SUBJECT: CWF Editing for Vaccines Furnished at Hospice

I. SUMMARY OF CHANGES: Currently, a hospice can provide vaccines (Influenza, Pneumococcal, and Hepatitis B vaccines) to those beneficiaries who request them, including those who have elected the hospice benefit. These services are only covered when provided to hospice beneficiaries by their hospice provider. This Change Request (CR) updates Medicare systems to prevent non-hospice providers from providing vaccines to hospice beneficiaries.

I. GENERAL INFORMATION

A. Background: Currently, a hospice can provide vaccines (Influenza, Pneumococcal, and Hepatitis B vaccines) to those beneficiaries who request them, including those who have elected the hospice benefit. These services are only covered when provided to hospice beneficiaries by their hospice provider. Payment for these services is made using the same methodology as if they were a supplier. See the Medicare Claims Processing Manual (Pub. 100-04), chapter 18, section 10.2.4.

It has come to our attention that there are no edits in place in Medicare systems to prevent non-hospice providers from providing vaccines to hospice beneficiaries. This Change Request (CR) updates Medicare systems to prevent non-hospice providers from providing vaccines to hospice beneficiaries.

B. Policy: No change in policy.
