- 90746 Hepatitis B vaccine, adult dosage, for intramuscular use; and
- 90747 Hepatitis B vaccine, dialysis or immunosuppressed patient dosage (4 dose schedule), for intramuscular use.
- 90756 Influenza virus vaccine, quadrivalent (ccIIV4), derived from cell cultures, subunit, antibiotic free, 0.5mL dosage, for intramuscular use

The following codes are for reporting administration of the vaccines only. The administration of the vaccines is billed using:

**HCPCS Definition**

- G0008 Administration of influenza virus vaccine;
- G0009 Administration of pneumococcal vaccine; and
- \*G0010 Administration of hepatitis B vaccine.
- \*90471 Immunization administration. (For OPPS hospitals billing for the hepatitis B vaccine administration)
- \*90472 Each additional vaccine. (For OPPS hospitals billing for the hepatitis B vaccine administration)

**\* NOTE:** For claims with dates of service prior to January 1, 2006, OPPS and non- OPPS hospitals report G0010 for hepatitis B vaccine administration. For claims with dates of service January 1, 2006 until December 31, 2010, OPPS hospitals report 90471 or 90472 for hepatitis B vaccine administration as appropriate in place of G0010. Beginning January 1, 2011, providers should report

G0010 for billing under the OPPS rather than 90471 or 90472 to ensure correct waiver of coinsurance and deductible for the administration of hepatitis B vaccine.

One of the following diagnosis codes must be reported as appropriate. If the sole purpose for the visit is to receive a vaccine or if a vaccine is the only service billed on a claim, the applicable following diagnosis code may be used.

<b>ICD-9-CM Diagnosis Code</b>	<b>Description</b>
V03.82	Pneumococcus
V04.81**	Influenza
V06.6***	Pneumococcus and Influenza
V05.3	Hepatitis B

\*Effective for influenza virus claims with dates of service October 1, 2003 and later.

\*\*\*Effective October 1, 2006, providers may report ICD-9-CM diagnosis code V06.6 on claims for pneumococcus and/or influenza virus vaccines when the purpose of the visit was to receive both vaccines.

**NOTE:** ICD-10-CM diagnosis code Z23 may be used for an encounter for immunizations effective October 15, 2015, when ICD-10 was implemented.

If a diagnosis code for pneumococcus, hepatitis B, or influenza virus vaccination is not reported on a claim, contractors may not enter the diagnosis on the claim. Contractors must follow current resolution processes for claims with missing diagnosis codes.

If the diagnosis code and the narrative description are correct, but the HCPCS code is incorrect, the A/B MAC (A or B) may correct the HCPCS code and pay the claim. For example, if the reported diagnosis code is V04.81 and the narrative description (if annotated on the claim) says "flu shot" but the HCPCS code is incorrect, contractors may change the HCPCS code and pay for the flu vaccine. Effective October 1, 2006, A/B MACs (B) should follow the instructions in Pub. 100-04, Chapter 1, Section 80321.1 (A/B MAC (B) Data Element Requirements) for claims submitted without a HCPCS code.

Claims for hepatitis B vaccinations must report the I.D. Number of the referring physician. In addition, if a doctor of medicine or osteopathy does not order the influenza virus vaccine, the A/B MACs (A) claims require:

- UPIN code SLF000 to be reported on claims submitted prior to May 23, 2008, when Medicare began accepting NPIs, only
- The provider's own NPI to be reported in the NPI field for the attending physician on claims submitted on or after May 23, 2008, when NPI requirements were implemented.

#### **10.4.1 - CWF Edits on A/B MAC (A) Claims**

***(Rev.4141, Issued: 09-27-18, Effective: 01-01-19 Implementation: 01-07-19)***

In order to prevent duplicate payment by the same A/B MAC (A), CWF edits by line item on the A/B MAC (A) number, the beneficiary Health Insurance Claim (HIC) number, and the date of service, the influenza virus procedure codes 90630, 90653, 90654, 90655, 90656, 90657, 90658, 90660, 90661, 90662, 90672, 90673, 90674, 90682, 90685, 90686, 90687, 90688, **90689**, or 90756 and the pneumococcal procedure codes 90670 or 90732, and the administration codes G0008 or G0009.

If CWF receives a claim with either HCPCS codes 90630, 90653, 90654, 90655, 90656, 90657, 90658, 90660, 90661, 90662, 90672, 90673, 90674, 90685, 90686, 90687, 90688, **90689**, or 90756 and it already has on record a claim with the same HIC number, same A/B MAC (A) number, same date of service, and any one of those HCPCS codes, the second claim submitted to CWF rejects.

If CWF receives a claim with HCPCS codes 90670 or 90732 and it already has on record a claim with the same HIC number, same A/B MAC (A) number, same date of service, and the same HCPCS code, the second claim submitted to CWF rejects when all four items match.

If CWF receives a claim with HCPCS administration codes G0008 or G0009 and it already has on record a claim with the same HIC number, same A/B MAC (A) number, same date of service, and same procedure code, CWF rejects the second claim submitted when all four items match.

CWF returns to the A/B MAC (A) a reject code “7262” for this edit. A/B MACs (A) must deny the second claim and use the same messages they currently use for the denial of duplicate claims.

#### **10.4.2 - CWF Edits on A/B MAC (B) Claims**

***(Rev.4141, Issued: 09-27-18, Effective: 01-01-19 Implementation: 01-07-19)***

In order to prevent duplicate payment by the same A/B MAC (B), CWF will edit by line item on the A/B MAC (B) number, the HIC number, the date of service, the influenza virus procedure codes 90630, 90653, 90654, 90655, 90656, 90657, 90658, 90660, 90661, 90662, 90672, 90673, 90674, 90682, 90685, 90686, 90687, 90688, **90689**, or 90756; the pneumococcal procedure codes 90670 or 90732; and the administration code G0008 or G0009.

If CWF receives a claim with either HCPCS codes 90630, 90653, 90654, 90655, 90656, 90657, 90658, 90660, 90661, 90662, 90672, 90673, 90674, 90682, 90685, 90686, 90687, 90688, **90689**, or 90756 and it already has on record a claim with the same HIC number, same A/B MAC (B) number, same date of service, and any one of those HCPCS codes, the second claim submitted to CWF will reject.

If CWF receives a claim with HCPCS codes 90670 or 90732 and it already has on record a claim with the same HIC number, same A/B MAC (B) number, same date of service, and the same HCPCS code, the second claim submitted to CWF will reject when all four items match.

If CWF receives a claim with HCPCS administration codes G0008 or G0009 and it already has on record a claim with the same HIC number, same A/B MAC (B) number, same date of service, and same procedure code, CWF will reject the second claim submitted.

CWF will return to the A/B MAC (B) a specific reject code for this edit. A/B MACs (B) must deny the second claim and use the same messages they currently use for the denial of duplicate claims.

In order to prevent duplicate payment by the centralized billing contractor and local A/B MAC (B), CWF will edit by line item for A/B MAC (B) number, same HIC number, same date of service, the influenza virus procedure codes 90630, 90653, 90654, 90655, 90656, 90657, 90658, 90660, 90661, 90662, 90672, 90673, 90674, 90685, 90686, 90687, 90688, **90689**, or 90756; the pneumococcal procedure codes 90670 or 90732; and the administration code G0008 or G0009.

If CWF receives a claim with either HCPCS codes 90630, 90653, 90654, 90655, 90656, 90657, 90658, 90660, 90661, 90662, 90672, 90673, 90674, 90682, 90685, 90686, 90687, 90688, **90689**, or 90756 and it already has on record a claim with a different A/B MAC (B) number, but same HIC number, same date of service, and any one of those same HCPCS codes, the second claim submitted to CWF will reject.

If CWF receives a claim with HCPCS codes 90670 or 90732 and it already has on record a claim with the same HIC number, different A/B MAC (B) number, same date of service, and the same HCPCS code, the second claim submitted to CWF will reject.

If CWF receives a claim with HCPCS administration codes G0008 or G0009 and it already has on record a claim with a different A/B MAC (B) number, but the same HIC number, same date of service, and same procedure code, CWF will reject the second claim submitted.

CWF will return a specific reject code for this edit. A/B MACs (B) must deny the second claim. For the second edit, the reject code should automatically trigger the following Medicare Summary Notice (MSN) and Remittance Advice (RA) messages.

MSN: 7.2 – “This is a duplicate of a claim processed by another contractor. You should receive a Medicare Summary Notice from them.”

Claim Adjustment Reason Code 18 – Exact duplicate claim/service

### **10.4.3 - CWF Crossover Edits for A/B MAC (B) Claims**

*(Rev.4141, Issued: 09-27-18, Effective: 01-01-19 Implementation: 01-07-19)*

When CWF receives a claim from the A/B MAC (B), it will review Part B outpatient claims history to verify that a duplicate claim has not already been posted.

CWF will edit on the beneficiary HIC number; the date of service; the influenza virus procedure codes 90630, 90653, 90654, 90655, 90656, 90657, 90658, 90660, 90661, 90662, 90672, 90673, 90674, 90682, 90685, 90686, 90687, 90688, **90689**, or 90756; the pneumococcal procedure codes 90670 or 90732; and the administration code G0008 or G0009.

CWF will return a specific reject code for this edit. A/B MACs (B) must deny the second claim and use the same messages they currently use for the denial of duplicate claims.
