SUBJECT: Adding Certain Entities as Originating Sites for Payment of Telehealth Services—Section 149 of the Medicare Improvements for Patients and Providers Act of 2008 (MIPPA)

I. SUMMARY OF CHANGES: Section 149 of the Medicare Improvements for Patients and Providers Act of 2008 (MIPPA) amended Section 1834(m) of the Social Security Act ("the Act") to add certain entities as originating sites for payment of telehealth services. Effective for services furnished on or after January 1, 2009, eligible originating sites will also include a hospital-based or critical access hospital-based renal dialysis facility (including satellites); a skilled nursing facility; and a community mental health center.

New / Revised Material
Effective Date: January 1, 2009
Implementation Date: January 5, 2009

Disclaimer for manual changes only: The revision date and transmittal number apply only to red italicized material. Any other material was previously published and remains unchanged. However, if this revision contains a table of contents, you will receive the new/revised information only, and not the entire table of contents.

III. FUNDING:
SECTION A: For Fiscal Intermediaries and Carriers:
No additional funding will be provided by CMS; contractor activities are to be carried out within their operating budgets.

SECTION B: For Medicare Administrative Contractors (MACs):
The Medicare Administrative Contractor is hereby advised that this constitutes technical direction as defined in your contract. CMS does not construe this as a change to the MAC Statement of Work. The contractor is not obligated to incur costs in excess of the amounts allotted in your contract unless and until specifically authorized by the contracting officer. If the contractor considers anything provided, as described above, to be outside the current scope of work, the contractor shall withhold performance on the part(s) in question and immediately notify the contracting officer, in writing or by e-mail, and request formal directions regarding continued performance requirements.

Business Requirements

Manual Instruction

*Unless otherwise specified, the effective date is the date of service.*
SUBJECT: Adding Certain Entities as Originating Sites for Payment of Telehealth Services—Section 149 of the Medicare Improvements for Patients and Providers Act of 2008 (MIPPA)

Effective Date: January 1, 2009

Implementation Date: January 5, 2009

I. GENERAL INFORMATION

A. Background: Section 149 of MIPPA amended §1834(m) of the Social Security Act (“the Act”) to add certain entities as originating sites for payment of telehealth services. Effective for services furnished on or after January 1, 2009, eligible originating sites include a hospital-based or critical access hospital-based renal dialysis center (including satellites); a skilled nursing facility (as defined in §1819(a) of the Act); and a community mental health center (as defined in §1861(ff)(3)(B) of the Act). MIPPA also amended §1888(e)(2)(A)(ii) of the Act to exclude telehealth services furnished under §1834(m)(4)(C)(ii)(VII) from the consolidated billing provisions of the skilled nursing facility prospective payment system (SNF PPS).

B. Policy: For dates of service on or after January 1, 2009, originating sites for Medicare telehealth services will include the office of a physician or practitioner; a hospital; a critical access hospital (CAH); a rural health clinic; a federally qualified health center; a hospital-based or CAH-based renal dialysis facility (including satellites); a skilled nursing facility (SNF); and a community mental health center (CMHC). Consistent with existing statutory requirements, these additional entities must be located in either a non-MSA county or rural HPSA. An interactive audio and video telecommunications system must be used permitting real-time communication between the distant site physician or practitioner and the Medicare beneficiary. As a condition of payment, the patient must be present and participating in the telehealth visit. The only exception to the interactive telecommunications requirement is in the case of Federal telemedicine demonstration programs conducted in Alaska or Hawaii. In this circumstance, Medicare payment is permitted for telehealth service when asynchronous store and forward technology is used. For more information on Medicare telehealth payment policy and claims processing instructions, see Pub. 100-02, chapter 15, sections 270 through 270.5.1 and Pub. 100-04, chapter 12, sections 190 through 190.7.

Hospital-based or CAH-based Renal Dialysis Centers

For dates of service on or after January 1, 2009, hospital-based and CAH-based renal dialysis centers (including satellites) are eligible for Medicare payment when they serve as originating sites for telehealth services. The originating site facility fee is covered in addition to the composite rate or MCP amount, and it is a separately billable Part B payment. With respect to the originating site facility fee, hospital-based and CAH-based renal dialysis centers will bill their regular FI or Part A MAC for the originating site facility fee on type of bill (TOB) 72x using revenue code 078X and Healthcare Common Procedure Coding System (HCPCS) code Q3014.

Independent renal dialysis facilities are not defined in the law as originating sites and therefore are ineligible to receive payment of the telehealth originating site facility fee.

SNFs

For dates of service on or after January 1, 2009, SNFs as defined in 1819(a) of the Act are eligible for Medicare payment when they serve as originating sites for telehealth services. The originating site facility fee is outside
the SNF prospective payment system bundle and, as such, is not subject to SNF consolidated billing. It is a separately billable Part B payment. With respect to the originating site facility fee, SNFs will bill their regular FI or Part A MAC for the originating site facility fee on TOBs 22x and 23x using revenue code 078X and HCPCS code Q3014.

CMHCs

For dates of service on or after January 1, 2009, CMHCs as defined in 1861(ff)(3)(B) of the Act are eligible for Medicare payment when they serve as originating sites for telehealth services. The originating site facility fee is not bundled in the per diem payment, and it is a separately billable Part B payment. With respect to the originating site facility fee, CMHCs will bill their regular FI or Part A MAC for the originating site facility fee on TOB 76x using revenue code 078X and HCPCS code Q3014. Note that Q3014 does not count towards the number of services used to determine per diem payments for partial hospitalization services.

NOTE: The details of this implementation are dependent upon publication of the physician fee schedule final rule and may be subject to change based on the rulemaking process.

6215.9 A provider education article related to this instruction will be available at [http://www.cms.hhs.gov/MLNMattersArticles/](http://www.cms.hhs.gov/MLNMattersArticles/) shortly after the CR is released. You will receive notification of the article release via the established "MLN Matters" listserv.

Contractors shall post this article, or a direct link to this article, on their Web site and include information about it in a listserv message within 1 week of the availability of the provider education article. In addition, the provider education article shall be included in your next regularly scheduled bulletin. Contractors are free to supplement MLN Matters articles with localized information that would benefit their provider community in billing and administering the Medicare program correctly.

### IV. SUPPORTING INFORMATION

VI. FUNDING

Section A: For Fiscal Intermediaries (FIs) and Carriers:

No additional funding will be provided by CMS; contractor activities are to be carried out within their operating budgets.

Section B: For Medicare Administrative Contractors (MACs):

The Medicare Administrative Contractor is hereby advised that this constitutes technical direction as defined in your contract. CMS does not construe this as a change to the MAC Statement of Work. The contractor is not obligated to incur costs in excess of the amounts allotted in your contract unless and until specifically authorized by the contracting officer. If the contractor considers anything provided, as described above, to be outside the current scope of work, the contractor shall withhold performance on the part(s) in question and immediately notify the contracting officer, in writing or by e-mail, and request formal directions regarding continued performance requirements.

190.1 - Background
(Rev.1635, Issued: 11-14-08, Effective: 01-01-09, Implementation: 01-05-09)

Section 223 of the Medicare, Medicaid and SCHIP Benefits Improvement and Protection Act of 2000 (BIPA) - Revision of Medicare Reimbursement for Telehealth Services amended §1834 of the Act to provide for an expansion of Medicare payment for telehealth services.

Effective October 1, 2001, coverage and payment for Medicare telehealth includes consultation, office visits, individual psychotherapy, and pharmacologic management delivered via a telecommunications system. Eligible geographic areas include rural health professional shortage areas (HPSA) and counties not classified as a metropolitan statistical area (MSA). Additionally, Federal telemedicine demonstration projects as of December 31, 2000, may serve as the originating site regardless of geographic location.

An interactive telecommunications system is required as a condition of payment; however, BIPA does allow the use of asynchronous “store and forward” technology in delivering these services when the originating site is a Federal telemedicine demonstration program in Alaska or Hawaii. BIPA does not require that a practitioner present the patient for interactive telehealth services.

With regard to payment amount, BIPA specified that payment for the professional service performed by the distant site practitioner (i.e., where the expert physician or practitioner is physically located at time of telemedicine encounter) is equal to what would have been paid without the use of telemedicine. Distant site practitioners include only a physician as described in §1861(r) of the Act and a medical practitioner as described in §1842(b)(18)(C) of the Act. BIPA also expanded payment under Medicare to include a $20 originating site facility fee (location of beneficiary).

Previously, the Balanced Budget Act of 1997 (BBA) limited the scope of Medicare telehealth coverage to consultation services and the implementing regulation prohibited the use of an asynchronous, ‘store and forward’ telecommunications system. BBA 1997 also required the professional fee to be shared between the referring and consulting practitioners, and prohibited Medicare payment for facility fees and line charges associated with the telemedicine encounter.

BIPA required that Medicare Part B (Supplementary Medical Insurance) pay for this expansion of telehealth services beginning with services furnished on October 1, 2001.

Section 149 of the Medicare Improvements for Patients and Providers Act of 2008 (MIPPA) amended §1834 of the Act to add certain entities as originating sites for payment of telehealth services. Effective for services furnished on or after January 1, 2009, eligible originating sites include a hospital-based or critical access hospital-based renal dialysis center (including satellites); a skilled nursing facility (as defined in §1819(a) of the Act); and a community mental health center (as defined in §1861(ff)(3)(B) of the Act). MIPPA also amended §1888(e)(2)(A)(ii) of the Act to exclude
telehealth services furnished under §1834(m)(4)(C)(ii)(VII) from the consolidated billing provisions of the skilled nursing facility prospective payment system (SNF PPS).

NOTE: MIPPA did not add independent renal dialysis facilities as originating sites for payment of telehealth services.

The telehealth provisions authorized by §1834(m) of the Act are implemented in 42 CFR 410.78 and 414.65.

190.2 - Eligibility Criteria
(Rev.1635, Issued: 11-14-08, Effective: 01-01-09, Implementation: 01-05-09)

1. Beneficiaries eligible for telehealth services

Medicare beneficiaries are eligible for telehealth services only if they are presented from an originating site located in either a rural health professional shortage area (HPSA) as defined by §332(a)(1)(A) of the Public Health Services Act or in a county outside of an MSA as defined by §1886(d)(2)(D) of the Act.

2. Exception to rural HPSA and non MSA geographic requirements

Entities participating in a Federal telemedicine demonstration project that were approved by or were receiving funding from the Secretary of Health and Human Services as of December 31, 2000, qualify as originating sites regardless of geographic location. Such entities are not required to be in a rural HPSA or non-MSA.

3. Originating site defined

The term originating site means the location of an eligible Medicare beneficiary at the time the service being furnished via a telecommunications system occurs. Originating sites authorized by law are listed below:

The office of a physician or practitioner;
A hospital (inpatient or outpatient);
A critical access hospital (CAH);
A rural health clinic (RHC);
A federally qualified health center (FQHC);
A hospital-based or critical access hospital-based renal dialysis center (including satellites) (effective January 1, 2009);
A skilled nursing facility (SNF) (effective January 1, 2009); and
A community mental health center (CMHC) (effective January 1, 2009).

NOTE: Independent renal dialysis facilities are not eligible originating sites.
For asynchronous, store and forward telecommunications technologies, an originating site is only a Federal telemedicine demonstration program conducted in Alaska or Hawaii.

190.6 - Originating Site Facility Fee Payment Methodology
(Rev.1635, Issued: 11-14-08, Effective: 01-01-09, Implementation: 01-05-09)

1. Originating site defined

The term originating site means the location of an eligible Medicare beneficiary at the time the service being furnished via a telecommunications system occurs. For asynchronous, store and forward telecommunications technologies, an originating site is only a Federal telemedicine demonstration program conducted in Alaska or Hawaii.

2. Facility fee for originating site

The originating site facility fee is a separately billable Part B payment. The contractor pays it outside of other payment methodologies. This fee is subject to post payment verification.

For telehealth services furnished from October 1, 2001, through December 31, 2002, the originating site facility fee is the lesser of $20 or the actual charge. For services furnished on or after January 1 of each subsequent year, the originating site facility fee is updated by the Medicare Economic Index. The updated fee is included in the Medicare Physician Fee Schedule (MPFS) Final Rule, which is published by November 1 prior to the start of the calendar year for which it is effective.

3. Payment amount:

The originating site facility fee is a separately billable Part B payment. The payment amount to the originating site is the lesser of 80 percent of the actual charge or 80 percent of the originating site facility fee, except CAHs. The beneficiary is responsible for any unmet deductible amount and Medicare coinsurance.

The originating site facility fee payment methodology for each type of facility is clarified below.

Hospital outpatient department. When the originating site is a hospital outpatient department, payment for the originating site facility fee must be made as described above and not under the outpatient prospective payment system (OPPS). Payment is not based on the OPPS payment methodology.

Hospital inpatient. For hospital inpatients, payment for the originating site facility fee must be made outside the diagnostic related group (DRG) payment, since this is a
Part B benefit, similar to other services paid separately from the DRG payment, (e.g., hemophilia blood clotting factor).

Critical access hospitals. When the originating site is a critical access hospital, make payment separately from the cost-based reimbursement methodology. For CAH’s, the payment amount is 80 percent of the originating site facility fee.

Federally qualified health centers (FQHCs) and rural health clinics (RHCs). The originating site facility fee for telehealth services is not an FQHC or RHC service. When an FQHC or RHC serves as the originating site, the originating site facility fee must be paid separately from the center or clinic all-inclusive rate.

Physicians’ and practitioners’ offices. When the originating site is a physician’s or practitioner’s office, the payment amount, in accordance with the law, is the lesser of 80 percent of the actual charge or 80 percent of the originating site facility fee, regardless of geographic location. The carrier shall not apply the geographic practice cost index (GPCI) to the originating site facility fee. This fee is statutorily set and is not subject to the geographic payment adjustments authorized under the MPFS.

Hospital-based or critical access-hospital based renal dialysis center (or their satellites). When a hospital-based or critical access hospital-based renal dialysis center (or their satellites) serves as the originating site, the originating site facility fee is covered in addition to any composite rate or MCP amount.

Skilled nursing facility (SNF). The originating site facility fee is outside the SNF prospective payment system bundle and, as such, is not subject to SNF consolidated billing. The originating site facility fee is a separately billable Part B payment.

Community Mental Health Center (CMHC). The originating site facility fee is not a partial hospitalization service. The originating site facility fee does not count towards the number of services used to determine payment for partial hospitalization services. The originating site facility fee is not bundled in the per diem payment for partial hospitalization. The originating site facility fee is a separately billable Part B payment.

To receive the originating facility site fee, the provider submits claims with HCPCS code “Q3014, telehealth originating site facility fee”; short description “telehealth facility fee.” The type of service for the telehealth originating site facility fee is “9, other items and services.” For carrier-processed claims, the “office” place of service (code 11) is the only payable setting for code Q3014. There is no participation payment differential for code Q3014. Deductible and coinsurance rules apply to Q3014. By submitting Q3014 HCPCS code, the originating site authenticates they are located in either a rural HPSA or non-MSA county.
This benefit may be billed on bill types 12X, 13X, 22X, 23X, 71X, 72X, 73X, 76X, and 85X. *Unless otherwise applicable, report the originating site facility fee under revenue code 078X and include HCPCS code “Q3014, telehealth originating site facility fee.”*

Hospitals and critical access hospitals bill their intermediary for the originating site facility fee. Telehealth bills originating in inpatient hospitals must be submitted on a 12X TOB using the date of discharge as the line item date of service.

Independent and provider-based RHCs and FQHCs bill the appropriate intermediary using the RHC or FQHC bill type and billing number. HCPCS code Q3014 is the only non-RHC/FQHC service that is billed using the clinic/center bill type and provider number. All RHCs and FQHCs must use revenue code 078X when billing for the originating site facility fee. For all other non-RHC/FQHC services, provider based RHCs and FQHCs must bill using the base provider’s bill type and billing number. Independent RHCs and FQHCs must bill the carrier for all other non-RHC/FQHC services. If an RHC/FQHC visit occurs on the same day as a telehealth service, the RHC/FQHC serving as an originating site must bill for HCPCS code Q3014 telehealth originating site facility fee on a separate revenue line from the RHC/FQHC visit using revenue code 078X.

_Hospital-based or CAH-based renal dialysis centers (including satellites) bill their local FIs and/or Part A MACs for the originating site facility fee. Telehealth bills originating in renal dialysis centers must be submitted on a 72X TOB. All hospital-based or CAH-based renal dialysis centers (including satellites) must use revenue code 078X when billing for the originating site facility fee. The renal dialysis center serving as an originating site must bill for HCPCS code Q3014, telehealth originating site facility fee, on a separate revenue line from any other services provided to the beneficiary._

_Skilled nursing facilities (SNFs) bill their local FIs and/or Part A MACs for the originating site facility fee. Telehealth bills originating in SNFs must be submitted on TOB 22X or 23X. For SNF inpatients in a covered Part A stay, the originating site facility fee must be submitted on a 22X TOB. All SNFs must use revenue code 078X when billing for the originating site facility fee. The SNF serving as an originating site must bill for HCPCS code Q3014, telehealth originating site facility fee, on a separate revenue line from any other services provided to the beneficiary._

_Community mental health centers (CMHCs) bill their local FIs and/or Part A MACs for the originating site facility fee. Telehealth bills originating in CMHCs must be submitted on a 76X TOB. All CMHCs must use revenue code 078X when billing for the originating site facility fee. The CMHC serving as an originating site must bill for HCPCS code Q3014, telehealth originating site facility fee, on a separate revenue line from any other services provided to the beneficiary. Note that Q3014 does not count towards the number of services used to determine per diem payments for partial hospitalization services._

The beneficiary is responsible for any unmet deductible amount and Medicare coinsurance.
