Bid Submission Guidance for Programs of All-Inclusive Care for the Elderly Applicants

Initial Applications

The applicant may be required to submit two bids. If the anticipated effective date is prior to the first Monday in June (the annual bid submission deadline), the applicant must submit only one bid for the following Contract Year by the first Monday in June. If the anticipated effective date is after the bid submission deadline, the applicant must submit two bids: one for the current Contract Year and one for the following Contract Year. To help applicants determine whether they will be required to submit one or two bids, they should consider the timeframes allotted to CMS for review including the time to respond to a request for additional information (RAI). (See regulatory provisions at 42 CFR §460.20.) When responding to their RAI, initial applicants should submit a Part D bid and supporting documentation in HPMS.

SAE Applications

The applicant will submit one bid (renewal). If the anticipated effective date is prior to the annual bid submission deadline (first Monday in June), the bid should include the additional service area. If the anticipated effective date is after the bid submission deadline, the bid should not include the pending service area for the following year.

Part D Bids

Part D bids are submitted in the HPMS bid submission module. If an applicant intends to use a formulary to administer their Part D benefit, they must submit a formulary and complete a formulary crosswalk via the HPMS Formulary Submission Module when submitting their bid. Please refer to the Bid Submission and Formulary Submission User Manuals located within HPMS for more information.
