  - **Average Generic Gross Drug Costs**: $2,230

**Source:** Centers for Medicare & Medicaid Services, Office of Enterprise Data and Analytics, CMS Chronic Conditions Data Warehouse.

**Note:** Enrollee counts are determined using a person-year methodology that accounts for the number of months a beneficiary is enrolled in the calendar year.

**Includes** certain groups of Medicare beneficiaries who are automatically deemed eligible for the low-income subsidy and do not have to apply. The following groups are deemed eligible: Full-benefit dual eligibles, that is, persons eligible for both Medicare and full Medicaid benefits; Supplemental Security Income (SSI) recipients, including SSI recipients who do not qualify for Medicaid, and individuals deemed to be SSI recipients; and Medicare beneficiaries who are participants in the Medicare Savings Programs (MSP).

**Eligible drugs** are identified using the Food and Drug Administration’s (FDA) Marketing Category.
