MIPS Year 2 (2018)

Advancing Care Information

Exceptions:

- Based on authority granted by the 21st Century Cures Act and MACRA, **CMS will automatically reweight the Advancing Care Information performance category to 0 and reallocate the performance category weight of 25% to the Quality performance category for the following reasons:**

Automatic reweighting:

- Hospital-based MIPS eligible clinicians (POS 19, POS 21, POS 22 or POS 23);
 - Non-Patient Facing clinicians;
 - Ambulatory Surgical Center (ASC)— based MIPS eligible clinicians (POS 24), finalized retroactive to the transition year;
 - Nurse practitioners, physician assistants, clinical nurse specialist, certified registered nurse anesthetists
- Revised definition of hospital-based MIPS eligible clinician to include covered professional services furnished by MIPS eligible clinicians in an off-campus-outpatient hospital (POS 19).
 - Reporting is optional although if clinicians choose to report, they will be scored.

Advancing Care Information

Flexibility

Reweighting due to an approved hardship application:

- A clinician can apply to have their performance category score reweighted to zero in the following circumstances:
 - Insufficient internet connectivity
 - Extreme and uncontrollable circumstances
 - Lack of control over the availability of CEHRT
 - Clinicians who are in small practices (15 or fewer)
 - Clinicians using decertified EHR technology
- **Deadline of December 31** of the performance year for the submission of hardship exception applications.

How to Apply for a Hardship Exception

- If you're applying for a hardship exception based on the Extreme and Uncontrollable Circumstances category, you must select one of the following and provide a start and end date of when the circumstance occurred:
 - Disaster (e.g., a natural disaster in which the CEHRT was damaged or destroyed)
 - Practice or hospital closing
 - Severe financial distress (bankruptcy or debt restructuring)
- Once the application is submitted, you will receive a confirmation email that your application was submitted and is in a pending, approved, or dismissed status.
- The 2018 hardship application will be made available later this year. When available, applications will be processed on a rolling basis.

Advancing Care Information

Flexibility

- If you're in a group or virtual group, all (100%) of the clinicians associated with the group's TIN, must qualify for reweighting for the group to be reweighted. This could be any combination of reweighting reasons and include both automatic and approved exception applications.
- CMS will reweight the category to 0% and **assign the 25% to the Quality performance category** so that participants might still be able to earn up to 100 points in the MIPS Final Score. If reporting as a group, all clinicians in the group must qualify for reweighting for the group to be reweighted.
- You can still choose to report if you'd like. If you do submit data, CMS will score your performance and weight your Advancing Care Information performance.

Annual Call for Measures and Activities for MIPS, including the Advancing Care Information Performance Category

- Allows providers and measure stewards from stakeholder organizations to identify and submit EHR measures for the Advancing Care Information performance category.
- CMS is requesting:
 - Outcome-based measures;
 - Patient safety measures; and
 - Measures that could be applicable to NPs, PAs, CRNAs, and CNSs

Advancing Care Information Measures Submission

- The measure for consideration submission form includes the following criteria:
 - Measure description;
 - Measure type (if applicable), examples include outcome measure, process measure, patient safety measure, etc.;
 - Measure numerator and numerator description;
 - Measure denominator and denominator description;
 - Any applicable measure exclusions; and
 - CEHRT functions utilized.

Advancing Care Information Measures Submission

- Measures for consideration should be submitted to CMSCallforActivities@abtassoc.com
- Submission deadline is **Friday, June 29, 2018**.
- For more information, see the Call for Measures fact sheet found here:
