How to Get Involved

CMS strongly encourages vendors and hospitals to continue working toward the successful submission of eCQM data by:

• Testing QRDA Category I file structure utilizing the Pre-submission Validation Application (PSVA), current version 1.1.2

• Submitting test files through the CMS electronic Clinical Quality Measure (eCQM) Receiving System (QualityNet Secure Portal) once the system re-opens this year

• Signing-up for the Hospital Reporting EHR ListServe and participating in training opportunities at www.qualitynet.org/dcs/ContentServer?pagename=QnetPublic/ListServe/Register

4) The Merit-based Incentive Payment System (MIPS)
5) What are the next steps?
The Quality Payment Program is part of a broader push towards value and quality.

In January 2015, the Department of Health and Human Services announced new goals for value-based payments and APMs in Medicare.

**Medicare Fee-for-Service**

**GOAL 1:** 30%
Medicare payments are tied to quality or value through alternative payment models (categories 3-4) by the end of 2016, and 50% by the end of 2018.

**GOAL 2:** 85%
Medicare fee-for-service payments are tied to quality or value (categories 2-4) by the end of 2016, and 90% by the end of 2018.

MIPS
MIPS: First Step to a Fresh Start

✓ MIPS is a new program
  • Streamlines 3 currently independent programs to work as one and to ease clinician burden.
  • Adds a fourth component to promote ongoing improvement and innovation to clinical activities.

✓ MIPS provides clinicians the flexibility to choose the activities and measures that are most meaningful to their practice to demonstrate performance.
Currently there are **multiple quality and value reporting programs** for Medicare clinicians:

- **Physician Quality Reporting Program (PQRS)**
- **Value-Based Payment Modifier (VM)**
- **Medicare Electronic Health Records (EHR) Incentive Program**
PROPOSED RULE
MIPS: Major Provisions

✓ Eligibility (participants and non-participants)
✓ Performance categories & scoring
✓ Data submission
✓ Performance period & payment adjustments
Who Will Participate in MIPS?

Affected clinicians are called “MIPS eligible clinicians” and will participate in MIPS. The types of Medicare Part B eligible clinicians affected by MIPS may expand in future years.

Years 1 and 2

Physicians (MD/DO and DMD/DDS), PAs, NPs, Clinical nurse specialists, Certified registered nurse anesthetists

Years 3+

Physicians (MD/DO and DMD/DDS), PAs, NPs, Clinical nurse specialists, Certified registered nurse anesthetists

Secretary may broaden Eligible Clinicians group to include others such as

- Physical or occupational therapists
- Speech-language pathologists
- Audiologists
- Nurse midwives
- Clinical social workers
- Clinical psychologists
- Dietitians / Nutritional professionals
Who will NOT Participate in MIPS?

There are 3 groups of clinicians who will NOT be subject to MIPS:

1. **FIRST year of Medicare Part B participation**
2. **Below low patient volume threshold**
3. **Certain participants in ADVANCED Alternative Payment Models**

- Medicare billing charges less than or equal to $10,000 and provides care for 100 or fewer Medicare patients in one year

Note: MIPS does not apply to hospitals or facilities

**Analysis and Scoring**
How much can MIPS adjust payments?

Based on a MIPS Composite Performance Score, clinicians will receive +/- or neutral adjustments up to the percentages below.

Adjusted Medicare Part B payment to clinician

The potential maximum adjustment % will increase each year from 2019 to 2022.
Note: Most clinicians will be subject to MIPS.
PROPOSED RULE

Eligible Clinicians can participate in MIPS as an:

Individual

Or

Group

A group, as defined by taxpayer identification number (TIN), would be assessed as a group practice across all four MIPS performance categories.

Note: “Virtual groups” will not be implemented in Year 1 of MIPS.
PROPOSED RULE
MIPS: PERFORMANCE CATEGORIES & SCORING
MIPS Performance Categories

A single MIPS composite performance score will factor in performance in 4 weighted performance categories on a 0-100 point scale:

- Quality
- Resource use
- Clinical practice improvement activities
- Advancing care information

BASE SCORE

Accounts for 50 Percentage Points of the total Advancing Care Information category score.

To receive the base score, physicians and other clinicians must simply provide the numerator/denominator or yes/no for each objective and measure.
CMS proposes six objectives and their measures that would require reporting for the base score:

- Protect Patient Health Information (yes required)
- Electronic Prescribing (numerator/denominator)
- Patient Electronic Access (numerator/denominator)
- Coordination of Care Through Patient Engagement (numerator/denominator)
- Health Information Exchange (numerator/denominator)
- Public Health and Clinical Data Registry Reporting (yes required)
The Performance Score
The performance score accounts for up to 80 percentage points towards the total Advancing Care Information category score.

- Patient Electronic Access
- Coordination of Care Through Patient Engagement
- Health Information Exchange

Physicians and other clinicians select the measures that best fit their practice from the following objectives, which emphasize patient care and information access:
PROPOSED RULE
MIPS: Advancing Care Information Performance Category

Summary:

✓ Scoring based on key measures of patient engagement and information exchange.

✓ Flexible scoring for all measures to promote care coordination for better patient outcomes

✓ Key Changes from Current Program (EHR Incentive):

  • Eliminated Clinical Provider Order Entry and Clinical Decision Support objectives
  • Reduced the number of required public health registries to which clinicians must report
  • Year 1 Weight: 25%

PROPOSED RULE
MIPS: Payment Adjustment

✓ A MIPS eligible clinician’s payment adjustment percentage is based on the relationship between their CPS and the MIPS performance threshold.

✓ A CPS below the performance threshold will yield a negative payment adjustment; a CPS above the performance threshold will yield a neutral or positive payment adjustment.

✓ A CPS less than or equal to 25% of the threshold will yield the maximum negative adjustment of -4%.
A CPS that falls at or above the threshold will yield payment adjustment of 0 to +12%, based on the degree to which the CPS exceeds the threshold and the overall CPS distribution.

An additional bonus (not to exceed 10%) will be applied to payments to eligible clinicians with exceptional performance where CPS is equal to or greater than an “additional performance threshold,” defined as the 25th percentile of possible values above the CPS performance threshold.
How much can MIPS adjust payments?

Note: MIPS will be a budget-neutral program. Total upward and downward adjustments will be balanced so that the average change is 0%.

*Potential for 3X adjustment
Dr. Joy Smith, who receives the +4% adjustment for MIPS, could receive up to +12% in 2019. For exceptional performance she could earn an additional adjustment factor of up to +10%.

**Note:** This scaling process will only apply to positive adjustments, not negative ones.
MIPS Incentive Payment Formula

Exceptional performers receive additional positive adjustment factor – up to $500M available each year from 2019 to 2024

- EPs above performance threshold = positive payment adjustment
- Lowest 25% = maximum reduction

Exceptional Performance

- Exceptional Performance
  - + 4%
  - + 5%
  - + 7%
  - + 9%

Performance Threshold

- 2019: -4%
- 2020: -5%
- 2021: -7%
- 2022 and onward: -9%

*MACRA allows potential 3x upward adjustment BUT unlikely
