Medicare Eligible Hospitals, Critical Access Hospitals and Dual-Eligible Hospitals Promoting Interoperability Program Stage 3 Objectives and Measures for 2018
Table of Contents
Updated: June 2018

Eligible Hospital, Critical Access Hospital, Dual Eligible Hospital Objectives and Measures	
(1)	Protect electronic protected health information (ePHI) - created or maintained by the certified electronic health record (CEHRT) through the implementation of appropriate technical, administrative, and physical safeguards.
(2)	Generate and transmit permissible discharge prescriptions electronically.
(3)	Patient Electronic Access - Provides patients (or patient authorized representative) with timely electronic access to their health information and patient-specific education.
(4)	Coordination of Care - Use CEHRT to engage with patients or their authorized representatives about the patient's care.
(5)	Health Information Exchange - The eligible hospital or critical access hospital (CAH) provides a summary of care record when transitioning or referring their patient to another setting of care, receives or retrieves a summary of care record upon the receipt of a transition or referral or upon the first patient encounter with a new patient, and incorporates summary of care information from other providers into their EHR using the functions of CEHRT.
(6)	Public Health Reporting - The eligible hospital or CAH is in active engagement with a public health agency or clinical data registry to submit electronic public health data in a meaningful way using CEHRT, except where prohibited, and in accordance with applicable law and practice.
