field, and therefore resulted in the record being rejected with the error, "Disallowed character(s) found in Mailing Address Information field".

Special attention should be paid to any apparent "blank space" at the beginning or the end of any element/attribute value. It may be an invisible control character introduced by the copy-and-paste operation.

**12. A provider has a foreign address that does not have a known province. How should this record be submitted?**

For providers that have foreign addresses where no province or territory exists, the EOR should repeat the 2-character ISO country code associated with the address in the XML attribute "CMS27422400\_2110CA\_N402\_ProviderStateCode".

**13. In the EFI response file, the provider address is different from the one submitted in the corresponding request file. What is the cause?**

NPPES is required to validate domestic and military mailing and practice location addresses submitted during the initial application process and the update process after enumeration has occurred. NPPES uses Universal Coder software for standardizing addresses. If a standardized address is returned, the standardized address is used in the EFI response files. Hence, the standardized address in the EFI response file may look different from the one submitted in the corresponding EFI request files for processing. See section 4.5 for details regarding address standardization.

## 6.10 EFI Response File Record Operation Codes and User Corrective Actions

This section provides additional information for EFI organization representatives (EORs) who work with EFI Response files. The section focuses on the possible code values of attribute **CMS27421400\_2100CA\_CRC03\_ConditionIndicator** in the EFI XML Response file (see Section X2.3.18X) and what actions, if any, an EOR can perform to correct potential EFI record error conditions.

In addition, attribute **CMS27421400\_2100CA\_CRC05\_ConditionDetail** provides valuable information when an error is found with a record.

**Exhibit 6-12 EFI Response File Record**

Code Definition	OPRTN_IND_CD	Condition Detail Reasons	Code Action
Accepted	OK	Record submission was successful	None
Unspecified Error	ER	<p>If threshold limit is not set: Unspecified Error.</p> <p>If threshold limit is set: Record is not processed by the system due to previous records causing the file to reject due to threshold being reached. This code is not seen by the EOR in response files.</p>	<p>If threshold is not set: Resubmit records in a new EFI file. Response file will generate</p> <p>If threshold limit is set: Resubmit records in a new EFI file. Entire file will fail</p>

Taxonomy requires a state and license number Taxonomy number cannot be either empty or null Primary Taxonomy not selected Either contact person first Name or last Name or phone number is not provided</p>	<p>Correct the record and resubmit it in a new EFI file</p>

Code Definition	OPRTN_IND_CD	Condition Detail Reasons	Code Action
		NPI number is not provided in change request An EFI File with change requests does not include the SSN in the record for an existing provider in the NPI System.	
Exact Duplicate	03	SSN Dups found within the uploaded XML file SSN Dups found within the NPPES system <i>Example:</i> exact SSN match with an existing record	Correct the record and resubmit it in a new EFI file.
Rejected by NPI Enumerator	04	Rejected by NPI Enumerator <i>Example:</i> failed because an enumerator staff user determined that this record already exists	Contact the NPI Enumerator and/or the provider for further information.
Invalid Taxonomy Code	05	[taxonomy code]:Invalid taxonomy number <i>Example:</i> 0:Invalid taxonomy number Invalid taxonomy number provided (taxonomy code match not found in existing nppes database list <i>Example:</i> taxonomy code entered does not exist in the system	Correct the record and resubmit it in a new EFI file.
Taxonomy Code Mismatch	06	Taxonomy code mismatch <i>Example:</i> a non-provider taxonomy is supplied, or an organization taxonomy is applied to an individual provider	Correct the record and resubmit it in a new EFI file.
SSN Validation Error	07	SSN Validation Failed <i>Example:</i> failed SSA validation	Correct the record and resubmit it in a new EFI file.
Mailing Address Error	08	Mailing Address not standardized <i>Example:</i> address codes not found/invalid	Contact Enumerator to resolve pending record or reject the application and resubmit in a new EFI file.
Location Address Error	09	Practice Location not standardized <i>Example:</i> address codes not found/invalid	Contact Enumerator to resolve pending record or reject the application and resubmit in a new EFI file.
NPI not on File. Key field value in the EFI File is not found in the database. The corresponding NPI record in the NPI system is neither in active or change request status.	10	Provider last name cannot be modified Provider first name cannot be modified Organization EIN can't be modified through EFI change request Organization LBN does not match the existing LBN in NPPES and New Organization LBN has been entered Provider SSN cannot be modified Provider date of birth cannot be modified Given NPI number does not exists in NPPES system for this type of provider An action on the NPI record requires the record to be active or in change request status. <i>Example:</i> change request transaction and NPI was not found on the database	Correct the record and resubmit it in a new EFI file.
Pended by GateKeeper	12	GateKeeper routines have flagged the record for Enumerator review	Enumerator intervention required
Pended by L/S/T	13	L/S/T edits have flagged the record for Enumerator review	Enumerator intervention required
Duplicate record	14	Duplicate Record Found <i>Example:</i> Exact duplicate of another record within the uploaded XML file or with another record that already exists in the NPPES system.	Correct the file and resubmit it in a new EFI file.
No changes found, record not updated	15	No changes found, record not updated The record provided in the change request EFI file does not contain any updated information for the NPI record.	Provide the appropriate updates to the application and resubmit the EFI file.

## 6.11 Address Standardization Using Universal Coder

Address standardization is run against all domestic and military addresses using Universal Coder software. If a standardized address is returned, the standardized address is used and the NPI record is flagged as having passed address validation. If address standardization tool (Universal Coder) is unable to standardize the address, the record is marked as having failed and flagged for Enumerator intervention. This prevents records with valid addresses not recognized by the address standardization routine from being returned to the EFI Organization when there is nothing the organization can do to resolve the situation. Records are rejected when they have address errors such as invalid state abbreviations on domestic address or invalid ISO Country codes for foreign addresses, etc.

---

### 6.11.1 Universal Coder

---

NPPES is required to validate all domestic and military addresses submitted during the initial application process and the update process after enumeration has occurred. A third party software, Universal Coder is used to meet this requirement.

Universal Coder is a software product developed to standardize address information based on an address database from the United States Postal Service (USPS). NPPES calls upon Universal Coder to perform the following activities:

- Correct misspellings in street and city names.
- Standardize address elements such as directional (NE, West, etc.) and suffixes (Ave, Lane, etc.) to USPS specifications.
- Compare each address to the Universal Coder address database and verify that the address is correct and deliverable.
- Correct errors in the zip codes or zip+4 codes.
