Subject: Nurse Practitioner (NP) Services and Clinical Nurse Specialist (CNS) Services

I. SUMMARY OF CHANGES: Under the instruction on NP services, CMS is adding the National Board on Certification of Hospice and Palliative Nurses (NBCHPN) to the list of recognized national certifying bodies for NPs at the advanced practice level. Also, under the CNS instruction, CMS is adding this entire list of recognized national certifying bodies for CNSs at the advanced practice level that is currently listed under the NP instruction only.

Under this list of national certifying bodies that will be under the NP and CNS instructions, CMS is replacing the National Certification Board of Pediatric Nurse Practitioners and Nurses with its current name, "Pediatric Nursing Certification Board". Also, CMS is removing the Critical Care Certification Corporation and replacing it with its correct name, "AACN Certification Corporation".

Effective Date: November 19, 2007
Implementation Date: November 19, 2007

Disclaimer for manual changes only: The revision date and transmittal number apply only to red italicized material. Any other material was previously published and remains unchanged. However, if this revision contains a table of contents, you will receive the new/revised information only, and not the entire table of contents.

Manual Instruction

*Unless otherwise specified, the effective date is the date of service.*
SUBJECT: Nurse Practitioner (NP) Services and Clinical Nurse Specialist (CNS) Services

Effective Date: November 19, 2007

Implementation Date: November 19, 2007

I. GENERAL INFORMATION

A. Background: Medicare program qualifications for nurse practitioners (NPs) and clinical nurse specialists (CNSs) under Federal regulations at 42 CFR 410.75 and at 42 CFR 410.76 respectively require these advanced practice nurses to be certified by a recognized national certifying body that has established standards for NPs and CNSs.

B. Policy: This policy is in accordance with 42 CFR 410.75(b)(ii) and 42 CFR 410.76(b)(3).

B. For all other recommendations and supporting information, use this space:

### V. CONTACTS

**Pre-Implementation Contact(s):** Regina Walker-Wren at (410)786-9160 or at Regina.WalkerWren@cms.hhs.gov.

**Post-Implementation Contact(s):** Regional Offices

### VI. FUNDING

**A. For Fiscal Intermediaries, Carriers, and the Durable Medical Equipment Regional Carrier (DMERC):**

No additional funding will be provided by CMS; contractor activities are to be carried out within their FY 2008 operating budgets.
B. For Medicare Administrative Contractors (MACs):

The contractor is hereby advised that this constitutes technical direction as defined in your contract. CMS does not construe this as a change to the Statement of Work (SOW). The contractor is not obligated to incur costs in excess of the amounts allotted in your contract unless and until specifically authorized by the contracting officer. If the contractor considers anything provided, as described above, to be outside the current scope of work, the contractor shall withhold performance on the part(s) in question and immediately notify the contracting officer, in writing or by e-mail, and request formal directions regarding continued performance requirements.
Effective for services rendered after January 1, 1998, any individual who is participating under the Medicare program as a nurse practitioner (NP) for the first time ever, may have his or her professional services covered if he or she meets the qualifications listed below, and he or she is legally authorized to furnish NP services in the State where the services are performed. NPs who were issued billing provider numbers prior to January 1, 1998, may continue to furnish services under the NP benefit.

Payment for NP services is effective on the date of service, that is, on or after January 1, 1998, and payment is made on an assignment-related basis only.

A. Qualifications for NPs

In order to furnish covered NP services, an NP must meet the conditions as follows:

- Be a registered professional nurse who is authorized by the State in which the services are furnished to practice as a nurse practitioner in accordance with State law; and be certified as a nurse practitioner by a recognized national certifying body that has established standards for nurse practitioners; or
- Be a registered professional nurse who is authorized by the State in which the services are furnished to practice as a nurse practitioner by December 31, 2000.

The following organizations are recognized national certifying bodies for NPs at the advanced practice level:

- American Academy of Nurse Practitioners;
- American Nurses Credentialing Center;
- National Certification Corporation for Obstetric, Gynecologic and Neonatal Nursing Specialties;
- Pediatric Nursing Certification Board (previously named the National Certification Board of Pediatric Nurse Practitioners and Nurses);
- Oncology Nurses Certification Corporation;
- AACN Certification Corporation; and
- National Board on Certification of Hospice and Palliative Nurses.

The NPs applying for a Medicare billing number for the first time on or after January 1, 2001, must meet the requirements as follows:

- Be a registered professional nurse who is authorized by the State in which the services are furnished to practice as a nurse practitioner in accordance with State law; and
• Be certified as a nurse practitioner by a recognized national certifying body that has established standards for nurse practitioners.

The NPs applying for a Medicare billing number for the first time on or after January 1, 2003, must meet the requirements as follows:

• Be a registered professional nurse who is authorized by the State in which the services are furnished to practice as a nurse practitioner in accordance with State law;

• Be certified as a nurse practitioner by a recognized national certifying body that has established standards for nurse practitioners; and

• Possess a master’s degree in nursing.

B. Covered Services

Coverage is limited to the services an NP is legally authorized to perform in accordance with State law (or State regulatory mechanism established by State law).

1. General

The services of an NP may be covered under Part B if all of the following conditions are met:

• They are the type that are considered physician’s services if furnished by a doctor of medicine or osteopathy (MD/DO);

• They are performed by a person who meets the definition of an NP (see subsection A);

• The NP is legally authorized to perform the services in the State in which they are performed;

• They are performed in collaboration with an MD/DO (see subsection D); and

• They are not otherwise precluded from coverage because of one of the statutory exclusions. (See subsection C.2.)

2. Incident To

If covered NP services are furnished, services and supplies furnished incident to the services of the NP may also be covered if they would have been covered when furnished incident to the services of an MD/DO as described in §60.

C. Application of Coverage Rules
1. Types of NP Services That May Be Covered

State law or regulation governing an NP’s scope of practice in the State in which the services are performed applies. Consider developing a list of covered services based on the State scope of practice. Examples of the types of services that NP’s may furnish include services that traditionally have been reserved to physicians, such as physical examinations, minor surgery, setting casts for simple fractures, interpreting x-rays, and other activities that involve an independent evaluation or treatment of the patient’s condition. Also, if authorized under the scope of their State license, NPs may furnish services billed under all levels of evaluation and management codes and diagnostic tests if furnished in collaboration with a physician.

See §60.2 for coverage of services performed by NPs incident to the services of physicians.

2. Services Otherwise Excluded From Coverage

The NP services may not be covered if they are otherwise excluded from coverage even though an NP may be authorized by State law to perform them. For example, the Medicare law excludes from coverage routine foot care, routine physical checkups, and services that are not reasonable and necessary for the diagnosis or treatment of an illness or injury or to improve the functioning of a malformed body member. Therefore, these services are precluded from coverage even though they may be within an NP’s scope of practice under State law.

D. Collaboration

Collaboration is a process in which an NP works with one or more physicians (MD/DO) to deliver health care services, with medical direction and appropriate supervision as required by the law of the State in which the services are furnished. In the absence of State law governing collaboration, collaboration is to be evidenced by NPs documenting their scope of practice and indicating the relationships that they have with physicians to deal with issues outside their scope of practice.

The collaborating physician does not need to be present with the NP when the services are furnished or to make an independent evaluation of each patient who is seen by the NP.

E. Direct Billing and Payment

Direct billing and payment for NP services may be made to the NP.

F. Assignment

Assignment is mandatory.
Effective for services rendered after January 1, 1998, any individual who is participating under the Medicare program as a clinical nurse specialist (CNS) for the first time ever, may have his or her professional services covered if he or she meets the qualifications listed below and he or she is legally authorized to furnish CNS services in the State where the services are performed. CNSs who were issued billing provider numbers prior to January 1, 1998, may continue to furnish services under the CNS benefit.

Payment for CNS services is effective on the date of service, that is, on or after January 1, 1998, and payment is made on an assignment-related basis only.

A. Qualifications for CNSs

In order to furnish covered CNS services, a CNS must meet the conditions as follows:

1. Be a registered nurse who is currently licensed to practice in the State where he or she practices and be authorized to furnish the services of a clinical nurse specialist in accordance with State law;

2. Have a master’s degree in a defined clinical area of nursing from an accredited educational institution; and

3. Be certified as a clinical nurse specialist by a recognized national certifying body that has established standards for CNSs.

The following organizations are recognized national certifying bodies for CNSs at the advanced practice level:

- American Academy of Nurse Practitioners;
- American Nurses Credentialing Center;
- National Certification Corporation for Obstetric, Gynecologic and Neonatal Nursing Specialties;
- Pediatric Nursing Certification Board (previously named the National Certification Board of Pediatric Nurse Practitioners and Nurses);
- Oncology Nurses Certification Corporation;
- AACN Certification Corporation; and
- National Board on Certification of Hospice and Palliative Nurses.

B. Covered Services

Coverage is limited to the services a CNS is legally authorized to perform in accordance with State law (or State regulatory mechanism provided by State law).
1. General

The services of a CNS may be covered under Part B if all of the following conditions are met:

- They are the types of services that are considered as physician’s services if furnished by an MD/DO;
- They are furnished by a person who meets the CNS qualifications (see subsection A);
- The CNS is legally authorized to furnish the services in the State in which they are performed;
- They are furnished in collaboration with an MD/DO as required by State law (see subsection C); and
- They are not otherwise excluded from coverage because of one of the statutory exclusions. (See subsection C.)

2. Types of CNS Services that May be Covered

State law or regulations governing a CNS’ scope of practice in the State in which the services are furnished applies. Carriers must develop a list of covered services based on the State scope of practice.

Examples of the types of services that a CNS may furnish include services that traditionally have been reserved for physicians, such as physical examinations, minor surgery, setting casts for simple fractures, interpreting x-rays, and other activities that involve an independent evaluation or treatment of the patient’s condition. Also, if authorized under the scope of his or her State license, a CNS may furnish services billed under all levels of evaluation and management codes and diagnostic tests if furnished in collaboration with a physician.

3. Incident To

If covered CNS services are furnished, services and supplies furnished incident to the services of the CNS may also be covered if they would have been covered when furnished incident to the services of an MD/DO as described in §60.

C. Application of Coverage Rules

1. Types of CNS Services

Examples of the types of services that CNS may provide are services that traditionally have been reserved for physicians, such as physical examinations, minor surgery, setting
casts for simple fractures, interpreting x-rays, and other activities that involve an
independent evaluation or treatment of the patient’s condition. State law or regulation
governing a CNS’ scope of practice for his or her service area applies.

2. Services Otherwise Excluded From Coverage

A CNS’ services are not covered if they are otherwise excluded from coverage even
though a CNS may be authorized by State law to perform them. For example, the
Medicare law excludes from coverage routine foot care and routine physical checkups
and services that are not reasonable and necessary for diagnosis or treatment of an illness
or injury or to improve the function of a malformed body member. Therefore, these
services are precluded from coverage even though they may be within a CNS’ scope of
practice under State law.

See §60.2 for coverage of services performed by a CNS incident to the services of
physicians.

D. Collaboration

Collaboration is a process in which a CNS works with one or more physicians (MD/DO)
to deliver health care services within the scope of the CNS’ professional expertise with
medical direction and appropriate supervision as required by the law of the State in which
the services are furnished. In the absence of State law governing collaboration,
collaboration is to be evidenced by the CNS documenting his or her scope of practice and
indicating the relationships that the CNS has with physicians to deal with issues outside
the CNS’ scope of practice.

The collaborating physician does not need to be present with the CNS when the services
are furnished or to make an independent evaluation of each patient who is seen by the
CNS.

E. Direct Billing and Payment

A CNS may bill directly and receive direct payment for their services.

F. Assignment Requirement

Assignment is required for the service to be covered.
