Transmittal 1994 dated July 2, 2010, is rescinded and replaced by Transmittal 2005, dated July 23, 2010. This Transmittal corrects the short descriptor for Healthcare Common Procedural Coding System (HCPCS) 33244 in Section 270.1 of Pub, 100-04, Chapter 32. All other information remains the same.

SUBJECT: Billing and Claims Processing for Automatic Implantable Cardiac Defibrillator (ICD) Services

I. SUMMARY OF CHANGES: This CR implements the new manual sections for Publication 100-04, Chapter 32, Sections 270, 270.1, 270.2, which describes the Automatic Implantable Cardiac Defibrillator (ICD) Services.

EFFECTIVE DATE: August 31, 2010
IMPLEMENTATION DATE: August 31, 2010

Disclaimer for manual changes only: The revision date and transmittal number apply only to red italicized material. Any other material was previously published and remains unchanged. However, if this revision contains a table of contents, you will receive the new/revised information only, and not the entire table of contents.

III. FUNDING:
For Fiscal Intermediaries (FIs), Regional Home Health Intermediaries (RHHIs) and/or Carriers: No additional funding will be provided by CMS; Contractor activities are to be carried out within their operating budgets.

For Medicare Administrative Contractors (MACs): The Medicare Administrative Contractor is hereby advised that this constitutes technical direction as defined in your contract. CMS does not construe this as a change to the MAC Statement of Work. The contractor is not obligated to incur costs in excess of the amounts allotted in your contract unless and until specifically authorized by the Contracting Officer. If the contractor considers anything provided, as described above, to be
outside the current scope of work, the contractor shall withhold performance on the part(s) in question and immediately notify the Contracting Officer, in writing or by e-mail, and request formal directions regarding continued performance requirements.

I. GENERAL INFORMATION

A. Background: The purpose of this CR is to add information previously omitted to the Medicare Claims Processing manual, Publication 100-04. This CR is updating the manual and is not changing current policy. The following CRs are being incorporated into the claims processing manual:

- Transmittal 497, CR 3604, dated March 8, 2005
- Transmittal 819, CR 4273, dated January 27, 2006
- Transmittal 1418, CR 5805, dated January 18, 2008
- Transmittal 663, CR 6867, dated March 26, 2010

B. Policy: This CR incorporates previously published information and instructions regarding ICDs in a new section in Chapter 32 of Publication 100-04.

### VI. FUNDING

**Section A:** For Fiscal Intermediaries (FIs), Regional Home Health Intermediaries (RHHIs), and/or Carriers, use only one of the following statements:

No additional funding will be provided by CMS; contractor activities are to be carried out within their operating budgets.

**Section B:** For Medicare Administrative Contractors (MACs), include the following statement:

The Medicare Administrative Contractor is hereby advised that this constitutes technical direction as defined in your contract. CMS does not construe this as a change to the MAC Statement of Work. The contractor is not obligated to incur costs in excess of the amounts allotted in your contract unless and until specifically authorized by the Contracting Officer. If the contractor considers anything provided, as described above, to be outside the current scope of work, the contractor shall withhold performance on the part(s) in question and immediately notify the Contracting Officer, in writing or by e-mail, and request formal directions regarding continued performance requirements.
270 - Claims Processing for Implantable Automatic Defibrillators
  270.1 - Coding Requirements for Implantable Automatic Defibrillators
  270.2 - Billing Requirements for Patients Enrolled in a Data Collection System
270 – Claims Processing for Implantable Automatic Defibrillators
(Rev.2005, Issued: 7-23-10, Effective: 8-31-10, Implementation: 8-31-10)

Coverage Requirements - The implantable automatic defibrillator is an electronic device
designed to detect and treat life threatening tachyarrhythmias. The device consists of a pulse
generator and electrodes for sensing and defibrillating. See §20.4 -Medicare National Coverage Determinations (NCD) Manual for the complete list of
covered indications.

270.1 – Coding Requirements for Implantable Automatic Defibrillators
(Rev.2005, Issued: 7-23-10, Effective: 8-31-10, Implementation: 8-31-10)

The following are the applicable procedure codes for implantable automatic defibrillators:

- 33240- (Insertion of single or dual chamber pacing cardioverter-defibrillator pulse
generator)
- 33241 (Subcutaneous removal of single or dual chamber pacing cardioverter-defibrillator
  pulse generator)
- 33243 (Removal of single or dual chamber pacing cardioverter-defibrillator electrode(s);
  by thoracotomy)
- 33244 (Removal of single or dual chamber pacing cardioverter-defibrillator electrodes
  by transvenous extraction)
- 33249- (Insertion or repositioning of electrode leads(s) for single or dual chamber
  pacing cardioverter-defibrillator and insertion of pulse generator)

For inpatient hospitals claims, ICD-9 CM procedure code 37.94 shall be used for to report the
implantation/replacement of automatic defibrillators.

270.2 – Billing Requirements for Patients Enrolled in a Data Collection System
(Rev.2005, Issued: 7-23-10, Effective: 8-31-10, Implementation: 8-31-10)

Effective for dates of service on or after April 1, 2005, Medicare required that patients receiving
a defibrillator for the primary prevention of sudden cardiac arrest be enrolled in a qualifying
data collection system. Providers shall use modifier Q0 to identify patients whose data is being
submitted to a data collection system.

The following ICD-9 diagnosis codes identify non-primary prevention (secondary prevention)
patient or replacement implantations (e.g. due to recalled devices):

- 427.1 Ventricular tachycardia
- 427.41 Ventricular fibrillation
- 427.42 Ventricular flutter
427.5 Cardiac arrest
427.9 Cardiac dysrhythmia, unspecified
V12.33 Personal history of sudden cardiac arrest
996.04 Mechanical complication of cardiac device, implant, and graft, due to automatic implantable cardiac defibrillator
V53.32 Fitting and adjustment of other device, automatic implantable cardiac defibrillator

When any of the above codes appear on a claim, the Q0 modifier is not required. The Q0 modifier may be appended to claims for secondary prevention indications when data is being entered into a qualifying data collection system.
