

2013 Group Practice Reporting Option (GPRO) Web Interface Supporting Documentation Release Notes

June 2013

The Centers for Medicare & Medicaid Services (CMS) is pleased to announce the release of the 2013 Accountable Care Organization (ACO) Web Interface Supporting Documentation Release Notes. The list below details a comprehensive list of revisions made since the release of the 2012 ACO Supporting Documentation and are to be used with Version 4.2 of the 2013 Supporting Documentation.

The 2013 ACO Supporting Documentation has been updated to reflect clinical practice guidelines and applicable health informatics that are the most currently available as of June 2013. These documents are available for use by ACO participants.

To determine which measures are included in any specific CMS program or demonstration, interested parties should refer to the official documentation for that program or demonstration. Please refer to the Medicare Physician Fee Schedule 2013 Final Rule (published in the Federal Register in November, 2012) to identify the measures that are available for ACO participation in 2013.

Note: *The 2013 ACO Supporting Documentation consists of several tabs within an Excel workbook for each module/patient care measure, the tabs separate the documents by title. These Release Notes are divided into sections by the title of each tab, then by measure. Please review each section for a complete list of changes made to each measure.*
