III. FUNDING:
For Medicare Administrative Contractors (MACs):
The Medicare Administrative Contractor is hereby advised that this constitutes technical direction as defined in your contract. CMS does not construe this as a change to the MAC Statement of Work. The contractor is not obligated to incur costs in excess of the amounts allotted in your contract unless and until specifically authorized by the Contracting Officer. If the contractor considers anything provided, as described above, to be outside the current scope of work, the contractor shall withhold performance on the part(s) in question and immediately notify the Contracting Officer, in writing or by e-mail, and request formal directions regarding continued performance requirements.

I. GENERAL INFORMATION

A. Background: In the FY 2019 IPPS/LTCH PPS Final Rule, two changes were made to 42 Code of 
Federal Regulation (CFR) § 424.11. First, § 424.11(c) included a requirement that the certification statement 
must indicate the specific location within the medical record where the information can be found, and this 
requirement was resulting in unnecessary denials of Medicare claims. As such, this requirement was deleted. 
In addition, we relocated the second sentence of § 424.11(c) (indicating that supporting information 
contained elsewhere in the provider’s records need not be repeated in the certification or recertification 
statement itself) to the end of the immediately preceding paragraph (b), which describes similar kinds of 
flexibility that are currently afforded in terms of completing the required statement. Reference to the two 
provisions in § 424.11(c) are referenced in section 6.3 (Medical Review of Certification and Recertification 
of Residents in SNFs in Chapter 6 (Medicare Contractor Medical Review Guidelines for Specific Services)), 
Pub. 100-08. Specifically, section 6.3 includes the following language:

“Further, 42 CFR § 424.11(c) states, ‘If that information is contained in other provider records, such as 
physicians' progress notes, it need not be repeated. It will suffice for the statement to indicate where the 
information is to be found.’”

In order to account for the two changes finalized in the FY 2019 IPPS/LTCH PPS Final Rule, we are 
revising section 6.3, in chapter 6 of Pub. 100-08 as follows:

- Change the reference to § 424.11(c) to § 424.11(b); and
- Strike the sentence, "It will suffice for the statement to indicate where the information is to be 
  found."

B. Policy: This CR does not involve any regulatory, legislative, or statutory changes.

The Medicare conditions of payment require a physician certification and (when specified) recertification for SNF services. This requirement is explicitly stated in §1814(a)(2) of the Social Security Act. 42 CFR 424.20 details the required contents of the certification and re-certifications and 42 CFR 424.11 specifies that "no specific procedures or forms are required for certification and recertification statements," and that "the provider may adopt any method that permits verification. The certification and recertification statements may be entered on forms, notes, or records that the appropriate individual signs, or on a special separate form" (emphasis added). Further, 42 CFR § 424.11(b) specifies that information contained in other provider records, such as physicians’ progress notes, need not be repeated in the certification or recertification statement itself. Recent decisions by administrative law judges, that CMS believes are fully consistent with law and regulations, reinforce the need for MACs to consider documentation in the beneficiary's medical record beyond a discrete certification or recertification form to determine if the required elements for certification are present.

Contractors shall deny claims for failure to comply with the certification or re-certification content requirements in 42 CFR 424.20 and not for the failure to use a separate certification form or particular format.
