

CMS System Security and e-Authentication Assurance Levels by Information Type

This document was replaced. Multiple replacement documents exist, as follows:

RMH Vol II Procedure 2-3 Categorizing an Information System contains information regarding determining the system security category (previously called the security level).

RMH Vol III Standard 3-1 Authentication contains information regarding e-Authentication assurance levels.

Please reference the information security library, located at <http://www.cms.gov/Research-Statistics-Data-and-Systems/CMS-Information-Technology/InformationSecurity/Information-Security-Library.html> for these current procedures and standards.

Finally, if you were directed to this page by a published hyperlink please report this change to the author of the referencing document or web page to facilitate correction of that link.
