Stage 1 (2014 Definition)
Last updated: May 2014

Patient Lists	
Objective	Generate lists of patients by specific conditions to use for quality improvement, reduction of disparities, research, or outreach.
Measure	Generate at least one report listing patients of the EP with a specific condition.
Exclusion	No exclusion.

Table of Contents

Definition of Terms

Specific Conditions -- Those conditions listed in the active patient problem list.

Attestation Requirements

YES / NO

Eligible professionals (EPs) must attest YES to having generated at least one report listing patients of the EP with a specific condition to meet this measure.

Additional Information

- This objective does not dictate the report(s) which must be generated. An EP is best positioned to determine which reports are most useful to their care efforts.
- The report generated could cover every patient whose records are maintained using certified EHR technology or a subset of those patients at the discretion of the EP.
- The report generated is required to include only patients whose records are maintained using certified EHR technology.

Certification and Standards Criteria

Below is the corresponding certification and standards criteria for electronic health record technology that supports achieving the meaningful use of this objective.

Certification Criteria*	
§170.314(a)(14) Patient list creation	Enable a user to electronically and dynamically select, sort, access, and create patient lists by: date and time; and based on each one and at least one combination of the following data: (i) Problems; (ii) Medications; (iii) Medication allergies; (iv) Demographics; (v) Laboratory tests and values/results; and (vi) Ambulatory setting only. Patient communication preferences.

*Additional certification criteria may apply. Review the ONC 2014 Edition EHR Certification Criteria Grid Mapped to Meaningful Use Stage 1 for more information.
