

Revision History for FY 2006 CMS RAC Status Document

One sentence was revised in the 11/22/2006 version of the document to correct a typographical error: The second to the last paragraph on page 8 referred to the claims CMS sent the RACs as having been processed by the Medicare claims processing contractors in FY 2006. This has been corrected to state that CMS sent the RACs claims for their jurisdiction that had been processed by the Medicare claims processing contractors between October 1, 2001 and September 30, 2005.

On March 20, 2007, the title on Figure 2 on page 3 was revised from “Overpayments Identified” to Improper Payments Identified”. In addition, on page 16 under the heading of Speech/hearing therapy, the code J2505 was replaced with 92507 in the listed example.
