## I. GENERAL INFORMATION

**A. Background:** The Federal Financial Management Improvement Act (FFMIA) of 1996 requires that Federal agencies implement and maintain financial management systems that comply with Federal management systems requirements. In order to comply, the Centers for Medicare and Medicaid Services (CMS) will install Commercial Off-The-Shelf (COTS) software that contains modules for general ledger, accounts payable, accounts receivable, budget, procurement, grants, etc. The COTS will be the financial software application that supports HIGLAS. The HIGLAS will replace the benefit accounting processes used by Medicare contractors. The HIGLAS project is currently in the development and transition phase. The maintainers of the MCS and FISS systems will implement changes into the shared systems and continue development of conversion programs and processes during this phase. This transmittal provides updated information regarding the hours reserved in the release.

**B. Policy:** The FFMIA of 1996 requires that Federal agencies implement and maintain financial management systems that comply with Federal management systems requirements.
