Rehabilitation	1,305,704	34,688,533	1.03	26.57
Other Services	1,092,470	2,602,016	0.08	2.38

¹The 'Total-All Facilities' visit count represents the number of visits to an outpatient facility. The visit counts for the types of services do not add to the totals because a beneficiary may have had more than one type of service during a visit.

²The Original Medicare Part B enrollee count in 2017 was 33,562,359.

³Includes laboratory, pharmacy, rehabilitation, and treatment or observation room services.

NOTES: Data represent outpatient facility utilization; data do not include claims from physicians or ambulatory surgical centers. Counts may not sum to totals because of rounding. The 'persons with utilization' counts do not add to the totals because beneficiaries may have had visits in more than one type of facility and type of service during the reported year.
