Group Performance Information on the Medicare.gov Compare Tool
2022 Doctors and Clinicians Public Reporting

Overview

This document summarizes the group and virtual group\(^1\) performance information and plain language measure and activity titles\(^2\) publicly reported on the Medicare.gov compare tool and in the Provider Data Catalog (PDC) in 2024. The Centers for Medicare & Medicaid Services (CMS) is publicly reporting 2022 Quality Payment Program (QPP) group performance information. Under §414.1395(b), performance information that meets statistical public reporting standards (valid, reliable, comparable, and meets the minimum reliability threshold) is included in the PDC.\(^3,4\) A subset of this information is added to the compare tool on Medicare.gov profile pages. Any information publicly reported on profile pages must also resonate with patients and caregivers, as shown through user testing.

The 2022 QPP group performance information that’s publicly reported on the Medicare.gov compare tool and in the PDC includes Merit-based Incentive Payment System (MIPS) and Qualified Clinical Data Registry (QCDR) quality measures, Consumer Assessment of Healthcare Providers and Systems (CAHPS) for MIPS Summary Survey measures (SSMs), MIPS Promoting Interoperability measures and attestations, and MIPS improvement activities attestations.

For questions about public reporting for doctors and clinicians, contact the QPP Service Center by email at QPP@cms.hhs.gov, by creating a QPP Service Center ticket, or by phone at 1-866-288-8292 (Monday-Friday, 8 a.m. - 8 p.m. ET). To receive assistance more quickly, especially during busier periods such as the submission window, please consider calling during non-peak hours — before 10 a.m. and after 2 p.m. ET. People who are deaf or hard of hearing can dial 711 to be connected to a Telecommunications Relay Services (TRS) Communications Assistant.

To receive updates, subscribe to the QPP and Care Compare: Doctors and Clinicians listservs.

---

\(^1\) Groups and virtual groups are collectively referred to as “groups” in this document.

\(^2\) Plain language measure and activity titles are used on the Medicare.gov compare tool’s profile pages to allow patients and caregivers to more easily understand the information. See the 2022 Measures and Activities Plain Language Crosswalk posted on the Care Compare: Doctors and Clinicians Initiative page for more information.

\(^3\) MIPS quality and MIPS cost measures in their first 2 years of use won’t be publicly reported. (§414.1395(c))

\(^4\) Clinicians and groups who received an Extreme and Uncontrollable Circumstances (EUC) exception won’t have performance information available for public reporting.
## Publicly Reported Performance Information

### MIPS Quality Measures

CMS is publicly reporting 72 group MIPS quality measures as star ratings on the Medicare.gov compare tool’s profile pages and 135 group MIPS quality measures in the PDC.

**CAHPS for MIPS Quality Measures**

CMS is publicly reporting 5 CAHPS for MIPS SSMs on group profile pages on the Medicare.gov compare tool and 6 CAHPS for MIPS SSMs in the PDC. The measure is the roll-up of the 9 CAHPS SSMs with benchmarks. CAHPS for MIPS SSMs are reported as top-box percent performance scores. Top-box scores are created by calculating the percentage of survey respondents who chose the most positive score for a given item response scale. For example, for CAHPS 1 (Getting Timely Care, Appointments, and Information), this would be the percent of respondents who said they “always” got timely care, appointments, and information.

MIPS Promoting Interoperability Indicators and Attestations

CMS is publicly reporting the following indicators on the Medicare.gov compare tool’s group profile pages:

- A yellow caution symbol and plain language description if a group attested negatively to one or more of the 2022 prevention of information blocking attestations, and
- A green checkmark and plain language description if a group successfully reported the Promoting Interoperability performance category by achieving a Promoting Interoperability performance category score above zero.

CMS is publicly reporting 10 group MIPS Promoting Interoperability attestations as checkmarks on the Medicare.gov compare tool’s profile pages and 22 group MIPS Promoting Interoperability attestations in the PDC.

### 2022 QPP Group Performance Information

Questions or feedback? Contact the QPP Service Center at QPP@cms.hhs.gov or by phone at 1-866-288-8292.

#### Measure # | Technical Measure Title | Collection Type(s) | Profile Page | PDC
| --- | --- | --- | --- | ---
| PI_PHCDRR_3_EX_3 | Electronic Case Reporting Exclusion | Web attestation, MIPS CQM, eCQM | No | Yes
| PI_PHCDRR_3_EX_4 | Electronic Case Reporting Exclusion | Web attestation, MIPS CQM, eCQM | No | Yes
| PI_PHCDRR_4 | Public Health Registry Reporting | Web attestation, MIPS CQM, eCQM | Yes | Yes
| PI_PHCDRR_5 | Clinical Data Registry Reporting | Web attestation, MIPS CQM, eCQM | Yes | Yes
| PI_PPHI_1 | Security Risk Analysis | Web attestation, MIPS CQM, eCQM | Yes | Yes

#### MIPS Improvement Activities Attestations

CMS is publicly reporting 105 group MIPS improvement activities attestations in the PDC and as checkmarks on the Medicare.gov compare tool’s profile pages.5

| Activity # | Technical Activity Title | Collection Type(s) | Profile Page | PDC |
| --- | --- | --- | --- | ---
| IA_AHE_1 | Enhance Engagement of Medicaid and Other Underserved Populations | Web attestation, MIPS CQM, eCQM | Yes | Yes |
| IA_AHE_3 | Promote Use of Patient-Reported Outcome Tools | Web attestation, MIPS CQM, eCQM | Yes | Yes |
| IA_AHE_5 | MIPS Eligible Clinician Leadership in Clinical Trials or CBPR | Web attestation, MIPS CQM, eCQM | Yes | Yes |
| IA_AHE_6 | Provide Education Opportunities for New Clinicians | Web attestation, MIPS CQM, eCQM | Yes | Yes |
| IA_AHE_7 | Comprehensive Eye Exams | Web attestation, MIPS CQM, eCQM | Yes | Yes |
| IA_AHE_8 | Create and Implement an Anti-Racism Plan | Web attestation, MIPS CQM, eCQM | Yes | Yes |
| IA_AHE_9 | Implement Food Insecurity and Nutrition Risk Identification and Treatment Protocols | Web attestation, MIPS CQM, eCQM | Yes | Yes |
| IA_BE_1 | Use of certified EHR to capture patient reported outcomes | Web attestation, MIPS CQM, eCQM | Yes | Yes |
| IA_BE_3 | Engagement with QIN-QIO to implement self-management training programs | Web attestation, MIPS CQM, eCQM | Yes | Yes |
| IA_BE_4 | Engagement of patients through implementation of improvements in patient portal | Web attestation, MIPS CQM, eCQM | Yes | Yes |

---

5 A maximum of 10 attestations per profile page are reported according to user preference. For reporters with more than 10 attestations, the 10 most highly reported attestations by entity are selected for public reporting on profile pages. All MIPS improvement activities that meet the public reporting standards are publicly available in the PDC.

Questions or feedback? Contact the QPP Service Center at QPP@cms.hhs.gov or by phone at 1-866-288-8292.
