Pub 100-04 Medicare Claims Processing	Centers for Medicare & Medicaid Services (CMS)
Transmittal 3827	Date: August 4, 2017
	Change Request 10196

SUBJECT: Quarterly Influenza Virus Vaccine Code Update - January 2018

I. SUMMARY OF CHANGES: The influenza virus vaccine code set is updated on a quarterly basis. This Change Request (CR) provides instructions for payment and edits for the Common Working File (CWF) and the Fiscal Intermediary Shared System (FISS) to include and update new or existing influenza virus vaccine codes.

EFFECTIVE DATE: August 1, 2017

**Unless otherwise specified, the effective date is the date of service.*

IMPLEMENTATION DATE: January 2, 2018 - AB MACs shall use code 90756

Disclaimer for manual changes only: The revision date and transmittal number apply only to red italicized material. Any other material was previously published and remains unchanged. However, if this revision contains a table of contents, you will receive the new/revised information only, and not the entire table of contents.

II. CHANGES IN MANUAL INSTRUCTIONS: (N/A if manual is not updated)

III. FUNDING:

For Medicare Administrative Contractors (MACs):

The Medicare Administrative Contractor is hereby advised that this constitutes technical direction as defined in your contract. CMS does not construe this as a change to the MAC Statement of Work. The contractor is not obligated to incur costs in excess of the amounts allotted in your contract unless and until specifically authorized by the Contracting Officer. If the contractor considers anything provided, as described above, to be outside the current scope of work, the contractor shall withhold performance on the part(s) in question and immediately notify the Contracting Officer, in writing or by e-mail, and request formal directions regarding continued performance requirements.

SUBJECT: Quarterly Influenza Virus Vaccine Code Update - January 2018

EFFECTIVE DATE: August 1, 2017

**Unless otherwise specified, the effective date is the date of service.*

IMPLEMENTATION DATE: January 2, 2018 - AB MACs shall use code 90756

I. GENERAL INFORMATION

A. Background: This Change Request (CR) provides instructions for payment and edits for the Common Working File (CWF) and the Fiscal Intermediary Shared System (FISS) to include and update new or existing influenza virus vaccine codes. The influenza virus vaccine code set is updated on a quarterly basis. This update will include one new influenza virus vaccine code: 90756.

B. Policy: Effective for claims processed with Dates of Service (DOS) on or after January 1, 2018, influenza virus vaccine code 90756 (*Influenza virus vaccine, quadrivalent (ccIIV4), derived from cell cultures, subunit, antibiotic free, 0.5mL dosage, for intramuscular use*) will be payable by Medicare. This new code will be included on the 2018 Medicare Physician Fee Schedule Database file update and the annual Healthcare Common Procedure Coding System (HCPCS) update. During the interim period of August 1, 2017 through December 31, 2017, Part A and Part B Medicare Administrative Contractors (A/B MACs) shall use code Q2039 (*Influenza virus vaccine, not otherwise specified*) to handle bills for this new influenza virus vaccine product (*Influenza virus vaccine, quadrivalent (ccIIV4), derived from cell cultures, subunit, antibiotic free, 0.5mL dosage, for intramuscular use*). The new influenza virus vaccine code 90756 will then be implemented with the January 2018 release for dates of service on or after January 1, 2018. Q2039 is already an active code.

Contractors shall use the Centers for Medicare & Medicaid Services (CMS) Seasonal Influenza Vaccines Pricing webpage to obtain the payment rate for influenza virus codes Q2039 and 90756. Instructions shall also be forthcoming for providers to submit claims using Q2039 for the new influenza virus vaccine product between August 1, 2017 and December 31, 2017. A/B MACs will use existing processes to handle these claims. The new influenza virus vaccine code 90756 is not retroactive to August 1, 2017. No claims should be accepted for influenza virus vaccine code 90756 between the DOS August 1, 2017 and December 31, 2017. If claims are received in January 2018 with code 90756 for DOS between August 1, 2017 and December 31, 2017, claims should be rejected or returned as unprocessable.

HCPCS Code: 90756

Short Description: CCIIV4 VACC ABX FREE IM

Medium Description: CCIIV4 VACCINE ANTIBIOTIC FREE 0.5 ML DOS IM USE

Long Description: Influenza virus vaccine, quadrivalent (ccIIV4), derived from cell cultures, subunit, antibiotic free, 0.5mL dosage, for intramuscular use

TOS Code: V

II. BUSINESS REQUIREMENTS TABLE

"Shall" denotes a mandatory requirement, and "should" denotes an optional requirement.

Number	Requirement	Responsibility

	90658	<i>Influenza virus vaccine, trivalent (IIV3), split virus, 0.5 mL dosage, for intramuscular use</i>		WAIVED
	90660	Influenza virus vaccine, live, for intranasal use		WAIVED
	90661	Influenza virus vaccine, derived from cell cultures, subunit, preservative and antibiotic free, for intramuscular use		WAIVED
Service	CPT/ HCPCS	Long Descriptor	USPSTF Rating	Coins./ Deductible
	90662	Influenza virus vaccine, split virus, preservative free, enhanced immunogenicity via increased antigen content, for intramuscular use		WAIVED
	90672	Influenza virus vaccine, live, quadrivalent, for intranasal use		WAIVED

	90673	Influenza virus vaccine, trivalent, derived from recombinant DNA (RIV3), hemagglutinin (HA) protein only, preservative and antibiotic free, for intramuscular use		WAIVED
	90674	Influenza virus vaccine, quadrivalent (ccIIV4), derived from cell cultures, subunit, preservative and antibiotic free, 0.5 mL dosage, for intramuscular use		WAIVED
	90682	Influenza virus vaccine, quadrivalent (RIV4), derived from recombinant DNA, hemagglutinin (HA) protein only, preservative and antibiotic free, for intramuscular use		WAIVED
	90685	Influenza virus vaccine, quadrivalent, split virus, preservative free, when administered to children 6- 35 months of age, for intramuscular use		WAIVED
Service	CPT/ HCPCS	Long Descriptor	USPSTF Rating	Coins./ Deductible
	90686	Influenza virus vaccine, quadrivalent, split virus, preservative free, when administered to individuals 3 years of age and older, for intramuscular use		WAIVED
	90687	Influenza virus vaccine, quadrivalent, split virus, when administered to children 6-35 months of age, for intramuscular use		WAIVED
	90688	Influenza virus vaccine, quadrivalent, split virus, when administered to individuals 3 years of age and older, for intramuscular use		WAIVED
	90756	<i>Influenza virus vaccine, quadrivalent (ccIIV4), derived from cell cultures, subunit, antibiotic free, 0.5mL dosage, for intramuscular use</i>		WAIVED

	G0008	Administration of influenza virus vaccine		WAIVED
Pneumococcal Vaccine			B	
	90670	Pneumococcal conjugate vaccine, 13 valent, for intramuscular use		WAIVED
	90732	Pneumococcal polysaccharide vaccine, 23-valent, adult or immunosuppressed patient dosage, when administered to individuals 2 years or older, for subcutaneous or intramuscular use		WAIVED
	G0009	Administration of pneumococcal vaccine		WAIVED
Service	CPT/ HCPCS	Long Descriptor	USPSTF Rating	Coins./ Deductible
Hepatitis B Vaccine	90739	Hepatitis B vaccine, adult dosage (2 dose schedule), for intramuscular use	A	WAIVED
	90740	Hepatitis B vaccine, dialysis or immunosuppressed patient dosage (3 dose schedule), for intramuscular use		WAIVED
	90743	Hepatitis B vaccine, adolescent (2 dose schedule), for intramuscular use		WAIVED
	90744	Hepatitis B vaccine, pediatric/adolescent dosage (3 dose schedule), for intramuscular use		WAIVED
	90746	Hepatitis B vaccine, adult dosage, for intramuscular use		WAIVED

	90747	Hepatitis B vaccine, dialysis or immunosuppressed patient dosage (4 dose schedule), for intramuscular use		WAIVED
	G0010	Administration of Hepatitis B vaccine	A	WAIVED
Hepatitis C Virus Screening	G0472	Screening for Hepatitis C antibody	B	WAIVED

Service	CPT/ HCPCS	Long Descriptor	USPSTF Rating	Coins./ Deductible
HIV Screening	G0432	Infectious agent antigen detection by enzyme immunoassay (EIA) technique, qualitative or semi-qualitative, multiple- step method, HIV-1 or HIV-2, screening	A	WAIVED
	G0433	Infectious agent antigen detection by enzyme-linked immunosorbent assay (ELISA) technique, antibody, HIV-1 or HIV-2, screening		WAIVED
	G0435	Infectious agent antigen detection by rapid antibody test of oral mucosa transudate, HIV-1 or HIV- 2 , screening		WAIVED
Smoking Cessation for services furnished prior to October 1, 2016	G0436	Smoking and tobacco cessation counseling visit for the asymptomatic patient; intermediate, greater than 3 minutes, up to 10 minutes	A	WAIVED
	G0437	Smoking and tobacco cessation counseling visit for the asymptomatic patient intensive, greater than 10 minutes		WAIVED

Smoking Cessation for services furnished on or after October 1, 2016	99406	Smoking and tobacco cessation counseling visit for the asymptomatic patient; intermediate, greater than 3 minutes, up to 10 minutes	A	WAIVED
Service	CPT/ HCPCS	Long Descriptor	USPSTF Rating	Coins./ Deductible
	99407	Smoking and tobacco cessation counseling visit for the asymptomatic patient intensive, greater than 10 minutes		WAIVED
Annual Wellness Visit	G0438	Annual wellness visit, including PPS, first visit	*Not Rated	WAIVED
	G0439	Annual wellness visit, including PPS, subsequent visit		WAIVED
Intensive Behavioral Therapy for Obesity	G0447	Face-to-Face Behavioral Counseling for Obesity, 15 minutes	B	WAIVED
	G0473	Face-to-face behavioral counseling for obesity, group (2-10), 30 minute(s)		
Lung Cancer Screening	G0296	Counseling visit to discuss need for lung cancer screening (LDCT) using low dose CT scan (service is for eligibility determination and shared decision making)	B	WAIVED
	G0297	Low dose CT scan (LDCT) for lung cancer screening		

10.2.1 - Healthcare Common Procedure Coding System (HCPCS) and Diagnosis Codes

(Rev.3827; Issued: 08-04-17; Effective: 08-01-17; Implementation: 01-02-18- AB MACs shall use code 90756)

Vaccines and their administration are reported using separate codes. The following codes are for reporting the vaccines only.

HCPCS	Definition
90630	Influenza virus vaccine, quadrivalent (IIV4), split virus, preservative free, for intradermal use
90653	Influenza virus vaccine, inactivated, subunit, adjuvanted, for intramuscular use
90654	Influenza virus vaccine, split virus, preservative-free, for intradermal use, for adults ages 18 – 64;
90655	Influenza virus vaccine, split virus, preservative free, for children 6-35 months of age, for intramuscular use;
90656	Influenza virus vaccine, split virus, preservative free, for use in individuals 3 years and above, for intramuscular use;
90657	Influenza virus vaccine, split virus, for children 6-35 months of age, for intramuscular use;
90658	<i>Influenza virus vaccine, trivalent (IIV3), split virus, 0.5 mL dosage, for intramuscular use</i>
90660	Influenza virus vaccine, live, for intranasal use;
90661	Influenza virus vaccine, derived from cell cultures, subunit, preservative and antibiotic free, for intramuscular use
90662	Influenza virus vaccine, split virus, preservative free, enhanced immunogenicity via increased antigen content, for intramuscular use
90670	Pneumococcal conjugate vaccine, 13 valent, for intramuscular use
90672	Influenza virus vaccine, live, quadrivalent, for intranasal use
90673	Influenza virus vaccine, trivalent, derived from recombinant DNA (RIV3), hemagglutinin (HA) protein only, preservative and antibiotic free, for intramuscular use
90674	Influenza virus vaccine, quadrivalent (ccIIV4), derived from cell cultures, subunit, preservative and antibiotic free, 0.5 mL dosage, for intramuscular use
90682	Influenza virus vaccine, quadrivalent (RIV4), derived from recombinant DNA, hemagglutinin (HA) protein only, preservative and antibiotic free, for intramuscular use
90685	Influenza virus vaccine, quadrivalent, split virus, preservative free, when administered to children 6-35 months of age, for intramuscular use
90686	Influenza virus vaccine, quadrivalent, split virus, preservative free, when administered to individuals 3 years of age and older, for intramuscular use
90687	Influenza virus vaccine, quadrivalent, split virus, when administered to children 6-35 months of age, for intramuscular use
90688	Influenza virus vaccine, quadrivalent, split virus, when administered to individuals 3 years of age and older, for intramuscular use
90732	Pneumococcal polysaccharide vaccine, 23-valent, adult or immunosuppressed patient dosage, for use in individuals 2 years or older, for subcutaneous or intramuscular use;

- 90739 Hepatitis B vaccine, adult dosage (2 dose schedule), for intramuscular use
- 90740 Hepatitis B vaccine, dialysis or immunosuppressed patient dosage (3 dose schedule), for intramuscular use;
- 90743 Hepatitis B vaccine, adolescent (2 dose schedule), for intramuscular use;
- 90744 Hepatitis B vaccine, pediatric/adolescent dosage (3 dose schedule), for intramuscular use;
- 90746 Hepatitis B vaccine, adult dosage, for intramuscular use; and
- 90747 Hepatitis B vaccine, dialysis or immunosuppressed patient dosage (4 dose schedule), for intramuscular use.
- 90756 *Influenza virus vaccine, quadrivalent (ccIIV4), derived from cell cultures, subunit, antibiotic free, 0.5mL dosage, for intramuscular use***

The following codes are for reporting administration of the vaccines only. The administration of the vaccines is billed using:

HCPCS Definition

- G0008 Administration of influenza virus vaccine;
- G0009 Administration of pneumococcal vaccine; and
- *G0010 Administration of hepatitis B vaccine.
- *90471 Immunization administration. (For OPPS hospitals billing for the hepatitis B vaccine administration)
- *90472 Each additional vaccine. (For OPPS hospitals billing for the hepatitis B vaccine administration)

*** NOTE:** For claims with dates of service prior to January 1, 2006, OPPS and non- OPPS hospitals report G0010 for hepatitis B vaccine administration. For claims with dates of service January 1, 2006 until December 31, 2010, OPPS hospitals report 90471 or 90472 for hepatitis B vaccine administration as appropriate in place of G0010. Beginning January 1, 2011, providers should report G0010 for billing under the OPPS rather than 90471 or 90472 to ensure correct waiver of coinsurance and deductible for the administration of hepatitis B vaccine.

One of the following diagnosis codes must be reported as appropriate. If the sole purpose for the visit is to receive a vaccine or if a vaccine is the only service billed on a claim, the applicable following diagnosis code may be used.

ICD-9-CM Diagnosis Code	Description
V03.82	Pneumococcus
V04.81**	Influenza
V06.6***	Pneumococcus and Influenza
V05.3	Hepatitis B

*Effective for influenza virus claims with dates of service October 1, 2003 and later.

***Effective October 1, 2006, providers may report ICD-9-CM diagnosis code V06.6 on claims for pneumococcus and/or influenza virus vaccines when the purpose of the visit was to receive both vaccines.

NOTE: ICD-10-CM diagnosis code Z23 may be used for an encounter for immunizations effective October 15, 2015, when ICD-10 was implemented.

If a diagnosis code for pneumococcus, hepatitis B, or influenza virus vaccination is not reported on a claim, contractors may not enter the diagnosis on the claim. Contractors must follow current resolution processes for claims with missing diagnosis codes.

If the diagnosis code and the narrative description are correct, but the HCPCS code is incorrect, the A/B MAC (A or B) may correct the HCPCS code and pay the claim. For example, if the reported diagnosis code is V04.81 and the narrative description (if annotated on the claim) says "flu shot" but the HCPCS code is incorrect, contractors may change the HCPCS code and pay for the flu vaccine. Effective October 1, 2006, A/B MACs (B) should follow the instructions in Pub. 100-04, Chapter 1, Section 80321.1 (A/B MAC (B) Data Element Requirements) for claims submitted without a HCPCS code.

Claims for hepatitis B vaccinations must report the I.D. Number of the referring physician. In addition, if a doctor of medicine or osteopathy does not order the influenza virus vaccine, the A/B MACs (A) claims require:

- UPIN code SLF000 to be reported on claims submitted prior to May 23, 2008, when Medicare began accepting NPIs, only
- The provider's own NPI to be reported in the NPI field for the attending physician on claims submitted on or after May 23, 2008, when NPI requirements were implemented.

10.4.1 - CWF Edits on A/B MAC (A) Claims

(Rev.3827; Issued: 08-04-17; Effective: 08-01-17; Implementation: 01-02-18 - AB MACs shall use code 90756)

In order to prevent duplicate payment by the same A/B MAC (A), CWF edits by line item on the A/B MAC (A) number, the beneficiary Health Insurance Claim (HIC) number, and the date of service, the influenza virus procedure codes 90630, 90653, 90654, 90655, 90656, 90657, **90658**, 90660, 90661, 90662, 90672, 90673, 90674, 90682, 90685, 90686, 90687, 90688, **or 90756** and the pneumococcal procedure codes 90670 or 90732, and the administration codes G0008 or G0009.

If CWF receives a claim with either HCPCS codes 90630, 90653, 90654, 90655, 90656, 90657, **90658**, 90660, 90661, 90662, 90672, 90673, 90674, 90685, 90686, 90687, 90688, **or 90756** and it already has on record a claim with the same HIC number, same A/B MAC (A) number, same date of service, and any one of those HCPCS codes, the second claim submitted to CWF rejects.

If CWF receives a claim with HCPCS codes 90670 or 90732 and it already has on record a claim with the same HIC number, same A/B MAC (A) number, same date of service, and the same HCPCS code, the second claim submitted to CWF rejects when all four items match.

If CWF receives a claim with HCPCS administration codes G0008 or G0009 and it already has on record a claim with the same HIC number, same A/B MAC (A) number, same date of service, and same procedure code, CWF rejects the second claim submitted when all four items match.

CWF returns to the A/B MAC (A) a reject code "7262" for this edit. A/B MACs (A) must deny the second claim and use the same messages they currently use for the denial of duplicate claims.

10.4.2 - CWF Edits on A/B MAC (B) Claims

(Rev.3827; Issued: 08-04-17; Effective: 08-01-17; Implementation: 01-02-18- AB MACs shall use code 90756)

In order to prevent duplicate payment by the same A/B MAC (B), CWF will edit by line item on the A/B MAC (B) number, the HIC number, the date of service, the influenza virus procedure codes 90630, 90653, 90654, 90655, 90656, 90657, **90658**, 90660, 90661, 90662, 90672, 90673, 90674, 90682, 90685, 90686, 90687, 90688, **or 90756**; the pneumococcal procedure codes 90670 or 90732; and the administration code G0008 or G0009.

If CWF receives a claim with either HCPCS codes 90630, 90653, 90654, 90655, 90656, 90657, **90658**, 90660, 90661, 90662, 90672, 90673, 90674, 90682, 90685, 90686, 90687, 90688, **or 90756** and it already has on record a claim with the same HIC number, same A/B MAC (B) number, same date of service, and any one of those HCPCS codes, the second claim submitted to CWF will reject.

If CWF receives a claim with HCPCS codes 90670 or 90732 and it already has on record a claim with the same HIC number, same A/B MAC (B) number, same date of service, and the same HCPCS code, the second claim submitted to CWF will reject when all four items match.

If CWF receives a claim with HCPCS administration codes G0008 or G0009 and it already has on record a claim with the same HIC number, same A/B MAC (B) number, same date of service, and same procedure code, CWF will reject the second claim submitted.

CWF will return to the A/B MAC (B) a specific reject code for this edit. A/B MACs (B) must deny the second claim and use the same messages they currently use for the denial of duplicate claims.

In order to prevent duplicate payment by the centralized billing contractor and local A/B MAC (B), CWF will edit by line item for A/B MAC (B) number, same HIC number, same date of service, the influenza virus procedure codes 90630, 90653, 90654, 90655, 90656, 90657, **90658**, 90660, 90661, 90662, 90672, 90673, 90674, 90685, 90686, 90687, 90688, **or 90756**; the pneumococcal procedure codes 90670 or 90732; and the administration code G0008 or G0009.

If CWF receives a claim with either HCPCS codes 90630, 90653, 90654, 90655, 90656, 90657, **90658**, 90660, 90661, 90662, 90672, 90673, 90674, 90682, 90685, 90686, 90687, 90688, **or 90756** and it already has on record a claim with a different A/B MAC (B) number, but same HIC number, same date of service, and any one of those same HCPCS codes, the second claim submitted to CWF will reject.

If CWF receives a claim with HCPCS codes 90670 or 90732 and it already has on record a claim with the same HIC number, different A/B MAC (B) number, same date of service, and the same HCPCS code, the second claim submitted to CWF will reject.

If CWF receives a claim with HCPCS administration codes G0008 or G0009 and it already has on record a claim with a different A/B MAC (B) number, but the same HIC number, same date of service, and same procedure code, CWF will reject the second claim submitted.

CWF will return a specific reject code for this edit. A/B MACs (B) must deny the second claim. For the second edit, the reject code should automatically trigger the following Medicare Summary Notice (MSN) and Remittance Advice (RA) messages.

MSN: 7.2 – “This is a duplicate of a claim processed by another contractor. You should receive a Medicare Summary Notice from them.”

Claim Adjustment Reason Code 18 – Exact duplicate claim/service

10.4.3 - CWF Crossover Edits for A/B MAC (B) Claims

(Rev.3827; Issued: 08-04-17; Effective: 08-01-17; Implementation: 01-02-18- AB MACs shall use code 90756)

When CWF receives a claim from the A/B MAC (B), it will review Part B outpatient claims history to verify that a duplicate claim has not already been posted.

CWF will edit on the beneficiary HIC number; the date of service; the influenza virus procedure codes 90630, 90653, 90654, 90655, 90656, 90657, **90658**, 90660, 90661, 90662, 90672, 90673, 90674, 90682, 90685, 90686, 90687, 90688, **or 90756**; the pneumococcal procedure codes 90670 or 90732; and the administration code G0008 or G0009.

CWF will return a specific reject code for this edit. A/B MACs (B) must deny the second claim and use the same messages they currently use for the denial of duplicate claims.
