SUBJECT: Fee Schedule Update for 2009 for Durable Medical Equipment, Prosthetics, Orthotics and Supplies

Effective Date: January 1, 2009

Implementation Date: January 5, 2009

I. GENERAL INFORMATION

A. Background: The DMEPOS fee schedules are updated on an annual basis in accordance with statute and regulations. The update process for the DMEPOS fee schedule is located in §60, Chapter 23 of the Medicare Claims Processing Manual (Pub. 100-04).

B. Policy: This recurring update notification provides specific instructions regarding the 2009 annual update for the DMEPOS fee schedule. Payment on a fee schedule basis is required for durable medical equipment (DME), prosthetic devices, orthotics, prosthetics, and surgical dressings by §1834(a), (h), and (i) of the Social Security Act. Payment on a fee schedule basis is required for parenteral and enteral nutrition (PEN) by regulations contained at 42 CFR 414.102.

The CMS Division of Data Systems (DDS) is scheduled to electronically release the 2009 DMEPOS Fee Schedule file (filename: MU00.@BF12393.DMEPOS.T090101.V1107) to the Pricing, Data Analysis and Coding (PDAC) Contractor, DME MACs, A/B MACs, and local Part B carriers via CMS's mainframe telecommunication system on November 7, 2008. The DDS is scheduled to release a separate 2009 DMEPOS Fee Schedule file (filename: MU00.@BF12393.DMEPOS.T090101.V1114.FI) to the A/B MACs, intermediaries, regional home health intermediaries, Railroad Retirement Board (RRB), Indian Health Service, and United Mine Workers on November 14, 2008. The fee schedule file is scheduled to be available through the CMS homepage by November 14, 2008, for interested parties like the State Medicaid Agencies and managed care organizations. The 2009 fee schedule for PEN is scheduled to be released to the PDAC and DME MACs in a separate file (filename: MU00.@BF12393.PEN.CY09.V1107) on November 7, 2008.

The following codes are being deleted from the HCPCS effective January 1, 2009, and are therefore being removed from the DMEPOS fee schedule files:

L5993
L5994
L5995
L7611
L7612
L7613
L7614
L7621
L7622

For new codes added to the HCPCS on January 1, 2009, DMEPOS fee schedule amounts will be established as part of the July 2009 DMEPOS Fee Schedule Update, when applicable. The DME MACs shall establish local fee schedule amounts to pay claims for the new codes from January 1, 2009 through June 30, 2009.

Please note that the HCPCS codes listed as new codes in this CR are not yet final and are subject to change. The new codes are not to be used for billing purposes until they are effective on January 1, 2009.

For gap-filling purposes, the 2008 deflation factors by payment category are: 0.500 for Oxygen, 0.504 for Capped Rental, 0.505 for Prosthetics and Orthotics, 0.641 for Surgical Dressings, and 0.697 for Parental and Enteral Nutrition.

The fee schedule amounts for HCPCS code K0672 (Addition to Lower Extremity Orthosis, Removable Soft Interface, All Components, Replacement Only, Each) are added to the fee schedule file on January 1, 2009, and are effective for claims submitted with dates of service on or after January 1, 2009.

HCPCS code E2295 (Manual wheelchair accessory, for pediatric size wheelchair, dynamic seating frame, allows coordinated movement of multiple positioning features) was added to the HCPCS file on January 1, 2009. Due to the expected low volume of Medicare claims, CMS will not be establishing fee schedule amounts for this code. Contractors shall establish local fee schedule amounts to pay claims for code E2295.

As part of this update, we are revising the fee schedule amounts for HCPCS codes L3905, L3808 and L3806. In the July Quarterly Update for 2008 (transmittal 1516, CR #6022) the fees for these codes were revised in order to correct fee schedule calculation errors. However, upon further review CMS has determined that the gap-filled fees originally established for codes L3905, L3808 and L3806 in 2006 and 2007, respectively, were calculated correctly in accordance with the fee schedule gap-filling process outlined in section 60.3 of chapter 23 of the Medicare Claims Processing Internet Only Manual. Thus, the fees for codes L3905, L3808 and L3806 contained in this update revert back to the fee schedule amounts in place prior to the July 2008 fee schedule update. Claims for the above codes with dates of service on or after July 1, 2008 through December 31, 2008 that have already been processed will not be adjusted to reflect the revised fee schedule amounts if they are submitted for adjustments.

2009 Fee Schedule Updates following the Enactment of MIPPA

Section 154(a)(2) of the Medicare Improvements for Patients and Providers Act (MIPPA) of 2008 mandates a fee schedule covered item update of -9.5% for 2009 for items included in Round 1 of the DMEPOS Competitive Bidding Program. The reduction applies to items furnished on or after January 1, 2009, in any geographical area. Therefore, where applicable, items selected for competitive bidding in 2008 will receive a -9.5% update for 2009 with the exception of HCPCS codes E1392, K0738, E0441, E0442, E0443 and E0444. These 6 oxygen generating portable equipment (OGPE) and oxygen contents codes will receive a 0% update for 2009 as the fees for these items are not adjusted by the covered item update specified in 1834(a)(14), and therefore, are not reduced by the -9.5%, even though they are competitive bid items. Non-competitive bid items will receive a 5.0% covered item update for 2009. A list of the HCPCS codes that were selected for competitive bidding in 2008 and are subject to the -9.5% covered item update for 2009 can be found in Attachment A.

A new HCPCS modifier was added to the HCPCS on January 1, 2009, and is effective for claims with dates of service on or after January 1, 2009:

KE Bid Under Round One of the DMEPOS Competitive Bidding Program for use with Non-Competitive Bid Base Equipment

To accommodate the fee schedule updates required per the MIPPA, we are adding the KE modifier to the fee schedule for all power mobility device (PMD) accessory items selected for competitive bidding in 2008 as part of this update. The KE modifier is a pricing modifier that suppliers must use to identify when the same accessory HCPCS code can be furnished in multiple competitive and non-competitive bidding product categories. For example, HCPCS code E0981 *Wheelchair Accessory, Seat Upholstery, Replacement Only, Each* can be used with both competitively bid standard and complex rehabilitative power wheelchairs (K0813 thru K0829 and K0835 thru K0864), as well as with non-competitively bid manual wheelchairs (K0001 thru K0009) or a miscellaneous power wheelchair (K0898). All fee schedules for PMD accessory codes with the KE modifier will receive a 5% covered item update for 2009, whereas the fee schedules for the PMD accessory codes without the KE modifier will receive the MIPPA-required 9.5% reduction for 2009. Suppliers shall be

instructed that if a competitively bid PMD accessory code is used with a competitively bid standard PMD base code (K0813 thru K0829) or complex rehabilitative PMD base code (K0835 thru K0864), claims for the PMD accessory code should be submitted without the KE modifier. Suppliers should bill the accessory code with the KE modifier when the accessory is used in conjunction with a non-competitively bid manual wheelchair (K0001 through K0009) or a miscellaneous PMD (K0898). In the case of the complex rehabilitative only PMD accessory code E2373 KC, suppliers should bill for the replacement only of E2373 without the KE modifier, but with the KC modifier when the accessory is used with a competitively bid complex rehabilitative PMD base code (K0835 thru K0864). When the replacement only code E2373 is used with a non-competitively bid manual or miscellaneous wheelchair, suppliers should bill code E2373 without the KC modifier, but with the KE modifier.

For the aforementioned reasons, we are also adding the KE modifier to the fee schedule for the following competitively bid HCPCS codes: A4636, A4637, A7000, and E0776. Suppliers shall be instructed that if codes A4636 and A4637 are used in conjunction with a competitively bid walker code (E0130, E0135, E0140, E0141, E0143, E0144, E0147, E0148, and E0149), claims for the replacement handgrip (A4636) or tip (A4637) should be submitted without the KE modifier. Suppliers should bill codes A4636 and A4637 with the KE modifier when the codes are used with non-competitively bid cane or crutch codes. Likewise, suppliers should bill the disposable canister code A7000 without the KE modifier when this code is used in conjunction with the competitively bid negative pressure wound therapy pump code E2402. When code A7000 is used with a non-competitively bid respiratory or gastric suction pump, suppliers should bill code A7000 with the KE modifier. Similarly, when an IV pole (E0776) is used in conjunction with competitively bid enteral nutrient codes (B4149, B4150, and B4152 thru B4155), suppliers should bill code E0776 with the BA modifier, but without the KE modifier. When code E0776 is used with non-competitively bid parenteral nutrient codes, suppliers should bill code E0776 without the BA modifier, but with the KE modifier. Further instruction on the use of the KE modifier with codes competitively bid in 2008 is available in Attachment B.

Note: Suppliers should not use the KE modifier on any claims for payment for items that were included under Round 1 such as an accessory for a standard power wheelchair.

As part of this update, we are also adding the KL modifier to the fee schedule for the following diabetic supply HCPCS codes: A4233, A4234, A4235, A4236, A4253, A4256, A4258, and A4259. As indicated in transmittal 1263 (July Quarterly Update for 2007 DMEPOS Fee Schedule, change request 5641), suppliers began using the KL modifier as an informational modifier to identify diabetic supplies (HCPCS codes A4233-A4236, A4253, A4256, A4258 and A4259) furnished via mail order on or after July 1, 2007. Effective January 1, 2009, the KL modifier has been changed from an informational modifier to a pricing modifier in the HCPCS file. Suppliers must use the KL modifier on all claims for the aforementioned diabetic supply codes that are furnished via mail order to beneficiaries. The KL modifier is not used with diabetic supply codes that are not delivered to the beneficiary's residence and are obtained from local supplier storefronts.

Inappropriate use of a competitive bidding modifier on a competitive bidding claim is in violation of the law and may lead to claims denial and/or other corrective actions. The use of a competitive bidding modifier does not supersede existing Medicare modifier use requirements for a particular code, but rather should be used in addition, as required.

2009 National Monthly Payment Amounts for Stationary Oxygen Equipment

As part of this update, we are implementing the 2009 national monthly payment rates for stationary oxygen equipment (HCPCS codes E0424, E0439, E1390 and E1391), effective for claims with dates of service on or after January 1, 2009. We are revising the fee schedule file to include the new national 2009 monthly payment rate of \$175.79 for stationary oxygen equipment. As required by statute, the payment rates must be adjusted on an annual basis, as necessary, to ensure budget neutrality of the addition of the new oxygen generating portable equipment (OGPE) class. The revised 2009 monthly payment rate of \$175.79 includes the 9.5% covered item reduction ascribed to items selected for competitive bidding in 2008 which was applied after the budget

neutrality calculation. The previously announced payment amount for 2009 of \$193.21 did not include the 9.5% reduction and assumed a higher shift to OGPE.

As a result of the above adjustments, we are also revising the fee schedule amounts for HCPCS codes E1405 and E1406 as part of this update. Since 1989, the fees for codes E1405 and E1406 have been established based on a combination of the Medicare payment amounts for stationary oxygen equipment and nebulizer codes E0585 and E0570, respectively.

Update to Chapter 23, Sections 60 of the Medicare Claims Processing Manual

CMS has made refinements to the fee schedule update process so that fee schedule amounts are now added to the national DMEPOS fee schedule files on a semiannual basis. Previously, the national DMEPOS fee schedule files were updated on a quarterly basis (January, April, July and October) with the January notification serving to update the fee schedule with the covered item update, as well as to implement fee schedule amounts for new permanent codes. Under the new schedule, the January update applies the covered item update to the fee schedule, adds fees for temporary codes added in the previous calendar year, and instructs contractors to calculate fees for the new permanent codes. The July update adds the fees for the permanent codes added January 1, makes any necessary fee corrections and provides instructions for contractors to calculate fees for temporary codes added during the year. April and October updates to the fee schedule may be implemented when CMS determines they are necessary. For new codes added to the HCPCS file, the DME MACs shall establish local fee schedule amounts to pay claims for the new codes until national fee schedule amounts are added. This update revises Chapter 23, section 60 of the Medicare Claims Processing Manual to reflect the new fee schedule update process.

Billing Instructions for Power Wheelchair Harness (HCPCS code E2313)

The April Quarterly Update for the 2007 DMEPOS Fee Schedule included instructions for suppliers to submit claims for the electronics necessary to upgrade from a non-expandable controller to an expandable controller at initial issue using HCPCS code E2399. This instruction was intended as a temporary measure until a new code could be added to describe the electronics/cables/junction boxes used when upgrading from a non-expandable controller at initial issue. HCPCS code E2313 (Power Wheelchair Accessory, Harness For Upgrade to Expandable Controller, Including all Fasteners, Connectors and Mounting Hardware, Each) was added to the HCPCS effective January 1, 2008, for use in paying claims for the electronics furnished when upgrading from a non-expandable controller at initial issue. Hence, suppliers shall submit claims for the electronics provided at initial issue using HCPCS code E2313 for dates of service on or after January 1, 2008, and shall no longer use code E2399 for submission of such items. Claims submitted for the electronics necessary to upgrade from a non-expandable controller to an expandable controller using HCPCS code E2399 are invalid and shall be denied as contractor/supplier responsibility.

HCPCS Code E0760

Per the local coverage decision for Osteogenesis Stimulators, the CWF categories for HCPCS code E0760 *Osteogenesis stimulator, low intensity ultrasound, non-invasive* are being revised to add CWF category (59), CMN required, effective 1/1/07.

60 - Durable Medical Equipment Prosthetics, Orthotics and Supplies (DMEPOS) Fee Schedule

(Rev. 1630, Issued: 11-07-08; Effective Date: 01-01-09; Implementation Date: 01-05-09)

AB-01-126, AB-02-152, AB-03-071

The CMS issues instructions for implementing and/or updating the DMEPOS fee schedule payment amounts *on a semiannual basis (January and July), with quarterly updates as necessary (April and October)*. The DMEPOS fee schedule is provided to DME *MACs*, *the Pricing, Data Analysis and Coding Contractor (PDAC)*, and local carriers via CMS' mainframe telecommunication system.

The DMEPOS fee schedules are calculated by CMS. A separate DMEPOS Fee Schedule file is release to the intermediaries, A/B *MACs*, regional home health intermediaries, Railroad Retirement Board (RRB), Indian Health Service and United Mine Workers. This fee schedule is also available through CMS homepage for interested parties like the State Medicaid agencies and managed care organizations. The fee schedule for parenteral and enteral nutrition (PEN) is released to the *PDAC* and DME *MACs* in a separate file. All annual updates to fee schedules are to be implemented on January 1 for claims with dates of service on or after January 1.

As part of the annual or July update, the CMS provides a list of new items that will be subject to the DME, prosthetics and orthotics, surgical dressings, or PEN fee schedules for which carriers/DME *MACS* must gap-fill base fee schedule amounts. The CMS identifies which codes apply to carrier or DME *MAC* for gap-filling. Carriers submit the base fees for new codes to CMS CO. Once carriers submit base fees for a given code, they do not have to resubmit those base fees. Carriers are notified when and where to submit the base fees.

The *codes to be* gap-filled are contained in the DMEPOS Fee Schedule file and are identifiable by a gap-fill indicator of "1." These codes have associated pricing amounts of 0. For further information see section 60.3.

After receiving the gap-filled base fees, CMS Division of Data Systems (DDS) will develop national fee schedule floors and ceilings and fee schedule amounts for these codes. Local Part B carriers should note that the DDS files will not contain fee schedule amounts for noncontinental areas under local carrier jurisdiction. Local carriers must update their fee schedules using the appropriate covered item updates.

Upon successful receipt of the file(s), contractors send notification of receipt via E-MAIL stating the name of the file received and the entities for which they were received (e.g., contractor name and FI/RHHI number. Address e-mail to Mary Anne Stevenson at CMS at (Mstevenson@cms.hhs.gov).

60.2 – Quarterly Update Schedule for DMEPOS Fee Schedule

(Rev. 1630, Issued: 11-07-08; Effective Date: 01-01-09; Implementation Date: 01-05-09)

AB-01-126, AB-02-152, AB-03-071

Following is an approximate schedule for making additions (for new HCPCS codes) and corrections to base-year amounts for the DMEPOS fee schedule.

- The DME *MACs* identify instances where base year fees are incorrect and forward requests for revisions to their regional offices. The DME *MACs* also identify those instances where fee schedule amounts are replaced by inherent reasonableness (IR) limits/payment amounts, should the authority for making IR adjustments be restored. Contractors must use the file layout in §60.1 above to submit all revisions. Regional offices will review those requests and, upon concurrence, forward them to the Division of Data Systems (DDS) in *CMM*, Attention: Mary Anne Stevenson. (Those transmissions must occur within the timeframes established by CMS.
- Requests for revisions must be accompanied by a narrative description. This description must be forwarded via e-mail to Mary Anne Stevenson (*Mary.stevenson@cms.hhs.gov*) in DDS and *Karen Jacobs* (*Karen.Jacobs@cms.hhs.gov*) in the Division of *DMEPOS Policy (DDP)* in the Center for Medicare Management.
- For inherent reasonableness (IR) changes, the effective date of the revised payment amount must be provided. The format provides a field for those dates.
- DDS will recalculate the current year fee schedule amounts as appropriate.
- DDS will transmit the entire DMEPOS file to the DME *MACs*, *PDAC*, *A/B MACs* and local carriers using the file layout described in §60.1 above. An indicator in the record field will identify those instances where pricing amounts have changed. These transmissions must occur within the dates specified each year by CMS. *DDP* (*Karen Jacobs*) must also receive a copy of the corrected fees.
- Concurrently, *DDP* issues instructions for implementing the revised fee schedule amounts.
- DME *MACs* and local carriers should give providers 30 days notice before revised payment amounts are implemented. Dates for implementation are provided by CMS.
- Carriers should make adjustments on those claims that were processed incorrectly if brought to their attention. Adjustments may be made retroactively to January 1 unless otherwise specified.
- Separate instructions are issued each year describing the data exchange for fiscal intermediaries (FIs). In summary, FIs will receive the revised payment amounts

two to three weeks after the carriers receive the data from CMS. FIs may not implement the revised payment amounts prior to the carrier implementation date.

- CMS will furnish the revised payment amounts to RRB, Indian Health Service and United Mine Workers. DME *MACs* and local Part B carriers must provide the data to the State Medicaid Agencies.
- Fee Schedule Disclaimer: Whenever the carriers publish the DMEPOS fee schedule in their bulletins/notices, a disclaimer must be added. The disclaimer is, “Inclusion or exclusion of a fee schedule amount for an item or service does not imply any health insurance coverage.”
- CMS will release specific timeframes for quarterly changes for DMEPOS Fees.

60.3 - Gap-filling DMEPOS Fees

(Rev. 1630, Issued: 11-07-08; Effective Date: 01-01-09; Implementation Date: 01-05-09)

B3-5102.2, AB-01-126, AB-02-152, AB-03-071

The DME *MACs* and local carriers must gap-fill the DMEPOS fee schedule for items for which charge data were unavailable during the previous database period using the fee schedule amounts for comparable equipment, using properly calculated fee schedule amounts from a neighboring carrier, or using supplier price lists with prices in effect during the database year. Mail order catalogs are particularly suitable sources of price information for items such as urological and ostomy supplies which require constant replacement. DME *MACs* will gap-fill based on current instructions released each year for implementing and updating the new year’s payment amounts.

If the only available price information is from a period other than the base period, apply the deflation factors that are included in the current year implementation instructions against current pricing in order to approximate the base year price for gap-filling purposes.

The deflation factors for gap-filling purposes are:

- PE Parental and enteral nutrition*

After deflation, the result must be increased by 1.7 percent and by the cumulative covered item update to complete the gap-filling (e.g., an additional .6 percent for a 2002 DME fee).

Note that when gap-filling for capped rental items, it is necessary to first gap-fill the purchase price then compute the base period fee schedule at 10 percent of the base period purchase price.

For used equipment, establish fee schedule amounts at 75 percent of the fee schedule amount for new equipment.

When gap-filling, for those carrier areas where a sales tax was imposed in the base period, add the applicable sales tax, e.g., five percent, to the gap-filled amount where the gap-filled amount does not take into account the sales tax, e.g., where the gap-filled amount is computed from pre-tax price lists or from another carrier area without a sales tax. Likewise, if the gap-filled amount is calculated from another carrier's fees where a sales tax is imposed, adjust the gap-filled amount to reflect the applicable local sales tax circumstances.

DME *MACs* and local carriers send their gap-fill information to CMS. After receiving the gap-filled base fees each year, CMS develops national fee schedule floors and ceilings and new fee schedule amounts for these codes and releases *them as part of the July update file each year and during the quarterly updates.*

60.4 - Process for Submitting Revisions to DMEPOS Fee Schedule to CMS

(Rev. 1630, Issued: 11-07-08; Effective Date: 01-01-09; Implementation Date: 01-05-09)

AB-02-152

The DME *MACs* identifies instances where revisions to DMEPOS fees are needed and forwards requests for revisions to their regional offices (RO). The RO will review requests and upon concurrence, forward them to CMS Division of Data Systems (DDS). The revisions must be contained in an ASCII file. The requests for revisions must be accompanied by a narrative description. This narrative description must be forwarded via e-mail to Mary Anne Stevenson (Mary.stevenson@cms.hhs.gov) and *Karen Jacobs* (Karen.Jacobs@cms.hhs.gov). If the files are mailed, they must be mailed to the following address:

IR - Effective Date	9(8)	32 - 39	Field is applicable only to those records where the fee has changed due to an inherent reasonableness decision and the previous field contains a value of "1." Format is YYYYMMDD

The CMS will recalculate current year fee schedule amounts as appropriate and release the entire file in the record layout described in §60.1. An indicator in the record field (Pricing Change Indicator) will identify those instances where pricing amounts have changed. The CMS will also issue instructions for implementing the revised fee schedule amounts with the fee schedule.
