SUBJECT: Maintenance and Update of the Temporary Hook Created to Hold OPSS Claims that Include Certain Drug HCPCS Codes

Effective Date: January 1, 2010

Implementation Date: January 4, 2010

I. GENERAL INFORMATION

A. Background: CMS pays for all outpatient drugs using the Average Sales Price (ASP) methodology. The schedule for submission of all ASP pricing is statutory per Section 621(a) of the MMA. Drug manufacturers are required to submit drug ASPs within 30 days of the close of their fiscal quarter. Given the complexity, volume of data, and the number of drugs affected, approximately 6 weeks are required to process, validate, and issue final ASPs for a given quarter. The ASP rates for drugs furnished on or after January 1, 2010, will not be available until mid-December 2009. The ASP rates for drugs furnished on or after April 1, 2010, will not be available until mid-March 2010. The ASP rates for drugs furnished on or after July 1, 2010, will not be available until mid-June 2010 and the ASP rates for drugs furnished on or after October 1, 2010, will not be available until mid-September 2010 respectively.

The OPSS Pricer is ready for implementation on the first day of each quarter. However, certain drug HCPCS that will be updated quarterly, will not have the new drug prices included for the reasons explained above. Claims for dates of service falling under the new OPSS Pricer that include one or more drug HCPCS codes from the file, found at the address specified in the Business Requirements below, are to be held by the Fiscal Intermediary (FI) or A/B MAC until a revised OPSS Pricer is installed in their production region. Refer to the OPSS Pricer Schedule below for the OPSS Pricer installation deadlines.
