^{*} Counts between 1 and 10 have been suppressed because of CMS rules to protect the privacy of beneficiaries.

'Total Part A enrollees for 2017 was 58,115,382. The calculated 'service visits per 1,000 Part A enrollees' rates are based on enrollees in Original Medicare and Medicare Advantage/Other Health Plans combined, because once a beneficiary enrolled in a Medicare Advantage/Other Health Plan elects the hospice benefit, his or her Medicare benefits revert to fee-for-service.

NOTES: The 'total persons with utilization' count does not reflect those beneficiaries receiving hospice services but not receiving skilled nursing, home health aide, physical therapy, speech therapy, occupational therapy, or medical social worker visits. The 'persons with utilization' counts do not add to totals because beneficiaries may use more than one service during the reported year. The 'service visit' counts may not sum to totals because of rounding.

[†] Counts have been cross-suppressed to prevent the recalculation of suppressed counts between 1 and 10.
