Definition of Terms

Specific Conditions — Those conditions listed in the active patient problem list.

Attestation Requirements

YES / NO

Eligible hospitals or CAHs must attest YES to having generated at least one report listing patients of the eligible hospital or CAH with a specific condition to meet this measure.

Additional Information

- This objective does not dictate the report(s) which must be generated. An eligible hospital or CAH is best positioned to determine which reports are most useful to their care efforts.
- The report generated is required to include only patients whose records are maintained using certified EHR technology.
- The report generated could cover every patient whose records are maintained using certified EHR technology or a CAH.

Certification and Standards Criteria

Below is the corresponding certification and standards criteria for electronic health record technology that supports achieving the meaningful use of this objective.

Certification Criteria*

§170.314(a)(14) Patient list creation

Enable a user to electronically and dynamically select, sort, access, and create patient lists by: date and time; and based on each one and at least one combination of the following data:

- (i) Problems;
- (ii) Medications;
- (iii) Medication allergies;
- (iv) Demographics;
- (v) Laboratory tests and values/results; and
- (vi) Ambulatory setting only. Patient communication preferences.

*Additional certification criteria may apply. Review the [ONC 2014 Edition EHR Certification Criteria Grid Mapped to Meaningful Use Stage 1](#) for more information.
