

## Help On Demand: Managing Referrals

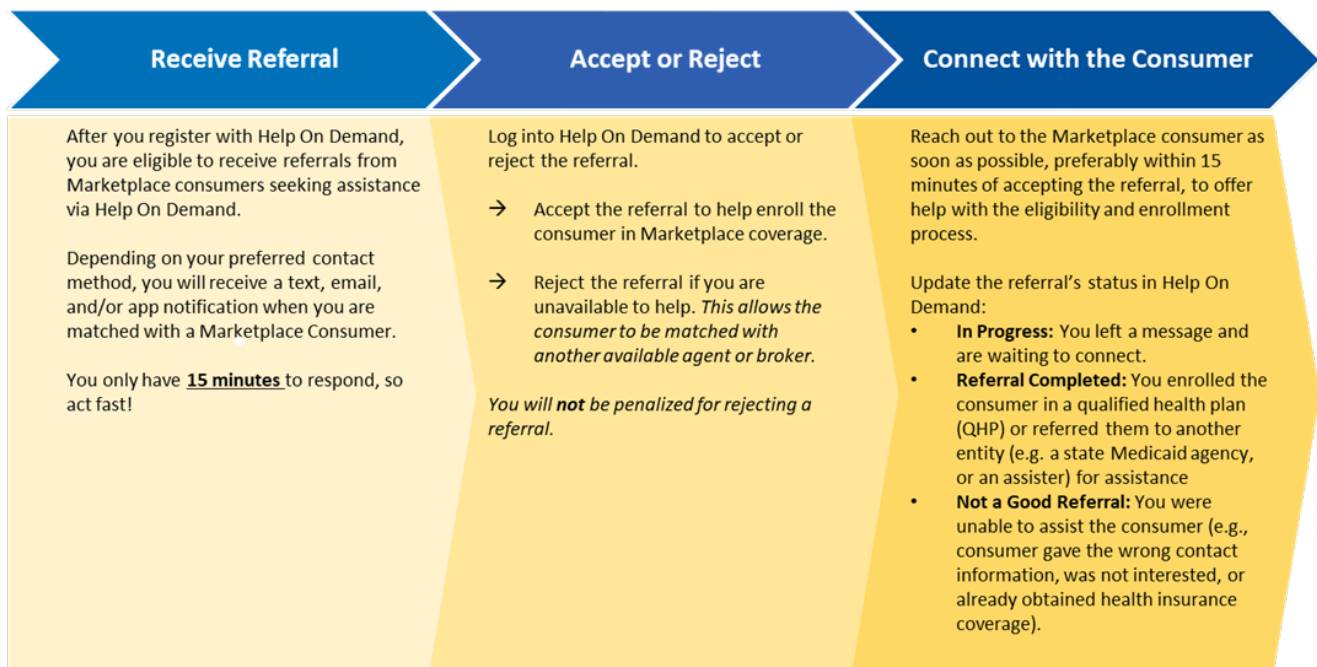

### What is Help On Demand?

**Help On Demand** is a consumer assistance referral system that quickly connects consumers seeking assistance with Marketplace-registered, state-licensed agents and brokers in their area who can provide immediate assistance with Marketplace plans and enrollments. Only agents and brokers who have completed Marketplace training and registration are eligible to participate in Help On Demand.

**Note:** This is a Centers for Medicare & Medicaid Services (CMS)-contracted service developed and hosted by Help On Demand (formerly known as BigWave Systems). Help On Demand referrals are not provided by CMS or the Marketplace and they do not constitute an endorsement by the Department of Health & Human Services or the U.S. Government of the individual agents or brokers.

### Manage Help On Demand Referrals

## Accept or Reject Help On Demand Referrals

To accept or reject Help On Demand referrals, log into Help On Demand at <https://Marketplace.HelpOnDemand.com> with your username and password. If you are using the Help On Demand mobile application, you may use Face ID or Touch ID for easy access. Once you log in, the **Manage Referrals** page will be displayed.

- You can view the consumer’s city and state before accepting or rejecting the referral.
- To accept the referral, select **Accept** in the Referral Status column.
- Once you accept the referral, you will receive the consumer’s name and contact information.

When you receive a referral notification, **you must accept or reject it within 15 minutes**. You will **not** be penalized for rejecting a referral if you are unavailable to provide assistance.

- Rejecting referrals when you are not able to assist ensures that consumers can quickly get the help they need.
- By selecting **Reject**, you are sending the referral to the next available agent or broker in the queue.
- This allows another available agent or broker to accept the referral and quickly connect with the consumer.

*It is important that you respond to notifications as quickly as possible, so we recommend that you select **Email, Text & App Notification** as your preferred contact method in your Help On Demand profile. Receiving notifications via **Email Only** can cause delays and lost referrals.*

The screenshot shows the 'Help On Demand' interface in partnership with HealthCare.gov. The page title is 'Referrals' and it includes a 'Today's Availability' toggle set to 'On'. A sidebar on the left contains navigation options: 'Manage Referrals', 'View Metrics', 'Export Metrics', 'Profile', and 'Availability Settings'. The main content area features a search bar with fields for 'Status' (set to 'all'), 'First Name', and 'Last Name'. Below the search bar are fields for 'From', 'To', and 'Time Zone' (set to 'Eastern Standard Time'). A 'Search' button is located below these fields. A note indicates that if users are experiencing issues, they should contact Agent/Broker support at [FFMProducer-AssisterHelpDesk@cms.hhs.gov](mailto:FFMProducer-AssisterHelpDesk@cms.hhs.gov). The main table displays a list of referrals with columns for Name, Contact Information, Referral Assigned, Referral Expires, and Referral Status. The first row is a 'Pending Referral' for Phoenix, Maricopa, AZ, assigned on 05/06/2021 at 07:13 AM, with a 15-minute expiration. It has 'Reject' and 'Accept' buttons. The second row is for 'Addie Green' with contact number (234) 321-2121, assigned on 05/05/2021 at 03:35 PM, with a status dropdown set to 'Accepted'. The third row is a 'Missed Referral' assigned on 05/03/2021 at 11:24 AM, with a status of 'Expired'. At the bottom of the page, there are links for 'TERMS OF USE / PRIVACY POLICY', 'CMS PRIVACY NOTICE', and 'FULL LIST OF AGENTS/BROKERS'.

## Accept or Reject Help On Demand Referrals: Missed Referrals

If you miss the **15-minute window to accept or reject a referral**, the following banner will appear at the top of your Help On Demand account when you log in to inform you of the number of missed referrals in the last seven (7) days:

**Help On Demand** in partnership with **HealthCare.gov** Help? Log out

**Alert!** You have missed 1 referral(s) in the last seven days. As a reminder, you must accept a referral within 15 minutes of receiving your notification. Missed referrals are sent to the next available Help On Demand agent or broker.

**Referrals** Today's Availability:  On

Name	Contact Information	Referral Assigned	Referral Expires	Referral Status
<a href="#">Missed Referral</a>		04/21/2022 04:23 PM	Expired	
<a href="#">Missed Referral</a>		02/15/2022 11:12 AM	Expired	
<a href="#">Missed Referral</a>		02/15/2022 10:26 AM	Expired	

When you log into Help On Demand you will be able to see how many referrals you have missed and when they were originally received. You won't be able to see the consumers' contact information, and instead, under **Name**, you will see **Missed Referral**.

### Manage Help On Demand Referrals: Update Referral Status

As you assist the consumer, be sure to update the status on the **Manage Referrals** page. Help On Demand has the following, simplified referral statuses for reporting and tracking:

- **Pending:** You have a referral that is ready to be accepted or rejected in Help On Demand.
- **Accepted:** You have accepted the referral in Help On Demand.
- **Rejected:** You have rejected the referral because you were not available to assist.
- **In Progress:** You are experiencing delays helping the consumer (e.g., left a message, waiting on eligibility determination).
- **Not a Good Referral:** You are unable to assist the consumer (e.g., the consumer provided incorrect contact information or is working with another broker).
- **Referral Completed:** You enrolled the consumer in a qualified health plan or referred them to a state Medicaid agency.

Once you have successfully assisted a consumer, it is important that you assign the **Referral Completed** status in Help On Demand. This indicates you have successfully completed your interaction with the consumer, who has either selected a Qualified Health Plan (QHP) or has been referred to another entity for assistance. Please also include the subcategory for the referral. Subcategories are:

- Selected a Marketplace QHP
- Referred to Medicaid
- Referred to Navigator/Assister
- Other

**Note:** You are required to assist consumers with Marketplace eligibility determinations and enrollments as a participating Help On Demand agent or broker. Consumers who are referred from HealthCare.gov or who are coming to you for Marketplace enrollment assistance are looking for Marketplace QHPs and/or other insurance affordability coverage, **including Medicaid and Children's Health Insurance Program (CHIP)**. **As a condition of your participation in Help On Demand, you must help enroll consumers or direct them to these coverage options whenever possible.**

## Receive Help On Demand Referrals: Consumer Safety Net

In addition to direct referrals, there is a very important Help On Demand feature that acts as a safety net for consumers so that their requests do not go unanswered, even after hours. If, for example, a consumer is on HealthCare.gov at 1:30 a.m. and requests assistance from an agent or broker via Help On Demand, it is possible that no agents or brokers in their area are currently set to **Available** in the system to answer their request.

- **Consumer Safety Net.** In these circumstances, Help On Demand will send an email to all Marketplace-registered agents and brokers licensed in the consumer's state who have registered to participate in Help On Demand, notifying them that a consumer is in need of assistance.
- **First Come/First Serve.** The first agent or broker to accept will receive the referral, and the referral will no longer be available to other agents or brokers in the state. If you receive one of these safety net emails, but you are not the first agent or broker to accept the referral in Help On Demand, you will not be able to access the consumer's information when you log into your Help On Demand account, due to privacy protocols.

**Note:** Help On Demand will send this notification **via email, not a text message or an app notification**. It does NOT mean that there is a problem with your availability settings, and you will not be penalized for failing to respond in a timely manner to safety net referrals sent outside of your designated availability.

## Best Practices

Here are some useful guidelines to help you successfully manage Help On Demand referrals. **Please note that your Help On Demand account may be deactivated if you consistently fail to respond to consumer referrals in a timely manner.**

- **Respond Quickly.** Contact the consumer as soon as possible after accepting a referral. If you know that you are unable to promptly connect with a consumer, you should reject the referral so it can be reassigned to the next available agent or broker in the queue.
- **Reach out to the Consumer.** If a consumer does not respond to your initial phone call or email, CMS encourages you to make three attempts to connect with that consumer.
- **Update Referral Status.** We understand that sometimes the consumer cannot be reached or may have provided incorrect contact information. In that instance, you should select the **Not a Good Referral** status in Help On Demand.

To learn more about [Help On Demand](#), how to register, and what you need to know to receive consumer referrals, visit the [Help On Demand section](#) of the [Agents and Brokers Resources webpage](#).
