Hello sir ,

see the attached folder regarding strongly supporting Washington State's effort to secure the federal flexibility needed to achieve this goal and respectfully ask that you expeditiously review and approve Washington's 1332 waiver application.

Dear Secretary Becerra and Secretary Yellen:

Economic Opportunity Institute appreciates the opportunity to provide comments on Washington State's Section 1332 Waiver Application (waiver). We write in **strong support of the waiver** as one of the most promising opportunities to expand health coverage for Washington State residents since the passage of the Affordable Care Act.

Please receive our letter, attached.

Best,

SH

Senior Policy Associate

**Economic Opportunity Institute**

**6/29/22**

Dear Secretary Becerra and Secretary Yellen,

I write to express my strong support for Washington's effort to expand affordable health coverage options through the Health Benefit Exchange's "Section 1332 waiver" request. As a person living in Washington state, I agree that all residents in our state should be allowed to purchase affordable health coverage, regardless of their immigration status.

In Washington today, many immigrants go without critical health care because they are structurally excluded from affordable health coverage. Left with no recourse, many of these individuals forgo needed care until it becomes an emergency. As you know, without insurance, people are more likely to have poor health, be hospitalized for preventable conditions and acute illnesses, and die prematurely.

Approving this 1332 waiver will enable Washington to implement strategies to make our state a healthier place to live and work, allowing us to move toward affordable health coverage for all

**Comments Received During Federal Public Comment Period on Washington’s Section 1332 Waiver Application | June 15, 2022 through July 14, 2022**

Washingtonians.

Please approve this waiver as soon as possible so that we can achieve a more equitable and accessible health care system for everyone in Washington State.

Sincerely,  
HS

**6/29/22**

Dear Secretary Becerra and Secretary Yellen,

I write to express my strong support for Washington’s effort to expand affordable health coverage options through the Health Benefit Exchange’s “Section 1332 waiver” request. As a person living in Washington state, I agree that all residents in our state should be allowed to purchase affordable health coverage, regardless of their immigration status.

In Washington today, many immigrants go without critical health care because they are structurally excluded from affordable health coverage. Left with no recourse, many of these individuals forgo needed care until it becomes an emergency. As you know, without insurance, people are more likely to have poor health, be hospitalized for preventable conditions and acute illnesses, and die prematurely.

Approving this 1332 waiver will enable Washington to implement strategies to make our state a healthier place to live and work, allowing us to move toward affordable health coverage for all

**Comments Received During Federal Public Comment Period on Washington’s Section 1332 Waiver Application | June 15, 2022 through July 14, 2022**

Washingtonians.

Please approve this waiver as soon as possible so that we can achieve a more equitable and accessible health care system for everyone in Washington State.

Sincerely,  
JK

As you know, without insurance, people are more likely to have poor health, be hospitalized for preventable conditions and acute illnesses, and die prematurely.

Approving this 1332 waiver will enable Washington to implement strategies to make our state a healthier place to live and work, allowing us to move toward affordable health coverage for all Washingtonians.

Please approve this waiver as soon as possible so that we can achieve a more equitable and accessible health care system for everyone in Washington State.

Sincerely,  
TP

**6/29/22**

Dear Secretary Becerra and Secretary Yellen,

I write to express my strong support for Washington's effort to expand affordable health coverage options through the Health Benefit Exchange's "Section 1332 waiver" request. As a person living in Washington state, I agree that all residents in our state should be allowed to purchase affordable health coverage, regardless of their immigration status.

In Washington today, many immigrants go without critical health care because they are structurally excluded from affordable health coverage. Left with no recourse, many of these individuals forgo needed care until it becomes an emergency. As you know, without insurance, people are more likely to have poor health, be hospitalized for preventable conditions and acute illnesses, and die prematurely.

Approving this 1332 waiver will enable Washington to implement strategies to make our state a healthier place to live and work, allowing us to move toward affordable health coverage for all Washingtonians.

Please approve this waiver as soon as possible so that we can achieve a more equitable and accessible health care system for everyone in Washington State.

Sincerely,  
MM

In Washington today, many immigrants go without critical health care because they are structurally excluded from affordable health coverage. Left with no recourse, many of these individuals forgo needed care until it becomes an emergency. As you know, without insurance, people are more likely to have poor health, be hospitalized for preventable conditions and acute illnesses, and die prematurely.

Approving this 1332 waiver will enable Washington to implement strategies to make our state a healthier place to live and work, allowing us to move toward affordable health coverage for all Washingtonians.

Please approve this waiver as soon as possible so that we can achieve a more equitable and accessible health care system for everyone in Washington State.

Dear Secretary Becerra and Secretary Yellen,

I write to express my strong support for Washington’s effort to expand affordable health coverage options through the Health Benefit Exchange’s “Section 1332 waiver” request. As a person living in Washington state, I agree that all residents in our state should be allowed to purchase affordable health coverage, regardless of their immigration status.

Dear Secretary Becerra and Secretary Yellen,

I write to express my strong support for Washington's effort to expand affordable health coverage options through the Health Benefit Exchange's "Section 1332 waiver" request. As a person living in Washington state, I agree that all residents in our state should be allowed to purchase affordable health coverage, regardless of their immigration status.

In Washington today, many immigrants go without critical health care because they are structurally excluded from affordable health coverage. Left with no recourse, many of these individuals forgo needed care until it becomes an emergency. As you know, without insurance, people are more likely to have poor health, be hospitalized for preventable conditions and acute illnesses, and die prematurely.

Approving this 1332 waiver will enable Washington to implement strategies to make our state a healthier place to live and work, allowing us to move toward affordable health coverage for all Washingtonians.

Please approve this waiver as soon as possible so that we can achieve a more equitable and accessible health care system for everyone in Washington State.

Sincerely,

JG

As you know, without insurance, people are more likely to have poor health, be hospitalized for preventable conditions and acute illnesses, and die prematurely.

Approving this 1332 waiver will enable Washington to implement strategies to make our state a healthier place to live and work, allowing us to move toward affordable health coverage for all Washingtonians.

Please approve this waiver as soon as possible so that we can achieve a more equitable and accessible health care system for everyone in Washington State.

Sincerely,  
SK

**6/29/22**

Dear Secretary Becerra and Secretary Yellen,

I write to express my strong support for Washington’s effort to expand affordable health coverage options through the Health Benefit Exchange’s “Section 1332 waiver” request. As a person living in Washington state, I agree that all residents in our state should be allowed to purchase affordable health coverage, regardless of their immigration status.

In Washington today, many immigrants go without critical health care because they are structurally excluded from affordable health coverage. Left with no recourse, many of these individuals forgo needed care until it becomes an emergency. As you know, without insurance, people are more likely to have poor health, be hospitalized for preventable conditions and acute illnesses, and die prematurely.

Approving this 1332 waiver will enable Washington to implement strategies to make our state a healthier place to live and work, allowing us to move toward affordable health coverage for all Washingtonians.

Please approve this waiver as soon as possible so that we can achieve a more equitable and accessible health care system for everyone in Washington State.

Sincerely,

I write to express my strong support for Washington’s effort to expand affordable health coverage options through the Health Benefit Exchange’s “Section 1332 waiver” request. As a person living in Washington state, I agree that all residents in our state should be allowed to purchase affordable health coverage, regardless of their immigration status.

In Washington today, many immigrants go without critical health care because they are structurally excluded from affordable health coverage. Left with no recourse, many of these individuals forgo needed care until it becomes an emergency. As you know, without insurance, people are more likely to have poor health, be hospitalized for preventable conditions and acute illnesses, and die prematurely.

Approving this 1332 waiver will enable Washington to implement strategies to make our state a healthier place to live and work, allowing us to move toward affordable health coverage for all Washingtonians.

Please approve this waiver as soon as possible so that we can achieve a more equitable and accessible health care system for everyone in Washington State.

Sincerely,  
ZO

Dear Secretary Becerra and Secretary Yellen,

**Comments Received During Federal Public Comment Period on Washington’s Section 1332 Waiver Application | June 15, 2022 through July 14, 2022**

I write to express my strong support for Washington’s effort to expand affordable health coverage options through the Health Benefit Exchange’s “Section 1332 waiver” request. As a person living in Washington state, I agree that all residents in our state should be allowed to purchase affordable health coverage, regardless of their immigration status.

In Washington today, many immigrants go without critical health care because they are structurally excluded from affordable health coverage. Left with no recourse, many of these individuals forgo needed care until it becomes an emergency. As you know, without insurance, people are more likely to have poor health, be hospitalized for preventable conditions and acute illnesses, and die prematurely.

Approving this 1332 waiver will enable Washington to implement strategies to make our state a healthier place to live and work, allowing us to move toward affordable health coverage for all Washingtonians.

Please approve this waiver as soon as possible so that we can achieve a more equitable and accessible health care system for everyone in Washington State.

Sincerely,  
MR

Left with no recourse, many of these individuals forgo needed care until it becomes an emergency. As you know, without insurance, people are more likely to have poor health, be hospitalized for preventable conditions and acute illnesses, and die prematurely.

Approving this 1332 waiver will enable Washington to implement strategies to make our state a healthier place to live and work, allowing us to move toward affordable health coverage for all Washingtonians.

Please approve this waiver as soon as possible so that we can achieve a more equitable and accessible health care system for everyone in Washington State.

Sincerely,  
SF

**6/29/22**

Dear Secretary Becerra and Secretary Yellen,

I write to express my strong support for Washington’s effort to expand affordable health coverage options through the Health Benefit Exchange’s “Section 1332 waiver” request. As a person living in Washington state, I agree that all residents in our state should be allowed to purchase affordable health coverage, regardless of their immigration status.

In Washington today, many immigrants go without critical health care because they are structurally excluded from affordable health coverage. Left with no recourse, many of these individuals forgo needed care until it becomes an emergency. As you know, without insurance, people are more likely to have poor health, be hospitalized for preventable conditions and acute illnesses, and die prematurely.

Approving this 1332 waiver will enable Washington to implement strategies to make our state a healthier place to live and work, allowing us to move toward affordable health coverage for all Washingtonians.

Please approve this waiver as soon as possible so that we can achieve a more equitable and accessible health care system for everyone in Washington State.

Sincerely,  
EZ

I write to express my strong support for Washington’s effort to expand affordable health coverage options through the Health Benefit Exchange’s “Section 1332 waiver” request. As a person living in Washington state, I agree that all residents in our state should be allowed to purchase affordable health coverage, regardless of their immigration status.

In Washington today, many immigrants go without critical health care because they are structurally excluded from affordable health coverage. Left with no recourse, many of these individuals forgo needed care until it becomes an emergency. As you know, without insurance, people are more likely to have poor health, be hospitalized for preventable conditions and acute illnesses, and die prematurely.

Approving this 1332 waiver will enable Washington to implement strategies to make our state a healthier place to live and work, allowing us to move toward affordable health coverage for all Washingtonians.

Please approve this waiver as soon as possible so that we can achieve a more equitable and accessible health care system for everyone in Washington State.

Sincerely,  
ADB

Dear Secretary Becerra and Secretary Yellen,

I write to express my strong support for Washington’s effort to expand affordable health coverage options through the Health Benefit Exchange’s “Section 1332 waiver” request. As a person living in Washington state, I agree that all residents in our state should be allowed to purchase affordable health coverage, regardless of their immigration status.

In Washington today, many immigrants go without critical health care because they are structurally

**Comments Received During Federal Public Comment Period on Washington’s Section 1332 Waiver Application | June 15, 2022 through July 14, 2022**

excluded from affordable health coverage. Left with no recourse, many of these individuals forgo needed care until it becomes an emergency. As you know, without insurance, people are more likely to have poor health, be hospitalized for preventable conditions and acute illnesses, and die prematurely.

Approving this 1332 waiver will enable Washington to implement strategies to make our state a healthier place to live and work, allowing us to move toward affordable health coverage for all Washingtonians.

Please approve this waiver as soon as possible so that we can achieve a more equitable and accessible health care system for everyone in Washington State.

Sincerely,  
EO

Thank you for the opportunity to provide public comment on Washington state’s Section 1332 Innovation Waiver. On behalf of the Washington Association for Community Health and our 27-member Federally Qualified Health Centers, I write in strong support of the waiver as one of the most promising opportunities to expand health coverage for Washington residents since the passage of the Affordable Care Act. Our comment letter is attached.

Please don’t hesitate to reach out if you have any questions or concerns.

Sincerely,  
CS

Director of Government Affairs

**Re: Tri-Cities Immigrant Coalition Support for Washington's 1332 Waiver Application**

Dear Secretary Yellen and Secretary Becerra:

Tri-Cities Immigrant Coalition (TCIC) appreciates the opportunity to provide comments on Washington State's Section 1332 Waiver Application (waiver). We write in **strong support of the waiver** as one of the most promising opportunities to expand health coverage for Washington State residents since the passage of the Affordable Care Act.

TCIC is composed of a diverse group of people from all faiths, professions, and walks of life who came together in 2017 with the goal of assisting immigrants and refugees in the Tri-Cities Washington State area. TCIC is a volunteer non-partisan community group working to build trust and understanding within our community about immigration issues. We are a non-profit 501.c.3 community group. We believe every immigrant and refugee has inherent dignity and human rights. They should be able to live safely, live without fear, and have access to basic necessities and opportunities.

**In Washington State today, many immigrants go without critical health care** because they are structurally excluded from affordable health coverage. Over 100,000 of Washington's immigrant residents lack insurance today due to this systemic inequity. Left with no recourse, many of these community members currently forego needed care until it becomes an emergency. As you know, without insurance, people are more likely to have poor health status, be hospitalized for preventable conditions and acute illnesses, and die prematurely.

**We strongly support Washington's proposed waiver because it offers a pathway to a healthier future:**

- The waiver would allow Washington State to remove federal barriers to health coverage, offering all Washington residents the same opportunity to purchase Qualified Health Plans and Qualified Dental Plans.
- The waiver would also permit Washington State to invest state funds toward more affordable coverage for low-income residents, with no impact to the federal deficit.

## Comments Received During Federal Public Comment Period on Washington's Section 1332 Waiver Application | June 15, 2022 through July 14, 2022

- The waiver would improve health equity, addressing one of the root causes of the disproportionate uninsurance rates and poorer health outcomes many of Washington's communities of color face today.
- The waiver would improve the broader individual insurance market by lowering premiums and reducing application barriers that prevent families from applying for coverage together.

**We urge you to approve the waiver rapidly this summer.** Washington's waiver aligns with the stated goal of Affordable Care Act Section 1332, "to pursue innovative strategies for providing residents with access to high quality, affordable health insurance while retaining the basic protections of the ACA." As demonstrated in the application, the waiver satisfies Section 1332's guardrails while proposing an innovative state solution to expand coverage. This is particularly crucial and time-sensitive now, as long-standing inequities have been exacerbated by the pandemic. Immigrants and communities of color are disproportionately contracting, hospitalized for, and dying from COVID-19. Washington residents cannot wait for coverage any longer.

**We applaud the waiver's privacy assurances.** The waiver application recognizes the importance of privacy to Washington residents who may seek coverage under the waiver. The waiver proposes to maintain state program integrity standards while safeguarding the privacy of individual Washington residents. The waiver appropriately specifies that individual information about applicants and enrollees covered via the waiver will not be shared with the federal government. We look forward to federal confirmation of this assurance.

TCIC has long recognized that access to affordable healthcare has been one of the number one deterrents to the success of immigrants in our community.

Through the waiver and other state policy solutions, Washington will make significant progress toward meeting the basic health care needs of all Washingtonians, which will make every community healthier and our national economy stronger. We strongly support Washington State's effort to secure the federal flexibility needed to achieve this goal and respectfully ask that you expeditiously review and approve Washington's 1332 waiver application.

Sincerely,

MS

Chair: Tri-Cities Immigrant Coalition

*"The Tri-Cities Immigrant Coalition is a non-partisan community based group working to build trust and understanding within our community about immigration issues through community education and engagement, advocacy, and immigrant support services."*

**Duplicate of above**

**6/30/22**

The Tri-Cities Immigrant Coalition (TCIC) appreciates the opportunity to provide comments on Washington State's draft Section 1332 Waiver Application (waiver). Health care is an emergency situation for so many of our immigrants. The Tri-Cities Immigrant Coalition (TCIC) is a non partisan community based group working to build trust and understand within our community about the issues facing our Tri-Cities immigrants. We focus on community education, engagement, advocacy and immigrant support services. Health care continues to be a paramount need for our immigrants. **We write in strong support of the waiver as one of the most promising opportunities to expand health coverage for Washington residents since the passage of the Affordable Care Act.**

## Comments Received During Federal Public Comment Period on Washington's Section 1332 Waiver Application | June 15, 2022 through July 14, 2022

Many in our community are structurally excluded from affordable health coverage. Left with no recourse, many of these community members currently forego needed care until it becomes an emergency. As you know, without insurance, people are more likely to have poor health status, be hospitalized for preventable conditions and acute illnesses, and die prematurely.

**We strongly support Washington's proposed waiver because it offers a pathway to a healthier future:**

- The waiver would allow our state to remove federal barriers to health coverage, offering all Washington residents the same opportunity to purchase Qualified Health Plans and Qualified Dental Plans.
- The waiver would also permit our state to invest state funds toward more affordable coverage for low-income residents, with no impact to the federal deficit.
- The waiver would improve health equity, addressing one of the root causes of the disproportionate uninsurance rates and poorer health outcomes many of Washington's communities of color face today.
- The waiver would improve the broader individual insurance market by lowering premiums and reducing application barriers that prevent families from applying for coverage together.

We commend your effort to secure the waiver rapidly. Washington's waiver aligns with the stated goal of Affordable Care Act Section 1332, "to pursue innovative strategies for providing residents with access to high quality, affordable health insurance while retaining the basic protections of the ACA." As demonstrated in the application, the waiver satisfies Section 1332's guardrails while proposing an innovative state solution to expand coverage. This is particularly crucial now, as long-standing inequities have been exacerbated by the pandemic. Immigrants and communities of color are disproportionately contracting, hospitalized for, and dying from COVID-19. Washington residents cannot wait for coverage any longer.

We applaud the waiver's privacy assurances. The waiver application recognizes the importance of privacy to Washington residents who may seek coverage under the waiver. The waiver proposes to maintain state program integrity standards while safeguarding the privacy of individual Washington residents. The waiver appropriately specifies that individual information about applicants and enrollees covered via the waiver will not be shared with the federal government. We look forward to federal confirmation of this assurance.

Through the waiver and other state policy solutions, Washington will make significant progress toward meeting the basic health care needs of all Washingtonians, which will make every community healthier and our economy stronger. We strongly support the Health Benefit Exchange in its effort to secure the federal flexibility needed to achieve this goal.

Please feel free to contact us with any questions or needed information.

Sincerely,

MS

Dear Secretary Becerra and Secretary Yellen,

I write to express my strong support for Washington’s effort to expand affordable health coverage options through the Health Benefit Exchange’s “Section 1332 waiver” request. As a person living in Washington state, I agree that all residents in our state should be allowed to purchase affordable health coverage, regardless of their immigration status.

In Washington today, many immigrants go without critical health care because they are structurally excluded from affordable health coverage. Left with no recourse, many of these individuals forgo needed care until it becomes an emergency. As you know, without insurance, people are more likely to have poor health, be hospitalized for preventable conditions and acute illnesses, and die prematurely.

Approving this 1332 waiver will enable Washington to implement strategies to make our state a healthier place to live and work, allowing us to move toward affordable health coverage for all Washingtonians.

Please approve this waiver as soon as possible so that we can achieve a more equitable and accessible health care system for everyone in Washington State.

Sincerely,

DT

Dear Secretary Becerra and Secretary Yellen,

I write to express my strong support for Washington’s effort to expand affordable health coverage options through the Health Benefit Exchange’s “Section 1332 waiver” request. As a person living in Washington state, I agree that all residents in our state should be allowed to purchase affordable health coverage, regardless of their immigration status.

In Washington today, many immigrants go without critical health care because they are structurally excluded from affordable health coverage. Left with no recourse, many of these individuals forgo

**Re: Jefferson County Immigrant Rights Advocates (JCIRA) Support for Washington's 1332 Waiver Application**

## Comments Received During Federal Public Comment Period on Washington's Section 1332 Waiver Application | June 15, 2022 through July 14, 2022

Dear Secretary Yellen and Secretary Becerra:

JCIRA appreciates the opportunity to provide comments on Washington State's Section 1332 Waiver Application (waiver). We write in **strong support of the waiver** as one of the most promising opportunities to improve health coverage for Washington State residents since the passage of the Affordable Care Act.

Our organization strives to meet the needs of the immigrant community living in Jefferson County. Too often members of this community have no access to healthcare. We have a fund that can provide some financial assistance for healthcare and other needs of immigrant families in our county, but we know it can never go far enough.

**In Washington State today, many immigrants go without critical health care** because they are structurally excluded from affordable health coverage. Over 100,000 of Washington's immigrant residents lack insurance today due to this systemic inequity. Left with no recourse, many of these community members currently forego needed care until it becomes an emergency. As you know, without insurance, people are more likely to have poor health status, be hospitalized for preventable conditions and acute illnesses, and die prematurely.

**We strongly support Washington's proposed waiver because it offers a pathway to a healthier future:**

- The waiver would allow Washington State to remove federal barriers to health coverage, offering all Washington residents the same opportunity to purchase Qualified Health Plans and Qualified Dental Plans.
- The waiver would also permit Washington State to invest state funds toward more affordable coverage for low-income residents, with no impact to the federal deficit.
- The waiver would improve health equity, addressing one of the root causes of the disproportionate uninsurance rates and poorer health outcomes many of Washington's communities of color face today.
- The waiver would improve the broader individual insurance market by lowering premiums and reducing application barriers that prevent families from applying for coverage together.

**We urge you to approve the waiver rapidly this summer.** Washington's waiver aligns with the stated goal of Affordable Care Act Section 1332, "to pursue innovative strategies for providing residents with access to high quality, affordable health insurance while retaining the basic protections of the ACA." As demonstrated in the application, the waiver satisfies Section 1332's guardrails while proposing an innovative state solution to increase coverage. This is particularly crucial and time-sensitive now, as long-standing inequities have been exacerbated by the pandemic. Immigrants and communities of color are disproportionately contracting, hospitalized for, and dying from COVID-19. Washington residents cannot wait for coverage any longer.

**We applaud the waiver's privacy assurances.** The waiver application recognizes the importance of privacy to Washington residents who may seek coverage under the waiver. The waiver proposes to maintain state program integrity standards while safeguarding the privacy of individual Washington residents. The waiver appropriately specifies that individual information about applicants and enrollees

**Comments Received During Federal Public Comment Period on Washington’s Section 1332 Waiver Application | June 15, 2022 through July 14, 2022**

covered via the waiver will not be shared with the federal government. We look forward to federal confirmation of this assurance.

**If this waiver is granted, JCIRA will do its best to inform the Jefferson County immigrant community of the opportunity to access healthcare through Qualified Health Plans and Qualified Dental Plans in Washington.**

Through the waiver and other state policy solutions, Washington will make significant progress toward meeting the basic health care needs of all Washingtonians, which will make every community healthier and our national economy stronger. We strongly support Washington State’s effort to secure the federal flexibility needed to achieve this goal and respectfully ask that you expeditiously review and approve Washington’s 1332 waiver application.

Please contact RL at [XXX] with any questions.

Sincerely,  
RL  
Board Member

As you know, without insurance, people are more likely to have poor health, be hospitalized for preventable conditions and acute illnesses, and die prematurely.

Approving this 1332 waiver will enable Washington to implement strategies to make our state a healthier place to live and work, allowing us to move toward affordable health coverage for all Washingtonians.

**Comments Received During Federal Public Comment Period on Washington’s Section 1332 Waiver Application | June 15, 2022 through July 14, 2022**

Please approve this waiver as soon as possible so that we can achieve a more equitable and accessible health care system for everyone in Washington State.

Sincerely,  
SG

**7/7/22**

Dear Secretary Becerra and Secretary Yellen,

I write to express my strong support for Washington’s effort to expand affordable health coverage options through the Health Benefit Exchange’s “Section 1332 waiver” request. As a person living in Washington state, I agree that all residents in our state should be allowed to purchase affordable health coverage, regardless of their immigration status.

In Washington today, many immigrants go without critical health care because they are structurally excluded from affordable health coverage. Left with no recourse, many of these individuals forgo needed care until it becomes an emergency. As you know, without insurance, people are more likely to have poor health, be hospitalized for preventable conditions and acute illnesses, and die prematurely.

Approving this 1332 waiver will enable Washington to implement strategies to make our state a healthier place to live and work, allowing us to move toward affordable health coverage for all Washingtonians.

Please approve this waiver as soon as possible so that we can achieve a more equitable and accessible health care system for everyone in Washington State.

Sincerely,  
LW

To Whom it May Concern,

On behalf of the Kitsap Public Health District in Bremerton, Washington, I am writing to voice our support of Washington State’s application for a 1332 waiver. The waiver will enable all Washingtonians, regardless of immigration status, to be able to purchase health insurance coverage through Washington Healthplanfinder and allow all qualifying low-income residents to benefit from Cascade Care Savings, Washington State’s new assistance program.

This waiver will help increase Washingtonians’ access to health insurance, which can, in turn:

- increase the chance for more people to have positive health outcomes. According to Healthy People 2030, having health insurance “is associated with improved access to health services and better health monitoring” and is “critical for enabling children with special health needs or chronic illnesses to access health services.” Not having health insurance reduces the likelihood of adults and children receiving preventative services and treatment for conditions. In 2019, three in 10 uninsured adults went

**Comments Received During Federal Public Comment Period on Washington’s Section 1332 Waiver Application | June 15, 2022 through July 14, 2022**

without needed medical care due to cost (Kaiser Family Foundation, 2020). Even with the passing of the Affordable Care Act, many uninsured individuals say they lack insurance coverage due to its high cost. In 2019, uninsured nonelderly adults were over twice as likely as those with private coverage to have had problems paying medical bills in the past 12 months ((Kaiser Family Foundation)

- promote equity. Families with low incomes and people of color are more likely to be uninsured (Kaiser Family Foundation, 2020). These populations already experience long-standing health and economic disparities, which were exacerbated by the COVID-19 pandemic (U.S. Health and Human Services, 2021). In 2020, among the nonelderly population, 26% of lawfully present immigrants and 42% of undocumented immigrants were uninsured compared to 8% of American citizens (Kaiser Family Foundation, 2022). Everyone in Washington State, regardless of their income, race, immigration status, or other factors should have a fair opportunity to thrive and be healthy. Increasing access to health insurance can help.

In your strategic plan, you state that CMS “serves the public as a trusted partner and steward, dedicated to advancing health equity, expanding coverage, and improving health outcomes.” Approving Washington State’s 1332 waiver application will help CMS continue to fulfill this goal.

Sincerely,  
GM, MD, MPH | Health Officer

Dear Secretary Becerra and Secretary Yellen,

I write to express my strong support for Washington’s effort to expand affordable health coverage options through the Health Benefit Exchange’s “Section 1332 waiver” request. As a person living in Washington state, I agree that all residents in our state should be allowed to purchase affordable health coverage, regardless of their immigration status.

In Washington today, many immigrants go without critical health care because they are structurally excluded from affordable health coverage. Left with no recourse, many of these individuals forgo needed care until it becomes an emergency. As you know, without insurance, people are more likely to have poor health, be hospitalized for preventable conditions and acute illnesses, and die prematurely.

Approving this 1332 waiver will enable Washington to implement strategies to make our state a healthier place to live and work, allowing us to move toward affordable health coverage for all Washingtonians.

Please approve this waiver as soon as possible so that we can achieve a more equitable and accessible health care system for everyone in Washington State.

Sincerely,

Kitsap ERACE Coalition  
Health Systems Team  
Kitsap, WA

Dear U.S. Department of Health and Human Services and Department of the Treasury:

On behalf of the Health Systems Team of [Kitsap ERACE Coalition](#), we appreciate the opportunity to provide comment in support of Washington State’s Section 1332 Waiver application to remove federal barriers to health care coverage and allow all Washingtonians the same opportunity to purchase

**Comments Received During Federal Public Comment Period on Washington’s Section 1332 Waiver Application | June 15, 2022 through July 14, 2022**

Qualified Health Plans (QHPs) through the state-based marketplace, regardless of immigration status.

[Kitsap Equity, Race, And Community Engagement Coalition](#) is part of a local legacy of people-powered change, of years of Black, Indigenous, People Of Color (BIPOC), and allies engaging neighbors in the hard work, the heart work, the collective work of building beloved community.

We believe the Section 1332 Waiver is an important step to further expand access to care, particularly among communities who have been historically excluded from obtaining affordable and comprehensive coverage. Washington is home to over 100,000 uninsured immigrants who are integral members of our communities but who are ineligible for Medicaid or QHPs because of their immigration status.

Through the waiver and other state policy solutions, Washington state will make significant progress towards meeting the basic health care needs of all Washingtonians, which will make every community healthier as we work toward meaningful institutional change.

Thank you for providing the opportunity to comment. Kitsap ERACE Coalition's Health Systems Team strongly supports the Section 1332 Waiver as a means to advance access to affordable coverage for all Washingtonians.

Sincerely,  
SS & PL  
Co-Leads, Health Systems Team

Dear Secretary Becerra and Secretary Yellen,

I write to express my strong support for Washington’s effort to expand affordable health coverage options through the Health Benefit Exchange’s “Section 1332 waiver” request. As a person living in Washington state, I agree that all residents in our state should be allowed to purchase affordable health coverage, regardless of their immigration status.

In Washington today, many immigrants go without critical health care because they are structurally excluded from affordable health coverage. Left with no recourse, many of these individuals forgo needed care until it becomes an emergency. As you know, without insurance, people are more likely to have poor health, be hospitalized for preventable conditions and acute illnesses, and die prematurely.

Approving this 1332 waiver will enable Washington to implement strategies to make our state a healthier place to live and work, allowing us to move toward affordable health coverage for all Washingtonians.

Please approve this waiver as soon as possible so that we can achieve a more equitable and accessible health care system for everyone in Washington State.

Sincerely,  
KB

**Re: Seattle Labor Chorus Support for Washington's 1332 Waiver Application**

Dear Secretary Becerra and Secretary Yellen:

The Seattle Labor Chorus appreciates the opportunity to provide comments on Washington State's Section 1332 Waiver Application (waiver). We write in **strong support of the waiver** as one of the most promising opportunities to improve health coverage for Washington State residents since the passage of the Affordable Care Act.

The Seattle Labor Chorus is a community chorus in Seattle. We support the rights of working people and making sure all workers, including immigrants, have health equity and access to healthcare is certainly part of that mission.

**We strongly support Washington's proposed waiver because it offers a pathway to a healthier future:**

- The waiver would improve health equity, addressing one of the root causes of the disproportionate uninsurance rates and poorer health outcomes many of Washington's communities of color face today.
- The waiver would allow Washington State to remove federal barriers to health coverage, offering all Washington residents the same opportunity to purchase Qualified Health Plans and Qualified Dental Plans.
- The waiver would also permit Washington State to invest state funds toward more affordable coverage for low-income residents, with no impact to the federal deficit.
- The waiver would improve the broader individual insurance market by lowering premiums and reducing application barriers that prevent families from applying for coverage together.

**In Washington State today, many immigrants go without critical health care** because they are structurally excluded from affordable health coverage. Over 100,000 of Washington's immigrant

**Comments Received During Federal Public Comment Period on Washington’s Section 1332 Waiver Application | June 15, 2022 through July 14, 2022**

residents lack insurance today due to this systemic inequity. Left with no recourse, many of these community members currently forego needed care until it becomes an emergency. As you know, without insurance, people are more likely to have poor health status, be hospitalized for preventable conditions and acute illnesses, and die prematurely.

**We urge you to approve the waiver rapidly this summer.** Washington’s waiver aligns with the stated goal of Affordable Care Act Section 1332, “to pursue innovative strategies for providing residents with access to high quality, affordable health insurance while retaining the basic protections of the ACA.” As demonstrated in the application, the waiver satisfies Section 1332’s guardrails while proposing an innovative state solution to increase coverage. This is particularly crucial and time-sensitive now, as long-standing inequities have been exacerbated by the pandemic. Immigrants and communities of color are disproportionately contracting, hospitalized for, and dying from COVID-19. Washington residents cannot wait for coverage any longer.

**We applaud the waiver’s privacy assurances.** The waiver application recognizes the importance of privacy to Washington residents who may seek coverage under the waiver. The waiver proposes to maintain state program integrity standards while safeguarding the privacy of individual Washington residents. The waiver appropriately specifies that individual information about applicants and enrollees covered via the waiver will not be shared with the federal government. We look forward to federal confirmation of this assurance.

Through the waiver and other state policy solutions, Washington will make significant progress toward meeting the basic health care needs of all Washingtonians, which will make every community healthier and our national economy stronger. We strongly support Washington State’s effort to secure the federal flexibility needed to achieve this goal and respectfully ask that you expeditiously review and approve Washington’s 1332 waiver application.

Please contact me at: [XXX]

Sincerely,

*TAP, Co-Chair of the Seattle Labor Chorus Coordinating Committee*

**Comments Received During Federal Public Comment Period on Washington's Section 1332 Waiver Application | June 15, 2022 through July 14, 2022**

Dear Secretary Becerra & Secretary Yellen,

We write in strong support of Washington's Section 1332 State Innovation Waiver application. The approval of this 1332 waiver will create a pathway for thousands of currently uninsured Washington residents to purchase health coverage through Washington's state-based marketplace. This waiver is also projected to generate premium savings for all Washington residents on the individual market and save the federal government money for each year the waiver is in effect.

Over 100,000 uninsured Washington residents are unable to purchase coverage through the state-based marketplace, *Washington Healthplanfinder*, due to federal restrictions. Washington's waiver will eliminate this restriction, an action which is broadly supported at the state level and will advance efforts the state legislature has taken to help ensure all Washingtonians can obtain high-quality health coverage. By decreasing the number of uninsured, addressing health disparities, strengthening the individual market, and improving health care affordability, this waiver also takes an important step forward in addressing health equity.

In granting the waiver and expanding coverage to Washington residents currently ineligible, actuarial modeling predicts premium savings for all Washington residents who obtain coverage on *Washington Healthplanfinder*, including current customers. Expanding health coverage is projected to save the federal government money each year the waiver is in effect. These savings will be used to further improve affordability for low-income Exchange customers not receiving any federal subsidies.

We believe Washington's Section 1332 Waiver will meaningfully improve access to affordable coverage for Washingtonians and reduce costs, consistent with the law and the Administration's commitment to expanding health coverage. We urge timely consideration of this application. Please feel free to reach out to our offices with any questions.
