COVID-19: EUA for Tocilizumab Monoclonal Antibody Product

On June 24, the FDA released an Emergency Use Authorization (EUA) for tocilizumab, a COVID-19 monoclonal antibody product. CMS created new HCPCS codes, effective June 24, for tocilizumab and to administer it in the inpatient setting.

Q0249:
- Long descriptor: Injection, tocilizumab, for hospitalized adults and pediatric patients (2 years of age and older) with covid-19 who are receiving systemic corticosteroids and require supplemental oxygen, non-invasive or invasive mechanical ventilation, or extracorporeal membrane oxygenation (ECMO) only, 1 mg
- Short descriptor: Tocilizumab for covid-19
- Price: The government won’t provide this drug for free; visit the COVID-19 Vaccines and Monoclonal Antibodies webpage for pricing information (available soon)

M0249:
- Long Descriptor: Intravenous infusion, tocilizumab, for hospitalized adults and pediatric patients (2 years of age and older) with covid-19 who are receiving systemic corticosteroids and require supplemental oxygen, non-invasive or invasive mechanical ventilation, or extracorporeal membrane oxygenation (ECMO) only, includes infusion and post administration monitoring, first dose
- Short Descriptor: Adm tocilizu covid-19 1st
- Price: $450.00 per infusion

M0250:
- Long Descriptor: Intravenous infusion, tocilizumab, for hospitalized adults and pediatric patients (2 years of age and older) with covid-19 who are receiving systemic corticosteroids and require supplemental oxygen, non-invasive or invasive mechanical ventilation, or extracorporeal membrane oxygenation (ECMO) only, includes infusion and post administration monitoring, second dose
- Short Descriptor: Adm tocilizu covid-19 2nd
- Price: $450.00 per infusion

Billing Note: You can’t use the Roster Bill form to report multiple units or infusions. Submit individual claims for the tocilizumab product and infusions when reporting multiple units of the product and/or the first and second infusions.

- Monoclonal Antibody COVID-19 Infusion webpage

Medicare Ground Ambulance Data Collection System FAQs

CMS updated Medicare Ground Ambulance Data Collection System FAQs on the new data collection and reporting periods for ground ambulance organizations selected in Years 1 and 2. We extended our deadlines due to the COVID-19 public health emergency.

For more information, visit the Ambulances Services Center.

Wound Debridement: Comparative Billing Report in July

In late July, CMS will issue a Comparative Billing Report (CBR) on Part B claims for wound debridement. Use the data-driven tables to compare your billing and payment patterns with peers in your state and across the nation.

The public can’t view CBRs. Look for an email from cbrpepper.noreply@religroupinc.com to access your report. Update your email address in the Provider Enrollment, Chain, and Ownership System to ensure delivery.

More Information:
- View a webinar recording
- Visit the CBR website
- Register for a live webinar on August 11 from 3-4 pm ET
3 Ways to Protect Your Medicare Enrollment Information

Protect your enrollment information from Medicare fraud with these 3 steps:

- Keep your Medicare Provider Enrollment, Chain, and Ownership System (PECOS) user ID and password secure and don’t share with others. Only an individual provider, Authorized or Delegated Official of an organizational provider, or Authorized Surrogate may view and update your enrollment information. Each individual gets their own credentials through the Identity & Access Management (I&A) System to access PECOS.
- Log in to PECOS and review your enrollment information periodically to ensure it's accurate, current, and there are no unauthorized changes.
- Report suspicious information (for example, information you didn’t submit) to your Medicare Administrative Contractor's provider enrollment division.

For more information, visit the Medicare Provider Enrollment webpage, and select “Protect Your Identify and Privacy.”

Americans with Disabilities Act: 31st Anniversary

Each July, CMS observes the anniversary of the Americans with Disabilities Act, which prohibits discrimination on the basis of disability in employment, state and local government, public accommodations, commercial facilities, transportation, and telecommunications. Individuals with disabilities are among our priority populations, and we’re focused on making sure they have access to quality health care services and information.

Viral Hepatitis: Medicare Covers Preventive Services

Medicare covers viral hepatitis immunization and screening services. Your patients pay nothing for the following services if you accept assignment:

- Hepatitis B virus screening
- Hepatitis B virus vaccine and administration
- Hepatitis C virus screening
- Screening for Sexually Transmitted Infections (STIs) and high-intensity behavioral counseling to prevent STIs

Most people with chronic hepatitis virus don't know they're infected. On World Hepatitis Day, find out why screening is critical.

- Information for your patients on hepatitis B virus infection screenings, hepatitis B shots, hepatitis C screening tests, and STI screenings and counseling
Compliance

Polysomnography Services: Bill Correctly

An Office of Inspector General (OIG) report found that Medicare improperly paid claims for polysomnography services that didn’t meet our requirements. Review the Provider Compliance Tips for Polysomnography (Sleep Studies) fact sheet to help you bill correctly.

More Information:
- Medicare Benefit Policy Manual, Chapter 15, Section 70
- Questionable Billing for Polysomnography Services OIG Report

Claims, Pricers, & Codes

ICD-10-CM Diagnosis Code Files for FY 2022

Visit the 2022 ICD-10-CM webpage for Fiscal Year (FY) 2022 diagnosis code information:
- Conversion table
- Code descriptions in tabular order
- Addendum
- Code tables, tabular, and index
- Coding guidelines

Use these codes for discharges and patient encounters on or after October 1, 2021 - September 30, 2022. The Present on Admission Exempt Code List will be posted later this month.

For questions about the diagnosis codes, contact the CDC’s National Center for Health Statistics at icd10cm@cdc.gov.
