${ }^{1}$ Includes Medicare Program payments for other types of services not shown separately.
${ }^{2}$ Includes program payments for physicians, practitioners, durable medical equipment, supplies and other medical services.
${ }^{3}$ Includes other types of expenditures not shown separately.
Includes total benefit payments for inpatient hospital, facility-based skilled nursing facilities, facility-based home health agencies, facility-based hospices, and, for certain years, facility-based physicians
${ }^{5}$ Includes total benefit payments for physicians, laboratory services performed in a physician's office, independent laboratory services, and freestanding end stage renal disease facilities.
NOTES: Medicare Program payments represent unadjusted amounts paid for covered services incurred during a calendar year under Medicare fee-for-service only and exclude payments for managed care services. Program payments differ from PHCE, which reflect estimates of interim and retroactive adjustments made to institutional providers as well as prorated shares of payments for managed
care. Refer to glossary for definitions of and differences between program payments and benefit payments. In addition, the PHCE defines hospital and physician and clinic services differently than Medicare defines inpatient hospital and physician/supplier. Because of these differences in methodology and completeness, the Medicare payment amounts under the PHCE categories will differ from the
corresponding amounts under the Medicare categories.

Does not reflect beneficiaries who received covered services but for whom no program payments were reported during the year. Detail does not add to totals by type of service because one person
may have used several types of services.
${ }^{2}$ Prior to April 1,1968 , outpatient hospital services were covered by hospital insurance and supplementary medical insurance. All outpatient hospital services for 1967 are shown as supplementary medical insurance services for purposes of comparison.
${ }^{3}$ Beginning with 1994 , the utilization rates per 1,000 enrollees do not reflect managed care enrollment; that is, Medicare enrollees in managed care plans are not included in the denominator used to calculate the utilization rates.

NOTES: Included in the total program payments and in the total hospital insurance payments for 1997,1998 , and 1999 are $\$ 2.0, \$ 2.2$, and $\$ 2.5$ billion dollars respectively for hospice services
not shown separately. The change in program payments and utilization for home health in 1998 is due in part to the Balanced Budget Act of 1997 (P.L. 105-33) which called for the gradual
transfer of home health services unassociated with a hospital or skilled nursing facility stay from hospital insurance to supplementary medical insurance. Numbers may not add to totals because
of rounding. Refer to glossary for definitions of program payments and benefit payments.

The classification of counties into urban or rural groups is based on the list of metropolitan statistical areas (MSAs) defined by the Office of Management and Budget. For the purpose of
his table, a rural area of residence is defined as an MSA with fewer than 50,000 resident population.
The July 1 enrollment counts used to calculate fee-for-service program payments per enrollee do not include Medicare enrollees in managed care plans.
Excludes Puerto Rico, Guam, Virgin Islands, residence unknown, foreign countries, and other outlying areas not shown separately.
No area for this jurisdiction is defined as rura.
NOTES: Numbers may not add to totals because of rounding. Refer to glossary for definitions of program payments and benefit payments.

Does not reflect beneficiaries who received covered services, but for whom no program payments were reported. Numbers do not add by
type of service because one person may have used several types of services.
NOTES: Numbers may not add to totals because of rounding. Refer to glossary for definitions of program payments, benefit payments,
and persons served.
