Special Open Door Forum:

Suggested Electronic Clinical Template for Lower Limb Prosthesis

Tuesday, May 28, 2013
2:00pm – 3:00pm Eastern Time
Conference Call Only

CMS will host a series of Special Open Door Forum (ODF) calls to allow physicians, prosthesis's, and other interested parties to give feedback on the Suggested Electronic Clinical Template for Lower Limb Prosthesis for possible nationwide use [for Medicare](#).

In order to enhance physician understanding of medical documentation requirements to support orders for Lower Limb Prosthesis, CMS is exploring the development of an electronic clinical template that will assist providers with data collection and medical documentation. These templates may also facilitate the electronic submission of medical documentation. While not intended to be a data entry form per se, the template will describe the data elements that CMS believes would be useful in supporting the documentation requirements for coverage of Lower Limb Prosthesis. CMS will work in collaboration with the DHHS Office of the National Coordinator for Health IT (ONC) as part of our process.

You can find the proposed document by going to:

Comments on the document can be sent to eclinicaltemplate@cms.hhs.gov .
