7.5 Help Screens

Main Menu Help

Screen 1:

IRIS data is divided into three groups that are described below.

REFERENCE DATA -- While entering IRIS data, the user selects residency type codes, medical school codes, and employer names from display windows. Residency and medical school tables are supplied and maintained by CMS. The Employer Name Table is created by selecting Main Menu Option <5>.

ADMINISTRATIVE DATA -- The hospital provider number and name, fiscal year (FY) start & end dates, and two flags that determine the display order of the residency and medical school tables are also accessed from Main Menu Option <5>.

INTERN/RESIDENT (IR) DATA -- Assignment Master Records identify an IR, hospital FY, residency years completed and type of residency, and medical school data. Each Master Record can have up to 60 rotational assignments. ASSIGNMENT PERIODS MAY NOT OVERLAP! If 2 or more hospitals share an IR's time, they must coordinate their report to assure that no more than 100 percent of the IR's time is claimed during any assignment period.

Adding New Records

Screen 1:

Intern/Resident records can be added in four different ways:

- (1) Create new records from the keyboard using the IRIS data entry screen.
- (2) Import System Data Format (SDF) records from ASCII files in which all records are of fixed length, and each record is parsed identically into fields. SDF records use no delimiters or punctuation marks. Character fields are left adjusted (no leading blanks) and numeric fields are right adjusted (no trailing blanks).
- (3) Import records from DELIMITED TEXT files in which records vary in length. Character fields are enclosed in quotation marks (") and contain no trailing or leading blanks. All fields are separated by commas.
- (4) Append records from Data Base Format (DBF) files that have the same structures as the IRIS databases (IRISMAST.DBF and IRISASGN.DBF). Use this option to move data entered on a diskette/CD into your central databases, or to merge data that were entered on multiple diskettes/CDs.

REFER TO YOUR IRISV3 OPERATING INSTRUCTIONS FOR THE EXACT RECORD LAYOUTS REQUIRED.

Scrolling Data Windows

Screen 1:

<u>Pressing Key(s)</u>	<u>Causes the Program to</u>

<Down Arrow>	Scroll Down 1 record
<PgDn>	Display the next screenful of data
<Any Letter or Numeral>	Place the first record whose Key Field begins with the selected character at the top of the screen. NOTE: The Key Field for Residency Type and Medical School Windows is selected by the user in the "Setup Administrative Data" function.
<Ctrl-PgUp>, ##	Scroll Up ## Records
<Ctrl-PgDn>, ##	Scroll Down ## Records
<End>	Quit Scrolling and make a Selection

Social Security Number

Screen 1:

Enter the intern/resident's (IR) Social Security Number (SSN) and press <Enter>. Include ONLY those IRs who participate in teaching programs approved under 42 CFR 412.105(f) and 413.75(b).

In IRISV3, SSNs are ten character strings. The first character must contain either "U" (US) or "C" (Canada). This character is used for dual tracking of nine digit United States SSNs and nine digit Canadian Social Insurance Numbers as identification numbers. Characters two through ten must contain numerals between zero (0) and nine (9).

The first character always defaults to "U" in new records. To enter "C", simply type over the "U".

NOTE: You may escape from the data entry screen by entering a blank SSN.

Intern/Resident Name

Screen 1:

Enter the intern/resident's complete first name, middle initial, and last name. Do not use nicknames or abbreviations such as Bob in lieu of Robert or Chuck or Charlie in lieu of Charles. Do not use suffixes such as "Jr." or "II". If the last name is more than 20 characters long, use only the first 20 characters.

Employer's Name

Screen 1:

Select the name of the hospital or provider that is currently paying the intern/resident's (IR) salary. The user can add another name to the Employer Name Table if a different hospital or provider is involved in paying the IR's salary. The user can add, modify or delete these names in

this table from option <2> of the IRIS Reference Data Management Menu.
This menu is activated through option <5> of the IRIS Main Menu.

Residency Type Code (Master Record)**Screen 1:**

Enter the 4 digit Residency Type Code for the medical specialty program in which the intern/resident (IR) is seeking Board certification. These codes are grouped as follows:

1050-2960	Allopathic specialties
3050-6650	Osteopathic specialties
7050-7350	Podiatric specialties
8050-8900	Dental specialties
9050-9100	Other specialties (emergency medicine)
9150-9950	Reserved for future use

If you do not know the code for the specialty you wish to enter, enter a blank code and select the appropriate code from a display window.

Some specialties include one or more subspecialties, each of which is assigned a separate code. In addition, many of the allopathic specialties are similar to osteopathic specialties, which are assigned a different set of unique codes. That is, the allopathic specialty code for internal medicine is 1400; the osteopathic specialty code for internal medicine is 3900.

YOU MUST ENTER A VALID RESIDENCY TYPE CODE TO SAVE AN IR'S DATA RECORDS.

Residency Type Code (Master Record)**Screen 2:**

NOTES

1. Some allopathic specialties require a year of broad-based training as a prerequisite for subsequent training. This requirement is met as follows:

a. The year of broad-based training (preliminary year) is included in the accredited length of the program listed in the GRADUATE MEDICAL EDUCATION DIRECTORY (GMED). If the IR begins training in a program that incorporates the year of broad-based training, the initial residency period for that specialty is equal to the period listed in the GMED. Enter the residency type code (RTC) for the IR's subsequent specialty program. It is the hospital's responsibility to maintain documentation on those IRs that have simultaneously matched for the preliminary year and the subsequent specialty. Refer to 42 CFR 413.79(a)(10).

b. The IR completes a transitional year program in allopathic medicine as a prerequisite for subsequent specialty training. Enter RTC 2525 (TRANSITIONAL YEAR) in the IR's first program year. In the IR's second program year, enter the RTC for the specialty in which the IR is training. If a prerequisite year is required for this specialty, the initial residency period listed in the GMED incorporates the transitional year.

Residency Type Code (Master Record)**Screen 3:**

NOTES (Continued)

c. The IR completes the prerequisite year through a year of training in another specialty. Enter the RTC for the residency program in which the IR begins training. The initial residency year is equal to the period listed in the GMED for the initial specialty in which the IR is training even if the IR is completing the year of training as a prerequisite for another specialty.

2. If an IR changes his/her specialty during the reporting period, report the INITIAL specialty, i.e., the specialty the IR was participating in on the FIRST DAY OF THE FIRST ASSIGNMENT PERIOD OF THE REPORTING PERIOD. NOTE: Even if a FIRST YEAR IR changes his/her specialty during the reporting period, show the INITIAL specialty, i.e., the specialty program in which the IR was seeking Board certification on the first day of the first assignment period.

3. IRs in a traditional rotating internship year in osteopathic medicine must be assigned RTC 6400 (TRADITIONAL ROTATIONING INTERNSHIP). This internship year is the first year of post-graduate training for graduates of osteopathic medical schools. Like transitional year programs, the osteopathic rotating internship provides a year of broad-based training.

Residency Type Code (Master Record)

Screen 4:

NOTES (Continued)

4. For IRs beginning training in general emergency medicine on or after August 30, 1996, enter RTC 1250 (EMERGENCY MEDICINE). The initial residency period for these IRs will be 3 years. For IRs beginning training on or after July 1, 1995 and before August 30, 1996 in general emergency medicine, assign either RTC 9050 (EMERGENCY MEDICINE - 3 YEAR PROGRAM) or RTC 9100 (EMERGENCY MEDICINE - 4 YEAR PROGRAM).

5. Some of the residency types in the table of residency type codes originated from the Table of Initial Residency Period Limitations in the August 30, 1996 FEDERAL REGISTER (61 FR 46208-46211). The rest of these types are based on descriptions of residency types from the following organizations: American Medical Association, American Osteopathic Organization, American Dental Educational Association, and the American Podiatric Medical Organization.

6. The Residency Type selection window always displays the same information but the order in which Residency Types are displayed (e.g., by code or by description) can be changed by selecting "Setup Administrative Data" from option <5> in the IRIS Main Menu.

Residency Years Completed (Master Record)

Screen 1:

Enter the total number of program years the intern/resident (IR) has COMPLETED in ALL types of approved residency programs as of July 1 of the fiscal year for which you are reporting. For example, enter "0" if the IR has completed less than one program year in all types of approved programs, "1" if the IR has completed less than two program years in all types of approved programs, etc. The range for the total number of program years is 0 through 9. Enter "9" if the total number of program years exceeds

9 years.

NOTE: Include time spent in transitional year programs as discussed in the Help Screen notes on "Type of Residency".

Medical School Code

Screen 1:

Enter the five digit code for the medical school from which the intern/resident (IR) graduated. If you do not know the code, enter a blank field to open a selection window for the desired code. Enter "99998" for foreign dental school or "99999" for foreign medical school if the IR did not graduate from an allopathic, osteopathic, dental, or podiatry school accredited or approved as having met the standards necessary for accreditation by one of the following organizations: the Liaison Committee on Medical Education of the American Medical Assoc., American Osteopathic Assoc., Commission on Dental Accreditation, and Council on Podiatric Medical Education. Medical schools are grouped as follows:

00102-06801	Allopathic or Osteopathic Schools
30000-30800	Podiatric Schools
81250-84255	Dental Schools
99998	Foreign Dental Schools
99999	Foreign Medical Schools

The Medical School selection window always displays the same information but the order in which medical schools are displayed can be changed by selecting "Setup Administrative Data" from option <5> in the IRIS Main Menu.

Medical School Graduation Date

Screen 1:

IRISV3 REQUIRES A COMPLETE DATE IN THIS FIELD. Enter the date the intern/resident graduated from medical school in the format "mm/dd/yyyy". Months and days must both be entered with leading zeroes such as "06/08/2001" for June 8, 2001. If the graduation month is known and the specific day of the month is unknown, enter the first day of the month.

Foreign Student Certification

Screen 1:

IRISV3 REQUIRES A COMPLETE DATE IN THIS FIELD. This field is activated only if medical school code "99999" is entered. Enter the date the IR passed the United States Medical Licensing Examination (USMLE), Foreign Medical Graduate Examination in the Medical Sciences (FMGEMS), OR Parts I and II of the National Board of Medical Examiners Examination OR prior to July 1, 1986, received certification from, or passed an examination of, the Educational Committee for Foreign Medical Graduates (ECFMG). Use format "mm/dd/yyyy". Months and days must both be entered with leading zeroes such as "06/08/2001" for June 8, 2001. If the certification month is known and the specific day of the month is unknown, enter the first day of the month.

NOTE: Beginning June 1, 1992, foreign medical school graduates (FMSG) had the option of taking either the USMLE or the FMGEMS. Effective July 1, 1993,

FMSGs MUST pass Step 1 (Basic Science) and Step 2 (Clinical Science) of the USMLE. Effective June 14, 2004, FMSGs are required to pass Step 1, Step 2

Clinical Knowledge (CK) and Step 2 Clinical Skills (CS) for certification from the ECFMG. Do not use either the issuance date or the English examination date on the ECFMG certificate as the certification date. Instead use the latest examination date of any other examination as the certification date. For example, if the FMSG passed the CK test on May 15, 2004 and the CS test on July 1, 2004, then the certification date is the later date of July 1, 2004.

Assignment (Rotation) Time Periods

Screen 1:

IRISV3 REQUIRES COMPLETE DATES IN THIS FIELD. Enter start and end dates of each rotational assignment during which the intern/resident (IR) was assigned to and worked at the hospital or any of its hospital based providers (Home Health Agency, Skilled Nursing Facility, etc.) Use format "mm/dd/yyyy". Months and days must both be entered with leading zeroes such as "06/08/2001" for June 8, 2001.

Include any time the IR worked in non-provider settings such as freestanding clinics, nursing homes, and physicians' offices in connection with approved programs, if the IR spent time in patient care activities, and: 1) there is a written agreement between the hospital and the non-provider site or entity stipulating that the hospital pays the IR's salary for training time outside the hospital setting; 2) the hospital must incur all or substantially all of the costs for the training program in the non-provider setting; and 3) the hospital is subject to the principles of community support and redistribution of costs. Refer to 42 CFR 412.105(f) and 413.78(g).

Assignment (Rotation) Time Periods

Screen 2:

All start and end dates MUST LIE WITHIN THE FISCAL YEAR for which you are reporting, and assignment periods MAY NOT OVERLAP! For example, if the fiscal year runs from October 1, 2002 to September 30, 2003, and an assignment period runs from July 1, 2003 to November 30, 2003, the assignment period to be reported during this reporting year is July 1, 2003 to September 30, 2003. The end date MAY NOT BE LATER than the end of the hospital's cost reporting period.

If, however, the assignment period spans July 1 within the fiscal year for which you are reporting, enter this assignment period as two periods. For example, if the fiscal year runs from October 1, 2002 to September 30, 2003, and an assignment period runs from May 1, 2003 to November 30, 2003, the assignment periods to be reported during this reporting year are as follows: May 1, 2003 to June 30, 2003; and July 1, 2003 to September 30, 2003. Again the end date MAY NOT BE LATER than the end of the hospital's cost reporting period.

NOTE: IRIS provides space (fields) to report 60 individual rotations for an IR.

Full Time/Part Time Percentage

Screen 1:

Enter "100" percent if the intern/resident (IR) worked full time during the

assignment period. If the IR worked part time during this period, enter the IR's percentage of an FTE (full-time equivalent). Information indicating the IR's percentage of less than full time should be available in either an employment contract or a letter from the accrediting organization such as the Accreditation Council on Graduate Medical Education. A hospital must receive permission from the accrediting organization to allow an IR to work part time in an approved specialty program. Refer to 42 CFR 412.105(f) and 413.78(b).

IME Percentage

Screen 1:

Enter the percentage of time the intern/resident (IR) worked in the inpatient area of the hospital subject to PPS, or in the outpatient department during the assignment period. Include the time the IR worked in a non-provider setting under agreement with the hospital during the assignment period. Refer to 42 CFR 412.105(f).

If the IR worked in more than one hospital or non-provider setting, enter the percentage of time spent in the inpatient and/or outpatient areas of the hospital as compared to the total time worked at all facilities. Example: an IR worked 4 hours/day in the inpatient area of hospital A and 8 hours/day in hospital B. Hospital A would report 33% under Indirect Medical Education (IME). If the IR worked an additional 4 hours/day in hospital A's home health unit, which cannot be included in the IME computation, hospital A would report 25% (4 inpatient hours at hospital A divided by 16 total hours).

NOTE - The IME percentage may be computed based upon hours, days, or months (if appropriate). No more than 100%, in the aggregate, may be reported for any IR, by all hospitals reporting. HOSPITALS MUST COORDINATE IME DATA (ESPECIALLY FOR THOSE IRs WORKING IN MORE THAN ONE HOSPITAL) REPORTED IN IRIS.

GME Percentage

Screen 1:

Enter the unweighted percentage of time the intern/resident (IR) worked in any area of the hospital complex or in a non-provider setting under agreement with the hospital during the assignment period. This percentage of time is not weighted for IRIS reporting purposes, and is to be weighted outside of IRISV3 for Medicare cost reporting purposes. Refer to 42 CFR 413.78.

If the IR worked in more than one hospital or non-provider setting not under agreement with the hospital during the assignment period, enter the percentage of time worked in the hospital in comparison to the total time worked at all facilities. Example: an IR worked 4 hours/day at hospital A and 8 hours/day at hospital B. Hospital A would report 33% under Graduate Medical Education (GME). If the IR worked 4 days a week at hospital A and 3 days a week at hospital B, hospital A would report 57% (4 days at hospital A divided by 7 total days).

NOTE - The GME percentage may be computed based upon hours, days, or months (if appropriate). No more than 100%, in the aggregate, may be reported for any IR by all hospitals reporting. HOSPITALS MUST COORDINATE GME DATA

(ESPECIALLY FOR THOSE IRs WORKING IN MORE THAN ONE HOSPITAL) REPORTED IN IRIS.

Residency Years Completed (Assignment Records)**Screen 1:**

For the first rotational assignment, enter the residency year (RY). The RY is the number of years the intern/resident (IR) has COMPLETED in all types of approved residency programs. For example, enter "0" if the IR has completed less than one program year in all types of approved programs, "1" if the IR has completed less than two program years in all types of approved programs, etc. The range for the total number of program years is 0 through 9. Enter "9" if the total number of program years exceeds 9 years. If the RY for any subsequent rotational assignments is not entered, the IRISV3 program will assign the same number of years completed as previously entered for the first rotational period. If the RY is entered manually for successive rotations, enter the number of years completed as of the first day of the rotation.

NOTE: Include time spent in transitional year programs as discussed in the notes in the Help Screens for Residency Type Code (Master Record).

Residency Type Code (Assignment Records)**Screen 1:**

For the first rotational assignment, enter the 4 digit Residency Type Code (RTC) for the medical specialty program in which the intern/resident (IR) is training if this program is different from the RTC that was entered in the master record. For example, enter RTC 2525 for the IR's transitional year if the master record contains RTC 2650 for the IR's intended Board certification in urology. If the RTC is not entered for any subsequent rotational assignment, the IRISV3 program will assign the same RTC as was previously entered for the first rotational assignment. If the RTC is entered manually for successive rotations, enter the RTC on the first day of the rotation. These codes are grouped as follows: Codes 1050-2960 (Allopathic specialties); 3050-6650 (Osteopathic specialties); 7050-7350 (Podiatric specialties); 8050-8900 (Dental specialties); 9050-9100 (Other specialties (emergency medicine)); and 9150-9950 (Reserved for future use).

If you do not know the code for the specialty or sub-specialty that you wish to enter, enter a blank code and select the appropriate code from a display window.

NOTE: Read the notes in the Help Screens for Residency Type Code (Master Record) for information on transitional year programs, re-ordering the residency type code table in the selection window, and other items of interest.

Searching for Resident Data (Browse, Change, Delete Functions)**Screen 1:**

To Browse, Edit, or Delete Intern/Resident (IR) Data, you must first locate the Master Record you are interested in. You may search for a Master Record by Social Security Number (SSN), IR's Last Name, Residency Type Code, or the Medical School Code from which the IR graduated. Finally, you may search the entire file in IR name order.

Select your search option by pressing a number from 1 to 5. If 1 through 4 is pressed, IRIS will prompt you for a "search string". You may enter a complete SSN, Name, or Code, or just the first few characters. For example,

if you select 2, and then type "JO", IRIS will display master records in last name order, starting with the first last name that begins with "JO". If you selected 1 or 2, IRIS will force you to reenter the search string until you enter characters that exist in at least one Master Record. If you entered 3 or 4, IRIS will display the message "Search Failed" if it cannot locate the search string you entered.

After IRIS displays the Master Records, follow the instructions at the bottom of the screen to scroll until the record you want is visible, then press <End>. Press <Esc> to end and/or restart the search procedure.

III. Description of Changes/Modifications to June '98 Release, IRISV3

June '98 Release, IRISV3 (Version 3.01)

- Residency Year (Assignment Record) -

The edit was changed from (ARESYEAR must be equal to RESYEAR or plus 1 year to RESYEAR) to (ARESYEAR must be equal to RESYEAR or plus 1 year to RESYEAR or minus 1 year from RESYEAR).

- Fiscal Year Change (Administrative Data) -

Changes made to the previously entered fiscal year begin and end dates in the Administrative Data section of IRIS now updates all master and assignment records with the changed dates.

- Evaluation of Imported Data Reports -

The social security number field on the evaluation report was made large enough to accommodate a ten character social security number.

IV. Description of Changes/Modifications to June '99 Release, IRISV3

June '99 Release, IRISV3 (Version 3.1)

V. December 2005 Updates to June '99 Release, IRISV3

June '99 Release, IRISV3 (Version 3.1)

- Except for reproductions of IRISV3 screen printouts in the IRISV3 Operating Instructions, all references to HCFA (Health Care Financing Administration) were replaced with CMS (Centers for Medicare & Medicaid Services); no programming changes were made to the IRISV3 program to replace references to HCFA with CMS.
- Except for reproductions of IRISV3 screen printouts in the IRISV3 Operating Instructions, all references to IRIS disk or diskette were replaced with IRIS disk/CD or diskette/CD; no programming changes were made to the IRISV3 program to replace references to Disk or Diskette with Disk/CD or Diskette/CD.
- The last line on Page 1-1 (Part II, Section 1.1) is revised as follows: “If you need further assistance, send e-mail to: iris@cms.hhs.gov.”
- The required equipment on Page 1-5 (Part II, Section 1.4) is updated to include these items: any modern 100% **IBM compatible PC**; a CD-R/RW drive in addition to a 3.5 inch diskette drive; and a PC compatible printer, preferably one that can print at twelve characters per inch.
- Information on running IRISV3 in the Windows NT (NT, 2000, and XP) family of operating systems is updated on Page 1-6 (Part II, Section 1.5).
- The installation instructions on Pages 1-7 through 1-9 (Part II, Section 1.6) are superseded by the December 2005 “Read Me First File” for installing the IRISV3 program; this file (“Read Me IRISV3”) is in the CMS web site for IRIS programs (www.cms.gov/IRIS).
- The Federal Register citation for GME in the first line on Page 3-1 (Part II, Section 3.1) is changed from 42 CFR 413.86 to 42 CFR 413.75.
- The Medical School Code Table (Part II, Section 7.2) is updated through December 2005; this table includes revised codes for six of eight podiatry schools (Codes 30100 through 30600) and new codes for dental schools in the United States, Canada, and Puerto Rico (Codes 80002 through 80109). The replaced codes (Codes 30010 through 30090 for podiatry schools and Codes 10000 and 20000 for all dental schools) are in this table and are identified as obsolete. These updated codes (revised, replaced and new) are highlighted in yellow for easy identification.

Providers are to use the new dental school codes in IRISV3 for cost reporting periods beginning on or after July 1, 2006 for all interns and residents in dental specialties with dental school graduation dates after April 30, 2006.

- The Residency Type Code Table (Part II, Section 7.3) is updated through December 2005; this table is in numerical order. The updated codes in this table are highlighted in yellow for easy identification.

Providers may start using the new residency type codes in IRISV3 for cost reporting periods ending on or after December 31, 2005.

- The Residency Type Code Table (Part II, Section 7.4) contains the same codes in the Residency Type Code Table (Part II, Section 7.3); this table is in alphabetical order. The updated codes in this table are highlighted in yellow for easy identification.
- The following modifications were made to the Help Screens (Part II, Section 7.5): 1) adding a replacement category of dental schools in the medical school codes; 2) recodified Code of Federal Register citations for GME and IME; 3) determining the applicable certification date for passing the ECFMG examination; 4) clarifying the full/part time status of each intern/resident (IR); 5) reporting assignment periods spanning July 1; 6) reporting residency type codes (master/assignment records) for each IR; 7) defining which employer's name to use for each IR; 8) clarifying the number of residency years completed (master/assignment records) for each IR; and 9) reporting unweighted GME percentages for all IRs. These modifications are highlighted in yellow for your information and are not included in the IRISV3 program since no efforts were made to reprogram the Help Screens in IRISV3.
- The last bullet point on Page 8-2 (Part II, Section IV) is inapplicable for this version of IRISV3 Operating Instructions since the deletions and additions have been removed in their entirety.
