May 2025 Falls with Major Injury Technical Expert Panel (TEP) Summary Report – Now Available

The Centers for Medicare & Medicaid Services (CMS) convened a Technical Expert Panel (TEP) on May 12 and 14, 2025, to obtain input on potential cross-setting updates to the Falls with Major Injury (FMI) measure. CMS has released the official TEP Summary Report, which provides an overview of the panel's discussion and feedback on proposed updates to the measure, including various approaches under consideration to incorporate claims-based data into the measure, refinements to the International Classification of Diseases, Version 10 (ICD-10) code lists used to identify major injuries in claims, measure reliability assessments, and relevant technical specification updates.

CMS intends to move forward with updates to the FMI measure based on input received during the TEP. Additional guidance related to updates to the Quality Measures User's Manual, clinical guidance manuals, technical specifications, and public reporting timelines will be provided at a future date. In the interim, stakeholders are encouraged to review the TEP Summary Report for additional detail on the proposed updates and the rationale discussed by the TEP.

The TEP Summary Report can be found in the **Downloads** section on the [SNF QRP Measures and Technical Information](#) webpage.

SUMMARY REPORT PUBLISHED: SNF QRP Listening Session: Possible Expansion of SNF Data Collection and Submission to All Residents Regardless of Payer

The Centers for Medicare & Medicaid Services (CMS) has published a summary report on the virtual Skilled Nursing Facility (SNF) Quality Reporting Program (QRP) Listening Session that was held on October 1, 2024 by RTI International. This session was held to seek feedback from clinical staff, MDS coordinators, administration and management staff, and software vendors on the possible expansion of collection and submission of Minimum Data Set (MDS) assessment data used for the SNF QRP to include all residents receiving short-term skilled care in a SNF regardless of their payer. The report presents a summary of the presentation for each discussion topic, input from interested parties for each of the discussion questions, and key findings. The summary report also includes the feedback

received via email in the 30 days following the event. The report can be found in the **Downloads** section of this webpage.
