IRF Provider Preview Reports – Now Available

The Inpatient Rehabilitation Facility (IRF) Provider Preview Reports have been updated and are now available. These reports contain provider performance scores for quality measures, which will be published on the compare tool on [Medicare.gov](#) and the [Provider Data Catalog \(PDC\)](#) during the **June 2026 refresh**.

The Preview Reports for the June 2026 refresh include:

- Assessment-based measures based on quality assessment data submitted by IRFs from **Quarter 4, 2024 through Quarter 3, 2025**.

- The Centers for Disease Control and Prevention (CDC) Clostridium Difficile Infection (CDI) and Catheter-Associated Urinary Tract Infections (CAUTI) measures reflect data from **Quarter 3, 2024 through Quarter 2, 2025**.
- The Healthcare Personnel (HCP) Influenza measure based on data from **Quarter 4, 2024 through Quarter 1, 2025**.
- The claims-based measures are based on data from **Quarter 4, 2022 through Quarter 3, 2024**.

Providers have until **April 13, 2026**, to review their performance data. Only updates/corrections to the underlying assessment data before the final data submission deadline will be reflected in the publicly reported data on [Medicare.gov](https://www.medicare.gov) and the [PDC](#). If a provider updates assessment data after the final data submission deadline, the updated data will only be reflected in the Facility-Level Quality Measure (QM) report and Patient-Level QM report. Updates submitted after the final data submission deadline will not be reflected in the Provider Preview Reports or on [Medicare.gov](https://www.medicare.gov). However, providers can request a CMS review of their data during the preview period if they believe the displayed quality measure scores within their Provider Preview Reports are inaccurate.
