¹Represents total expenditures aggregated on an incurred basis. Due to differences in definition, and methodology, the total Medicare hospital services may differ from corresponding program payments for all hospital services shown elsewhere in this publication. PHC excludes health expenditures for government administration and net cost of health insurance, government public health activities, research, and structures and equipment.

NOTES: Numbers may not add to totals because of rounding. Expenditures are in current dollars. National Health Expenditures data files and category definitions are found at http://www.cms.hhs.gov/NationalHealthExpendData/02_NationalHealthAccountsHistorical.asp#TopOfPage.
