## **I. GENERAL INFORMATION**

**A. Background:** Each calendar quarter, CMS issues an updated, 5-digit ZIP Code file (ZIP5) and 9-digit ZIP Code File (ZIP9) to be used for pricing Medicare claims.

Every 2 months, CMS obtains an updated listing of ZIP Codes from the U.S. Postal Service (USPS). On the basis of the updated USPS file, CMS updates the Medicare ZIP Code files and makes them available to contractors.

Under normal circumstances, approximately 6 weeks prior to the beginning of each calendar quarter (i.e., approximately 6 weeks prior to January 1, April 1, July 1, and October 1), CMS will make available the updated ZIP5 and ZIP9 files. Thus, the updated files will be available on approximately November 15th for the January 1 release, approximately February 15th for the April 1 release, approximately May 15th for the July 1 release, and approximately August 15th for the October 1 release.

In addition to the 5 and 9-digit ZIP Code files, CMS will post on the CMS Web site at [http://www.cms.hhs.gov/prospmedicarefeesvcpmtgen/01\\_overview.asp](http://www.cms.hhs.gov/prospmedicarefeesvcpmtgen/01_overview.asp) a list of the 5-digit ZIP Codes that require a 4-digit extension, and a list of the most recent additions and deletions to that file. Under normal circumstances, these two files will also be posted approximately 6 weeks prior to the beginning of each calendar quarter.

When the updated files are loaded to the Connect: Direct, it will add to the inventory of ZIP Code files on the mainframe. The name of the ZIP5 file is [MU00.@AAA2390.ZIP5.LOCALITY.Vyyyyr](#), where “yyyy” equals the calendar year and “r” equals the release number with January = 1, April = 2, July = 3, and October = 4. Also, the name of the ZIP9 file is [MU00.@AAA2390.ZIP9.LOCALITY.Vyyyyr](#).

**NOTE:** Even the most recently updated ZIP Code files will not contain ZIP Codes established by the USPS after CMS compiled the file. Therefore, for ZIP Codes reported on claims that are not on the most recent ZIP Code files, follow the instructions in Pub. 100-04, Medicare Claims Processing Manual, chapter 15, section 20.1.5(B).

**B. Policy:** This instruction describes the process for updating the Medicare ZIP Code files for both the January 2010 Quarterly Update and the 2009 Calendar Year-end Release.

**NOTE:** The January 2010 Medicare ZIP code files (ZIP5 and ZIP9) include two new state codes for Kansas – “EK” to identify Johnson and Wyandotte Counties, and “WK” to identify all other counties in Kansas. The addition of the new state codes corrects an issue affecting the clinical lab fee schedule that was created during the transition from carriers to A/B MACs in the Kansas and Missouri areas. The affected fee schedules will be corrected upon issuance of this transmittal.
