<sup>1</sup>The total includes payments for all types of services reported on the HCFA Form-2082 and in the Medicaid Statistical Information System (MSIS), some not shown separately.

<sup>2</sup>Average payment per person served are not shown for these categories. The small number of users causes large fluctuations in the time series that may be misleading.

<sup>3</sup>Trend in average payment per beneficiary (person served) for home health care are not strictly comparable to 1997 and prior years because of changes in the definitions of related categories of service. Reporting for 1998 added categories of service for personal care support services and home and community-based waiver services (category not shown separately in table). In 1999 the home and community-based waiver services were reclassified into the other related categories of service (category not shown separately in table).

NOTES: Beginning fiscal year 1998, capitated premiums for Medicaid eligibles enrolled in managed care plans were included in this series as a component of the total payment per person served (beneficiary). Dollar amounts are adjusted using a personal consumption expenditure index for medical services, U.S. Department of Commerce, Bureau of Economic Analysis expressed in fiscal year 2002 dollars. ICF/MR is intermediate care facility for the mentally retarded.
