VI. FUNDING

Section A: For Fiscal Intermediaries (FIs), Regional Home Health Intermediaries (RHHIs), and/or Carriers, use only one of the following statements:

No additional funding will be provided by CMS; contractor activities are to be carried out within their operating budgets.

Section B: For Medicare Administrative Contractors (MACs), include the following statement:

The Medicare Administrative Contractor is hereby advised that this constitutes technical direction as defined in your contract. CMS does not construe this as a change to the MAC Statement of Work. The contractor is not obligated to incur costs in excess of the amounts allotted in your contract unless and until specifically authorized by the Contracting Officer. If the contractor considers anything provided, as described above, to be outside the current scope of work, the contractor shall withhold performance on the part(s) in question and immediately notify the Contracting Officer, in writing or by e-mail, and request formal directions regarding continued performance requirements.
3.2.3.2 Time Frames for Submission

(Rev.426, Issued: 06-15-12, Effective: 07-16-12, Implementation: 07-16-12)

This section applies to MACs, RACs, CERT, and ZPICs, as indicated.

A. Prepayment Review Time Frames

When requesting documentation for prepayment review, the MAC and ZPIC shall notify providers that the requested documentation is to be submitted within 30 calendar days of the request. The reviewer should not grant extensions to providers who need more time to comply with the request. Reviewers shall deny claims for which the requested documentation was not received by day 45.

B. Postpayment Review Time Frames

When requesting documentation for postpayment review, the MAC, CERT and RAC shall notify providers that the requested documents are to be submitted within 45 calendar days of the request. ZPICS shall notify providers that requested documents are to be submitted within 30 calendar days of the request. Because there are no statutory provisions requiring that postpayment review of the documentation be completed within a certain timeframe, MACs, CERT, and ZPICs have the discretion to grant extensions to providers who need more time to comply with the request. The number of submission extensions and the number of days for each extension is solely within the discretion of the MACs, CERT and ZPICs. RACs shall follow the time requirements outlined in their SOW.

C. For esMD submissions

The esMD review contractor shall use the Content Transport Services receipt date as the date the documentation was received.

If the CTS receipt date is outside of the contractors normal business hours the following business day shall be used as the receipt date.

If unforeseeable circumstances occur, in which contractors are not technically capable of retrieving documentation due to issues outside of their control, contractors can use the date documentation was available to be retrieved once issues have been resolved in CTS.
