SUBJECT: System Changes to Implement Section 231 of the Consolidated Appropriations Act, 2016, Temporary Exception for Certain Severe Wound Discharges From Certain Long-Term Care Hospitals (LTCHs)

IMPLEMENTATION DATE: October 3, 2016

I. GENERAL INFORMATION

A. Background: Under the LTCH Prospective Payment System (PPS), for LTCH discharges in cost reporting periods beginning on or after October 1, 2015, Medicare established two separate payment categories for LTCH patients upon discharge. LTCH cases meeting specific clinical criteria are paid the LTCH PPS standard Federal rate payment and those cases not meeting specific clinical criteria are paid the site neutral rate payment (i.e., the lesser of an “Inpatient Prospective Payment System (IPPS)-comparable” payment amount or 100 percent of the estimated cost of the case).

In general, in order to be paid at the LTCH PPS standard Federal rate payment amount, an LTCH discharge must either:

1. have been admitted directly from an IPPS hospital during which at least 3 days were spent in an intensive care unit (ICU) or coronary care unit (CCU), but the discharge must not have a principal diagnosis in the LTCH of a psychiatric or rehabilitation diagnosis; or
2. have been admitted directly from an IPPS hospital and the LTCH discharge is assigned to an MS-LTC-DRG based on the receipt of ventilator services of at least 96 hours, but must not have a principal diagnosis in the LTCH of a psychiatric or rehabilitation diagnosis.

Section 231 of the Consolidated Appropriations Act, 2016, establishes an additional temporary exception from the site neutral payment rate for patients discharged from certain LTCHs with a severe wound, effective for discharges occurring before January 1, 2017.

B. Policy: Section 231 of the Consolidated Appropriations Act, 2016 (Pub. L. 114-113), establishes a temporary exception for certain wound care discharges from the site neutral payment rate for certain LTCHs. As implemented, this exception applies for discharges occurring on or after April 21, 2016, and prior to January 1, 2017 from LTCHs “identified by the amendment made by section 4417(a) of the Balanced Budget Act of 1997” and “located in a rural area” or “treated as being so located” pursuant to section 1886(d)(8)(E) of the Act when the individual discharged had “a severe wound.” The final payment for discharges that meet the statutory provider-level and discharge-level criteria as implemented by CMS for discharges occurring on or after April 21, 2016, and prior to January 1, 2017, is based on the LTCH PPS standard Federal payment rate. This temporary statutory exception from the site neutral payment rate was implemented in an interim final rule with comment period (IFC) (published in the **Federal Register** on April 21, 2016).

1. Provider-level criteria: The statute specifies that the temporary exclusion for certain discharges from the site neutral payment rate is applicable to an LTCH that is “identified by the amendment made by section 4417(a) of the Balanced Budget Act of 1997.” As discussed in the IFC, CMS has interpreted the phrase to mean hospitals which were described in § 412.23(e)(2)(i) that meet the criteria of § 412.22(f) of the regulations, which are a group of LTCHs commonly referred to as “grandfathered hospitals-within-hospitals” (or grandfathered HwHs). (Note, an HwH is defined in the regulations at 42 CFR 412.22(e) as a hospital which occupies space in a building also used by another hospital or on the campus of another hospital.) Section 412.22(f) requires that, in order to maintain grandfathered status, an HwH must continue to operate under the same terms and conditions including but not limited to number of beds. Therefore, in order to be eligible for this temporary exception, an LTCH must have participated in Medicare as an LTCH and was co-located with another hospital as of September 30, 1995, and **must currently meet the requirements of § 412.22(f)**. There are several reasons for which an LTCH described in § 412.23(e)(2)(i) may not currently meet the criteria in §412.22(f). For example, the LTCH may have more than one location, or the HwH may have increased beds after September 30, 2003 (we note these examples are not intended to be an exhaustive list of the reasons an LTCH may not meet the criteria in § 412.22(f)). Medicare Administrative Contractors (MACs) **must verify** that an LTCH described in § 412.23(e)(2)(i) **currently meets the criteria in §412.22(f)** in order for the LTCH to be eligible for this temporary exception from the site neutral payment rate for certain wound care discharges. This process will likely involve direct outreach to LTCHs in order to verify the required information. Additional information on the requirement that grandfathered HwHs meet the criteria in § 412.22(f) can be found in the following IPSS rules: FY 1997 IPSS final rule (62 FR 46012); FY 2004 IPSS final rule (68 FR 45463),; May 22, 2008 LTCH PPS interim final rule with comment period (73 FR 29703); and FY 2010 IPSS/R 2010 LTCH PPS final rule (74 FR 43980).

The temporary statutory exclusion for certain discharges from the site neutral payment rate is further limited to LTCHs that are “located in a rural area” or “treated as being so located” pursuant to section 1886(d)(8)(E) of the Act. For purposes of this provision, “located in a rural area” refers to LTCHs which are currently located in a rural area as defined under § 412.503 (that is, located in any area outside an urban area, which is an area within a Metropolitan Statistical Area (as defined by the Office of Management and Budget)). (Information on the current labor market area geographic classifications used under the LTCH PPS can be found in the FY 2015 IPSS/LTCH PPS final rule (79 FR 50180 through 50185).)

Section 1886(d)(8)(E) of the Act provides for an urban IPSS hospital that is located in an urban area to be reclassified as a rural hospital if it submits an application in accordance with our established criteria and meets certain conditions (see § 412.103). (Additional information on our policies for IPSS hospitals located in urban areas and that apply for reclassification as rural under § 412.103 can be found in the FY 2012 IPSS/ LTCH PPS final rule (76 FR 51595).) For the purpose of implementing the phrase “treated as being so located” pursuant to section 1886(d)(8)(E) of the Act for the temporary statutory exclusion for certain LTCH discharges from the site neutral payment rate, we revised our regulations to “borrow” the existing rural reclassification process for urban IPSS hospitals under § 412.103 and to allow grandfathered HwH LTCHs (defined above) to apply to their Regional Office for treatment as being located in a rural area for the sole purpose of qualifying for this temporary exclusion from the application of the site neutral payment rate. (We note that this policy only allows grandfathered HwH LTCHs to apply for this reclassification, and the rural treatment only extends to this statutory temporary exception for certain wound care discharges from the site neutral payment rate, and reclassifying grandfathered HwH LTCHs will not be treated as rural under the LTCH PPS for any other reason including, but not limited to, the 25 percent policy and wage index). Any rural treatment under § 412.103 for an LTCH grandfathered HwH will expire at the same time as this temporary provision (that is, December 31, 2016).

For LTCHs that meet both the grandfathered HwH criteria and rural (or is reclassified rural by meeting the provisions outlined in §412.103), the MAC will set the Temporary Relief Indicator field on the provider specific file (PSF) to a ‘Y’ with an effective of April 21, 2016, or for LTCH grandfathered HwHs that are or is reclassified rural by meeting the provisions outlined in §412.103, the effective date of that rural reclassification (that is, the filing date of the reclassification application as provided in § 412.103(d)). Upon expiration of this temporary statutory provision (that is, December 31, 2016), the MAC will set the
