Definition of Terms

None.

Attestation Requirements

YES/NO

Eligible hospitals and CAHs must attest YES to having enabled this functionality and having had access to at least one internal or external formulary for the entire EHR reporting period to meet this measure.

Additional Information

- At a minimum an eligible hospital or CAH must have at least one formulary that can be queried. This may be an internally developed formulary or an external formulary. The formularies should be relevant for patient care during the prescribing process.

Certification and Standards Criteria

Below is the corresponding certification and standards criteria for electronic health record technology that supports achieving the meaningful use of this objective.

Certification Criteria

§§170.302(b)
Drug-formulary
checks

Enable a user to electronically check if drugs are in a formulary or preferred drug list.

Standards Criteria

N/A
