 Subject: Reporting Exception Granted Due to Florida Hurricane Ian ([DR-4673-FL](#))

The Centers for Medicare & Medicaid Services (CMS) is granting exceptions¹ under certain Medicare quality reporting and value-based purchasing programs to providers located in areas affected by the Florida Hurricane Ian disaster to assist these providers while they direct their resources toward caring for their patients and repairing structural damages to facilities.

Affected counties designated by the Federal Emergency Management Agency (FEMA) under the Florida Hurricane Ian ([DR-4673-FL](#)) disaster declaration are located at [Designated Areas: Disaster 4673](#) under sections Public Assistance PA-A and PA-B of the FEMA website. If FEMA expands the current emergency disaster declarations to include additional counties, sections PA-A and PA-B will be updated to reflect the newly designated counties.

This exception is for hospital inpatient, inpatient psychiatric facilities (IPFs), PPS-exempt cancer hospitals, home health agencies (HHAs), hospices, inpatient rehabilitation facilities (IRFs), long-term care hospitals (LTCHs), skilled nursing facilities (SNFs), post-acute care hospitals, hospital outpatient, and ambulatory surgical centers (ASCs), and affects the following programs and deadlines noted in the table below.

Hospitals located within the designated counties listed under this disaster declaration should be aware of the potential subsequent impact to the Hospital VBP Program and HAC Reduction Program fiscal year (FY) 2022 minimum case threshold counts for inclusion in these programs. For example, hospitals might be scored solely on the HAC Reduction Program’s claims-based CMS Patient Safety and Adverse Events Composite (CMS PSI 90) measure due to non-submissions resulting in not meeting the minimum number of CDC HAI measures with sufficient cases. For the HAC Reduction Program and Hospital VBP Program, if data for the excepted period are submitted, they will be used for scoring in the program.

For the Medicare Promoting Interoperability Program, a Hardship Exception Application is available for eligible hospitals and CAHs affected by the Hurricane Ian disaster. Please note, however, that in no case may a hospital be granted an exemption for more than 5 years (1886(b)(3)(B)(ix)(II)).

End-Stage Renal Disease Quality Incentive Program (ESRD QIP)

Dialysis facilities should note that CMS has not issued exceptions for the ESRD QIP to address the impact of Hurricane Ian. Impacted dialysis facilities should submit Extraordinary Circumstances Exceptions (ECE) requests according to the process and form found on www.QualityNet.cms.gov. Within 90 days of the event, forms should be submitted via email or managed file transfer (MFT) to QRFormsSubmission@hsag.com, or via secure fax to (877) 789-4443. When sending via MTF, uncheck “Required Registered Users.”

Merit-based Incentive Payment System (MIPS)

The MIPS automatic Extreme and Uncontrollable Circumstances (EUC) policy will be applied at the individual level to MIPS eligible clinicians identified as located in affected counties designated by the FEMA under the Hurricane Ian disaster ([Designated Areas: Disaster 4673](#)). For these clinicians, we aim to reduce reporting burden by eliminating the need to submit an application to request reweighting of

MIPS performance categories to receive a neutral payment adjustment. For more information review the [2022 MIPS Automatic EUC Fact Sheet](#).

Program	Affected Measure/Requirement(s)	Reporting Period(s)/ Performance Period*
Merit-based Incentive Payment System (MIPS) Eligible Clinicians	Electronic Clinical Quality Measures (eCQMs), MIPS Clinical Quality Measures (CQMs), Qualified Clinical Data Registry (QCDR) Measures, Medicare Part B claims measures, and; Consumer Assessment of Healthcare Providers and Systems (CAHPS) for MIPS survey.	Performance Period 2022 (Jan. 1 – Dec. 31)

Extraordinary Circumstances Exceptions (ECE)

Providers located outside the counties listed in the FEMA disaster declaration are not covered by this communication, but they may request an exception to the reporting requirements under one or more Medicare quality reporting or value-based purchasing programs they participate in using the applicable ECE procedure for the respective program(s). In addition, providers located within a county listed in the FEMA disaster declaration who seek an exception for a reporting requirement not covered by this communication may request an individual exception using the applicable ECE procedure for the respective program(s). CMS will assess and decide upon each ECE request on a case-by-case basis.

Hospitals should be aware of the potential impact to reporting requirements and payment programs when deciding whether or not to report data included in the exceptions. If data are submitted, they may be publicly reported or used in scoring.

Please refer to the ECE request process and form specific to the program for additional information.
