

New C2C Telehealth Resources Available

In response to the increased use and expanded coverage of telehealth during the COVID-19 pandemic, [From Coverage to Care](#) (C2C) released two new resources to support providers and patients in making the most of virtual care:

- [Telehealth for Providers: What You Need to Know](#) – Providers can learn how and when to use telehealth. Topics include how to set up telehealth services, how to conduct a successful visit, and how to keep up to date on telehealth payment (particularly for Medicare and Medicaid).
- [Telehealth: What to Know for Your Family](#) – Patients can find out the types of care they can receive through telehealth, how to prepare for an appointment, what to expect during a visit, and more. This resource is also available in [Spanish](#).

Providers and partners can download graphics to post on their social media channels and help spread the word about these new resources. All of these resources can be downloaded at go.cms.gov/c2ctelehealth.

Find COVID-19 information and links to patient resources in additional languages at go.cms.gov/omhccovid19.

Want to receive updates on *From Coverage to Care*? Subscribe to the [C2C listserv](#). To learn more or download C2C resources, please visit go.cms.gov/c2c or email CoverageToCare@cms.hhs.gov.
