

TECHNICAL EXPERT PANEL COMPOSITION (MEMBERSHIP) LIST WEB POSTING

Project Title: CMS Quality Measure Development Plan

Dates:

The initial Call for Technical Expert Panel (TEP) nomination period for the 2018–2019 TEP closed on January 8, 2018. Supplemental nominations were solicited in October 2019 to fill six vacancies for a term of service extending through June 2021.

Documents:

The TEP Membership List is posted below in the download section.

Project Overview:

The Centers for Medicare & Medicaid Services (CMS) has contracted with Health Services Advisory Group, Inc. (HSAG) to develop and update the [CMS Quality Measure Development Plan](#) under the Impact Assessment of CMS Quality and Efficiency Measures Task Order (Measure & Instrument Development and Support IDIQ contract #75FCMC18D0026; Task Order #75FCMC19F0001). The CMS Quality Measure Development Plan (MDP) is mandated by the Medicare Access and CHIP Reauthorization Act of 2015 (MACRA)¹ and serves as a strategic framework for clinician quality measure development to support the Merit-based Incentive Payment System (MIPS) and Advanced Alternative Payment Models (APMs), known collectively as the Quality Payment Program. The MDP was posted on the CMS.gov website in May 2016; [annual reports](#) chronicling progress made in advancing quality measures for the Quality Payment Program have been posted on the CMS website since 2017.

As a separate component of the Impact Assessment Task Order, HSAG is developing and refining the Quality Measure Index (QMI) as a decision support tool for measure selection, implementation, and continued use in CMS quality reporting programs.

As required by its contract with CMS, HSAG is convening a group of stakeholders and experts to provide input on the annual progress reports and update of the MDP required under MACRA, as well as the QMI project.

¹ Section 1848(s)(1), (5) of the Social Security Act (the Act), as amended by section 102 of MACRA.
