**III. FUNDING:**

**For Medicare Administrative Contractors (MACs):**

The Medicare Administrative Contractor is hereby advised that this constitutes technical direction as defined in your contract. CMS does not construe this as a change to the MAC Statement of Work. The contractor is not obligated to incur costs in excess of the amounts allotted in your contract unless and until specifically authorized by the Contracting Officer. If the contractor considers anything provided, as described above, to be outside the current scope of work, the contractor shall withhold performance on the part(s) in question and immediately notify the Contracting Officer, in writing or by e-mail, and request formal directions regarding continued performance requirements.

## I. GENERAL INFORMATION

**A. Background:** The HPTC set is maintained by the National Uniform Claim Committee (NUCC) for standardized classification of health care providers. The NUCC updates the code set twice per year with changes effective April 1 and October 1. The HPTC list is available for view or for download from the NUCC Web site at [www.nucc.org/index.php/code-sets-mainmenu-41/provider-taxonomy-mainmenu-40](http://www.nucc.org/index.php/code-sets-mainmenu-41/provider-taxonomy-mainmenu-40).

The changes to the code set include the addition of a new code and addition of definitions to existing codes. When reviewing the Health Care Provider Taxonomy code set online, revisions made since the last release are identified.

**B. Policy:** The Health Insurance Portability and Accountability Act (HIPAA) requires that covered entities comply with the requirements in the electronic transaction format implementation guides adopted as national standards. The institutional and professional claim electronic standard implementation guides (X12 837-I and 837-P) each require use of valid codes contained in the HPTC set when there is a need to report provider type or physician, practitioner, or supplier specialty for a claim. Valid HPTCs are those codes approved by the NUCC for current use. Terminated codes are not approved for use after a specific date and newly approved codes are not approved for use prior to the effective date of the code set update in which each new code first appears. Although the NUCC generally posts their updates on the Washington Publishing Company (WPC) web page 3 months prior to the effective date, changes are not effective until April 1 or October 1 as indicated in each update. Specialty and/or provider type codes issued by any entity other than the NUCC are not valid, and Medicare would be guilty of non-compliance with HIPAA if Medicare contractors accepted claims that contain invalid HPTCs.
