

Award Fee – Provider Enrollment (PE) Timeliness

What is Measured?

This metric assesses the timeliness of processing initial and change of information applications, using QASP standards with higher thresholds.

Performance Data

Fiscal Year	Avg Standard Performance	Avg % Earned	Low %	Median %	High %
2022	100%	100%	100%	100%	100%
2023	100%	96%	50%	100%	100%
2024	97%	63%	0%	75%	100%

Trends and Observations

The average standard performance for provider enrollment has remained consistently high across all three years. The observed decrease in award fee earned reflects CMS's intentional efforts to raise the bar and encourage even higher levels of excellence. Notably, at least one MAC earned 100% of the available award fee each year, demonstrating that top-tier performance is both achievable and sustainable.
