SNF Provider Preview Reports – Now Available

The SNF Provider Preview Reports have been updated and are now available. These reports contain provider performance scores for quality measures, which will be published on the [compare tool on Medicare.gov](#) and the [Provider Data Catalog \(PDC\)](#) during the **April 2025 refresh**.

Data contained within the Provider Preview Reports are based on quality assessment data submitted by SNFs from **Quarter 3, 2023 through Quarter 2, 2024**. The Centers for Disease Control and Prevention (CDC) measures reflect Influenza Vaccination Coverage Among Healthcare Personnel measure data from **Quarter 4, 2023 through Quarter 1, 2024**, and COVID-19 Vaccination Coverage among Healthcare Personnel (HCP) measure data from **Quarter 2, 2024**. The claims-based measures reflect data from **Quarter 4, 2021 through Quarter 3, 2023** and the SNF Healthcare-Associated Infections (HAI) measure data from **Quarter 4, 2022 through Quarter 3, 2023**.

Providers have until **February 14, 2025**, to review their performance data. Only updates/corrections to the underlying assessment data before the final data submission deadline will be reflected in the publicly reported data on [Medicare.gov](#) and [PDC](#). If a provider updates assessment data after the final data submission deadline, the updated data will only be reflected in the Facility-Level Quality Measure (QM) report and Patient-Level QM report. Updates submitted after the final data submission deadline will not be reflected in the Provider Preview Reports or on [Medicare.gov](#). However, providers can request a CMS review of their data during the preview period if they believe the displayed quality measure scores within their Provider Preview Reports are inaccurate.
