

Home Health (HH) Quality Reporting Program (QRP) Public Reporting - Archive

November 18, 2025

Because of the lapse in federal appropriations, scheduled data refreshes and other routine updates were temporarily paused. With the resumption of government operations on November 13, these updates are now being released.

Preview Reports and Star Rating Preview Reports for the January 2026 Refresh of HH QRP Data - NOW AVAILABLE IN iQIES

The HHA Provider Preview Reports have been updated and are now available. These reports contain provider performance scores for quality measures, which will be published on the [compare tool on Medicare.gov](#) and the [Provider Data Catalog \(PDC\)](#) during the **January 2026** refresh.

Data contained within the Provider Preview Reports are based on quality assessment data submitted by HHAs from **Quarter 2, 2024 through Quarter 1, 2025**. The data for the claims-based measures will display data from **Quarter 1, 2023 through Quarter 4, 2024** for the Discharge to Community and Medicare Spending Per Beneficiary measures, **Quarter 1, 2022 through Quarter 4, 2024** for the Potentially Preventable 30-Day Post-Discharge Readmission measure, and **Quarter 1, 2024 through Quarter 4, 2024** for the Home Health Within-Stay Potentially Preventable Hospitalization measure. Additionally, the data for the HHCAHPS measures will display data from **Quarter 3, 2024 through Quarter 2, 2025**.

The Preview Reports for the **January 2026** release include one new OASIS-based measure, **COVID-19 Vaccine: Percent of Patients/Residents Who Are Up to Date**, based on quality assessment data from **Quarter 1, 2025**.

Providers have until **December 18, 2025**, to review their performance data. Only updates/corrections to the underlying assessment data before the final data submission deadline will be reflected in the publicly reported data on Medicare.gov. If a provider updates assessment data after the final data submission deadline, the updated data will only be reflected in the Facility-Level Quality Measure (QM) report and Patient-Level QM report. Updates submitted after the final data submission deadline will not be reflected in the Provider Preview Reports or on Medicare.gov. However, providers can request a CMS review of their data during the preview period if they believe the displayed quality measure scores within their Provider Preview Reports are inaccurate.
